Management is responsible for the preparation and fair presentation of the financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan tersebut.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

The original report included herein is in the Indonesian language.

Halaman 3

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan (lanjutan)

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan, merancang dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.

- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk merancang prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas efektivitas pengendalian internal Perusahaan.

- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.

- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Perusahaan untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Perusahaan tidak dapat mempertahankan kelangsungan usaha.

- Mengevaluasi penyajian, struktur, dan isi laporan keuangan secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.

Page 3

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*

- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.*

- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*

- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.*

- *Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.*

The original report included herein is in the Indonesian language.

As at December 31, 2025 and 2024, the Company has total of 135 and 122 permanent employees, respectively (unaudited).

The Company's key management consists of all members of the Boards of Commissioners and Directors.

1. UMUM (lanjutan)

c. Penyelesaian Laporan Keuangan

Laporan keuangan tanggal 31 Desember 2025 dan untuk tahun yang berakhir pada tanggal tersebut diselesaikan dan diotorisasi untuk terbit oleh Dewan Direksi Perusahaan pada tanggal 11 Mei 2026. Direksi Perusahaan yang menandatangani Surat Pernyataan Direksi bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan Indonesia.

1. GENERAL (continued)

c. Completion of the Financial Statements

The financial statements as at December 31, 2025 and for the year then ended are completed and authorized for issuance by the Company's Board of Directors on May 11, 2026. The Company's Directors who signed the Directors' Statement are responsible for the fair preparation and presentation of such financial statements in accordance with Indonesian Financial Accounting Standards.

2. PENERAPAN STANDAR BARU DAN REVISI

a. Amendemen/Penyesuaian Standar yang Berlaku Efektif pada Tahun Berjalan

Dalam tahun berjalan, Perusahaan telah menerapkan sejumlah amendemen/penyesuaian PSAK yang relevan dengan operasinya dan efektif untuk periode akuntansi yang dimulai pada atau setelah 1 Januari 2025. Penerapan atas PSAK revisi tidak mengakibatkan perubahan atas kebijakan akuntansi Perusahaan dan tidak memiliki dampak material terhadap jumlah yang dilaporkan pada tahun berjalan atau tahun-tahun sebelumnya.

- PSAK 221 (Amendemen), "Pengaruh Perubahan Kurs Valuta Asing" - Kekurangan Ketertukaran

  Amendemen ini mensyaratkan entitas untuk menerapkan pendekatan yang konsisten dalam menilai apakah suatu mata uang dapat ditukar dengan mata uang lain dan, jika tidak, dalam menentukan nilai tukar yang akan digunakan dan pengungkapan yang harus diberikan.

2. ADOPTION OF NEW AND REVISED STANDARDS

a. Amendments/Improvements to Standards Effective in the Current Year

In the current year, the Company has applied amendments/improvements to PSAK that are relevant to its operations and effective for accounting period beginning on or after January 1, 2025. The adoption of these revised PSAKs does not result in changes to the Company's accounting policies and has no material effect on the amounts reported for the current or prior years.

- *PSAK 221 (Amendment), "The Effects of Changes in Foreign Exchange Rates" - Lack of Exchangeability*

  This amendment requires an entity to apply a consistent approach to assessing whether a currency is exchangeable into another currency and, when it is not, to determining the exchange rate to use and the disclosures to provide.

b. Standar dan Amendemen/Penyesuaian Standar Telah Diterbitkan Tapi Belum Diterapkan

Pada tanggal persetujuan laporan keuangan, standar dan amendemen-amendemen atas PSAK yang relevan bagi Perusahaan, yang telah diterbitkan namun belum berlaku efektif, dengan penerapan dini diijinkan, adalah sebagai berikut:

b. Standards and Amendments/Improvements to Standards Issued not yet Adopted

At the date of authorization of these financial statements, the following standards and amendments to PSAK relevant to the Company were issued but not yet effective, with early application permitted:

2. PENERAPAN STANDAR BARU DAN REVISI (lanjutan)

b. Standar dan Amendemen/Penyesuaian Standar Telah Diterbitkan Tapi Belum Diterapkan (lanjutan)

Efektif untuk periode yang dimulai pada atau setelah tanggal 1 Januari 2026

- Amandemen PSAK 109, "Instrumen Keuangan" dan PSAK 107, "Instrumen Keuangan: Pengungkapan": Klasifikasi dan Pengukuran Instrumen Keuangan

  Amendemen tersebut mengklarifikasi persyaratan yang terkait dengan tanggal penghentian pengakuan aset keuangan dan liabilitas keuangan, dengan pengecualian untuk penghentian pengakuan liabilitas keuangan yang diselesaikan melalui transfer elektronik; persyaratan untuk menilai karakteristik arus kas kontraktual dari aset keuangan, dengan panduan tambahan tentang penilaian fitur kontinjensi; dan karakteristik pinjaman non-course dan instrumen yang terkait secara kontraktual. Amendemen tersebut juga memperkenalkan persyaratan pengungkapan tambahan untuk instrumen ekuitas yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan untuk instrumen keuangan dengan fitur kontinjensi.

- Penyesuaian Tahunan 2024 terhadap PSAK 107, "Instrumen Keuangan: Pengungkapan", PSAK 109, "Instrumen Keuangan" dan PSAK 207, "Laporan Arus Kas"

  Penyesuaian tahunan ini terbatas pada amendemen yang mengklarifikasi susunan kata (wording) atau pembetulan minor atas konsekuensi yang tidak diintensikan, kekeliruan, atau persyaratan yang bertentangan dalam standar.

Efektif untuk periode yang dimulai pada atau setelah tanggal 1 Januari 2027

- PSAK 118, "Penyajian dan Pengungkapan dalam Laporan Keuangan"

  PSAK 118 menggantikan PSAK 201, mempertahankan banyak prinsip yang ada tetapi secara signifikan mengubah cara entitas melaporkan "laba atau rugi operasional." PSAK ini menetapkan struktur yang jelas untuk laporan laba rugi dengan mengelompokkan pos-pos ke dalam kategori operasi, investasi, pembiayaan, pajak penghasilan, dan operasi yang dihentikan. Standar ini mewajibkan pengungkapan tertentu, termasuk ukuran kinerja tetapan manajemen (UKTM), yang memungkinkan investor memahami bagaimana pandangan manajemen atas kinerja keuangan perusahaan dan bagaimana ukuran tersebut dibandingkan dengan ukuran yang didefinisikan dalam PSAK 118.

2. ADOPTION OF NEW AND REVISED STANDARDS (continued)

b. Standards and Amendments/Improvements to Standards Issued not yet Adopted (continued)

Effective for periods beginning on or after January 1, 2026

- *Amendments to PSAK 109, "Financial Instruments" and PSAK 107," Financial Instruments: Disclosure": Classification and Measurement of Financial Instrument*

  The amendments clarify the requirements related to the date of recognition and derecognition of financial assets and financial liabilities, with an exception for derecognition of financial liabilities settled via an electronic transfer; the requirements for assessing contractual cash flow characteristics of financial assets, with additional guidance on assessment of contingent features; and the characteristics of non-recourse loans and contractually linked instruments. The amendments also introduce additional disclosure requirements for equity instruments at fair value through other comprehensive income and for financial instruments with contingent features.

- *2024 Annual Improvements to PSAK 107, "Financial Instruments: Disclosures", PSAK 109, "Financial Instruments", and PSAK 207, "Statement of Cash Flows"*

  These annual improvements are limited to amendments that either clarify the wording or correct relatively minor unintended consequences, oversights or conflicts between requirements in the standards.

Effective for periods beginning on or after January 1, 2027

- *PSAK 118, "Presentation and Disclosure in Financial Statements"*

  PSAK 118 supersedes PSAK 201, retaining many existing principles but significantly changing how entities report "operating profit or loss." It establishes a defined structure for the statement of profit or loss, categorising items into operating, investing, financing, income taxes and discontinued operations. The standard mandates specific disclosures, including management-defined performance measures (MPMs), allowing investors to understand management's view of the company's financial performance and how these measures compare to those defined in PSAK 118.

2. PENERAPAN STANDAR BARU DAN REVISI (lanjutan)

b. Standar dan Amendemen/Penyesuaian Standar Telah Diterbitkan Tapi Belum Diterapkan (lanjutan)

Efektif untuk periode yang dimulai pada atau setelah tanggal 1 Januari 2027 (lanjutan)

- PSAK 118, "Penyajian dan Pengungkapan dalam Laporan Keuangan" (lanjutan)

  Meskipun PSAK 118 tidak memengaruhi pengakuan atau pengukuran pos-pos dalam laporan keuangan, dampaknya terhadap penyajian dan pengungkapan diperkirakan akan sangat luas, terutama yang berkaitan dengan laporan kinerja keuangan dan penyediaan UKTM dalam laporan keuangan.

  Manajemen saat ini sedang menilai secara rinci implikasi penerapan standar baru ini pada laporan keuangan Perusahaan.

Sampai dengan tanggal penerbitan laporan keuangan, dampak dari penerapan standar dan amendemen tersebut terhadap laporan keuangan tidak dapat diketahui atau diestimasi oleh manajemen.

2. ADOPTION OF NEW AND REVISED STANDARDS (continued)

b. Standards and Amendments/Improvements to Standards Issued not yet Adopted (continued)

Effective for periods beginning on or after January 1, 2027 (continued)

- *PSAK 118, "Presentation and Disclosure in Financial Statements" (continued)*

  Even though PSAK 118 will not impact the recognition or measurement of items in the financial statements, its impacts on presentation and disclosure are expected to be pervasive, in particular those related to the statement of financial performance and providing MPM within the financial statements.

  Management is currently assessing the detailed implications of applying the new standard on the Company's financial statements.

As at the issuance date of the financial statements, the effects of adopting these standard and amendments on the financial statements are not known nor reasonably estimable by management.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL

a. Dasar Penyusunan Laporan Keuangan

Laporan keuangan telah disusun dan disajikan sesuai dengan Standar Akuntansi Keuangan di Indonesia ("SAK"), yang mencakup Pernyataan Standar Akuntansi Keuangan ("PSAK") dan Interpretasi Standar Akuntansi Keuangan ("ISAK") yang dikeluarkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia ("DSAK-IAI").

Kebijakan akuntansi yang diterapkan dalam penyusunan laporan keuangan adalah selaras dengan kebijakan akuntansi yang diterapkan dalam penyusunan laporan keuangan tanggal 31 Desember 2024, kecuali bagi penerapan beberapa SAK yang telah direvisi. Seperti diungkapkan dalam Catatan 2, beberapa standar akuntansi yang telah direvisi dan diterbitkan, diterapkan efektif tanggal 1 Januari 2025.

Perusahaan telah menyusun laporan keuangan dengan dasar bahwa Perusahaan akan terus mempertahankan kelangsungan usaha.

Laporan keuangan, kecuali untuk laporan arus kas, disusun berdasarkan dasar akrual dengan menggunakan konsep harga perolehan, kecuali beberapa akun tertentu disusun berdasarkan pengukuran lain sebagaimana diuraikan dalam kebijakan akuntansi masing-masing akun tersebut.

3. MATERIAL ACCOUNTING POLICY INFORMATION

a. Basis of Preparation of Financial Statements

The financial statements have been prepared and presented in accordance with Indonesian Financial Accounting Standards ("SAK"), which comprise the Statements of Financial Accounting Standards ("PSAK") and Interpretations to Financial Accounting Standards ("ISAK") issued by the Financial Accounting Standards Board of the Indonesian Institute of Accountants, ("DSAK-IAI") .

The accounting policies adopted in the preparation of the financial statements are consistent with those adopted in the preparation of the financial statements for the year ended December 31, 2024, except for the adoption of several amended SAKs. As disclosed in Note 2, several amended and published accounting standards were adopted effective January 1, 2025.

The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

The financial statements, except for the statement of cash flows, have been prepared on the accrual basis using the historical cost basis of accounting, except for certain accounts which are measured on the bases described in the related accounting policies for those accounts.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

a. Dasar Penyusunan Laporan Keuangan (lanjutan)

Laporan arus kas disusun dengan menggunakan metode langsung dengan mengelompokkan arus kas dalam aktivitas-aktivitas operasi, investasi dan pendanaan.

Mata uang pelaporan yang digunakan dalam laporan keuangan adalah Rupiah, yang merupakan mata uang fungsional Perusahaan.

b. Klasifikasi Lancar/Jangka Pendek dan Tidak Lancar/Jangka Panjang

Perusahaan mengklasifikasikan instrument keuangan menjadi aset keuangan dan liabilitas keuangan. Instrumen keuangan adalah setiap kontrak yang menimbulkan aset keuangan pada satu entitas dan liabilitas keuangan atau instrument ekuitas pada entitas lain.

Suatu aset disajikan lancar bila:

i. diperkirakan akan direalisasi atau diintensikan untuk dijual atau digunakan dalam siklus operasi normal,
ii. untuk diperdagangkan,
iii. diperkirakan akan direalisasi dalam 12 bulan setelah tanggal pelaporan, atau kas atau setara kas kecuali yang dibatasi penggunaannya atau akan digunakan untuk melunasi suatu liabilitas dalam paling lambat 12 bulan setelah periode pelaporan.

Aset pajak tangguhan diklasifikasikan sebagai aset tidak lancar.

Suatu liabilitas disajikan jangka pendek bila:

i. diperkirakan akan dilunasi dalam siklus operasi normal,
ii. untuk diperdagangkan,
iii. telah jatuh tempo dan akan dilunasi dalam 12 bulan setelah tanggal pelaporan, atau
iv. tidak ada hak tanpa syarat untuk menangguhkan pelunasannya selama paling tidak 12 bulan setelah periode pelaporan.

c. Instrumen Keuangan

Instrumen keuangan adalah setiap kontrak yang memberikan aset keuangan bagi satu entitas dan liabilitas keuangan atau ekuitas bagi entitas lain.

1. Aset Keuangan

Pengakuan dan Pengukuran Awal

Perusaahan mengklasifikasikan asset keuangannya dalam kategori (a) asset keuangan yang diukur pada nilai wajar melalui laba rugi, (b) aset keuangan yang diukur pada nilai wajar melalui pendapatan komprehensif lainnya, dan (c) aset keuangan yang diukur pada biaya perolehan diamortisasi.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

a. Basis of Preparation of Financial Statements (continued)

The statements of cash flows have been prepared using direct method which classify cash flows into operating, investing and financing activities.

The reporting currency used in the financial statements is Rupiah, which is the Company's functional currency.

b. Current and Non-current Classification

The Company classifies financial instruments into financial assets and financial liabilities. A financial instrument is any contract that gives rise to a financial asset of one entitiy and a financial liability or equit instrument of another entity.

An asset is current when it is:

i. expected to be realised or intended to be sold or consumed in the normal operating cycle,
ii. held primarily for the purpose of trading,
iii. expected to be realised within 12 months after the reporting period, or cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

Deferred tax assets are classified as non-current assets.

A liability is current when it is:

i. expected to be settled in the normal operating cycle,
ii. held primarily for the purpose of trading,
iii. due to be settled within 12 months after the reporting period, or
iv. there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period.

c. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1. Financial Assets

Initial Recognition and Measurement

The Company classifies its financial assets into the following category: (a) financial assets measured at fair value through profit or loss, (b) financial assets measured at fair value through other comprehensive income, and (c) financial assets measured at amortised cost.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

c. Instrumen Keuangan (lanjutan)

1. Aset Keuangan (lanjutan)

Pengakuan dan Pengukuran Awal (lanjutan)

Klasifikasi aset keuangan pada pengakuan awal tergantung pada karakteristik arus kas kontraktual aset keuangan dan model bisnis Perusahaan untuk mengelolanya.

Aset keuangan, kecuali piutang dagang yang diukur pada harga transaksi, awalnya diukur pada nilai wajar. Biaya transaksi yang secara langsung dapat diatribusikan pada perolehan aset keuangan ditambahkan ke nilai wajar aset keuangan pada pengakuan awal. Biaya transaksi yang secara langsung dapat diatribusikan pada perolehan aset keuangan pada nilai wajar melalui laba rugi diakui langsung pada laba rugi.

Aset keuangan diklasifikasi dan diukur pada biaya perolehan diamortisasi atau FVOCI jika menghasilkan arus kas yang semata-mata pembayaran pokok dan bunga ("SPPI") dari jumlah pokok terutang. Tes SPPI dilakukan pada tingkat instrumen. Aset keuangan dengan arus kas yang bukan SPPI diklasifikasikan dan diukur pada FVTPL, terlepas dari model bisnis terkait.

Model bisnis Perusahaan untuk mengelola aset keuangan mengacu pada bagaimana Perusahaan mengelola aset keuangannya untuk menghasilkan arus kas. Model bisnis menentukan apakah arus kas akan dihasilkan dari pengumpulan arus kas kontraktual, penjualan aset keuangan, atau keduanya.

Aset keuangan diklasifikasikan dan diukur pada biaya perolehan diamortisasi bila model bisnisnya bertujuan mempertahankan aset keuangan untuk mengumpulkan arus kas kontraktual. Aset keuangan diklasifikasikan dan diukur pada FVOCI bila model bisnisnya bertujuan baik untuk mengumpulkan arus kas kontraktual maupun untuk dijual.

Pengukuran Setelah Pengakuan Awal

(i) Aset keuangan yang diukur dengan biaya diamortisasi

Perusahaan mengukur aset keuangan pada biaya diamortisasi jika kedua kondisi berikut terpenuhi: (1) aset keuangan yang dimiliki dalam model bisnis dengan tujuan untuk mengumpulkan arus kas kontraktual; dan (2) persyaratan kontraktual dari aset keuangan menimbulkan pada tanggal yang ditentukan untuk arus kas yang semata-mata pembayaran pokok dan bunga atas jumlah pokok yang belum dibayar.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

c. Financial Instruments (continued)

1. Financial Assets (continued)

Initial Recognition and Measurement (continued)

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company business model for managing them.

Financial assets, except for trade receivables which are measured at transaction price, are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets are added to the fair value of the financial assets on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognized immediately in profit or loss.

A financial asset is classified and measured at amortized cost or FVOCI if it gives rise to cash flows that are 'solely payments of principal and interest ("SPPI")' on the principal amount outstanding. Such SPPI test is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at FVTPL, irrespective of the business model.

The Company business model for managing financial assets refers to how the Company manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Financial assets are classified and measured at amortized cost when the business model is to hold the financial assets to collect contractual cash flows. Financial assets are classified and measured at FVOCI when the business model is both to collect contractual cash flows and to be sold.

Subsequent Measurement

(i) Financial assets at amortized cost

The Company measures financial assets at amortized cost if both of the following conditions are met: (1) the financial asset is held within a business model with the objective of holding to collect contractual cash flows; and (2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

c. Instrumen Keuangan (lanjutan)

1. Aset Keuangan (lanjutan)

Pengukuran Setelah Pengakuan Awal (lanjutan)

(i) Aset keuangan yang diukur dengan biaya diamortisasi (lanjutan)

Aset keuangan yang diukur dengan biaya diamortisasi selanjutnya diukur dengan menggunakan metode suku bunga efektif (*Effective Interest Rate*) ("EIR"), setelah dikurangi dengan penurunan nilai. Biaya perolehan yang diamortisasi dihitung dengan memperhitungkan diskonto atau premi atas biaya akuisisi atau biaya yang merupakan bagian integral dari EIR tersebut. Amortisasi EIR diakui pada laporan laba rugi dan penghasilan komprehensif lain. Kerugian yang timbul dari penurunan nilai juga diakui pada laporan laba rugi dan penghasilan komprehensif lain.

Kelompok aset keuangan ini meliputi kas dan bank, piutang usaha dan piutang lain-lain.

(ii) Aset keuangan yang diukur pada nilai wajar melalui OCI

Instrumen utang

Perusahaan mengukur instrumen utang pada nilai wajar melalui OCI jika kedua kondisi berikut terpenuhi: (1) aset keuangan yang dimiliki dalam model bisnis dengan tujuan untuk mengumpulkan arus kas kontraktual dan penjualan; dan (2) persyaratan kontraktual dari aset keuangan menimbulkan pada tanggal yang ditentukan untuk arus kas yang semata-mata pembayaran pokok dan bunga atas jumlah pokok yang belum dibayar.

Untuk instrumen utang yang diukur pada nilai wajar melalui OCI, pendapatan bunga, revaluasi selisih kurs, dan kerugian atau pembalikan penurunan nilai diakui dalam laba rugi dan dihitung dengan cara yang sama seperti aset keuangan yang diukur dengan biaya perolehan diamortisasi. Perubahan nilai wajar yang tersisa diakui dalam OCI. Setelah penghentian pengakuan, perubahan nilai wajar kumulatif yang diakui di OCI didaur ulang menjadi laba rugi.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

c. Financial Instruments (continued)

1. Financial Assets (continued)

Subsequent Measurement (continued)

(i) Financial assets at amortized cost (continued)

Financial assets at amortized cost are subsequently measured using the Effective Interest Rate ("EIR") method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition fees or costs that are an integral part of the EIR. The EIR amortization is recognized in the statement of profit or loss and other comprehensive income. The losses arising from impairment are also recognized in the statement of profit or loss and other comprehensive income.

The Company financial assets include cash and cash on hand and in banks, trade receivables and other receivables.

(ii) Financial assets at fair value through OCI

Debt instruments

The Company measures debt instruments at fair value through OCI if both of the following conditions are met: (1) the financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and (2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in profit or loss and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value change recognized in OCI is recycled to profit or loss.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

c. Instrumen Keuangan (lanjutan)

1. Aset Keuangan (lanjutan)

Pengukuran Setelah Pengakuan Awal (lanjutan)

(ii) Aset keuangan yang diukur pada nilai wajar melalui OCI (lanjutan)

Instrumen ekuitas

Setelah pengakuan awal, Perusahaan dapat memilih untuk mengklasifikasikan investasi ekuitasnya secara tidak dapat dibatalkan sebagai instrumen ekuitas yang ditetapkan pada nilai wajar melalui OCI jika definisi ekuitas sesuai PSAK 232: Instrumen Keuangan: Penyajian dan tidak dimiliki untuk diperdagangkan. Klasifikasi ditentukan berdasarkan instrumen per instrumen.

Keuntungan dan kerugian dari aset keuangan ini tidak pernah didaur ulang menjadi keuntungan atau kerugian. Dividen diakui sebagai pendapatan lain-lain dalam laba rugi pada saat hak pembayaran telah ditetapkan, kecuali jika Perusahaan memperoleh keuntungan dari hasil tersebut sebagai pemulihan sebagian biaya perolehan aset keuangan, dalam hal ini, keuntungan tersebut adalah dicatat dalam OCI. Instrumen ekuitas yang ditetapkan pada nilai wajar melalui OCI tidak tunduk pada penilaian penurunan nilai.

Perusahaan tidak memiliki aset keuangan, yang diklasifikasikan sebagai aset keuangan yang diukur pada nilai wajar melalui OCI.

(iii) Aset keuangan yang diukur pada nilai wajar melalui laba rugi

Aset keuangan pada nilai wajar melalui laba rugi termasuk aset keuangan yang dimiliki untuk diperdagangkan, aset keuangan yang ditetapkan pada pengakuan awal pada nilai wajar melalui laporan laba rugi, atau aset keuangan yang wajib diukur pada nilai wajar. Aset keuangan diklasifikasikan sebagai kelompok diperdagangkan jika mereka diperoleh untuk tujuan dijual atau dibeli kembali dalam waktu dekat. Derivatif, termasuk derivatif melekat yang dipisahkan, juga diklasifikasikan sebagai dimiliki untuk diperdagangkan kecuali jika ditetapkan sebagai instrumen lindung nilai yang efektif. Aset keuangan dengan arus kas yang tidak semata-mata pembayaran pokok dan bunga diklasifikasikan dan diukur pada nilai wajar melalui laba rugi, terlepas dari model bisnisnya.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

c. Financial Instruments (continued)

1. Financial Assets (continued)

Subsequent Measurement (continued)

(ii) Financial assets at fair value through OCI (continued)

Equity instruments

Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under PSAK 232: Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in profit or loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Company has no financial instruments which are classified as financial asset at fair value through OCI.

(iii) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

c. Instrumen Keuangan (lanjutan)

1. Aset Keuangan (lanjutan)

Pengukuran Setelah Pengakuan Awal (lanjutan)

(iii) Aset keuangan yang diukur pada nilai wajar melalui laba rugi (lanjutan)

Terlepas dari kriteria untuk instrumen utang yang akan diklasifikasikan pada biaya perolehan diamortisasi atau pada nilai wajar melalui OCI, seperti dijelaskan di atas, instrumen utang dapat ditetapkan pada nilai wajar melalui laba rugi pada pengakuan awal jika hal tersebut menghilangkan, atau secara signifikan mengurangi, ketidaksesuaian akuntansi.

Aset keuangan yang diukur pada nilai wajar melalui laba rugi selanjutnya disajikan dalam laporan posisi keuangan sebesar nilai wajar, dengan perubahan nilai wajar yang diakui dalam laba rugi.

Perusahaan tidak memiliki aset keuangan, yang diklasifikasikan sebagai aset keuangan yang diukur pada nilai wajar melalui laba rugi.

Penurunan Nilai Aset Keuangan

Perusahaan mengakui penyisihan untuk kerugian kredit ekspektasian ("ECL") untuk seluruh instrumen utang yang tidak dimiliki pada nilai wajar melalui laba rugi. ECL didasarkan pada selisih antara arus kas kontraktual yang jatuh tempo sesuai dengan kontrak dan seluruh arus kas yang diperkirakan akan diterima Perusahaan, didiskontokan dengan SBE awal. Arus kas ekspektasian akan mencakup arus kas dari penjualan agunan atau perbaikan risiko kredit lain yang merupakan bagian dari persyaratan kontraktual.

ECL diakui dalam dua tahap. Untuk eksposur kredit yang belum ada peningkatan risiko kredit yang signifikan sejak pengakuan awal, ECL dilakukan untuk kerugian kredit yang diakibatkan oleh peristiwa gagal bayar yang mungkin terjadi dalam 12 bulan ke depan (ECL 12 bulan). Untuk eksposur kredit yang telah terjadi peningkatan risiko kredit yang signifikan sejak pengakuan awal, penyisihan kerugian dilakukan untuk kerugian kredit yang diperkirakan selama sisa umur eksposur, terlepas dari waktu gagal bayar (ECL sepanjang umur).

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

c. Financial Instruments (continued)

1. Financial Assets (continued)

Subsequent Measurement (continued)

(iii) Financial assets at fair value through profit or loss (continued)

Notwithstanding the criteria for debt instruments to be classified at amortized cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are subsequently carried in the statement of financial position at fair value, with changes in fair value recognized in the profit or loss.

The Company has no financial instruments which are classified as financial asset at fair value through profit or loss.

Impairment of Financial Assets

The Company recognizes an allowance for expected credit losses ("ECL") for all debt instruments not held at fair value through profit or loss. ECL are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECL are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

c. Instrumen Keuangan (lanjutan)

1. Aset Keuangan (lanjutan)

Penurunan Nilai Aset Keuangan (lanjutan)

Untuk piutang usaha, Perusahaan menerapkan pendekatan yang disederhanakan dalam menghitung ECL. Oleh karena itu, Perusahaan tidak menelusuri perubahan dalam risiko kredit, tetapi mengakui penyisihan kerugian berdasarkan ECL sepanjang umur pada setiap tanggal pelaporan. Perusahaan telah menyusun matriks provisi berdasarkan pengalaman kerugian kredit historisnya, disesuaikan dengan faktor-faktor perkiraan masa depan yang spesifik bagi debitur dan lingkungan ekonomi.

Penghentian Pengakuan

Suatu aset keuangan, atau mana yang berlaku, bagian dari aset keuangan atau bagian dari kelompok aset keuangan sejenis, dihentikan pengakuannya pada saat:

a. hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir; atau
b. Perusahaan mengalihkan hak kontraktual untuk menerima arus kas yang berasal dari aset keuangan atau menanggung kewajiban untuk membayar arus kas yang diterima tanpa penundaan yang material kepada pihak ketiga melalui suatu kesepakatan penyerahan dan (i) secara substansial mengalihkan seluruh risiko dan manfaat atas kepemilikan aset keuangan tersebut, atau (ii) secara substansial tidak mengalihkan dan tidak mempertahankan seluruh risiko dan manfaat atas kepemilikan aset keuangan tersebut, namun telah mengalihkan pengendalian atas aset keuangan tersebut.

Ketika Perusahaan telah mengalihkan hak untuk menerima arus kas dari suatu aset atau telah menandatangani kesepakatan pelepasan (*pass-through arrangement*), dan secara substansial tidak mengalihkan dan tidak mempertahankan seluruh risiko dan manfaat atas aset keuangan, maupun tidak mengalihkan pengendalian atas aset, aset tersebut diakui sejauh keterlibatan berkelanjutan Perusahaan terhadap aset keuangan tersebut.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

c. Financial Instruments (continued)

1. Financial Assets (continued)

Impairment of Financial Assets (continued)

For trade receivables, Company applies a simplified approach in calculating ECL. Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Derecognition

A financial asset, or where applicable a part of a financial asset or part of a Company of similar financial assets, is derecognized when:

a. the contractual rights to receive cash flows from the financial asset have expired; or

b. the Company has transferred its contractual rights to receive cash flows from the financial asset or has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement and either (i) has transferred substantially all the risks and rewards of the financial asset, or (ii) has neither transferred nor retained substantially all the risks and rewards of the financial asset, but has transferred control of the financial asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

c. Instrumen Keuangan (lanjutan)

1. Aset Keuangan (lanjutan)

Penghentian Pengakuan (lanjutan)

Keterlibatan berkelanjutan yang berbentuk pemberian jaminan atas aset yang ditransfer diukur sebesar jumlah terendah dari jumlah tercatat aset dan jumlah maksimal dari pembayaran yang diterima yang mungkin harus dibayar kembali.

Dalam hal ini, Perusahaan juga mengakui liabilitas terkait. Aset yang dialihkan dan liabilitas terkait diukur dengan dasar yang mencerminkan hak dan liabilitas yang masih dipertahankan Perusahaan.

Pada penghentian pengkuan aset keuangan yang diukur pada biaya perolehan diamortisasi, perbedaan antara nilai tercatat aset dan jumlah imbalan yang diterima dan piutang diakui dalam laba rugi. Selain itu, pada penghentian pengakuan investasi dalam instrumen utang yang diklasifikasikan sebagai FVTOCI, keuntungan atau kerugian kumulatif yang sebelumnya diakumulasi dalam cadangan revaluasi investasi, direklasifikasi ke laba rugi. Sebaliknya, pada penghentian pengakuan investasi dalam instrumen ekuitas yang telah dipilih Perusahaan pada pengakuan awal untuk diukur di FVTOCI, keuntungan atau kerugian kumulatif yang sebelumnya diakumulasi dalam cadangan revaluasi investasi tidak direklasifikasi ke laba rugi, tetapi dipindahkan ke saldo laba.

2. Liabilitas Keuangan

Pengakuan dan Pengukuran Awal

Liabilitas keuangan diklasifikasikan sebagai liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi atau liabilitas keuangan pada biaya perolehan diamortisasi. Perusahaan menentukan klasifikasi liabilitas keuangan mereka pada saat pengakuan awal.

Liabilitas keuangan awalnya diukur sebesar nilai wajarnya. Biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan liabilitas keuangan (selain liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi) ditambahkan atau dikurangkan dari nilai wajar liabilitas keuangan, yang sesuai, pada pengakuan awal. Biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi langsung diakui dalam laba rugi.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

c. Financial Instruments (continued)

1. Financial Assets (continued)

Derecognition (continued)

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On derecognition of a financial asset measured at amortized cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss. In contrast, on derecognition of an investment in an equity instrument which the Company has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investment revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

2. Financial Liabilities

Initial Recognition and Measurement

Financial liabilities are classified as financial liabilities at fair value through profit or loss or financial liabilities at amortized cost. The Company determines the classification of its financial liabilities at initial recognition.

Financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial liabilities (other than financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

c. Instrumen Keuangan (lanjutan)

2. Liabilitas Keuangan (lanjutan)

Pengakuan dan Pengukuran Awal (lanjutan)

Liabilitas keuangan Perusahaan terdiri dari, utang usaha, utang lain-lain, biaya masih harus dibayar dan liabilitas sewa diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya diamortisasi. Perusahaan tidak memiliki liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi.

Pengukuran Selanjutnya

Setelah pengakuan awal, liabilitas keuangan yang dikenakan bunga diukur pada biaya perolehan diamortisasi dengan menggunakan metode Suku Bunga Efektif ("SBE").

Pada tanggal pelaporan, akrual beban bunga dicatat secara terpisah dari pokok pinjaman terkait dalam bagian liabilitas lancar. Keuntungan atau kerugian harus diakui dalam laba rugi ketika liabilitas tersebut dihentikan pengakuannya serta melalui proses amortisasi SBE.

Biaya perolehan diamortisasi dihitung dengan mempertimbangkan diskonto atau premium atas perolehan dan komisi atau biaya yang merupakan bagian tidak terpisahkan dari SBE. Amortisasi SBE dicatat sebagai "Beban Keuangan" dalam laba rugi.

Metode Suku Bunga Efektif

Metode suku bunga efektif adalah metode yang digunakan untuk menghitung biaya perolehan diamortisasi dari liabilitas keuangan dan metode untuk mengalokasikan biaya bunga selama periode yang relevan.

Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran kas masa depan (mencakup seluruh komisi dan bentuk lain yang dibayarkan dan diterima yang merupakan bagian yang tak terpisahkan dari suku bunga efektif, biaya transaksi dan premium dan diskonto lainnya) selama perkiraan umur liabilitas keuangan, atau (jika lebih tepat) digunakan periode yang lebih singkat untuk memperoleh nilai tercatat neto pada saat pengakuan awal.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

c. Financial Instruments (continued)

2. Financial Liabilities (continued)

Initial Recognition and Measurement (continued)

The Company's financial liabilities consist of trade payables, other payables, accrued expenses and lease liabilities classified as financial liabilities at amortized cost. The Company has no financial liabilities at fair value through profit or loss.

Subsequent Measurement

After initial recognition, interest-bearing financial liabilities are subsequently measured at amortized cost using the Effective Interest Rate ("EIR") method.

At the reporting dates, accrued interest expenses is recorded separately from the associated borrowings within the current liabilities section. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortization is included in "Financing Charges" in profit or loss.

Effective Interest Method

Effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period.

The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period to the net carrying amount on initial recognition.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

c. Instrumen Keuangan (lanjutan)

2. Liabilitas Keuangan (lanjutan)

Penghentian Pengakuan

Suatu liabilitas keuangan dihentikan pengakuannya pada saat kewajiban yang ditetapkan dalam kontrak dihentikan atau dibatalkan atau kadaluwarsa.

Ketika sebuah liabilitas keuangan ditukar dengan liabilitas keuangan lain dari pemberi pinjaman yang sama atas persyaratan yang secara substansial berbeda, atau bila persyaratan dari liabilitas keuangan tersebut secara substansial dimodifikasi, pertukaran atau modifikasi persyaratan tersebut dicatat sebagai penghentian pengakuan liabilitas keuangan awal dan pengakuan liabilitas keuangan baru, dan selisih antara nilai tercatat masing-masing liabilitas keuangan tersebut diakui pada laba rugi.

3. Reklasifikasi Instrumen Keuangan

Perusahaan diperkenankan untuk melakukan reklasifikasi atas aset keuangan yang dimiliki jika Perusahaan mengubah model bisnis untuk pengelolaan aset keuangan dan Perusahaan tidak diperkenankan untuk melakukan reklasifikasi atas liabilitas keuangan.

Perubahan model bisnis sifatnya harus berdampak secara signifikan terhadap kegiatan operasional Perusahaan seperti memperoleh, melepaskan, atau mengakhiri suatu lini bisnis. Selain itu, Perusahaan perlu membuktikan adanya perubahan tersebut kepada pihak eksternal.

Yang bukan merupakan perubahan model bisnis adalah: (a) Perubahan intensi berkaitan dengan aset keuangan tertentu (bahkan dalam situasi perubahan signifikan dalam kondisi pasar), (b) Hilangnya sementara pasar tertentu untuk aset keuangan, dan (c) Pengalihan aset keuangan antara bagian dari Perusahaan dengan model bisnis berbeda.

4. Saling Hapus Instrumen Keuangan

Aset keuangan dan liabilitas keuangan disalinghapuskan dan nilai netonya disajikan dalam laporan posisi keuangan jika Perusahaan memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus atas jumlah yang telah diakui; dan berintensi untuk menyelesaikan secara neto atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

c. Financial Instruments (continued)

2. Financial Liabilities (continued)

Derecognition

A financial liability is derecognized when it is extinguished, that is when the obligation specified in the contract is discharged or cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing financial liability are substantially modified, such an exchange or modification is treated as derecognition of the original financial liability and recognition of a new financial liability, and the difference in the respective carrying amounts is recognized in the profit or loss.

3. Reclassification of Financial Instruments

The Company is allowed to reclassify the financial assets owned if the Company changes the business model for the management of financial assets and the Company is not allowed to reclassify the financial liabilities.

Changes in the business model should significantly impact the Company's operational activities such as acquiring, releasing or ending a line of business. In addition, the Company needs to prove the change to external parties.

The following are not considered as change in business model: (a) the change of intention relates to certain financial assets (even in situations of significant changes in market conditions), (b) temporary loss of certain markets for financial assets, and (c) the transfer of financial assets between parts of the Company and different business models.

4. Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when the Company has a legally enforceable right to set off the recognized amounts; and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

c. Instrumen Keuangan (lanjutan)

4. Saling Hapus Instrumen Keuangan

Hak saling hapus harus ada pada saat ini daripada bersifat kontinjen atas terjadinya suatu peristiwa di masa depan dan harus dieksekusi oleh pihak lawan, baik dalam situasi bisnis normal dan dalam peristiwa gagal bayar, peristiwa kepailitan, atau kebangkrutan.

d. Kas dan Bank

Kas dan bank terdiri dari kas dan kas di bank, dan tidak digunakan sebagai jaminan atau dibatasi penggunaannya.

e. Piutang Usaha

Piutang diakui jika sejumlah imbalan yang tidak bersyarat dapat ditagih dari pelanggan (yaitu, hanya berlalunya waktu yang disyaratkan sebelum pembayaran imbalan jatuh tempo).

Piutang usaha disajikan dalam jumlah neto setelah dikurangi dengan kerugian kredit ekspektasian piutang usaha. Kebijakan akuntansi untuk penyisihan atas kerugian kredit ekspektasian dijabarkan dalam Catatan 3c.

f. Transaksi dengan Pihak-pihak Berelasi

Perusahaan memiliki transaksi dengan pihak berelasi sebagaimana yang didefinisikan dalam PSAK No. 224 “Pengungkapan Pihak-pihak Berelasi”.

Seluruh transaksi dan saldo yang material dengan pihak-pihak berelasi telah diungkapkan dalam catatan atas laporan keuangan.

g. Uang Muka dan Biaya Dibayar di Muka

Uang muka disajikan sebagai bagian dari aset lancar dalam laporan posisi keuangan yang diharapkan akan direalisasi 12 bulan setelah periode pelaporan.

Biaya dibayar di muka diamortisasi dan dibebankan pada operasi selama periode manfaat masing-masing biaya dengan menggunakan metode garis lurus.

h. Aset Tetap

Aset tetap pada awalnya dicatat sebesar biaya perolehan. Biaya perolehan aset tetap terdiri dari harga pembelian dan biaya lainnya yang dapat diatribusikan secara langsung untuk membawa aset ke lokasi dan kondisi yang diinginkan supaya aset siap digunakan sesuai dengan maksud manajemen. Setelah pengakuan awal, aset tetap diukur sebesar biaya perolehan dikurangi akumulasi penyusutan dan akumulasi kerugian penurunan nilai.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

c. Financial Instruments (continued)

4. Offsetting of Financial Instruments

A right to set-off must be available today rather than being contingent on a future event and must be exercisable by any of the counterparties, both in the normal course of business and in the event of default, insolvency, or bankruptcy.

d. Cash and Banks

Cash and banks are cash dan cash in banks, and which are not used as collateral or not restricted.

e. Trade Receivables

A receivable is recognized if an amount of consideration that is unconditional is due from the customer (i.e., only the passage of time is required before payment of the consideration is due).

Trade receivables are recorded net of allowance for expected credit losses of trade receivables. The accounting policy for allowance for expected credit losses is described in Note 3c.

f. Transactions with Related Parties

The Company has a transaction with related parties as defined in PSAK No. 224 “Related-Party Disclosure”.

All significant transactions and balances with related parties, have been disclosed in the notes to the financial statements.

g. Advances and Prepaid Expenses

Advances are presented as part of current assets in the statement of financial position as it is expected to be realized 12 months after the reporting period.

Prepaid expenses are amortized and charged to operations over the periods benefited using the straight-line method.

h. Fixed Assets

Fixed assets are initially recorded at cost. The cost of a fixed assets comprises its purchases price and any directly attributable cost of bringing the asset to its working condition and location for its intended use. Subsequent to initial recognition, fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

h. Aset Tetap (lanjutan)

Biaya setelah perolehan awal termasuk dalam jumlah tercatat aset atau diakui sebagai aset yang terpisah, mana yang lebih tepat, ketika terdapat kemungkinan bahwa manfaat ekonomi di masa depan berkenaan dengan aset tersebut akan mengalir ke Perusahaan dan biaya tersebut dapat diukur secara andal. Jumlah tercatat komponen yang diganti dihentikan pengakuannya pada tahun dimana pada saat penggantian tersebut terjadi. Seluruh biaya perbaikan dan pemeliharaan dibebankan ke dalam laba rugi.

Penyusutan dihitung dengan menggunakan metode garis lurus selama estimasi masa manfaat aset tetap yang bersangkutan yaitu sebagai berikut:

	Tahun/*Year*	
Lisensi	4	*Licence*
Instalasi	4	*Instalation*
Furnitur kantor	4	*Office furniture*
Kendaraan	4	*Vehicles*
Perlengkapan kantor	4	*Office supplies*

Nilai residu, estimasi masa manfaat dan metode penyusutan direviu dan disesuaikan, setiap akhir tahun, bila diperlukan, dengan dampak dari setiap perubahan estimasi yang diakui secara prospektif.

Aset tetap dihentikan pengakuannya pada saat dilepaskan atau tidak ada manfaat ekonomi masa depan yang diharapkan dari penggunaan atau pelepasannya. Keuntungan atau kerugian yang timbul dari penghentian pengakuan aset (dihitung sebagai selisih antara jumlah neto hasil pelepasan dan jumlah tercatat dari aset tetap) diakui dalam laporan laba rugi dan penghasilan komprehensif lain pada tahun aset tersebut dihentikan pengakuannya.

i. Penurunan Nilai Aset Non-Keuangan

Pada setiap akhir periode pelaporan, Perusahaan menilai apakah terdapat indikasi suatu aset mengalami penurunan nilai. Jika terdapat indikasi tersebut atau pada saat pengujian penurunan nilai aset diperlukan (yaitu aset takberwujud dengan umur manfaat tidak terbatas, aset takberwujud yang belum dapat digunakan, atau *goodwill* yang diperoleh dalam suatu kombinasi bisnis), maka Perusahaan membuat estimasi jumlah terpulihkan aset tersebut. Jika tidak mungkin untuk mengestimasi jumlah terpulihkan aset individual, maka Perusahaan menentukan nilai terpulihkan dari Unit Penghasil Kas (UPK) yang mana aset tercakup (aset dari UPK).

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

h. Fixed Assets (continued)

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be reliably measured. The carrying amount of the replaced part is derecognized during the financial year in which they are incurred. All other repairs and maintenance are charged to profit or loss.

Depreciation is calculated using the straight-line method over the estimated useful lives of the assets as follows:

The residual values, estimated useful lives, and depreciation method are reviewed and adjusted, at year end, if necessary, with the effect of any changes in estimate accounted for on a prospective basis.

An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset, calculated as the difference between the net disposal proceeds and the carrying amount of the item, is recognized in profit or loss in the year the item it is derecognized.

i. Impairment of Non-Financial Assets

The Company assesses at each reporting period, whether there is any indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required (i.e. an intangible asset with an indefinite useful life, an intangible asset not yet available for use, or goodwill acquired in a business combination), the Company makes an estimate of the asset's recoverable amount. If it is not possible to estimate the recoverable amount of the individual asset, the Company determines the recoverable amount of the CGU to which the asset belongs.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

i. Penurunan Nilai Aset Non-Keuangan (lanjutan)

Jumlah terpulihkan dari suatu aset (baik aset individual maupun UPK) adalah jumlah yang lebih tinggi antara nilai wajarnya dikurangi biaya untuk menjual dengan nilai pakainya. Jika nilai tercatat aset lebih besar daripada nilai terpulihkannya, maka aset tersebut dianggap mengalami penurunan nilai dan nilai tercatat aset diturunkan menjadi sebesar nilai terpulihkannya. Dalam menghitung nilai pakai, estimasi arus kas masa depan neto didiskontokan ke nilai kini dengan menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini dari nilai waktu uang dan risiko spesifik atas aset.

Dalam menentukan nilai wajar dikurangi biaya untuk menjual, digunakan harga transaksi pasar terakhir, jika tersedia. Jika tidak terdapat transaksi tersebut, menggunakan model penilaian yang sesuai untuk menentukan nilai wajar aset. Perhitungan-perhitungan ini dikuatkan oleh penilaian berganda atau indikator nilai wajar lain yang tersedia.

Kerugian penurunan nilai, jika ada, diakui pada laba rugi sesuai dengan kategori biaya yang konsisten dengan fungsi dari aset yang diturunkan nilainya.

Penilaian dilakukan pada setiap akhir periode pelaporan apakah terdapat indikasi bahwa rugi penurunan nilai yang telah diakui dalam periode sebelumnya untuk aset selain *goodwill* mungkin tidak ada lagi atau mungkin telah menurun. Jika indikasi dimaksud ditemukan, maka entitas mengestimasi jumlah terpulihkan aset tersebut. Kerugian penurunan nilai yang telah diakui dalam periode sebelumnya untuk aset selain *goodwill* dibalik hanya jika terdapat perubahan asumsi-asumsi yang digunakan untuk menentukan jumlah terpulihkan aset tersebut sejak rugi penurunan nilai terakhir diakui. Dalam hal ini, jumlah tercatat aset dinaikkan ke jumlah terpulihkannya. Pembalikan tersebut dibatasi sehingga jumlah tercatat aset tidak melebihi jumlah terpulihkannya maupun jumlah tercatat, neto setelah penyusutan, seandainya tidak ada rugi yang telah diakui untuk aset tersebut pada periode sebelumnya. Pembalikan rugi penurunan nilai diakui dalam laba rugi. Setelah pembalikan tersebut diakui sebagai laba rugi, penyusutan aset tersebut disesuaikan di periode mendatang untuk mengalokasikan jumlah tercatat aset yang direvisi, dikurang nilai sisanya, dengan dasar yang sistematis selama sisa umur manfaatnya.

j. Sewa

Perusahaan menilai pada awal kontrak apakah suatu kontrak adalah, atau berisi, sewa. Artinya, jika kontrak memberikan hak untuk mengendalikan penggunaan aset teridentifikasi selama suatu jangka waktu untuk dipertukarkan dengan imbalan.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

i. Impairment of Non-Financial Assets (continued)

An asset's (either individual asset or CGU) recoverable amount is the higher of the asset's fair value less costs to sell and its value in use. Where the carrying amount of the asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used to determine the fair value of the asset. These calculations are corroborated by valuation multiples or other available fair value indicators.

Impairment losses, if any, are recognized in profit or loss under expense categories that are consistent with the functions of the impaired assets.

An assesment is made at each reporting period whether there is any indication that previously recognized impairment losses recognized for an asset other than goodwill may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss for an asset other than goodwill is reversed only if there has been a change in the assumptions use to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceeds the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior periods. Reversal of an impairment loss is recognized in profit or loss. After such a reversal is recognized in profit or loss, depreciation charge on the said asset is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

j. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

j. Sewa (lanjutan)

Sebagai Penyewa

Perusahaan menerapkan pendekatan pengakuan dan pengukuran tunggal untuk seluruh sewa, kecuali untuk sewa jangka pendek dan sewa aset bernilai rendah. Perusahaan mengakui liabilitas sewa untuk melakukan pembayaran sewa dan aset hak-guna yang memberikan hak untuk menggunakan aset pendasarnya.

Aset Hak-Guna

Perusahaan mengakui aset hak-guna pada tanggal permulaan sewa (yaitu pada tanggal aset pendasar tersedia untuk digunakan). Aset hak-guna diukur pada biaya perolehan dikurangi akumulasi penyusutan dan rugi penurunan nilai, dan disesuaikan untuk setiap pengukuran kembali liabilitas sewa. Biaya perolehan aset hak-guna meliputi jumlah liabilitas sewa yang diakui, biaya langsung awal yang dikeluarkan, dan pembayaran sewa yang dilakukan pada atau sebelum tanggal permulaan, dikurangi dengan insentif sewa yang diterima.

Aset hak-guna didepresiasi dengan metode garis lurus selama jangka waktu yang lebih pendek antara masa sewa dan estimasi umur manfaat aset. Aset hak-guna didepresiasi menggunakan metode garis lurus selama estimasi masa manfaat 5 tahun.

Jika kepemilikan aset sewa beralih kepada Perusahaan pada akhir masa sewa atau biaya perolehan merefleksikan penyewa akan mengeksekusi opsi beli, depresiasi dihitung dengan menggunakan estimasi umur manfaat aset. Aset hak-guna juga diuji penurunan nilainya sesuai dengan PSAK 236 “Penurunan Nilai Aset”.

Aset hak-guna disajikan sebagai bagian dari “Aset Tetap” pada laporan keuangan.

Liabilitas Sewa

Liabilitas sewa awalnya diukur pada nilai kini pembayaran sewa masa depan yang belum dibayarkan pada tanggal permulaan, yang didiskontokan menggunakan suku bunga implisit dalam sewa. Jika suku bunga ini tidak dapat ditentukan, Perusahaan menggunakan suku bunga pinjaman inkremental khusus untuk penyewa.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

j. Leases (continued)

As a Lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-Use Assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. Right-of-use assets are depreciated using the straight-line method over the estimated useful life of 5 years.

If ownership of the lease assets transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment in accordance with PSAK 236, “Impairment of Assets”.

The right-of-use assets are presented as part of “Fixed Assets” in the financial statements.

Lease Liabilities

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses the incremental borrowing rate (“IBR”) specific to the lessee.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

j. Sewa (lanjutan)

Sebagai Penyewa (lanjutan)

Liabilitas Sewa (lanjutan)

Pembayaran sewa yang diperhitungkan dalam pengukuran liabilitas sewa terdiri atas:

- pembayaran tetap (termasuk pembayaran tetap secara-substansi), dikurangai insentif sewa;
- pembayaran sewa variabel yang bergantung pada indeks atau suku bunga yang pada awalnya diukur dengan menggunakan indeks atau suku bunga pada tanggal permulaan;
- jumlah yang diperkirakan akan dibayarkan oleh penyewa dalam jaminan nilai residual;
- harga eksekusi opsi beli jika penyewa cukup pasti untuk mengeksekusi opsi tersebut; dan
- pembayaran penalti karena penghentian sewa, jika masa sewa merefleksikan penyewa mengeksekusi opsi untuk menghentikan sewa.

Liabilitas sewa disajikan sebagai pos terpisah dalam laporan posisi keuangan.

Liabilitas sewa selanjutnya diukur dengan meningkatkan jumlah tercatat untuk merefleksikan bunga atas liabilitas sewa (menggunakan metode suku bunga efektif) dan dengan mengurangi jumlah tercatat untuk merefleksikan sewa yang telah dibayar.

Setiap pembayaran sewa dialokasikan antara liabilitas dan biaya keuangan. Biaya keuangan dibebankan pada laba rugi selama periode sewa sehingga menghasilkan tingkat suku bunga periodik yang konstan atas saldo liabilitas untuk setiap periode.

Peruahaan mengukur kembali liabilitas sewa (dan melakukan penyesuaian terkait terhadap asset hak-guna) jika:

- terdapat perubahan dalam masa sewa atau perubahan dalam penilaian atas eksekusi opsi pembelian, di mana liabilitas sewa diukur dengan mendiskontokan pembayaran sewa revisian menggunakan tingkat diskonto revisian;
- terdapat perubahan sewa masa depan sebagai akibat dari perubahan indeks atau perubahan perkiraan pembayaran berdasarkan nilai residual jaminan di mana liabilitas sewa diukur Kembali dengan mendiskontokan pembayaran sewa revisian menggunakan tingkat diskonto awal (kecuali jika pembayaran sewa berubah karena perubahan suku bunga mengambang, di mana tingkat diskonto revisian digunakan); atau
- kontrak sewa dimodifikasi dan modifikasi sewa tidak dicatat sebagai sewa terpisah, di mana liabilitas sewa diukur dengan mendiskontokan pembayaran sewa revisian menggunakan tingkat diskonto revisian.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

j. Leases (continued)

As a Lessee (continued)

Lease Liabilities (continued)

Lease payments included in the measurement of the lease liability comprise:

- *fixed lease payments (including in-substance fixed payments), less any lease incentives;*
- *variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;*
- *the amount expected to be payable by the lessee under residual value guarantees;*
- *the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and*
- *payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.*

The lease liability is presented as a separate line in the statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect the interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- *the lease term has changed or there is a change in the assessment of the exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;*
- *the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used); or*
- *a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.*

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

j. Sewa (lanjutan)

Sebagai Penyewa (lanjutan)

Sewa jangka-pendek dan sewa aset bernilai-rendah

Perusahaan memilih untuk tidak mengakui aset hak-guna dan liabilitas sewa untuk sewa jangka-pendek yang memiliki masa sewa 12 bulan atau kurang dan sewa atas aset bernilai-rendah. Perusahaan mengakui pembayaran sewa terkait dengan sewa ini sebagai beban dengan dasar garis lurus selama masa sewa.

k. Imbalan Kerja Karyawan

Imbalan kerja jangka pendek

Perusahaan mengakui liabilitas imbalan kerja jangka pendek ketika jasa diberikan oleh karyawan dan imbalan atas jasa tersebut akan dibayarkan dalam waktu dua belas bulan setelah jasa tersebut diberikan.

Imbalan pascakerja

Perusahaan mengakui kewajiban imbalan kerja yang tidak didanai sesuai dengan Undang-Undang No. 6 tahun 2023 tentang Penetapan Peraturan Pemerintah Pengganti Undang-Undang No. 2 tahun 2022 Cipta Kerja menjadi Undang-Undang. Beban pensiun berdasarkan program dana pensiun manfaat pasti Perusahaan ditentukan melalui perhitungan aktuaria secara periodik dengan menggunakan metode projected-unit credit dan menerapkan asumsi atas tingkat diskonto, hasil atas aset program dan tingkat kenaikan manfaat pasti pensiun tahunan.

Pengukuran kembali, terdiri dari keuntungan dan kerugian aktuarial yang tercermin langsung dalam laporan posisi keuangan yang dibebankan atau dikreditkan diakui dalam penghasilan komprehensif lain pada periode. Pengukuran kembali diakui dalam penghasilan komprehensif lain tercermin segera dalam saldo laba dan tidak akan direklasifikasi ke laba rugi periode berikutnya.

Biaya jasa lalu harus diakui sebagai beban pada saat yang lebih awal antara:

i) ketika program amandemen atau kurtailmen terjadi; atau
ii) ketika Perusahaan mengakui biaya restrukturisasi atau imbalan terminasi terkait.

Bunga neto dihitung dengan menerapkan tingkat diskonto yang digunakan terhadap liabilitas imbalan kerja. Perusahaan mengakui perubahan berikut pada akun "Beban Umum dan Administrasi" pada laporan laba rugi dan penghasilan komprehensif lain:

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

j. Leases (continued)

As a Lessee (continued)

Short-term leases and leases of low-value assets

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as expense on a straight-line basis over the lease term.

k. Employee Benefits

Short-term employee benefits

The Company recognizes short-term employee benefits liability when services are rendered and the compensation for such services are to be paid within twelve months after the rendering of such services.

Post-employment benefits

The Company recognized unfunded employee benefits liability in accordance with Law No. 6 of 2023 concerning the Stipulation of Government Regulation in Lieu of Law No. 2 of 2022 on Job Creation to Become Law. Pension costs under the Company;s defined benefit pension plans are determined by periodic actuarial calculation using the projected-unit-credit method and applying the assumptions on discount rate, return on plan assets and annual rate of increase in compensation.

Remeasurement, comprising actuarial gains and losses is reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss at the earlier between:

i) the date of the plan amendment or curtailment, and
ii) the date the Company recognizes related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability. The Company recognize the following changes under "General and Administrative Expenses" in the statements of profit or loss and other comprehensive income:

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

k. Imbalan Kerja Karyawan (lanjutan)

Imbalan pascakerja (lanjutan)

i) biaya jasa terdiri atas biaya jasa kini, biaya jasa lalu, keuntungan atau kerugian atas penyelesaian (*curtailment*) tidak rutin dan
ii) beban atau penghasilan bunga neto.

l. Pengakuan Pendapatan

Pendapatan diukur berdasarkan imbalan yang diharapkan Perusahaan untuk diterima dalam kontrak dengan pelanggan dan tidak termasuk jumlah yang dikumpulkan atas nama pihak ketiga. Perusahaan mengakui pendapatan ketika mentransfer kendali atas suatu produk atau layanan kepada pelanggan.

Perusahaan menghasilkan pendapatan dari penjualan paket wisata, transportasi dan tiket pesawat..

Untuk paket wisata, pelanggan memesan dan melakukan pembayaran kepada Perusahaan, setelah itu Perusahaan mengatur layanan wisata dengan pemasok pihak ketiga. Pemesanan wisata umumnya tidak dapat dibatalkan setelah wisata dimulai. Oleh karena itu, pendapatan dari paket wisata diakui pada saat wisata dimulai, yang mewakili titik di mana Perusahaan telah memenuhi kewajibannya untuk mengatur layanan wisata bagi pelanggan.

Untuk transportasi dan tiket pesawat, Perusahaan mengatur reservasi baik melalui agen atau melalui pengaturan pemesanan langsung dengan pemasok pihak ketiga. Pendapatan diakui pada saat pemesanan dikonfirmasi dan tiket atau reservasi diterbitkan, karena hal ini menandai saat Perusahaan telah memenuhi kewajiban kinerjanya dalam mengatur pemesanan untuk pelanggan.

Penerimaan kas dari pelanggan sehubungan dengan transaksi pendapatan yang belum memenuhi kriteria pengakuan pendapatan, dicatat sebagai bagian dari "Pendapatan Diterima di Muka" dalam laporan posisi keuangan.

m. Transaksi dan saldo dalam mata uang asing

i. Mata uang fungsional dan penyajian

Pos-pos dalam laporan keuangan Perusahaan diukur dalam mata uang pada lingkungan ekonomi utama dimana entitas beroperasi ("mata uang fungsional"). Laporan keuangan disajikan dalam Rupiah, yang merupakan mata uang fungsional dan penyajian Perusahaan.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

k. Employee Benefits

Post-employment benefits (continued)

i) service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements, and
ii) net interest expense or income

l. Revenue Recognition

Revenue is measured based on the consideration to which the Company expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Company recognizes revenue when it transfers control of a product or service to a customer.

The Company generates revenue from sales of tour packages, transportation and airline tickets.

For tour packages, customers book and make payment to the Company, after which the Company arranges the tour services with third-party suppliers. Tour bookings are generally non-cancellable once the tour has commenced. Accordingly, revenue from tour packages is recognized at a point in time when the tour commences, which represents the point when the Company has fulfilled its obligation to arrange the tour services for the customers.

For transportation and airline tickets, the Company arranges reservations either through agents or through direct booking arrangements with third-party suppliers. Revenue is recognized at the point in time when the booking is confirmed and the ticket or reservation is issued, as this represents when the Company has satisfied its performance obligation of arranging the booking for customers.

Cash received from customers related to revenue transactions which have not yet fulfilled the criteria for revenue recognition are recorded as part of "Unearned Revenues" in the statement of financial position.

m. Transactions and balances in foreign currencies

i. Functional and presentation currency

Items included in the financial statements of the Company's are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Rupiah, which is the Company's functional and presentation currency.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

m. Transaksi dan saldo dalam mata uang asing (lanjutan)

ii. Transaksi dan saldo dalam mata uang asing

Transaksi dalam mata uang selain mata uang Rupiah dijabarkan menjadi mata uang Rupiah dengan menggunakan kurs yang berlaku pada tanggal transaksi.

Nilai tukar mata uang asing terhadap Rupiah pada tanggal 31 Desember 2025 dan 2024 (berdasarkan kurs yang ditetapkan oleh Thomas Cook Company) adalah sebagai berikut:

	2025	**2024**	
Dolar Amerika Serikat (US$) 1	16.675,00	16.095,00	*United States Dollar (US$) 1*

Keuntungan atau kerugian dari selisih kurs, yang sudah terealisasi maupun yang belum, baik yang berasal dari transaksi dalam mata uang asing maupun penjabaran aset dan liabilitas moneter dibebankan dalam laba rugi, kecuali jika ditangguhkan dalam penghasilan komprehensif lain sebagai lindung nilai arus kas dan lindung nilai investasi neto yang memenuhi syarat.

n. Perpajakan

Pajak Kini

Beban pajak kini dihitung dengan menggunakan tarif pajak yang berlaku pada tanggal pelaporan keuangan, dan ditetapkan berdasarkan taksiran laba kena pajak tahun berjalan. Manajemen secara periodik mengevaluasi posisi yang dilaporkan di Surat Pemberitahuan Tahunan (SPT) sehubungan dengan situasi di mana aturan pajak yang berlaku membutuhkan interpretasi. Jika perlu, manajemen menentukan provisi berdasarkan jumlah yang diharapkan akan dibayar kepada otoritas pajak.

Kekurangan atau kelebihan pembayaran pajak penghasilan badan dicatat sebagai bagian dari beban pajak dalam laporan laba rugi dan penghasilan komprehensif lain.

Bunga dan denda yang timbul dari ketetapan pajak dan kurang bayar atau lebih bayar pajak lainnya disajikan sebagai bagian dari penghasilan atau beban operasi lain karena tidak dianggap sebagai bagian dari beban pajak penghasilan.

Koreksi terhadap liabilitas perpajakan diakui pada saat surat ketetapan pajak diterima. Jika Perusahaan mengajukan keberatan, Perusahaan mempertimbangkan apakah besar kemungkinan otoritas pajak akan menerima keberatan tersebut dan merefleksikan dampaknya terhadap liabilitas perpajakan Perusahaan.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

m. Transactions and balances in foreign currencies (continued)

ii. Transactions and balances in foreign currencies

Transactions denominated in currencies other than Rupiah are converted into Rupiah at the rates prevailing as of the date of the transaction.

The exchange rate of foreign currency against Rupiah on December 31, 2024 and 2023 (based on the exchange rate set by the Thomas Cook Company) were as follows:

Realized or unrealized foreign exchange gains or losses arising from transactions in foreign currency and from the translation of foreign currency monetary assets and liabilities are recognized in profit or loss, except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges.

n. Taxation

Current Tax

Current tax expense is calculated using tax rates that have been enacted or substantively enacted at end of the reporting period, and is provided based on the estimated taxable income for the year. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provision where appropriate on the basis of amounts expected to be paid to the tax authorities.

Underpayment or overpayment of corporate income tax are presented as part of income tax expense in the statement of profit or loss and other comprehensive income.

Interests and penalties arising from tax assessments and underpayment or overpayment of other taxes are presented as part of other operating income or expenses since they are not considered as part of the income tax expense.

Amendments to tax obligations are recorded when a tax assessment letter is received. If the Company files an appeal, the Company considers whether it is probable that a taxation authority will accept the appeal and reflect its effect on the Company's tax obligations.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

n. Perpajakan (lanjutan)

Pajak Tangguhan

Pajak tangguhan diukur dengan metode liabilitas atas beda waktu pada tanggal pelaporan antara dasar pengenaan pajak untuk aset dan liabilitas dengan nilai tercatatnya untuk tujuan pelaporan keuangan. Liabilitas pajak tangguhan diakui untuk semua perbedaan temporer kena pajak dengan beberapa pengecualian. Aset pajak tangguhan diakui untuk perbedaan temporer yang boleh dikurangkan dan rugi fiskal apabila terdapat kemungkinan besar bahwa jumlah laba kena pajak pada masa mendatang akan memadai untuk mengkompensasi perbedaan temporer dan rugi fiskal.

Aset dan liabilitas pajak tangguhan dihitung berdasarkan tarif yang akan dikenakan pada periode saat aset direalisasikan atau liabilitas tersebut diselesaikan, berdasarkan undang-undang pajak yang berlaku atau berlaku secara substantif pada akhir periode laporan keuangan. Pengaruh pajak terkait dengan penyisihan dan/atau pemulihan semua perbedaan temporer selama tahun berjalan, termasuk pengaruh perubahan tarif pajak, dikreditkan atau dibebankan pada periode operasi berjalan, untuk transaksi-transaksi yang sebelumnya telah dibebankan atau dikreditkan ke penghasilan komprehensif lain atau langsung ke ekuitas.

Jumlah tercatat aset pajak tangguhan dikaji ulang pada akhir periode pelaporan, dan mengurangi jumlah tercatat jika kemungkinan besar laba kena pajak tidak lagi tersedia dalam jumlah yang memadai untuk mengkompensasi sebagian atau seluruh aset pajak tangguhan. Aset pajak tangguhan yang belum diakui dinilai kembali pada setiap akhir periode pelaporan dan diakui sepanjang kemungkinan besar laba kena pajak mendatang akan memungkinkan aset pajak tangguhan tersedia untuk dipulihkan.

Aset dan liabilitas pajak tangguhan disajikan secara saling hapus saat hak yang dapat dipaksakan secara hukum ada untuk saling hapus aset pajak kini dan liabilitas pajak kini, atau aset pajak tangguhan dan liabilitas pajak tangguhan berkaitan dengan entitas kena pajak yang sama, atau Perusahaan bermaksud untuk menyelesaikan aset dan liabilitas pajak kini dengan dasar neto.

Pajak Pertambahan Nilai

Pendapatan, beban-beban dan aset-aset diakui neto atas jumlah Pajak Pertambahan Nilai ("PPN") kecuali:

- PPN yang muncul dari pembelian aset atau jasa yang tidak dapat dikreditkan oleh kantor pajak, yang dalam hal ini PPN diakui sebagai bagian dari biaya perolehan aset atau sebagai bagian dari item beban-beban yang diterapkan; dan

- piutang dan utang yang disajikan termasuk dengan jumlah PPN.

Jumlah PPN Neto yang terpulihkan dari, atau terutang kepada, kantor pajak termasuk sebagai bagian dari piutang atau utang pada laporan posisi keuangan.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

n. Taxation (continued)

Deferred Tax

Deferred tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences with certain exceptions. Deferred tax assets are recognized for deductible temporary differences and tax losses carry-forward to the extent that it is probable that taxable income will be available in future years against which the deductible temporary differences and tax losses carry-forward can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax laws that have been enacted or substantively enacted at the end of reporting period. The related tax effects of the provisions for and/or reversals of all temporary differences during the year, including the effect of change in tax rates, are credited or charged to current period operations, except to the extent that they relate to items previously charged or credited to other comprehensive income or directly in equity.

The carrying amount of a deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the benefit of that deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are offset when a legally enforceable right exists to offset current tax assets against current tax liabilities, or the deferred tax assets and the deferred tax liabilities relate to the same taxable entity, or the Company intends to settle its current assets and liabilities on a net basis.

Value Added Tax

Revenue, expenses and assets are recognized net of the amount of Value Added Tax ("VAT") except:

- *where the VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the VAT is recognized as part of the cost of acquisition of the asset or as part of the expense of the asset or as part of the expense item as applicable; and*
- *receivables and payables that are stated with the amount of VAT included.*

The net amount of VAT recoverable from, or payable to, the taxation authorities is included as part of receivables or payables in the statements of financial position.

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

o. Pengukuran Nilai Wajar

Perusahaan mengukur aset tetap - tanah pada nilai wajar. setiap tanggal pelaporan. Perusahaan juga mengukur pada pengakuan awal instrumen keuangan, dan aset dan liabilitas yang diperoleh melalui kombinasi bisnis pada nilai wajar. Perusahaan juga mengukur FVTOCI pada nilai wajar.

Nilai wajar adalah harga yang akan diterima dari menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran. Pengukuran nilai wajar mengasumsikan bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

i) Di pasar utama untuk aset atau liabilitas tersebut, atau
ii) Jika tidak terdapat pasar utama, di pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Pasar utama atau pasar yang paling menguntungkan tersebut harus dapat diakses oleh Perusahaan.

Nilai wajar dari aset atau liabilitas diukur dengan menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset atau liabilitas tersebut, dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomi terbaiknya.

Pengukuran nilai wajar dari suatu aset non-keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomik dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut pada penggunaan tertinggi dan terbaiknya.

Perusahaan menggunakan teknik penilaian yang sesuai dengan keadaan dan data yang memadai tersedia untuk mengukur nilai wajar, dengan memaksimalkan masukan (*input*) yang dapat diamati (*observable*) yang relevan dan meminimalkan masukan (*input*) yang tidak dapat diamati (*unobservable*).

Semua aset dan liabilitas yang nilai wajarnya diukur atau diungkapkan dalam laporan keuangan dikategorikan dalam hirarki nilai wajar berdasarkan level masukan (*input*) paling rendah yang signifikan terhadap pengukuran nilai wajar secara keseluruhan sebagai berikut:

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

o. Fair Value Measurement

The Company measures fixed assets - land at fair value. The Company also initially measures financial instruments and assets and liabilities of the acquirees upon business combinations at fair value. The Company also measure FVTOCI financial assets at fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

i) In the principal market for the asset or liability, or

ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

3. INFORMASI KEBIJAKAN AKUNTANSI MATERIAL (lanjutan)

o. Pengukuran Nilai Wajar (lanjutan)

i) *Level* 1 - Harga kuotasian (tanpa penyesuaian) dipasar aktif untuk aset atau liabilitas yang identik yang dapat diakses entitas pada tanggal pengukuran.
ii) *Level* 2 - Teknik penilaian yang menggunakan tingkat masukan (*input*) yang paling rendah yang signifikan terhadap pengukuran nilai wajar yang dapat diamati (*observable*) baik secara langsung atau tidak langsung.
iii) *Level* 3 - Teknik penilaian yang menggunakan tingkat masukan (*input*) yang paling rendah yang signifikan terhadap pengukuran nilai wajar yang tidak dapat diamati (*unobservable*) baik secara langsung atau tidak langsung.

Untuk aset dan liabilitas yang diakui pada laporan keuangan secara berulang, Perusahaan menentukan apakah terdapat perpindahan antara *level* dalam hirarki dengan melakukan evaluasi ulang atas penetapan kategori (berdasarkan *level* masukan (*input*) paling rendah yang signifikan terhadap pengukuran nilai wajar secara keseluruhan) pada tiap akhir periode pelaporan.

p. Provisi

Provisi diakui jika Perusahaan memiliki liabilitas kini (baik bersifat hukum maupun bersifat konstruktif) yang akibat peristiwa masa lalu besar kemungkinannya penyelesaian liabilitas tersebut mengakibatkan arus keluar sumber daya yang mengandung manfaat ekonomi dan estimasi yang andal mengenai jumlah liabilitas tersebut dibuat.

Provisi ditelaah pada setiap akhir periode pelaporan dan disesuaikan untuk mencerminkan estimasi kini terbaik. Jika tidak terdapat kemungkinan arus keluar sumber daya yang mengandung manfaat ekonomi untuk menyelesaikan liabilitas tersebut, provisi dibatalkan.

q. Dividen

Pembagian dividen kepada para pemegang saham Perusahaan diakui sebagai liabilitas dalam laporan keuangan pada periode ketika dividen tersebut disetujui oleh para pemegang saham Perusahaan.

r. Peristiwa setelah Tanggal Pelaporan

Peristiwa setelah tanggal pelaporan yang memberikan tambahan informasi mengenai posisi keuangan Peruahaan pada tanggal pelaporan (peristiwa penyesuaian), jika ada, dicerminkan dalam laporan keuangan. Peristiwa setelah tanggal pelaporan yang bukan peristiwa penyesuaian diungkapkan dalam Catatan atas laporan keuangan, jika material.

3. MATERIAL ACCOUNTING POLICY INFORMATION (continued)

o. Fair Value Measurement (continued)

i) Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

ii) Level 2 - Valuation techniques for which the lowest input that is significant to the fair value measurement is directly or indirectly observable.

iii) Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly unobservable.

For assets and liabilities that are recognized in the financial statements on recurring basis, the Company determine whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

p. Provisions

Provisions are recognized when the Company have a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimates. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

q. Dividends

Dividend distribution to the Company's shareholders is recognized as a liability in the financial statements in the period in which the dividends are approved by the Company's shareholders.

r. Events after the Reporting Date

Events after the report date that provide additional information about the Company's financial position at the reporting date (adjusting events), if any, are reflected in the financial statements. Events that are not adjusting events are disclosed in the Notes to the financial statements, when material.

4. PERTIMBANGAN KRITIS AKUNTANSI DAN SUMBER UTAMA KETIDAKPASTIAN ESTIMASI

Penyusunan laporan keuangan Perusahaan sesuai dengan Standar Akuntansi Keuangan di Indonesia mewajibkan manajemen untuk membuat estimasi dan asumsi yang mempengaruhi jumlah-jumlah yang dilaporkan dari pendapatan, beban, aset dan liabilitas, dan pengungkapan liabilitas kontinjensi pada tanggal pelaporan. Ketidakpastian mengenai asumsi dan estimasi tersebut dapat mengakibatkan penyesuaian nilai tercatat aset dan liabilitas dalam periode pelaporan berikutnya.

Pertimbangan

Pertimbangan berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi Perusahaan yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan:

Penilaian Model Bisnis

Klasifikasi dan pengukuran aset keuangan bergantung pada hasil SPPI testing dan uji model bisnis. Perusahaan menentukan model bisnis pada tingkat yang mencerminkan bagaimana kelompok aset keuangan dikelola bersama untuk mencapai tujuan bisnis tertentu. Penilaian ini mencakup penilaian yang mencerminkan semua bukti yang relevan termasuk bagaimana kinerja aset dievaluasi dan kinerjanya diukur, risiko yang memengaruhi kinerja aset dan bagaimana hal ini dikelola dan bagaimana manajer aset diberi kompensasi. Perusahaan memantau aset keuangan yang diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain yang dihentikan pengakuannya sebelum jatuh tempo untuk memahami alasan pelepasannya dan apakah alasan tersebut konsisten dengan tujuan bisnis di mana aset tersebut dimiliki. Pemantauan adalah bagian dari penilaian berkelanjutan Perusahaan atas apakah model bisnis di mana aset keuangan yang tersisa dimiliki tetap sesuai dan jika tidak sesuai apakah telah terjadi perubahan dalam model bisnis dan dengan demikian terdapat perubahan prospektif terhadap klasifikasi aset keuangan tersebut. Tidak ada perubahan yang diperlukan selama periode yang disajikan.

Menentukan Masa Sewa Kontrak dengan Opsi Pembaruan dan Penghentian - Perusahaan sebagai *Lessee*

Perusahaan menentukan bahwa masa sewa sebagai masa sewa yang tidak dapat dibatalkan, bersamaan dengan periode yang tercakup dalam opsi perpanjangan sewa, jika dieksekusi secara wajar dan pasti, atau periode yang tercakup dalam opsi penghentian sewa, jika tidak dieksekusi secara wajar dan pasti.

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of the Company financial statements, in conformity with Indonesian Financial Accounting Standards, requires management to make judgments of estimations and assumptions that affect the amounts reported on income, expenses, assets and liabilities and disclosures of Contingent liabilities at the reporting date. The estimation uncertainty may cause adjustment to the carrying amounts of assets and liabilities within the next reporting period.

Judgments

The following judgments are made by management in the process of applying the Company's accounting policies that have the most significant effects on the amounts recognized in the financial statements:

Business Model Assessment

Classification and measurement of financial assets depends on the results of the SPPI testing and the business model test. The Company determines the business model at a level that reflects how Companys of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortized cost or fair value through other comprehensive income that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets. No such changes were required during the periods presented.

Determining the Lease Term of Contracts with Renewal and Termination Options - Company as Lessee

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

4. PERTIMBANGAN KRITIS AKUNTANSI DAN SUMBER UTAMA KETIDAKPASTIAN ESTIMASI (lanjutan)

Pertimbangan (lanjutan)

Menentukan Masa Sewa Kontrak dengan Opsi Pembaruan dan Penghentian - Perusahaan sebagai *Lessee* (lanjutan)

Perusahaan menerapkan pertimbangan dalam mengevaluasi apakah wajar dan pasti untuk mengeksekusi opsi untuk pembaruan atau penghentian sewa atau tidak. Untuk kontrak sewa dengan opsi perpanjangan dan penghentian, manajemen perlu mengestimasi masa sewa yang memerlukan pertimbangan semua fakta dan keadaan yang menimbulkan insentif ekonomi untuk mengeksekusi opsi perpanjangan dan tidak mengeksekusi opsi penghentian, termasuk setiap perubahan yang diharapkan dalam fakta dan keadaan dari tanggal permulaan hingga tanggal pengekesekusian opsi tersebut. Opsi perpanjangan (atau periode setelah opsi penghentian) hanya dimasukkan dalam persyaratan sewa jika Perusahaan cukup yakin untuk mengeksekusi opsi perpanjangan dan tidak mengeksekusi opsi penghentian. Jika terdapat peristiwa signifikan atau perubahan keadaan yang signifikan yang mempengaruhi penilaian ini dan masih dalam kendali penyewa, maka penilaian diatas akan ditelaah kembali.

Penentuan Mata Uang Fungsional

Mata uang fungsional dari entitas dalam Perusahaan adalah mata uang dari lingkungan ekonomi primer dimana entitas beroperasi. Mata uang tersebut adalah mata uang yang mempengaruhi pendapatan dan beban dari kegiatan operasi.

Estimasi dan Asumsi

Asumsi utama masa depan dan sumber utama estimasi ketidakpastian lain pada akhir periode pelaporan yang memiliki risiko signifikan bagi penyesuaian yang material terhadap nilai tercatat aset dan liabilitas untuk periode pelaporan keuangan berikutnya, diungkapkan di bawah ini. Perusahaan mendasarkan asumsi dan estimasi pada parameter yang tersedia pada saat laporan keuangan disusun.

Asumsi dan situasi mengenai perkembangan masa depan mungkin berubah akibat perubahan pasar atau situasi diluar kendali Perusahaan. Perubahan tersebut dicerminkan dalam asumsi terkait pada saat terjadinya.

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Judgments (continued)

Determining the Lease Term of Contracts with Renewal and Termination Options - Company as Lessee (continued)

The Company applies judgment in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. For lease contracts with extension or termination options, management need to estimate the lease term which requires consideration of all facts and circumstances that creates an economic incentive to exercise an extension option or not to exercise termination options, including any expected changes in facts and circumstances from commencement date until the exercise date of the options. Extension options (or periods after termination options) are only included in lease terms if the Company is reasonably certain to exercise the extension options or not to exercise the termination options. If a significant event or a significant change in circumstances occurs which affects this assessment and that is within the control of the lessee, the above assessment will be reviewed.

Determination of Functional Currency

The currency of Company is the currency of the primary economic environment in which Company operates. It is the currency that mainly influences the revenue and cost from operations.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial reporting period are disclosed below. The Company based their assumptions and estimates on parameters available when the financial statements were prepared.

Existing assumptions and circumstances about future developments may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

4. PERTIMBANGAN KRITIS AKUNTANSI DAN SUMBER UTAMA KETIDAKPASTIAN ESTIMASI (lanjutan)

Estimasi dan Asumsi (lanjutan)

Penurunan Nilai Piutang Usaha

Perusahaan menggunakan matriks provisi untuk menghitung ECL atas piutang usaha. Tarif provisi didasarkan pada hari yang lewat jatuh tempo untuk mengelompokan pelanggan ke segmen yang memiliki pola kerugian serupa. Matriks provisi awalnya berdasarkan tarif *default* yang diamati Perusahaan secara historis. Perusahaan akan mengkalibrasi matriks tersebut untuk menyesuaikan pengalaman kerugian kredit historis dengan informasi kedepan. Misalnya, jika prakiraan kondisi ekonomi diperkirakan memburuk selama tahun depan yang dapat menyebabkan peningkatan jumlah *default* di sektor usaha Perusahaan, tingkat *default* historis disesuaikan. Pada setiap tanggal pelaporan, tarif *default* yang diamati secara historis diperbarui dan perubahan dalam estimasi ke depan dianalisa kembali.

Penilaian korelasi antara tingkat *default* yang diamati secara historis, prakiraan kondisi ekonomi, dan ECL adalah estimasi signifikan. Jumlah ECL sensitif terhadap perubahan keadaan dan prakiraan kondisi ekonomi. Pengalaman kerugian kredit historis Perusahaan dan prakiraan kondisi ekonomi mungkin tidak mewakili *actual default* pelanggan di masa depan. Informasi mengenai ECL pada piutang usaha, dalam Catatan 6.

Estimasi Masa Manfaat Aset Tetap

Biaya perolehan aset tetap disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya. Manajemen mengestimasi masa manfaat ekonomis aset tetap adalah 4 tahun. Ini adalah umur secara umum diharapkan dalam industri dimana Perusahaan menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi. Penjelasan lebih rinci diungkapkan dalam Catatan 9.

Imbalan Kerja

Penentuan liabilitas imbalan kerja Perusahaan bergantung pada pemilihan asumsi yang digunakan oleh aktuaris independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat kecacatan, umur pensiun dan tingkat kematian. Hasil aktual yang berbeda dari asumsi yang ditetapkan manajemen langsung diakui dalam laporan laba rugi dan penghasilan komprehensif lain pada saat terjadinya. Sementara Perusahaan berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Perusahaan dapat mempengaruhi secara material liabilitas atas imbalan kerja karyawan dan beban imbalan kerja neto. Penjelasan lebih lanjut diungkapkan dalam Catatan 15.

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Estimates and Assumptions (continued)

Impairment of Trade Receivables

The Company uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns. The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions are expected to deteriorate over the next year which can lead to an increased number of defaults in the Company p's industry sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Company's trade receivables is disclosed in Note 6.

Estimating Useful Lives of Fixed Assets

The costs of fixed assets is depreciated using the straight-line method over their estimated useful lives. Management estimates the useful lives of fixed assets to be 4 years. This is the generally expected lifespan in the industry in which the Company operates. Changes in usage rates and technological developments may affect the useful lives and residual values of assets, and therefore future depreciation expenses may be revised. Further details are disclosed in Note 9.

Employee Benefits

The determination of the Company's employee benefits liabilities is dependent on its selection of certain assumptions used by the independent actuaries in calculating such amounts. Those assumptions include, among others, discount rates, annual salary increase rate, disability rate, retirement age and mortality rate. Actual results that differ from the assumptions made by management are immediately recognized in the statements of profit or loss and other comprehensive income as incurred. While the Company's believe that the assumptions are reasonable and appropriate, significant differences in actual results or significant changes in assumptions determined by the Company's may materially affect the employee benefits liabilities and net employee' benefits costs. Further explanation is disclosed in Note 15.

4. PERTIMBANGAN KRITIS AKUNTANSI DAN SUMBER UTAMA KETIDAKPASTIAN ESTIMASI (lanjutan)

Estimasi dan Asumsi (lanjutan)

Penurunan Nilai Aset Non-Keuangan

Penelaahan atas penurunan nilai dilakukan apabila terdapat indikasi penurunan nilai aset tertentu. Penentuan nilai wajar aset membutuhkan estimasi arus kas yang diharapkan akan dihasilkan dari pemakaian berkelanjutan dan pelepasan akhir atas aset tersebut. Perubahan signifikan dalam asumsi-asumsi yang digunakan untuk menentukan nilai wajar dapat berdampak signifikan pada nilai terpulihkan dan jumlah kerugian penurunan nilai yang terjadi mungkin berdampak material pada hasil operasi Perusahaan.

Manajemen berkeyakinan bahwa tidak terdapat indikasi atas potensi penurunan atas nilai aset non-keuangan pada tanggal 31 Desember 2025 dan 2024.

Instrumen Keuangan

Perusahaan mencatat aset dan liabilitas keuangan tertentu pada nilai wajar, yang mengharuskan penggunaan estimasi akuntansi. Sementara komponen signifikan atas pengukuran nilai wajar ditentukan menggunakan bukti obyektif yang dapat diverifikasi, jumlah perubahan nilai wajar dapat berbeda bila Perusahaan menggunakan metodologi penilaian yang berbeda. Perubahan nilai wajar aset dan liabilitas keuangan tersebut dapat mempengaruhi secara langsung laba atau rugi Perusahaan.

Nilai tercatat dari aset keuangan dan liabilitas keuangan pada nilai wajar dalam laporan posisi keuangan pada tanggal 31 Desember 2025 dan 2024 diungkapkan dalam Catatan 23.

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Estimates and Assumptions (continued)

Impairment of Non-Financial Assets

Impairment review is performed when certain impairment indicators are present. Determining the fair value of assets requires the estimation of cash flows expected to be generated from the continued use and ultimate disposition of such assets. Any significant changes in the assumptions used in determining the fair value may materially affect the assessment of recoverable values and any resulting impairment loss could have a material impact on results of the Company's operations.

Management believes that there is no event or change in circumtances that may indicate any impairment in the value of its non-financial assets as at December 31, 2025 and 2024.

Financial Instruments

The Company carry certain financial assets and liabilities at fair value, which requires the use of accounting estimates. While significant components of fair value measurement were determined using verifiable objective evidences, the amount of changes in fair value would differ if the Company utilized a different valuation methodology. Any changes in a fair value of these financial assets and liabilities would directly affect the Company's profit or loss.

The carrying amounts of financial assets and financial liabilities carried at fair values in the statement of financial position as at December 31, 2025 and 2024 are disclose in Note 23.

Lebih dari 91 hari	57.644.975	533.887.728	*More than 91 days*
Pihak berelasi	326.925.715	1.443.914.640	*Related party*
Pihak ketiga			*Third parties*
Belum jatuh tempo	836.072.828	1.444.814.672	*Current*
Jatuh tempo:			*Past due:*
1 - 30 hari	7.286.574.297	4.190.911.705	*1 - 30 days*
31 - 60 hari	88.918.104	1.583.738.987	*31 - 60 days*
61 - 90 hari	165.728.323	422.502.280	*61 - 90 days*
Lebih dari 91 hari	2.062.877.758	2.175.451.221	*More than 91 days*
Sub-jumlah	10.440.171.310	9.817.418.865	*Sub-total*
Dikurangi kerugian kredit ekspektasian	(1.967.155.587)	-	*Less allowance for expected credit losses*
Pihak ketiga - neto	8.473.015.723	9.817.418.865	*Third parties- net*
Piutang Usaha - Neto	**8.799.941.438**	**11.261.333.505**	***Trade Receivables - Net***

6. PIUTANG USAHA (lanjutan) / *6. TRADE RECEIVABLES (continued)*

Mutasi penyisihan kerugian kredit ekspektasian piutang usaha adalah sebagai berikut:

Movements of allowance for expected credit losses of trade receivables are as follows:

	2025	2024	
Saldo awal tahun	-	-	*Balance at the beginning of the year*
Cadangan pada tahun berjalan	1.967.155.587	-	*Provision during the year*
Saldo akhir tahun	**1.967.155.587**	**-**	***Balance at the end of the year***

Pada tanggal 31 Desember 2025, manajemen berpendapat bahwa penyisihan kerugian kredit ekspektasian piutang usaha tersebut cukup untuk menutupi kemungkinan kerugian yang timbul akibat tidak tertagihnya piutang usaha.

As at December 31, 2025, management believes that the above allowance for expected credit losses of trade receivables is adequate to cover any possible losses arising from the uncollectible trade receivables.

Pada tanggal 31 Desember 2024, manajemen berkeyakinan bahwa seluruh piutang usaha tersebut dapat tertagih sehingga tidak membentuk penyisihan penurunan nilai atas piutang usaha.

As of December 31, 2024, the management believes that all trade receivables are collectible, thus, no impairment was recognized.

Pihak ketiga	520.177.792	2.509.934.775	*Third parties*
Jumlah piutang lain-lain	**10.441.802.792**	**12.086.459.775**	***Total other receivables***

Berdasarkan hasil penelaahan terhadap masing-masing akun piutang lain-lain pada akhir tahun, manajemen berkeyakinan bahwa seluruh piutang lain-lain tersebut dapat tertagih sehingga tidak membentuk penyisihan penurunan nilai atas piutang lain-lain.

Based on the review of the status of the individual other receivables account at the end of year, management believes that all of the above other receivables are fully collectible and hence, no allowance for impairment of other receivables is necessary.

8. UANG MUKA DAN BIAYA DIBAYAR DI MUKA / *8. ADVANCES AND PREPAID EXPENSE*

Beban penyusutan aset tetap untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2025 dan 2024, masing-masing sebesar Rp 3.077.153.184 dan Rp 667.990.785 dicatat sebagai bagian dari "Beban Umum dan Administrasi" (Catatan 20).

Depreciation expenses of fixed assets for the years ended December 31, 2025 and 2024, amounted to Rp 3,077,153,184 and Rp 667,990,785, respectively, were recorded as part of "General and Administrative Expenses" (Note 20).

Pada tanggal 31 Desember 2025, aset tetap berupa kendaraan, telah diasuransikan kepada pihak ketiga, dengan nilai pertanggungan sebesar Rp 7.780.400.000. Manajemen berpendapat bahwa nilai pertanggungan tersebut cukup untuk menutupi kemungkinan kerugian atas aset dipertanggungkan.

As at December 31, 2025, vehicles are insured with third parties, for a total coverage of Rp 7,780,400,000. Management believes that the insurance coverage is adequate to cover possible losses on the assets insured.

Pengurangan untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2025 dan 2024 merupakan penjualan aset tetap dengan rincian sebagai berikut:

Deductions for the years ended December 31, 2025 and 2024, represents sale of fixed assets with details as follows:

	2025	**2024**	
Hasil penjualan	795.681.043	534.787.996	*Proceeds from sale*
Nilai buku neto	-	-	*Net book value*
Laba penjualan aset tetap	**795.681.043**	**534.787.996**	***Gain on sale of fixed assets***

Laba penjualan aset tetap dicatat sebagai bagian dari "Lain-lain - neto" dalam laporan laba rugi dan penghasilan komprehensif lain untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2025 dan 2024.

Gain on sale of fixed assets is recorded as part of "Others - net" in the statement of profit or loss and other comprehensive income for the years ended December 31, 2025 and 2024.

Manajemen berpendapat bahwa nilai tercatat dari seluruh aset tetap Perusahaan tersebut dapat dipulihkan, sehingga tidak diperlukan penurunan nilai atas aset tetap tersebut.

Based on management's review, there are no events or changes in circumstances which may indicate impairment in value of fixed assets as at December 31, 2025 and 2024.

10. UTANG USAHA / *10. TRADE PAYABLE*

d. Administrasi / *d. Administration*

Berdasarkan peraturan perpajakan Indonesia, Perusahaan menghitung, menetapkan dan membayar secara sendiri pajak penghasilannya (*self-assessment*). Direktorat Jenderal Pajak (DJP) dapat menetapkan atau mengubah liabilitas pajak dalam batas waktu 5 (lima) tahun sejak saat terutangnya pajak.

Under the taxation laws of Indonesia, the Company submit tax return on the basis of self assessment. The Directorate General of Taxation (DGT) may assess or amend taxes within 5 (five) years from the time the tax becomes due.

15. LIABILITAS IMBALAN KERJA KARYAWAN / *15. EMPLOYEE BENEFITS LIABILITY*

Perusahaan mencatat liabilitas imbalan kerja karyawan pada tanggal 31 Desember 2025 dan 2024, berdasarkan perhitungan aktuarial yang dilakukan oleh KKA Tumpal Marbun, aktuaris independen, berdasarkan laporannya masing-masing pada tanggal 7 Januari 2026 dan 16 Januari 2025, yang menggunakan metode "*Projected Unit Credit*".

The Company recorded the employee benefits liabilities as at December 31, 2025 and 2024, based on the actuarial calculation prepared by KKA Tumpal Marbun, an independent actuary, which report dated January 7, 2026 and January 16 , 2025, respectively, using the "Projected Unit Credit" method.

15. LIABILITAS IMBALAN KERJA KARYAWAN (lanjutan) / *15. EMPLOYEE BENEFITS LIABILITY (continued)*

Asumsi-asumsi pokok yang digunakan dalam perhitungan aktuaria tersebut adalah sebagai berikut:

Key assumptions used for actuarial calculation are as follows:

	2025	2024	
Tingkat diskonto	6,76%	7,14%	*Discount rate*
Tingkat kenaikan gaji	6%	5%	*Future salary increases*
Tingkat mortalitas	TMI-2019	TMI-2019	*Mortality rate*
Usia pension	60-65 tahun	60-65 *years*	*Retirement age*
Tingkat kecacatan	5% dari TMI-2019	5% from TMI-2019	*Disability rate*

Analisis yang disajikan dari estimasi liabilitas imbalan kerja sebagai "Liabilitas Imbalan Kerja Karyawan" di laporan posisi keuangan pada tanggal 31 Desember 2025 dan 2024, dan beban imbalan kerja karyawan yang dicatat dalam laporan laba rugi dan penghasilan komprehensif lain untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2025 dan 2024 adalah sebagai berikut:

An analysis of the estimated employee benefits liabilities presented as "Employee Benefits Liability" in the statements of financial position as at December 31, 2025 and 2024, and employee benefits expense as recorded in the statements of profit or loss and other comprehensive income for the years then ended December 31, 2025 and 2024 are as follows:

a. Liabilitas diestimasi atas imbalan kerja karyawan / *a. Estimated liability for employee benefits*

	2025	2024	
Nilai kini liabilitas imbalan kerja	2.146.985.270	2.035.464.169	*Present value of employee benefits obligation*
Liabilitas yang diakui dalam laporan posisi keuangan	**2.146.985.270**	**2.035.464.169**	***Liabilities recognized in the statements of financial position***

b. Beban imbalan kerja karyawan / *b. Employee benefits expense*

Jumlah	**2.000**	**100,00%**	**1.440.000.000**	***Total***

Pengelolaan Modal

Tujuan utama pengelolaan modal Perusahaan adalah untuk memastikan terpeliharanya rasio modal yang sehat untuk mendukung usaha dan memaksimalkan imbalan bagi pemegang saham.

Perusahaan dipersyaratkan oleh Undang-undang Perseroan Terbatas No. 40 Tahun 2007 untuk menyisihkan dan mempertahankan suatu dana cadangan yang tidak boleh didistribusikan sampai dana cadangan tersebut mencapai 20% dari modal saham diterbitkan dan dibayar penuh.

Perusahaan mengelola struktur permodalan dan melakukan penyesuaian berdasarkan perubahan kondisi ekonomi. Untuk memelihara dan menyesuaikan struktur permodalan, Perusahaan dapat menyesuaikan usulan pembayaran dividen kepada pemegang saham, menerbitkan saham baru atau mengusahakan tambahan pendanaan melalui pinjaman.

Tidak ada perubahan atas tujuan, kebijakan maupun proses dalam manajemen modal untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2025 dan 2024.

Kebijakan Perusahaan adalah mempertahankan struktur permodalan yang sehat untuk mengamankan akses terhadap pendanaan pada biaya yang wajar, antara lain dengan memonitor permodalan menggunakan *debt to equity ratio* dan *gearing ratio*.

Capital Management

The primary objective of the Company's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholder value.

The Company is also required by the Limited Liability Company Law No. 40 Year 2007 to contribute and maintain a non-distributable reserve fund until the said reserve reaches 20% of the issued and fully paid share capital.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. In order to maintain and adjust the capital structure, the Company may adjust the proposed dividend payment to shareholders, issue new shares, or raise additional debt financing.

No changes were made in the objectives, policies or processes for managing capital for year ended December 31, 2025 and 2024.

The Company's policy is to maintain a healthy capital structure in order to secure access to finance at a reasonable cost, using debt to equity ratio and gearing ratio.

16. MODAL SAHAM (lanjutan) / *CAPITAL STOCK (continued)*

Dividen Tunai / ***Cash Dividend***

Berdasarkan Rapat Umum Pemegang Saham Tahunan Perseroan yang diadakan pada tanggal 12 Juni 2025, para pemegang saham antara lain, menyetujui pembagian dividen tunai untuk tahun buku 2024 sebesar US$ 1.300.000 setara dengan Rp 21.189.987.000.

Based on the Company's Annual General Meeting of Shareholders held on June 12, 2025, the shareholders, among others, approved the distribution of cash dividends for the 2024 financial year amounting to US$ 1,300,000 or equivalent to Rp 21,189,987,000.

23. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN

Risiko-risiko utama yang timbul dari instrumen keuangan yang dimiliki Perusahaan adalah risiko suku bunga, risiko mata uang asing, risiko kredit dan risiko likuiditas. Kegiatan operasional Perusahaan dijalankan secara berhati-hati dengan mengelola risiko-risiko tersebut agar tidak menimbulkan potensi kerugian bagi Perusahaan.

Manajemen risiko merupakan tanggung jawab Direksi. Direksi bertugas menentukan prinsip dasar kebijakan manajemen risiko Perusahaan secara keseluruhan serta kebijakan pada area tertentu seperti risiko mata uang asing, risiko suku bunga, risiko kredit, dan risiko likuiditas.

Faktor-faktor Risiko Keuangan

Risiko Mata Uang Asing

Risiko nilai tukar mata uang asing adalah risiko bahwa nilai wajar atau arus kas masa depan instrumen keuangan akan berfluktuasi karena perubahan dalam nilai tukar mata uang. Eksposur Perusahaan terhadap fluktuasi nilai tukar mata uang asing, terutama disebabkan oleh penjualan dan pembelian dalam mata uang asing.

23. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The main risks arising from the Company's financial instruments are interest rate risk, foreign exchange risk, credit risk and liquidity risk. The operational activities of the Company are managed in a prudent manner by managing those risks to minimize potential losses.

Risk management is the responsibility of the Board of Directors ("BOD"). The BOD has the responsibility to determine the basic principles of the Company's risk management as well as principles covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, and liquidity risk.

Financial Risk Factors

Foreign Exchange Risk

Foreign exchange rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to exchange rate fluctuations results primarily from foreign currency denominated sales and purchases.

23. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (lanjutan)

23. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Faktor-faktor Risiko Keuangan (lanjutan)

Financial Risk Factors (continued)

Risiko Mata Uang Asing (lanjutan)

Foreign Exchange Risk (continued)

Tabel berikut menjelaskan eksposur Perusahaan atas risiko nilai tukar mata uang asing pada tanggal 31 Desember 2025 dan 2024. Termasuk didalamnya adalah instrumen keuangan Perusahaan pada nilai tercatat, dikategorikan berdasarkan jenis mata uang.

The following table illustrates the Company's exposure to foreign currency exchange rate risk as at December 31, 2025 and 2024. Included in the table are financial instruments of the Company at carrying amounts categorized by currency.

	2025		2024		
	Mata Uang Asing/ *Original Currency*	Equivalent Rupiah/ *Equivalent in Rupiah*	Mata Uang Asing/ *Original Currency*	Equivalent Rupiah/ *Equivalent in Rupiah*	
Aset					***Assets***
Kas dan bank	US$ 2.281.153	37.666.394.452	US$ 2.088.130	33.073.889.115	*Cash on hand and in banks*
Piutang usaha	US$ 532.942	8.799.941.438	US$ 710.988	11.261.333.505	*Trade receivables*
Piutang lain-lain	US$ 626.195	10.441.802.792	US$ 750.945	12.086.459.775	*Other receivables*
Jumlah Aset		**56.908.138.682**		**56.421.682.395**	***Total Assets***

Pada tanggal 31 Desember 2025 dan 2024, dengan semua variable konstan, jika nilai tukar Rupiah menguat/melemah sebesar 1%, laba sebelum pajak untuk tahun yang berakhir pada tanggal 31 Desember 2025 dan 2024 akan lebih tinggi/rendah masing-masing sebesar Rp 569.081.387 dan Rp 564.216.824.

As at December 31, 2025 and 2024, with all other variables constant, if the Rupiah strengthened/weakened by 1% profit before tax for the years ended December 31, 2025 and 2024 would be higher/lower by Rp 569,081,387 and Rp 564,216,824, respectively.

Risiko Suku Bunga

Interest Rate Risk

Risiko suku bunga adalah risiko dimana nilai wajar atau arus kas kontraktual masa datang dari suatu instrumen keuangan akan terpengaruh akibat perubahan suku bunga pasar. Eksposur Perusahaan yang terpengaruh risiko suku bunga terutama terkait dengan piutang lain-lain - pihak berelasi.

Interest rate risk is the risk that the fair value or contractual future cash flows of a financial instruments will be affected due to changes in market interest rates. The Company's exposures to the interest rate risk relates primarily to other receivables - related party.

Pada tanggal 31 Desember 2025 dan 2024, jika suku bunga atas pinjaman lebih tinggi/rendah 1% dan variabel lain dianggap tetap, laba sebelum pajak untuk tahun-tahun yang berakhir pada tanggal tersebut akan lebih rendah/tinggi masing-masing sebesar Rp 5.399.099 dan Rp 6.284.757, terutama sebagai akibat tingginya/rendahnya beban bunga dari pinjaman dengan suku bunga mengambang.

As at December 31, 2025 and 2024, if interest rate on loan increased/decreased by 1% and with all other variables held constant, post-tax profit for the years then ended would have been Rp 5,399,099 and Rp 6,284,757, respectively, lower/higher mainly as a result of higher/lower interest expense on loans with floating rate.

Risiko Kredit

Credit Risk

Risiko kredit adalah risiko bahwa Perusahaan akan mengalami kerugian yang timbul dari pelanggan atau pihak lawan akibat gagal memenuhi kewajiban kontraktualnya. Manajemen berpendapat bahwa tidak terdapat risiko kredit yang terkonsentrasi secara signifikan. Perusahaan mengendalikan risiko kredit dengan cara melakukan hubungan usaha dengan pihak lain yang memiliki kredibilitas, menetapkan kebijakan verifikasi dan otorisasi kredit, serta memantau kolektibilitas piutang secara berkala untuk mengurangi jumlah piutang tak tertagih.

Credit risk is the risk that the Company will incur a loss arising from the customers or counterparties which fail to fulfill their contractual obligations. Management believes that there are no significant concentrations of credit risk. The Company manages and controls the credit risk by dealing only with recognized and credit worthy parties, setting internal policies on verifications and authorizations of credit, and regularly monitoring the collectibility of receivables to reduce the exposure to bad debts.

23. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (lanjutan)

Faktor-faktor Risiko Keuangan (lanjutan)

Risiko Kredit (lanjutan)

Risiko kredit timbul dari kas dan bank, piutang usaha dan piutang lain-lain.

Berdasarkan evaluasi tersebut, pihak manajemen akan menentukan perkiraan jumlah yang tidak dapat ditagih atas piutang tersebut serta menentukan pembentukan akun cadangan kerugian kerugian kredit ekspektasian atas piutang usaha tersebut. Lihat Catatan 6 atas laporan keuangan untuk informasi analisis umur piutang usaha.

Manajemen menempatkan kas dan bank hanya pada bank dan lembaga keuangan yang bereputasi baik dan terpercaya.

Tabel di bawah merinci kualitas kredit aset keuangan Perusahaan serta eksposur maksimum risiko kredit:

23. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Financial Risk Factors (continued)

Credit Risk (continued)

Credit risk arises from cash on hand and in banks, trade receivables and other receivables.

Based on the evaluation, management will determine the estimated uncollectible amount for receivables and determine the establishment of an allowance for expected credit losses on trade receivables. Refer to Note 6 to the financial statements for the information regarding the aging analysis of trade receivables.

Management places cash on hand and in banks only with reputable and reliable banks and financial institutions.

The table below details the credit quality of the Company's financial assets as well as maximum exposure to credit risk:

Risiko Likuiditas

Risiko likuiditas adalah risiko kerugian yang timbul karena Perusahaan tidak memiliki arus kas yang cukup untuk memenuhi liabilitasnya.

Dalam pengelolaan risiko likuiditas, manajemen memantau dan menjaga jumlah kas dan bank yang dianggap memadai untuk membiayai operasional Perusahaan dan untuk mengatasi dampak fluktuasi arus kas. Manajemen juga melakukan evaluasi berkala atas proyeksi arus kas dan arus kas aktual, termasuk jadwal jatuh tempo utang, dan terus menerus melakukan penelaahan pasar keuangan untuk mendapatkan sumber pendanaan yang optimal.

Liquidity Risk

Liquidity risk is a risk arising when the cash flow position of the Company is not enough to cover the liabilities which become due.

In the management of liquidity risk, management monitors and maintains a level of cash on hand and in banks deemed adequate to finance the Company's operations and to mitigate the effects of fluctuation in cash flows. Management also regularly evaluates the projected and actual cash flows, including loan maturity profiles, and continuously assess conditions in the financial markets for opportunities to obtain optimal funding sources.

23. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (lanjutan)

Nilai Wajar Instrumen Keuangan (lanjutan)

Nilai wajar aset dan liabilitas keuangan ditentukan berdasarkan jumlah dimana instrumen tersebut dapat dipertukarkan dalam transaksi kini antara pihak-pihak yang berkeinginan (*willing parties*) dan bukan merupakan pendapatan yang dipaksakan atau likuidasi.

Instrumen keuangan yang disajikan di dalam laporan posisi keuangan dicatat sebesar nilai wajar, atau disajikan dalam jumlah tercatat baik karena jumlah tersebut adalah kurang lebih sebesar nilai wajarnya atau karena nilai wajarnya tidak dapat diukur secara andal.

Metode dan asumsi berikut ini digunakan untuk mengestimasi nilai wajar untuk setiap kelompok instrumen keuangan yang praktis untuk memperkirakan nilai tersebut:

Nilai tercatat dari kas dan bank, piutang usaha, piutang lain-lain, utang usaha, utang lain-lain dan biaya masih harus dibayar mendekati nilai wajarnya karena bersifat jangka pendek.

Nilai tercatat liabilitas sewa diukur sebesar nilai kini dari pembayaran kontraktual *lessor* selama masa sewa, dengan tingkat diskonto yang ditentukan dengan mengacu pada tarif implisit dalam sewa kecuali hal ini tidak dapat segera ditentukan, dalam hal ini, bunga pinjaman inkremental Perusahaan digunakan saat dimulainya sewa.

23. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Fair Value of Financial Instruments (continued)

The fair values of the financial assets and liabilities are determined based on the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation.

Financial instruments presented in the statement of financial postion are carried at fair values, otherwise, they are presented at carrying amounts as either these are reasonable approximation of fair values or their fair values cannot be measured reliably.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value:

The carrying value of cash on hand and in banks, trade receivables, other receivables, trade payables, other payables and accrued expenses approximate their fair values due to their short-term nature.

Lease liabilities are measured at the present value of the contractual payments due to the lessor over the lease term, with the discount rate determined by reference to the rate implicit in the lease unless this is not readily determinable, in which case, the Company's incremental borrowing rate on commencement of the lease is used.

24. IKATAN DAN PERJANJIAN PENTING

***Fee* Manajemen**

Berdasarkan perjanjian "Trademark License Agreement" tanggal 3 Februari 2000 antara Asian Trails Holding Ltd ("ATH") dengan Perusahaan, bahwa ATH telah menyetujui penggunaan merk dagang "Asian Trail" atau "Asian Trails" ("nama") dan atau nama-nama lain, logo dan lain-lain milik ATH dalam nama Perusahaan, nama bisnis dan produk dalam wilayah Republik di Indonesia. Selain itu, di dalam perjanjian tersebut juga telah disepakati bahwa ATH akan memberikan beberapa layanan kepada Perusahaan, yaitu lisensi penggunaan software yang digunakan untuk pembukuan Perusahaan.

Pada tahun 2025 dan 2024, *fee* manajemen yang dicatat oleh Perusahaan masing-masing adalah sebesar Rp 2.616.474.045 dan Rp 3.303.603.586 (Catatan 19 dan 22).

24. KEY COMMITMENTS AND AGREEMENTS

Management Fee

Based on the "Trademark License Agreement" dated February 3, 2000 between Asian Trails Holding Ltd ("ATH") with the Company, that the ATH has approved the use of the trademark "Asian Trail" or "Asian Trails" ("the name") and/ or other names, logos, etc, belonging to ATH in its Company name, business names and products within Republic of Indonesia. In addition, in the agreement it has also been agreed that ATH will provide several services to the Company, namely a license to use software used for the Company's bookkeeping.

In 2025 and 2024, management fees recorded by the Company amounted to Rp 2,616,474,045 and Rp 3,303,603,586, respectively (Notes 19 and 22).

25. REKLASIFIKASI AKUN / *25. RECLASSIFICATION OF ACCOUNTS*

Reklasifikasi tertentu telah dilakukan terhadap laporan keuangan tahun sebelumnya untuk meningkatkan keterbandingan dengan laporan keuangan tahun berjalan.

Certain reclassifications have been made to the prior year's financial statements to enhance comparability with the current year's financial statements.

27. PERISTIWA SETELAH PERIODE PELAPORAN / *27. EVENTS AFTER THE REPORTING PERIOD*

Perkembangan geopolitik di Timur Tengah / *Geopolitical developments in the Middle East*

Setelah tanggal pelaporan, dinamika geopolitik global dan konflik yang terjadi di kawasan Timur Tengah, menyebabkan ketidakpastian geopolitik dan volatilitas di pasar keuangan dan energi global.

Subsequent to the reporting date, shifting global geopolitical dynamics and escalating conflicts in the Middle East have intensified geopolitical uncertainty and volatility across global financial and energy markets.

Manajemen secara aktif memantau perkembangan situasi geopolitik tersebut serta melakukan evaluasi terhadap potensi dampaknya terhadap kegiatan operasional dan kinerja keuangan Perusahaan.

Management actively monitors developments in the geopolitical situation and evaluates the potential impacts on the Company operational activities and financial performance.

27. PERISTIWA SETELAH PERIODE PELAPORAN (lanjutan)

Perkembangan geopolitik di Timur Tengah (lanjutan)

Pada tanggal otorisasi atas laporan keuangan ini, tidak memungkinkan untuk mengestimasi secara andal dampak keuangan yang mungkin timbul akibat potensi eskalasi lanjutan dari konflik tersebut pada laporan keuangan Perusahaan.

Manajemen akan terus memonitor perkembangan terkait konflik ini dan setiap dampak signifikan lebih lanjut, apabila ada, akan diungkapkan dalam pelaporan keuangan Perusahaan pada periode berikutnya.

27. EVENTS AFTER THE REPORTING PERIOD (continued)

Geopolitical developments in the Middle East (continued)

At the date of authorization of these financial statements, it is not possible to reliably estimate the financial impact that further escalation of the conflict may have on the Company financial statements.

Management will continue to monitor the developments of these conflicts, and any further significant impacts, if any, will be disclosed in the Company financial reporting for the subsequent periods.

DIRECTORS' REPORT

The Directors have pleasure in presenting their report together with the audited financial statements of the Company for the financial year ended 31st December 2025.

PRINCIPAL ACTIVITIES

The Company is principally engaged in the business of providing holidays, tours and travel services to overseas and local clientele. There have been no significant changes in the nature of these principal activities during the financial year.

FINANCIAL RESULTS

	RM
Profit for the financial year	10,445

DIVIDENDS

No dividend has been paid, declared or proposed by the Company since the end of the previous financial year. The Directors also do not recommend any dividend for the current financial year.

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the financial year.

ISSUE OF SHARES AND DEBENTURES

The Company has not issued any new shares or debentures during the financial year.

SHARE OPTIONS

No options have been granted by the Company to any parties during the financial year to take up unissued shares of the Company.

No shares have been issued during the financial year by virtue of the exercise of any options to take up unissued shares of the Company. As at the end of the financial year, there were no unissued shares of the Company under options.

DIRECTORS' REPORT (Cont'd)

DIRECTORS IN OFFICE

The following Directors served on the Board since the date of the last report:

Lersan Misitsakul
Laurent Kunzle
Emir Cherif

DIRECTORS' BENEFITS

Since the end of the previous financial year, none of the Directors of the Company has received or become entitled to receive any benefit (other than Directors' remuneration as disclosed in the financial statements) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has substantial financial interest except for:

a) certain Directors who received remuneration from related corporations in their capacities as directors and/or executives of those related corporations; and

b) any deemed benefits which may arise from the related party transactions as disclosed in Note 18 to the financial statements.

Neither during nor at the end of the financial year, was the Company a party to any arrangements whose object is to enable the Directors to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

DIRECTORS' REMUNERATION

The details of Directors' remuneration during the financial year were as follows:

	RM
Salaries, bonuses and allowances	668,619

DIRECTORS' INTEREST

None of the Directors in office at the end of the financial year held or dealt in shares of the Company and its related corporations during the financial year.

DIRECTORS' REPORT (Cont'd)

OTHER STATUTORY INFORMATION

Before the financial statements of the Company were made out, the Directors took reasonable steps:

a) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and have satisfied themselves that all known bad debts had been written off and that adequate provision had been made for doubtful debts; and

b) to ensure that any current assets which were unlikely to realise their book values in the ordinary course of business had been written down to their expected realisable values.

At the date of this report, the Directors are not aware of any circumstances:

a) which would render the amount written off for bad debts or the amount of the provision for doubtful debts in the financial statements of the Company inadequate to any substantial extent; or

b) which would render the values attributed to the current assets in the financial statements of the Company misleading; or

c) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Company misleading or inappropriate; or

d) not otherwise dealt with in this report or financial statements, which would render any amount stated in the financial statements of the Company misleading.

At the date of this report, there does not exist:

a) any charge on the assets of the Company which has arisen since the end of the financial year to secure the liability of any other person; or

b) any contingent liability of the Company which has arisen since the end of the financial year.

No contingent or other liability has become enforceable or is likely to become enforceable within the year of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Company to meet its obligations as and when they fall due.

DIRECTORS' REPORT (Cont'd)

OTHER STATUTORY INFORMATION (cont'd)

In the opinion of the Directors,

a) the results of the Company's operations during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature; and

b) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Company for the financial year in which this report is made.

HOLDING COMPANIES

The immediate holding company of the Company is Asian Trails Holding Ltd, incorporated in Mauritius and the ultimate holding company of the Company is Fairfax Financial Holdings Limited, incorporated in Ontario, Canada.

INDEMNITIES TO DIRECTORS OR OFFICERS

There has been no indemnity given to or insurance effected for any director or officer of the Company during the financial year.

[The remainder of this page is intentionally left blank.]

DIRECTORS' REPORT (Cont'd)

AUDITORS

The auditors, Peter Chong & Co PLT (LLP0037938-LCA & AF 0165), Chartered Accountants, have expressed their willingness to accept re-appointment.

Auditors' remuneration of the Company for the financial year ended 31st December 2025 were as follows:

	RM
Auditors' remuneration	
- current year	23,000
- under provision in prior year	1,000

No payment has been made to indemnify auditors during or since the financial year.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF

ASIAN TRAILS (M) SDN. BHD.

Registration No. 200001012196 (514802-A)
Incorporated in Malaysia

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **ASIAN TRAILS (M) SDN. BHD.**, which comprise the statement of financial position as at 31st December 2025, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies information, as set out on pages 13 to 50.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31st December 2025, and of its financial performance and its cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2 to the financial statements which disclosed the premise upon which the Company has prepared its financial statements by applying the going concern assumption, as at that date, the Company's current liabilities exceeded its current assets by RM5,148,199 and capital deficiency of RM7,899,430, thereby indicating the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

The preparation of the financial statements of the Company on a going concern basis is dependent upon the continuous financial support from its immediate holding company.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF

ASIAN TRAILS (M) SDN. BHD.

Independence and Other Ethical Responsibilities
We are independent of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information Other than the Financial Statements and Auditors' Report Thereon
The Directors of the Company are responsible for the other information. The other information comprises the Directors' Report, but does not include the financial statements of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements
The Directors of the Company are responsible for the preparation of financial statements of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Company that are free from material misstatement, whether due to fraud or error.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF

ASIAN TRAILS (M) SDN. BHD.

Registration No. 200001012196 (514802-A)
Incorporated in Malaysia
(Cont'd)

In preparing the financial statements of the Company, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements of the Company, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matters
This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Total cash outflows for leases		277,497	277,497

The above statement of cash flows is to be read in conjunction with the notes to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31ST DECEMBER 2025

1. GENERAL INFORMATION

The Company is principally engaged in the business of providing holidays, tours and travel services to overseas and local clientele. There have been no significant changes in the nature of these principal activities during the financial year.

The Company is a private limited company, incorporated and domiciled in Malaysia.

The immediate holding company of the Company is Asian Trails Holding Ltd, incorporated in Mauritius and the ultimate holding company of the Company is Fairfax Financial Holdings Limited, incorporated in Ontario, Canada.

The address of the registered office of the Company is SOHO Suites @ KLCC, Block A2, Level 28-3 & 3A, No. 20, Jalan Perak, 50450 Kuala Lumpur.

The principal place of business of the Company is at Suite 7.01, 7th Floor, Wisma Mirama, Jalan Wisma Putra, 50460 Kuala Lumpur.

The Board has authorised the issuance of financial statements on 16 MAR 2026

2. BASIS OF PREPARATION AND MEASUREMENT

The financial statements of the Company have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards ("IFRSs") and the requirements of the Companies Act 2016 in Malaysia.

The financial statements have been prepared on the historical cost basis.

During the financial year, the Company has prepared its financial statements by applying the going concern assumption, as at that date, the Company's current liabilities exceeded its current assets by RM5,148,199 and capital deficiency of RM7,899,430, thereby indicating the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern.

The preparation of the financial statements of the Company on a going concern basis is dependent upon the continuous financial support from immediate holding company.

2. BASIS OF PREPARATION AND MEASUREMENT (cont'd)

The preparation of financial statements in conformity with MFRSs requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. It also requires Directors to exercise their judgement in the process of applying the Company's accounting policies. Although these estimates and judgement are based on Directors' best knowledge of current events and actions, actual results may differ. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

The financial statements are presented in Ringgit Malaysia (RM), which is the Company's functional currency unless otherwise indicated.

The new accounting standards, amendments and improvements to published standards and interpretations that are effective and applicable for the Company's financial year beginning on or after 1st January 2025 are as follows:

(a) Amendments to MFRS 121 "Lack of Exchangeability"

The adoption of amendments to MFRS listed above did not have any impact on the current financial year or any prior financial year and is not likely to affect future financial years.

[The remainder of this page is intentionally left blank]

3. MALAYSIAN FINANCIAL REPORTING STANDARDS ("MFRSs") AND AMENDMENTS TO MFRSs

MFRSs and Amendments to MFRSs which have been issued but not yet effective and relevant to the Company:

MFRSs and Amendments to MFRSs		Effective date
- MFRS 18	Presentation and Disclosure in Financial Statements	1st January 2027
Amendments to:		
- MFRS 7 and MFRS 9	Classification and Measurement of Financial Instruments	1st January 2026
- MFRS 107	Statement of Cash Flows	1st January 2026
- MFRS 121	Translation to a Hyperinflationary Presentation Currency	1st January 2027
Annual Improvements to MFRS Accounting Standards Volume 11		1st January 2026

The Company is in the process of assessing the impact of the new standards and amendments on the financial statements of the Company.

4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the financial statements in conformity with Malaysian Financial Reporting Standards requires Management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the reporting period in which the estimates are revised and in any future reporting periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements.

5. PROPERTY, PLANT AND EQUIPMENT

	Motor vehicles RM	Computers RM	Furniture and fittings RM	Office equipment RM	Renovation RM	Capital work-in-progress RM	Total RM

5. PROPERTY, PLANT AND EQUIPMENT (cont'd)

(a) Material accounting policy information

(i) Recognition and measurement

All items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

(ii) Depreciation

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment from the date that they are available for use.

Capital work-in-progress are not depreciated until the assets are ready for their intended use.

The estimated useful lives for the current and comparative periods are as follows:

	Number of years
Motor vehicles	5
Computers	3
Furniture and fittings	5
Office equipment	5
Renovation	5

[The remainder of this page is intentionally left blank.]

6. RIGHT-OF-USE ASSETS

	2025	2024
Office	**RM**	**RM**
Carrying amounts		
As at 1st January	508,614	239,125
Addition	200,774	516,537

(iii)	Termination option	No	No
(iv)	Restriction imposed	No	No
(v)	Lease term determined by the management	2 - 3 years	2 - 3 years

The maturity analysis of lease liabilities is presented in Note 10.

[The remainder of this page is intentionally left blank.]

7. RECEIVABLES

	2025 RM	2024 RM
Trade receivables	3,196,217	2,188,071
Other receivables	3,821	1,274
Deposits	180,703	177,228
Prepayment	1,380,025	672,139
Amount owing from related companies - trade	1,425,536	2,941,135
	6,186,302	5,979,847

(a) The currency exposure profile of the receivables (exclude prepayment) is as follows (foreign currency balances are unhedged):

	2025 RM	2024 RM
Ringgit Malaysia	1,021,728	1,074,118
Euro	109,564	80,621
Singapore Dollar	645,666	1,901,924
US Dollar	3,029,319	2,251,045
	4,806,277	5,307,708

(b) The Company's normal trade receivables credit periods granted is 30 days (2024: 30 days).

7. RECEIVABLES (cont'd)

(c) The ageing analysis of the Company's trade receivables is as follows:

	2025 RM	2024 RM
Neither past due nor impaired	355,344	246,935
Past due but not impaired		
- 1 to 30 days	1,336,721	1,296,143
- 31 to 60 days	733,662	75,899
- 61 to 90 days	635,060	275,228
- 91 days and above	135,430	293,866
	2,840,873	1,941,136
	3,196,217	2,188,071

(d) Measurement of Expected Credit Loss ("ECL") – simplified approach
The Company applies the MFRS 9 simplified approach to measure ECL which uses a lifetime expected loss allowance for all trade receivables.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics. The expected loss rates are based on historical credit losses experienced by the Company. The historical loss rates are adjusted to reflect current and forward–looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

Amount owing from related companies
The amount owing from related companies is unsecured, interest-free and repayable upon demand. The Company has assessed the allowance for impairment loss for amount owing from related companies on a group basis. As at reporting date, the management is of the view that no allowance is to be recognised.

The related party transactions are disclosed in Note 18.

7. RECEIVABLES (cont'd)

(e) **Measurement of ECL – general 3-stage approach for financial assets other than trade receivables**
Other financial assets include other receivables and deposits.

The Company considers the probability of default upon initial recognition of asset and whether there has been any significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information, where available.

Based on the above, loss allowance is measured on either 12-month ECL or lifetime ECL.

Other receivables
Allowance for impairment loss is assessed for other receivables individually. The estimated impairment loss was immaterial.

Deposits
Deposits mainly represents deposit paid for rental of office premises. The deposit is refundable at the end of the leasing terms or upon termination of agreement. No allowance for impairment loss is recognised.

(f) Other information of receivables is disclosed in the following notes:

(i) Financial instruments – Note 19; and
(ii) Fair value measurement – Note 20.

8. SHARE CAPITAL

	2025 No. of shares	2024 No. of shares	2025 RM	2024 RM
Issued and fully paid:				
Ordinary shares	500,000	500,000	500,000	500,000
Redeemable and convertible preference shares ("RCPS")	5,000,000	5,000,000	5,000,000	5,000,000
	5,500,000	5,500,000	5,500,000	5,500,000

The salient features of the RCPS are as follows:

(a) Holders of the RCPS shall have the same rights as ordinary shareholders as regards receiving notices, reports and audited accounts and attending general meetings of the Company provided always that holders of the RCPS shall not have the right to vote or to move or second any resolutions at any general meeting of the Company except on each of the following circumstances:

- on a proposal to reduce or increase the Company's share capital;
- on a proposal for the disposal of the whole of the Company's property, business and undertaking;
- on a proposal that directly or indirectly varies or affects rights, privileges or conditions attached to the RCPS, or the exercise of any of those rights, privileges or conditions;
- on a proposal to wind up the Company; and
- during the winding up of the Company.

(b) In any such case a holder shall have one vote for each RCPS held. Any holder may demand a poll at a general meeting of the Company on any resolution on which that holder may vote.

(c) Each RCPS shall on a winding-up or upon a reduction of capital or other return capital (other than on the redemption or conversion of the RCPS) rank pari passu with each other and confer on the holder thereof the right to receive a pro rata share of the Company's net assets after the payment and discharge of all debts and liabilities of the Company and the costs of winding up or such capital reduction exercise.

8. SHARE CAPITAL (cont'd)

The salient features of the RCPS are as follows: (cont'd)

(d) The RCPS shall be entitled to receive any dividends out of the profits of the Company and to participate in the profits of the Company at the discretion of the Company.

(e) In the event of winding up or upon reduction of capital beyond such rights as are expressly set out in this Article, an RCPS holder shall be entitled to a pro rata share thereof to participate in the profits or surplus assets of the Company.

(f) The RCPS shall rank pari passu among themselves.

(g) The RCPS in the present capital shall be liable to be redeemed in accordance with the following provisions:

- Subject to the Act, each RCPS shall at the option of the Company be redeemed by payment by the Company in cash to the holder thereof on any date within a period of thirty days from the date of the audited accounts of the Company is accepted by the ordinary shareholders of the Company (the "Redemption Date").

- In the event of the Company determining to redeem a part only of the RCPS those to be redeemed shall be selected by drawings in such manner as the directors shall approve or a rate able proportion (as nearly as practicable without involving fractions of share) of each holding of such shares on the Redemption Date.

- No RCPS shall be redeemed otherwise than out of distributable profits or the proceeds of fresh issue of shares made for the purpose of the redemption, but the premium payable on redemption shall be paid either out of distributable profits or, to the extent permitted by law, out of the share premium account of the Company. All the provisions of the Act relating to the redemption of shares and the creation or increase where requisite of a capital redemption reserve shall be duly observed.

- Upon the Company giving notice of its intention to redeem, the Company will be obliged to redeem the RCPS the subject of the notice, on the Redemption Date as specified in the notice.

8. SHARE CAPITAL (cont'd)

The salient features of the RCPS are as follows: (cont'd)

(g) The RCPS in the present capital shall be liable to be redeemed in accordance with the following provisions: (cont'd)

- Until all the RCPS have been redeemed no further shares may be created and/or issued by the Company ranking in priority to the RCPS unless all the holders consent thereto in writing.

- Until all the RCPS have been redeemed no further shares may be issued ranking in any respect pari passu with the RCPS unless the holders of not less than three-quarters of the redeemable preference shares in each class consent thereto in writing.

- At the option of the RCPS holders and by notification in writing, convertible shares may be converted into ordinary shares.

- Notwithstanding anything to the contrary expressed or implied in these Articles there shall be no restriction on the transfer of RCPS and the directors shall be obliged to register any transfer of any RCPS.

Capital management

The primary objective of the Company's capital management is to ensure that the Company would be able to continue as a going concern while maximising the return to shareholders.

No changes were made in the objectives, policies or processes during the financial years ended 31st December 2025 and 31st December 2024.

9. PAYABLES

	2025 RM	2024 RM

- Non-current	3,286,980	5,410,515
- Current	12,807,243	11,066,939
	16,094,223	16,477,454

(a) The currency exposure profile of the payables are as follows:

	2025 RM	2024 RM
Ringgit Malaysia	5,849,635	4,465,338
Euro	996,602	1,055,920
Singapore Dollar	1,738,569	1,797,098
US Dollar	7,509,417	9,158,074
Indian Rupee	-	1,024
	16,094,223	16,477,454

(b) The normal trade credit periods granted to the Company range from 30 to 90 days (2024: 30 to 90 days) or such other period as negotiated with the suppliers.

(c) The trade amount owing to immediate holding company and related companies are unsecured, interest-free and repayable within the normal credit period.

9. PAYABLES (cont'd)

(d) The non-current portion of amount owing to immediate holding company represents loan financing with interest bearing. The outstanding consideration is repayable after 3 years from year 2025.

(e) The non-trade amount due to related companies is unsecured, interest-free and repayable upon demand.

(f) The related parties transactions are disclosed in Note 18.

(g) Other information of payables is disclosed in the following notes:

(i) Financial instruments – Note 19; and
(ii) Fair value measurement – Note 20.

10. LEASE LIABILITIES

	2025 RM	2024 RM
Non-current	227,081	266,005
Current	251,600	250,397
	478,681	516,402

(a) The incremental borrowing rate applied to the lease liabilities ranges from 4.002% to 4.200% (2024: 4.002%) per annum.

(b) The movements of lease liabilities during the financial year are as follows:

	2025 RM	2024 RM
As at 1st January	516,402	247,387
Addition	200,774	516,537
Interest charged	15,436	14,775
Remeasurement	23,566	-
Payments:		
- Principal	(262,061)	(247,522)
- Interest	(15,436)	(14,775)
As at 31st December	478,681	516,402

10. LEASE LIABILITIES (cont'd)

(c) Lease liabilities obligations:

	2025 RM	2024 RM
Minimum lease payments:		
- Not later than 1 year	265,498	265,498
- Later than 1 year and not later than 5 years	233,395	273,600
	498,893	539,098
Less: Unexpired finance charges	(20,212)	(22,696)
	478,681	516,402
Present value of lease liabilities:		
- Not later than 1 year	251,600	250,397
- Later than 1 year and not later than 5 years	227,081	266,005
	478,681	516,402

(d) There is no expense relating to variable lease payments not included in the measurement of lease liabilities.

(e) The corresponding right-of-use assets of the lease liabilities are as disclosed in Note 6.

11. CONTRACT LIABILITIES

The movement in the contract liabilities during the financial year are as follows:

	2025 RM	2024 RM
As at 1st January	77,971	89,647
Cash received and billing during the financial year	147,243	77,971
Revenue recognised	(77,971)	(89,647)
As at 31st December	147,243	77,971

11. CONTRACT LIABILITIES (cont'd)

(a) Material accounting policy information

The contract liabilities primarily relate to the advance consideration received from customers, for which revenue is recognised upon satisfaction of performance obligation by rendering services.

12. REVENUE

	2025 RM	2024 RM
Revenue from contracts with customers, recognised at point in time		
- Tourism service fee	56,866,501	47,255,816

The following information reflects the typical transactions of the Company:

Nature of services	Timing of recognition or method used to recognise revenue	Significant payment terms	Variable elements in consideration
Tourism service fee	Revenue is recognised upon service rendered.	Credit period is 90 days from invoice date.	N/A

The following table provides information about receivables and contract liabilities from contracts with customers:

	2025 RM	2024 RM
Trade receivables (Note 7)	3,196,217	2,188,071
Contract liabilities (Note 11)	(147,243)	(77,971)

No information provided about the remaining performance obligations at 31st December 2025 and 31st December 2024 that have an original expected duration of one year or less, as allowed by MFRS 15.

13. COST OF SALES

Cost of sales consists of expenses incurred related to purchase or procurement of hotel, transport, flight and other tourism related services.

14. PROFIT FROM OPERATIONS

The following items have been (credited)/ charged in arriving at profit from operations:

	2025 RM	2024 RM
Auditors' remuneration		
- Current year	23,000	22,000
- Under provision in prior year	1,000	-
Bad debts written off	2,920	98,049
Depreciation of property, plant and equipment	168,188	179,003
Depreciation of right-of-use assets	261,672	247,048
Directors' remuneration (Note 18(c))	668,619	630,965
Gain on disposal of property, plant and equipment	(85,489)	-
Loss/ (Gain) on foreign exchange		
- Realised	507,500	628,588
- Unrealised	(611,962)	(267,403)
Loss arising from remeasurement of lease liabilities	911	-
Management fee	849,352	706,421
Rental income	(90,000)	-
Short-term lease:		
- Rental of premises	-	15,200
Staff costs		
- Salaries, allowances, wages and bonuses	6,374,474	5,894,599
- Employees' Provident Fund	579,045	530,641
- Other employee benefits	299,687	326,945
Support service fee	(1,153,028)	(1,954,361)

15. FINANCE COSTS

	2025 RM	2024 RM
Interest charged by immediate holding company	525,594	676,330
Interest in lease liability	15,436	14,775
	541,030	691,105

16. TAXATION

Reconciliation of tax income with accounting profit/ (loss):

	2025 RM	2024 RM
Profit/ (loss) before taxation	10,445	(35,755)
Tax at current income tax rate at 24%	2,507	(8,581)
Tax effects in respect of:		
- Depreciation of non-qualifying property, plant and equipment	3,042	6,715
- Non-allowable expenses	230,032	251,228
- Non-taxable income	(20,057)	-
- Deferred tax liabilities not recognised	(75,799)	-
- Utilisation of deferred tax asset previously not recognised	(139,725)	(249,362)
	-	-

16. TAXATION (cont'd)

The Company has the following potential deferred tax asset which has not been recognised:

	2025 RM	2024 RM
Unused business losses	6,099,000	6,681,000
Right-of-use assets	(470,000)	(509,000)
Lease liabilities	479,000	516,000
Timing difference between accounting depreciation and capital allowance	(59,000)	(87,000)
Unrealised gain on foreign exchange	(612,000)	(267,000)
	5,437,000	6,334,000
Potential deferred tax asset not recognised at 24%	1,305,000	1,520,000

Deferred tax assets have not been recognised as it is not probable that sufficient future taxable profits will be available to offset against the deferred tax assets.

Pursuant to new law gazetted under the Budget 2022, the ability to carry forward unused business losses can be carried forward for a maximum period of ten (10) consecutive Year of Assessment ("YA"), effective YA 2019.

The unused tax losses and unused capital allowances of the Company are available for offsetting against future taxable profits as follows:

	2025 RM	2024 RM
Utilisation period		
Expires by 2030	1,134,000	1,716,000
Expires by 2031	3,092,000	3,092,000
Expires by 2032	1,873,000	1,873,000
	6,099,000	6,681,000

17. CASH AND CASH EQUIVALENTS

	2025 RM	2024 RM
Represented by:		
Cash in hand	2,497	527
Bank balances	1,869,088	2,321,094
	1,871,585	2,321,621

The currency exposure profile of the cash and bank balances are as follows:

	2025 RM	2024 RM
Ringgit Malaysia	1,580,890	767,560
Singapore Dollar	143,644	271,073
US Dollar	134,821	1,065,498
Euro	12,230	217,490
	1,871,585	2,321,621

18. SIGNIFICANT RELATED PARTIES DISCLOSURES

In addition to related party disclosure mentioned elsewhere in the financial statements, set out below are the other significant related party disclosures:

(a) Related parties

Related parties are parties in which one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Company has related party relationships with the following:

(i) Immediate and ultimate holding companies as disclosed in Note 1.

18. SIGNIFICANT RELATED PARTIES DISCLOSURES (cont'd)

(a) Related parties (cont'd)

(ii) Subsidiary companies held by Fairfax Financial Holdings Limited:

Fairbridge Capital Mauritius Limited
Thomas Cook (India) Ltd.
SOTC Travel Limited
Travel Circle International (Mauritius) Limited
Asian Trails Holding Ltd.
Desert Adventures Tourism LLC.

(iii) Subsidiary companies held by Asian Trails Holding Ltd.:

Asian Trails Ltd.
Asian Trails (Cambodia) Ltd.
Asian Trails (Laos) Ltd.
Asian Trails (Vietnam) Co. Ltd.
Asian Trails Tour Ltd.
P.T. Asian Trails Indonesia
Chang Som Ltd.
Asian Trails International Travel Services (Beijing) Ltd.

(b) Related party transactions

In the normal course of business, the Company undertakes on agreed terms and prices, transactions with its related parties as follows:

	2025 RM	2024 RM
Professional fee charged by:		
- Asian Trails Ltd.	904,596	574,579
- Asian Trails Holding Ltd.	825,108	588,343
- Asian Trails (Vietnam) Co. Ltd.	-	18,512
- Asian Trails Tours (Myanmar) Ltd.	80,874	-
Interest expenses charged by:		
- Asian Trails Holding Ltd.	525,594	676,330
Management fee charged by:		
- Asian Trails Holding Ltd.	849,352	706,421

18. SIGNIFICANT RELATED PARTIES DISCLOSURES (cont'd)

(b) Related party transactions (cont'd)

	2025 RM	2024 RM
Sales to related companies:		
- Asian Trails International Travel Services (Beijing) Ltd.	108,924	-
- Asian Trails Ltd.	400,331	312,627
- Asian Trails (Cambodia) Ltd.	4,159	-
- Asian Trails (Laos) Ltd.	4,567	-
- Asian Trails Holding Ltd.	12,302	-
- Asian Trails Singapore Pte. Ltd	233,845	110,112
- Asian Trails Tours Ltd.	6,271	11,597
- Asian Trails (Vietnam) Co. Ltd.	4,480	-
- Australian Tours Mgt Pty. Ltd.	3,750	-
- P.T. Asian Trails Indonesia	4,628	-
- SOTC Travel Limited	2,964,054	4,199,294
- Thomas Cook India Ltd.	6,915,890	6,722,140
Support service fee charged to:		
- Asian Trails International Travel Services (Beijing) Ltd.	-	6,904
- Asian Trails Tour Ltd.	-	6,904
- Asian Trails (Cambodia) Ltd.	-	6,904
- Asian Trails (Laos) Ltd.	-	6,904
- P.T. Asian Trails Indonesia	-	20,793
- Asian Trails (Vietnam) Co. Ltd.	-	20,793
- Asian Trails Ltd.	-	27,705
- Asian Trails Singapore Pte. Ltd	1,153,028	1,857,454

Information regarding outstanding balances arising from related party transactions as at 31st December 2025 and 31st December 2024 are disclosed in Note 7 and Note 9.

18. SIGNIFICANT RELATED PARTIES DISCLOSURES (cont'd)

(c) Compensation of key management personnel

The members of key management are also the Directors of the Company. The key management's remuneration includes fees, salaries, bonuses, allowances and other benefits computed based on the cost incurred by the Company. The Directors did not receive other benefits-in-kind. The key managements' remuneration is as follows:

	2025 RM	2024 RM
Directors' remuneration		
- Salaries, bonuses and allowances	668,619	630,965

19. FINANCIAL INSTRUMENTS

(a) Categories of financial instruments

The table below provides an analysis is of financial instruments categorised as follows:

(i) Financial assets measured at amortised cost ("AC")
(ii) Financial liabilities measured at amortised cost ("FL")

	Carrying amount RM	AC/ (FL) RM
2025		
Financial assets		
Receivables *	4,806,277	4,806,277
Cash and bank balances	1,871,585	1,871,585
	6,677,862	6,677,862
Financial liabilities		
Payables	(16,094,223)	(16,094,223)
Lease liabilities	(478,681)	(478,681)
	(16,572,904)	(16,572,904)

19. FINANCIAL INSTRUMENTS (cont'd)

(a) Categories of financial instruments (cont'd)

	Carrying amount RM	AC/ (FL) RM
2024		
Financial assets		
Receivables *	5,307,708	5,307,708
Cash and bank balances	2,321,621	2,321,621
	7,629,329	7,629,329
Financial liabilities		
Payables	(16,477,454)	(16,477,454)
Lease liabilities	(516,402)	(516,402)
	(16,993,856)	(16,993,856)

* Receivables exclude prepayment as it does not meet the definition of financial instrument.

(b) Net loss arising from financial instruments

	2025 RM	2024 RM
Net loss on:		
Financial assets at amortised cost	2,920	98,049
Financial liabilities at amortised cost	541,941	691,105
	544,861	789,154

19. FINANCIAL INSTRUMENTS (cont'd)

(c) Financial risk management

The Company's financial risk management objective is to ensure that there are adequate financial resources available to meet its operating requirements and managing the associated risks effectively. The Company does not use derivative financial instruments to hedge its risks and trade in financial instruments during the financial year.

The main risks arising from the Company's financial instruments are credit risk, market risk and liquidity risk.

(i) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk mainly from trade receivables, amount owing from related companies, cash and bank balances.

At the end of the reporting period, the maximum exposure to credit risk is represented by the carrying amounts in the statement of financial position.

Analysis of the Company's trade receivables is reflected in Note 7.

Amount owing from related companies

The credit risk arising from amount owing from related companies is managed on a group basis by the management of the Company to ensure that risk of losses incurred by the Company due to non-repayment by related companies is minimal.

At the end of the reporting period, there was no indication that the balance owing from related companies is not recoverable.

Cash and bank balances

Cash and bank balances are placed with banks and financial institutions which are regulated.

19. FINANCIAL INSTRUMENTS (cont'd)

(c) Financial risk management (cont'd)

(ii) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and other prices that will affect the Company's financial position or cash flows.

Foreign currency risk

The Company incurs foreign currency risk on sales and purchases that are denominated in a currency other than Ringgit Malaysia. Foreign currency risk is monitored closely and managed to an acceptable level.

The net carrying amounts of financial assets and financial liabilities stated at currencies other than the functional currencies are as follows:

	2025 RM	2024 RM
Financial assets		
- Receivables	3,784,549	4,233,590
- Cash and bank balances	290,695	1,554,061
	4,075,244	5,787,651
Financial liabilities		
- Payables	10,244,588	12,012,116

5% and 10% (2024: 5% and 10%) weakening of the Malaysian Ringgit ("RM") against the other currencies at the end of the reporting period would have decreased profit net of tax by the amount shown below. This analysis assumes that all other variables, in particular interest rates, remain constant.

19. FINANCIAL INSTRUMENTS (cont'd)

(c) Financial risk management (cont'd)

(ii) Market risk (cont'd)

Foreign currency risk (cont'd)

	Decrease in profit after tax RM	Decrease in equity RM
Effect of changes in RM against foreign currency		
2025		
- Weakened by 5%	(230,947)	(230,947)
- Weakened by 10%	(461,894)	(461,894)
2024		
- Weakened by 5%	(217,881)	(217,881)
- Weakened by 10%	(435,762)	(435,762)

Conversely, a strengthening of RM against the other currencies at the end of the reporting period would have the equal but opposite effect on the above currency to the amounts shown above assuming that all other variables remained constant.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's exposure to liquidity risk arises principally from its payables.

The Company has no policy to ensure the continuity of funding from external source as the immediate holding company will give continuous financial support to the Company.

The table below summarises the maturity profile of the Company's financial liabilities as at the end of the reporting period based on undiscounted contractual payments:

19. FINANCIAL INSTRUMENTS (cont'd)

(c) Financial risk management (cont'd)

(iii) Liquidity risk (cont'd)

	Carrying amount RM	Contractual interest rate/ Discount rate %	Contractual cash flows RM	Under 1 year RM	Between 1 to 2 years RM	Between 3 to 5 years RM
2025						
Payables classified as financial liabilities (Note 19(a))	16,094,223	9.32	16,361,598	12,768,218	1,082,452	2,510,928
Lease liability	478,681	4.002 - 4.200	498,893	265,498	162,297	71,098
	16,572,904		16,860,491	13,033,716	1,244,749	2,582,026
2024						
Payables classified as financial liabilities (Note 19(a))	16,477,454	8.86 - 9.82	17,024,554	11,108,739	1,784,498	4,131,317
Lease liability	516,402	4.002	539,098	265,498	273,600	-
	16,993,856		17,563,652	11,374,237	2,058,098	4,131,317

19. FINANCIAL INSTRUMENTS (cont'd)

(d) Material accounting policy information

(i) Recognition and initial measurement

A financial asset or financial liability is recognised in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or a financial liability is initially measured at fair value, plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at its transaction price.

(ii) Financial instrument categories and subsequent measurement

(a) Financial assets

The Company classifies its financial assets in the following measurement categories:

(i) Financial asset at amortised cost

Subsequent measurement

Amortised cost

Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective interest method ("EIR"). The net carrying amount of the financial assets measured at amortised cost is reduced when there are impairment losses. Any finance income and impairment losses are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

19. FINANCIAL INSTRUMENTS (cont'd)

(d) Material accounting policy information (cont'd)

(ii) Financial instrument categories and subsequent measurement (cont'd)

(b) Financial liabilities

All financial liabilities are recognised initially at fair value and, in the case of loans, borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

After initial recognition, payables, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

20. FAIR VALUE OF ASSETS AND LIABILITIES

(a) Fair values information

The following methods and assumptions are used to determine the fair value of each of the financial assets or liabilities for which it is practicable to estimate their values:

(i) Cash and cash equivalents, other receivables, other payables and amounts owing from/ (to) immediate holding company and related companies

The carrying values of these amounts approximate their fair values due to their short term nature.

(ii) Trade receivables and trade payables

The carrying values of these amounts approximate their fair values because these are subject to normal trade credit terms and their short term nature.

(iii) Amount due to immediate holding company – non-current

The fair value of amount due to immediate holding company which is long term financial liability is estimated based on future contractual cash flows discounted at current market assessments of the time value of money and the risks specific to the liabilities.

20. FAIR VALUE OF ASSETS AND LIABILITIES (cont'd)

(b) Fair value measurement hierarchy

At 31st December 2025 and 31st December 2024, no financial assets and liabilities were carried at fair value.

21. CAPITAL COMMITMENT

Capital commitment at the end of the financial year is as follows:

	2025 RM	2024 RM
Approved and contracted for:		
- Property, plant and equipment	419,218	-

22. CURRENCY

All amounts are stated in Ringgit Malaysia, unless otherwise indicated.

AT LAO COMPANY LIMITED

FOR THE YEAR ENDED 31 DECEMBER 2025
STATEMENT BY THE BOARD OF DIRECTORS

THE BOARD OF DIRECTORS' RESPONSIBILITY IN RESPECT OF THE FINANCIAL STATEMENTS

The Board of Directors are responsible for preparing financial statements of AT Lao Company Limited ("the Company") for each financial year which have been prepared in all material respects, in accordance with the accounting policies set out in Note 2 to the financial statements. In preparing these financial statements, the Board of Directors are required to:

- adopt appropriate accounting policies which are supported by reasonable and prudent judgments and estimates and then apply them consistently;
- maintain adequate accounting records and an effective system of internal controls;
- state whether applicable accounting policies have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on a going concern basis unless it is inappropriate to assume that the Company will continue operations for the foreseeable future; and
- effectively control and direct the Company and be involved in all material decisions affecting the operations and performance of the Company and ascertain that such decisions have been properly reflected in the financial statements.

The Board of Directors are responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the financial position of the Company and for ensuring that the accounting records comply with the principal accounting policies set out in Note 2 to the financial statements. It is also responsible for safeguarding the assets of the Company and thus for taking reasonable steps for the prevention and detection of fraud and other irregularities.

APPROVAL OF THE FINANCIAL STATEMENTS

We hereby approve the accompanying financial statements for the year ended 31 December 2025 which have been prepared, in all material respects, in accordance with the accounting policies set out in Note 2 to the financial statements.

On behalf of the Board of Directors:

Mrs. Phouangsy Phommixay
Finance and Administration Manager
Date: 15 February 2026

PSL Accounting and Audit Services Co.,Ltd
ພີເຊັສແອວ ບໍ່ລິການບັນຊີ - ກວດສອບ ແລະ ການທ່ຽ ຈຳກັດ

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of AT Lao Company Limited (the Company), which comprises the statement of financial position and statement of income for the year ended and as at 31 December 2025 and a summary of significant accounting policies and other explanatory information together the financial statements. The financial statements have been prepared by management of the Company in accordance with the accounting policies.

Management's responsibility for the financial statements

Management is responsible for the preparation of these financial statements in accordance with the accounting policies and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also involves evaluating the appropriateness of accounting polices used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying financial statements are prepared, in all material respect, in accordance with the basis as described in Company's accounting policy.

1. General information

AT LAO CO., LTD is a subsidiary company of the Asian Trails Group that has headquarters office in Bangkok and that financial management is under supervision of Bangkok office.

Asian Trails has commenced its tourist business in Laos in November 2002 by sending tourist group tour to Lao Asian Trails. Due to Lao Asian Trails failed to implement agreement, in 2003 Lao Asian Trails was changed to Asian Trails then had cooperation with Say Nam Houng. From 2003 to 2006, Say Nam Houng tried to obtain a joint venture business license between Asian Trails and Say Nam Houng but was not successful.

In September 2006, Asian Trails changed business partnership from Say Nam Houng to Green Discovery and ran its business under the name of Green Discovery. Green Discovery obtained successfully an application for a joint venture business.

The Company AT LAO CO., LTD. is a joint venture business between Asian Trials and Green Discovery. It was granted an authorization to establish its business in Laos as a Tour Operator with Foreign Investment License dated 23 February 2007 issued by the Ministry of Planning and Investment, Business License No. 0701 dated 01 August 2018 (newly updated since the office location was changed) issued by the Ministry of Industry and Commerce, and Business Operation License (tour company) No. 83 dated 27 December 2017 issued by the Municipal Department of Information, Culture and Tourism, Ministry of Information, Culture and Tourism, Laos, and New Business Operation License (tour company) No. 076 dated 09 May 2025 issued by the Department of Tourism Business Management, Ministry of Information, Culture and Tourism, Laos.

The Company's principle activities are sales of inbound tour packages and provide air tickets to tour groups who come to Laos.

The address of its registered office is Phiawat Village, Setthathirath Road, Sisattanark District, Vientiane Capital, Lao P.D.R.

The financial statements were prepared under the responsibility of the Board of Directors and Managing Director and were authorised for issue by the Board of Directors on 15 February 2026 as below:

1. Mr. Lersan	Misitsankul (LM)	Director, appointed by ATH
2. Mr. Laurent	Kuenzle (LK)	Director, appointed by ATH
3. Mr. Inthy	Deuansavan (ID)	Director (proxy to LK)

2. Significant accounting policies

(a) Basis of preparation

The financial statements, prepared in US Dollars ("USD") have been prepared under the historical cost convention drawn up in accordance with accounting policies prescribed in the related Note 2 of these financial statements.

The accounting principles applied may differ from generally accepted accounting principles adopted in other countries and jurisdictions. The accompanying financial statements are therefore not intended to present the financial position, financial performance in accordance with jurisdictions other than the Lao PDR. Consequently, these financial statements are only addressed to those who are informed about the Company's accounting policies.

2. **Significant accounting policies (Continued)**

The preparation of the financial statements in conformity with the Company's accounting policy requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses in the reported periods. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates.

(b) Foreign currency translation

Items included in the financial statements are measured using US Dollars ("USD"). USD is the currency as widely used by the Company.

Foreign currency transactions are translated into USD using the exchange rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated into USD at the exchange rates prevailing at the statement of financial position date. Gains and losses resulting from the settlement of foreign currency transactions and from the translation of monetary assets and liabilities denominated in foreign currencies are recognised in the income statements.

(c) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, deposits held at call with banks but do not include deposits with banks which are held to maturity, and other short-term highly liquid investments with maturities of three months or less from the date of acquisition.

(d) Trade accounts receivables

Trade accounts receivable are carried at the original invoice amount and subsequently measured at the remaining amount less any allowance for doubtful receivables based on a review of all outstanding amounts at the year end. The amount of the allowance is the difference between the carrying amount of the receivable and the amount expected to be collectible. Bad debts are written off during the year in which they are identified and recognised in the income statement within operating expense.

2. Significant accounting policies (Continued)

(e) Property and equipment

Property and equipment are stated at cost less accumulated depreciation. Depreciation is calculated on the straight-line basis to write off the cost of each asset, to its residual value over the estimated useful life as follows;

The annual rates used for this purpose by category of assets are:

	Years
Installation	10
Furniture	5
PC, Screens, office equipment	5
Vehicles	5

Where the carrying amount of assets is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount.

Repairs and maintenance are charged to the income statement during the financial period in which they are incurred. The cost of major renovation is included in the carrying amount of the assets when it is possible that future economic benefits in excess of the originally assessed standard of performance of the existing assets will flow to the entity. Major renovations are depreciated over the remaining useful life of the related asset.

Gain and losses on disposals are determined by comparing proceeds with the carrying amount and are included in the operating profit.

(f) Intangible asset

Intangible asset represents the right to use the former Accounting software over the period of 5 years. Right is stated at cost less accumulated amortisation which is amortised using the straight-line basis over its useful lives of 5 years.

2. Significant accounting policies (Continued)

(g) Revenue recognition

Revenue is recognised when significant risk and rewards of ownership of the goods or services are transferred to the buyer, which is generally at the time when goods are dispatched or services are rendered to the customer and invoices are issued.

Touring service

Revenue from Touring services are recognised when services have been rendered which generally at delivery acceptance and invoicing.

Other revenues

Other revenues are recognised when services have been rendered which generally at delivery acceptance.

(h) Taxation

The Company does not recognise income taxes payable or receivable in future periods with respect to temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Tax expenses for the year are determined on the basis of the profits of the Company calculated under Lao tax accounting rules.

The Company's tax returns are subject to periodic examination by the tax authorities. Because the application of tax laws and regulations, many types of transactions is susceptible to varying interpretations, amounts reported in the financial statements could be changed at a later date upon final determination by the tax authorities.

2. Significant accounting policies (Continued)

(i) Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the Company, including holding companies, subsidiaries and fellow subsidiaries are related parties of the Company.

(j) Dividends

Dividends are recorded in the company's financial statements in the period in which they are approved by the shareholders.

(k) Comparatives

The comparative information has been reclassified where appropriate to enhance comparability.

3. Cash and cash equivalents

	31 December 2025 USD	31 December 2024 USD

Dear Sirs / Madam,

LETTER OF REPRESENTATION
AUDIT FOR THE YEAR ENDED 31 DECEMBER 2025

This letter of representation is provided in connection with your audit of the financial statements of **Asian Trails Tour Limited** ('the Company') for the year ended 31 December 2025 for the purpose of expressing an opinion as to whether the financial statements comply with the applicable approved reporting standards and give a true and fair view of the state of affairs of the Company as at 31 December 2025 and of the results and cash flows for the year ended on that date.

We acknowledge our responsibility for the preparation and fair presentation of the financial statements as set out in the terms of the audit engagement and in particular, the financial statements are fairly presented in accordance with the reporting standards and that this responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. We approve the financial statements.

We hereby confirm that, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves:

Financial Statements

1. We have fulfilled our responsibilities for the preparation of the financial statements in accordance with reporting standards; in particular, the financial statements give a true and fair view in accordance therewith.

2. The accounting and other records and the registers required to be kept.

3. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.

4. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of the reporting standards.

5. All events subsequent to the date of the financial statements and for which require adjustment or disclosure have been adjusted or disclosed.

6. The effects of uncorrected misstatements are immaterial, both individually and in the aggregate, to the financial statements as a whole.

7. There are no plans or intentions that may materially affect the carrying value of classification of assets and liabilities as shown in the financial statements.

8. The financial statements have been prepared on the basis of the generally accepted fundamental accounting concepts of 'going concern', 'accruals and 'consistency'. No circumstances have arisen which have rendered inappropriate the application of the 'going concern' concept and the continued use of the above-mentioned policies.

9. The financial statements have been prepared using the same policies as those of the previous year other than the changes in policies required by the reporting standards.

10. We have recorded or disclosed, as appropriate, all liabilities, both actual and contingent. There was no financial guarantee given to any third party at the reporting date or subsequent to the reporting date.

11. The entity has satisfactory title to all owned assets and there are no liens or encumbrances on such assets nor has any asset been pledged other than those disclosed in the financial statements.

12. The entity has complied with all aspects of contractual agreements that may have a material effect on the financial statements in the event of non-compliance.

13. There was no material claim or litigation that existed at the reporting date or subsequent to the reporting date.

14. There have been no gain or loss contingencies or other liabilities that are required to be recognised or disclosed in the financial statements, including liabilities or contingencies arising from environmental matters resulting from illegal or possibly illegal acts, or possible violations of human rights legislation.

15. There have been no environmental matters that may have a material impact on the financial statements.

16. The entity has no plans or intentions that materially affect the carrying value or classification of assets and liabilities.

17. Information regarding financial risks exposure and financial risk management objectives and policies has been adequately disclosed in the financial statements. We confirm the accuracy of the statements made in the financial statements relating to the impact of reporting standards and interpretations issued but not yet adopted, judgements, estimates and assumptions made by management that affect the application of policies and reported amounts of assets, liabilities, income and expenses in the financial statements, and that the requirements of the new and revised standards and interpretations that are effective have been complied with.

Information Provided

1. We have provided you with:

   a. access to all information of which we are aware that is relevant to the preparation of the financial statements such as records, documentation and other matters.
   b. access to all minutes of the meetings of all directors, management and shareholders, or summaries of actions of recent meetings for which minutes have not yet been prepared;
   c. additional information that you have requested from us for the purpose of the audit; and
   d. unrestricted access to persons within the entity from whom you determined it necessary to obtain audit evidence.

2. All transactions have been recorded in the accounting records and are reflected in the financial statements.

3. We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.

4. We have disclosed to you all information in relation to fraud or suspected fraud that we are aware of and that affects the entity and involves:

   a. management;
   b. employees who have significant roles in internal control; or
   c. others where the fraud could have a material effect on the financial statements.

5. We have disclosed to you all known instances of non-compliance or suspected non-compliance with laws and regulations, including communications from legal and regulatory authorities, whose effects should be considered when preparing financial statements.

6. We have disclosed to you that we are not aware of any non-compliance with Myanmar Anti-Money Laundering and Counter Financing of Terrorism legislations.

7. We have disclosed to your information relating to our Company background, beneficial owners and politically exposed persons and we confirm that such information disclosed remains true and correct.

8. We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.

Trade receivable

Name of related party	Relationship	Nature of transaction	Amount of transaction $	Amount of balance $

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR ASIAN TRAILS TOUR LIMITED

It is the responsibility of the management to prepare the financial statements which give a true and fair view of the financial position of Asian Trails Tour Limited (the Company) as at 31 December 2025 and the statements of comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes. In preparing these financial statements, the management is required to:

- Select suitable accounting policies and then apply them consistently; and
- Make judgments and estimates that are reasonable and prudent.

The management is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company. We have general responsibility for taking such steps as are reasonably open to us to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

On behalf of Management

INDEPENDENT AUDITOR'S REPORT

To the members of Asian Trails Tour Limited

Report on the Financial Statements

Opinion

We have audited the financial statements of **Asian Trails Tour Limited** ("the Company"), which comprise the statement of financial position as at 31 December 2025 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2025, and its financial performance and its cash flows for the year then ended in accordance with Myanmar Financial Reporting Standards for Small and Medium-sized Entities (MFRSs for SMEs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Myanmar, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with MFRSs for SMEs and the provisions of Myanmar Company Law, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate,

they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes form an integral part of the Financial Statements.

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General information

Asian Trails Tour Limited ("the Company") was incorporated in the Union of Myanmar as a foreign company in the Republic of the Union of Myanmar under The Myanmar Companies Act, as per Certificate of Incorporation No. 31FC of 1999-2000 dated November 10, 1999 issued by the Ministry of National Planning and Economic Development. As per certificate of registration number 106909822, the Company has been re-registered with the new Myanmar Companies Law.

The principal activity of the Company is to operate as travel agency, tour operator, reservation service and related activities.

The equity shares of the Company are currently owned as follows:

Asian Trails Holding Limited	60%
U Min Kun Htaw	40%

The following are the current directors/managers of the Company:

(i)	MR. LAURENT KUENZLE	(Director)
(ii)	MR. LERSAN MISITSAKUL	(Director)
(iii)	MR. SEBASTIAN ALEX MENDONCA	(Director)
(iv)	MS. NAW EH MAY HTOO	(Director)
(v)	MR. MIN KUN HTAW	(Director)

The Company was subsequently issued Tour Business Licence No.Kha – 0740 dated 14 December 1999 by the Ministry of Hotels and Tourism.

The registered office of the Company is 104-B2, Yadanarmyaing Housing, Yadanarmyaing Street, Kamayut Township, Yangon, Myanmar.

2. Summary of significant accounting policies

The principal accounting policies which have been applied consistently throughout the financial years are summarized below:

A. Basis of preparation

The accompanying financial statements have been prepared in accordance with MFRS for SMEs and are based on historical cost convention.

(i) Going concern

As at 31 December 2025, the Company is in a net current liabilities position of USD 2,674,323 (December 2024: USD 2,456,853) and there is a deficit on equity of USD 2,617,136 (December 2024: deficit of USD 2,403,274). The appropriateness of preparing the financial statements of the Company on a going concern basis is dependent on the Company receiving continuing financial support from its holding company.

2. Summary of significant accounting policies (continued)

A. **Basis of preparation** (continued)

(i) Going concern

The holding company, Asian Trails Holding Limited, has confirmed its intention to provide financial support to the Company so as to enable the Company to meet its liabilities as and when they fall due for the next 12 months from the date of the financial statements.

In view of the foregoing, the directors consider that it is appropriate to prepare the financial statements on a going concern basis. Accordingly, the financial statements have not included any adjustments relating to the recoverability and classification of recorded assets amounts or the amounts and classification of liabilities that may be necessary should the Company be unable to continue as a going concern.

B. **Foreign currency translation**

(1) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in United States dollars, which is the functional currency of the Company.

(2) Transactions and balances

Foreign currency transactions are translated into the functional currency at the exchange rate prevailing on the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at monthly-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement.

C. **Use of estimates and judgments**

The preparation of the financial statements in conformity with MFRS for SMEs requires management to make judgments, estimates and assumption that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

2. **Summary of significant accounting policies** (continued)

D. **Property and equipment**

Property and equipment are stated at cost less accumulated depreciation. Depreciation has been charged for assets under straight-line method. Depreciation rates are as follows;

Furniture and fixture	20%
Vehicles (motor cycle)	20%
PC, screens, office machines and installation	20%-33.33%

E. **Cash and cash equivalent**

Cash and cash equivalent comprise cash in hand and deposits with local and foreign banks.

F. **Liabilities**

Liabilities are recorded to the extent that they represent present obligations as a result of events and transactions occurring prior to the end of the fiscal year. The settlement of liabilities will result in sacrifice of economic benefits in the future.

G. **Provisions**

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation; and a reliable estimate of the amount of the obligation can be made.

H. **Revenue**

Revenue from services is recognized when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the Company.

I. **Income tax**

Income tax expense represents the tax based on estimated taxable profit for the year.

J. **Related party**

A party is related to an entity if:
(a) directly, or indirectly through one or more intermediaries, the party:
  (i) controls, is controlled by, or is under common control with, the entity (this includes parents, subsidiaries and fellow subsidiaries);
  (ii) has an interest in the entity that gives it significant influence over the entity; or
  (iii) has joint control over the entity;
(b) the party is an associate of the entity;
(c) the party is a joint venture in which the entity is a venture;
(d) the party is a member of key management personnel of the entity or its parents;
(e) the party is a close member of the family of any individual referred to in (a) or (d);

2. **Summary of significant accounting policies** (continued)

J. **Related party** (continued)

(f) the party is an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (d) or (e); or
(g) the party is a post-employment benefit plan for the benefit of employees of the entity, or if any entity that is a related party of the entity.

K. **Comparatives**

Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current year.

3. **Property and equipment**

Auditor's Report

DSK [2026] No. A06-002

To all shareholders of ASIAN Trails International Travel Services (Beijing) Ltd.,

I. Audit Opinions

We have audited the attached financial statements of ASIAN Trails International Travel Services (Beijing) Ltd. (hereinafter referred to as the Company), including the Balance Sheet as of December 31, 2025, and the Income Statement, the Cash Flow Statement and the Statement of Change in Owners' Equity for the year then ended, and the Notes to Financial Statements.

In our opinions, the attached financial statements have been prepared in accordance with the Accounting System for Business Enterprises in all significant aspects, and have given fair views on the Company's financial position as of December 31, 2025, and the operating results and cash flows for the year then ended.

II. Basis for Forming Audit Opinions

We conducted an audit in accordance with the Chinese Certified Public Accountants Auditing Standards. Our responsibilities under these Standards are further set forth in the Section "CPA's Responsibility for Auditing Financial Statements" hereunder. In accordance with the Code of Ethics for Chinese Certified Public Accountants, we are independent of the Company, and have fulfilled other responsibilities in respect of professional ethics. We believe that the audit evidences we have obtained are sufficient and appropriate to provide a basis for our audit opinions.

Ⅲ. Other information

The Company's management is responsible for other information. Other information includes the information under the annual report, but excludes the financial statements and our auditor's report.

Our audit opinions in respect of the financial statements exclude other information, and we do not express any form of authentication conclusions on other information.

北京东审会计师事务所(特殊普通合伙)

In consideration of our audit on the financial statements, our responsibility is to review other information, and consider whether other information is significantly inconsistent with the financial statements or the circumstances in our knowledge in the audit process, or has material misstatement or not.

Based on our audit, if we confirm that other information has material misstatement,

we shall report such facts. In this respect, we have nothing to report.

IV. Responsibilities of the Management and the Executives on the Financial Statements

The Company's management (hereinafter referred to as the management) is responsible for preparing the financial statements that give fair view in accordance with the Accounting System for Business Enterprises, and designing, executing and maintaining necessary internal control, so that the financial statements are free from material misstatement, whether due to fraud or errors.

In preparation of the financial statements, the management is responsible for evaluating the Company's ability of going concern, disclosing the matters related to going concern (if applicable), and utilizing the going concern assumptions, unless the management plans to liquidate the Company, or terminate operation or does not have any other practical choices.

The executives are responsible for supervising the process of the Company's financial reporting.

V. CPA's Responsibility for Auditing Financial Statements

Our goal is to obtain reasonable assurance as to whether the financial statements in the whole are free from material misstatement, whether due to fraud or errors, and to issue the auditor's report including the audit opinions. The reasonable assurance is at high level, but cannot guarantee that audit in line with the auditing standards will always discover certain material misstatement if any. Misstatement might be caused by fraud or errors. If it is reasonably anticipated that misstatement might independently or together affect the economic decisions made by the users of the financial statements based on the financial statements, then, it is generally assumed that the misstatement is material.

In the course of audit performed in accordance with the auditing standards, we make our professional judgment and maintain the professional skepticism. Meanwhile, we also perform the following work:

(I) To identify and evaluate the material misstatement risks of the financial statements whether due to fraud or errors, design and implement the audit procedures to cope with these risks, and obtain sufficient and appropriate audit evidences as the basis for the audit opinions. As fraud might involve collusion, forging, intentional omission or false statement or overrides the internal control, the risk in failure to discover the material misstatement due to fraud overrides the risk in failure to discover the material misstatement due to errors.

北京东审会计师事务所(特殊普通合伙)

(II) To understand the audit related internal control, in order to design appropriate procedures, but not for the purpose of expressing opinions on the effectiveness of the internal control.

(III) To evaluate the appropriateness of the accounting policies used by the management, and the reasonableness of the accounting estimates and relevant disclosures made by the management.

(IV) To make conclusions on appropriateness of the going concern assumptions used by the management, and make conclusions on material uncertainty of the matters or circumstances that are likely to materially challenge the Company's ability of going concern based on the obtained audit evidences at the same time. If our conclusions hold that there is material uncertainty, the auditing standards require we remind the users of the statements of the relevant disclosures in the financial statements in our auditor's report; if the disclosures are insufficient, we should express unqualified opinions. Our conclusions are based on the information available as of the date of the auditor's report. However, the future matters or circumstances might disqualify the Company from going concern.

(V) To evaluate the overall presentation, structure and contents (including disclosures) of the financial statements, and evaluate whether the financial statements give fair view on the relevant transactions and matters.

We have communicated the planned audit scope, schedule and material audit discoveries with the executives, including the internal control defects that have been identified by us in the course of audit and should be paid attention to.

This audit report shall not be used for securities markets such as listing, bond issuance, and the New Third Board, and shall not be used for investment and financing or performance hedging that requires securities qualifications. The consequences of improper use beyond the scope are not related to the certified public accountants who performed the audit business or the accounting firm.

The company considers 12 months as the standard to classify the liquidity of assets and liabilities.

（IV）Reporting currency

(V) Bookkeeping Base and Pricing Principle

According to related regulations of ASBE, the company's accounting shall be on the accrual basis. Except for certain financial instruments and Investment Propertiess, the financial statement shall adopt historical cost as the measurement basis.

(VI) Recognizing Standard of Cash and Cash Equivalent

The Company cash and cash equivalents include the cash on hand, the Bank balances available for payment at any time, and the Company's short-term (Usually means maturity within three months since the acquisition date), high-liquidity investments that are readily convertible into cash of known amounts and have insignificant risks of change in value.

北京东审会计师事务所（特殊普通合伙）

(VII) Foreign Currency Business and Foreign Currency Statement Translation

1. Foreign Currency Business

At initial recognition of foreign-currency business transaction, bookkeeping shall be made in RMB converted with the spot exchange rate on the occurring date of transaction as the conversion exchange rate.

On balance sheet date, the foreign-currency monetary items shall be converted at the spot exchange rate on balance sheet date, any and all balances of exchange shall be accounted into current profit or loss except for the balance of exchange incurred from the special borrowing in foreign currency related to purchase or construction of assets that meet capitalization conditions.

Any foreign-currency non-monetary items measured in historical cost shall still be converted at the spot exchange rate on transaction occurring date; Any foreign-currency non-monetary item measured in fair value shall be converted at the spot exchange rate on the date of recognizing fair value, the translation difference shall be accounted into current profit or loss or recognized as other comprehensive income.

2. Foreign Currency Financial Statement Translation

The items of assets and liabilities in balance sheet shall be converted at the spot exchange rate on balance sheet date; other items of owner's equities than the item of "Undistributed Profit" shall be converted at the spot exchange rate at occurrence. The items of incomes and expenses in profit statement shall be converted at the spot exchange rate.on transaction occurrence date. The translation difference of foreign-currency financial statements generated from the conversion above shall be accounted into other comprehensive income.

(VIII) Accounts Receivable

The receivables include the accounts receivables and other receivables.

1. Recognition criteria of the bad debt reserves

北京东审会计师事务所（特殊普通合伙）

The Company assesses the carrying amounts of the accounts receivable on the balance sheet date. If there are following objective evidences that the accounts receivable are impaired, the impairment provision is calculated: ①The debtor has serious financial difficulty; ②The debtor violates the contract terms and conditions (e.g. default or overdue payment of interest or principal); ③The debtor is

likely to be closed down or engages in other financial restructuring; ④There are other objective evidences that the accounts receivable are impaired.

2. Calculation method of the bad debt reserves

（1）Calculation method of accounts receivable of significant single amount and single bad debt reserves: the accounts receivable of significant single amount are individually tested for impairment. If there is objective evidence that the accounts receivable are impaired, the bad debt reserves are calculated at the difference between the present value of their future cash flows and their carrying amount.

If the accounts receivable of significant single amount have not been impaired upon separate test, the bad debt reserves are calculated in combination.

（2）Accounts receivable of insignificant single amount and single bad debt reserves

Reasons for single calculation of the bad debt reserves	Accounts receivable involved in proceedings, and worsen client's credit status
Calculation method of the bad debt reserves	The bad debt reserves are calculated at the difference between the present value of their future cash flows and their carrying amount

（3）Accounts receivable whose bad debt reserves are calculated in combination

In respect of the accounts receivable that have not been impaired upon separate test (including accounts receivable of significant and insignificant single amounts), and the accounts receivables that have not been tested separately and have insignificant amount, the bad debt reserves are calculated in the combination of the following credit risk features:

Type of combination	Determination basis of combination	Calculation method of bad debt reserves in combination
Aging combination	Aging status	Aging analysis method

北京东审会计师事务所（特殊普通合伙）

(IV) Long-Term Equity Investment

1. Judging Standard of Control, Joint Control and Major Influence

Control means the power that the investor has over the invested unit, the realizable return entitled through participation in the related activities of the invested unit, and the ability to use its power over

the invested unit to affect the amount of its return. The equity investment of the company can control over the invested unit means the investment to subsidiary

Joint control means the joint control over certain arrangement according to related agreement, and the related activities of such arrangement must go through unanimous consent by the participating parties sharing control before being decided. If the company and other co-operative party jointly impose joint control over the invested unit and are entitled to rights over the net assets of the invested unit, the invested unit shall be the company's co-operative enterprise.

Major influence means the power of participating the decision making over the financial and operating decision making of the invested unit, but it can't control nor jointly control along with other party the formation of such policies. If the company is able to impose major influence on the invested unit, then the invested unit shall be the company's joint operation enterprise.

2. Recognition of Initial Investment Cost

(1) The merging party's shares in the book value of the merged party's owner's equity in the consolidated financial statement of the final controlling party on the date of merger that is formed through merger of enterprises under the same control and with consideration of merger in form of the merging party paying cash, transferring non-cash assets, assuming debts or issuing equity securities shall be its initial investment cost. The difference between the initial investment cost of long-term equity investment and the book value of paid consideration of merger or book value of issued shares shall be used to adjust the capital surplus; if the capital surplus is insufficient for offsetting, the retained earnings shall be adjusted.

(2) If it's formed from merger of enterprises not under the same control, the fair value of paid consideration of merger on the date of purchase shall be its initial investment cost.

北京东审会计师事务所(特殊普通合伙)

(3) Besides the formation through merger of enterprises: if it's obtained by paying cash, its initial investment cost shall be the actually paid price payment; if it's obtained by issuing equity securities, its initial investment cost shall be the fair value of the issued equity securities; if it's obtained by debt restructuring, its initial investment cost shall be recognized according to the "ASBE No.12 – Debt

Restructuring"; if it's obtained by exchange of monetary assets, its initial investment cost shall be recognized according to "ASBE No.7 – Exchange of Non-monetary Assets".

3. Method of Subsequent Measurement and Recognition of Profit or Loss

(1) Accounting of Long-Term Equity Investment

Any long-term equity investment that can implement control over the invested unit shall be accounted in cost method; any long-term equity investment to joint operation enterprise or co-operative enterprise shall be accounted in equity method.

Any investment to subsidiary shall be accounted in cost method; any investment to joint operation enterprise or co-operative enterprise shall be accounted in equity method.

For long-term equity investment accounted in cost method, except for the actually paid price payment at the time of obtaining investment or the announced but not yet distributed cash dividends or profit included in consideration, the cash dividends or profit announced of distribution by the invested unit shall be recognized as investment return and accounted into current profit or loss.

For any long-term equity investment accounted in equity method, if the initial investment cost is higher than the entitled shares of the fair value of the recognizable net assets of the invested unit at the time of investment, the investment cost of long-term equity investment shall not be adjusted; if the initial investment cost is less than the entitled shares of the fair value of the recognizable net assets of the invested unit at the time of investment, the difference shall be accounted into current profit or loss, and the cost of long-term equity investment shall be adjusted.

When adopting equity method for accounting, the investment income and other comprehensive income shall be recognized respectively based on the entitled or assumed shares in the net profit or loss or other comprehensive income realized by the invested unit, and the book value of the long-term equity investment shall be adjusted at the same time; the book value of the long-term equity investment shall be reduced accordingly based on the calculated and entitled part of the profit or cash dividends announced of distribution by the invested unit; for other changes of owner's equity of the invested unit than net profit or loss, other comprehensive income and profit distribution (or "Change of Other

北京东审会计师事务所(特殊普通合伙)

Owner's Equity"), the company shall adjust the book value of long-term equity investment and recognize the capital surplus (other capital surplus).

When recognizing the entitled shares in the invested unit's net profit or loss, other comprehensive income and change of other owner's equities, the invested unit's net profit and other comprehensive income shall be adjusted before recognition on the basis of the fair value of the invested unit's recognizable net assets at the time of investment, and based on the company's accounting policy and accounting period.

The company's obligation to any net loss incurred by co-operative enterprise or joint operation enterprise, besides the assumption of obligation for extra loss, shall be limited to the book value of long-term equity investment as well as other long-term equities essentially constituting net investment to the co-operative enterprise or joint operation enterprise being reduced to zero. If the co-operative enterprise or joint operation enterprise realizes net profit later, the company shall recover recognition of entitled shares of income after using entitled shares of income to cover the unrecognized shares of loss.

(2) Impairment testing method and impairment reserve provisioning method. For the method to provision asset impairment over investments to subsidiary, co-operative enterprise and joint operation enterprise, please refer to notes III (XX) "Impairment of Long-term Assets".

(X) Fixed Asset

Fixed assets refer to the tangible assets that are held for the purposes of commodity production, labor service rendering, lease and operation management, and have useful life of more than one year.

1. Initial measurement of the fixed assets

（1）The costs of the purchased fixed asset include the purchase price, the relevant taxes, and the transportation costs, the handling charges, the installation costs and the professional service fees incurred before the fixed assets are ready for their intended use.

北京东审会计师事务所（特殊普通合伙）

（2）If payment for the purchase price of the fixed assets is delayed beyond the normal credit conditions, and is substantially of financing nature, the costs of the fixed assets are determined at the present value of the purchase price.

（3）The costs of the self-built fixed assets are composed of the necessary expenditures incurred before such assets are ready for their intended use.

（4）As to the fixed assets acquired by the debtors in the debt restructuring for debt repayment, their entry value is determined at their fair value, and the difference between the carrying amounts of the restructured debts and the fair value of such fixed assets for debt repayment is recognized in the current profit and loss.

2. Subsequent measurement of the fixed assets

（1）Depreciation method of the fixed assets: from the next month after the fixed assets are ready for their intended use, the depreciation of the fixed assets is calculated using the **straight-line method** over the useful life. The useful life, estimated net residual value and the annual depreciation rate of the fixed assets are as follows:

Type of asset	Useful life	Residual value rate (%)	Annual depreciation rate (%)
Electronic equipments	3、5	0.00	20.00、33.33
Office furniture	5	0.00	20.00

If the subsequent expenditures of the fixed assets meet the fixed asset recognition conditions, such expenditures shall be recognized in the costs of the fixed assets, and the carrying amounts of the replaced fixed assets shall be deducted at the same time; if the fixed asset recognition conditions are not met, such expenditures shall be recognized in the current profit and loss.

(3) On the balance sheet date, if there's any sign to indicate impairment of fixed assets, the corresponding impairment reserve shall be provisioned based on the difference of book value higher than the recoverable amount. The test method for impairment of fixed assets and the method for the provision for impairment are detailed in Note III (XX) "Impairment of long-term Assets".

北京国富会计师事务所(特殊普通合伙)

3. Disposal of the fixed assets

The proceeds from sale, transfer, retirement or disposal of the fixed assets, net of their carrying amounts and the relevant taxes, are recognized in the Non-operating expensee.

(XI) Right to use assets

1. Recognizing Conditions for Right to use assets

Use right asset means the company's right to use leased assets during the lease period as lessee. The company shall recognize use right asset over lease since the beginning date of lease period. Use right asset shall be recognized when the related economic interest would probably flow in, and the cost can be reliably measured.

2. Initial Measurement of Use Right Asset

Use right asset shall have initial measurement based on cost, such cost shall include:

(1) Initial measurement amount of lease liability;

(2) For any amount of lease payment paid on or before the beginning date of lease period, if there's any lease incentive, the related amount of already entitled lease incentive shall be deducted;

(3) Initial direct expense incurred by the lessee;

(4) The estimated cost to be incurred by the lessee for dismantling and removing lease asset, recovering the site of the lease asset or recovering the lease asset to the state stipulated in the lease terms.

3. Subsequent Measurement of Use Right Asset

(1) The company adopts cost model to make subsequent measurement on use right asset.

(2) The company provisions depreciation on use right asset. If it can be reasonably recognized that the ownership of lease asset can be obtained at expiration of lease period, this company shall provision depreciation during the residual serviceable life of the leased asset. If it can't be reasonably recognized that the ownership of lease asset can be obtained at expiration of lease period, this company shall provision depreciation during whichever shorter between the lease period and the residual serviceable life of the leased asset. The specific depreciation methods of various Right to use assets are as follows:

北京东审会计师事务所(特殊普通合伙)

This company provisions depreciation on Right to use assets based on the Straight-Line Method.

(3) When the company re-measures lease liability based on the present value of lease payment after change, and adjusts the book value use right asset accordingly, if the book value of use right asset has

been reduced to zero, but the lease asset still needs to be further reduced, the residual amount shall be accounted into current profit or loss.

(4) On the balance sheet date, if there's any sign to indicate impairment of Use Right Asset , the corresponding impairment reserve shall be provisioned based on the difference of book value higher than the recoverable amount.

(XII) Depreciation of Long-Term Assets

As to the fixed assets, the Construction in progress, the intangible assets of limited useful life, the Investment properties measured at cost, the long-term equity investments in the subsidiaries, joint venture and associated enterprises, and other non-current non-financial assets, the Company judges whether there is impairment sign on the balance sheet date. If there is impairment sign, then their recoverable amount is estimated, and the impairment test is performed. The goodwill, the intangible assets of indefinite useful life, and the intangible assets that have not been ready for intended use are tested for impairment every year whether there is impairment sign or not.

If the impairment test results indicate that the recoverable amount of the assets is lower than their carrying amounts, the impairment provision is calculated at the resulting difference, and the difference is recognized in the impairment loss. The recoverable amount is the higher of the fair value of an asset net of the disposal expenses, and the present value of the estimated future cash flows of such asset. The fair value of an asset is determined at the price under the sales agreement in the arm's length transaction; if there is no sales agreement but there is active market, the fair value is determined at the purchase price of the buyer of such assets; in absence of both the sales agreement and the active market, the fair value of the asset may be estimated based on the best available information. The disposal expenses include the legal costs, the relevant taxes and the handling costs related to disposal of the assets, and the direct expenses incurred before such asset is ready for its intended use. The present value of the estimated future cash flows of the assets is determined by discounting the estimated future cash flows of the assets in the process of continuous use and final disposal at the appropriate discount rate. The asset impairment provision is calculated and determined based on the single asset. If it is hard to estimate the

北京东审会计师事务所(特殊普通合伙)

recoverable amount of the single asset, the recoverable amount of the asset group in which such asset is incorporated is determined. The asset group is the minimum asset combination that can independently generate cash inflows.

Once the aforesaid asset impairment losses are recognized, the recovered value shall not be reversed during the subsequent periods.

(XIII) Borrowing Cost

1. Recognition principles of the Borrowing costs

Any Borrowing costs incurred by the Company that are directly attributable to acquisition, construction or production of qualifying assets are capitalized and added to the costs of those assets; other Borrowing costs are recognized as expenditures through profit or loss when they arise.

The qualifying assets refer to the fixed assets, Investment properties and inventories that are necessarily take a substantial period of time for acquisition, construction or production activities to get ready for their intended use or sale.

(2) Capitalization period of the Borrowing costs

（1）Commencement of capitalization: when the conditions are met, the interest on the special loans, amortization of the discount or premium and the exchange difference are capitalized: a.The capital expenditures have been incurred; b.The Borrowing costs have been incurred; and c.The necessary acquisition and construction activities to get the assets ready for their intended use have been started.

（2）Suspension of capitalization: if the acquisition and construction activities of the fixed assets are abnormally interrupted, and the interruption exceeds 3 months or more, capitalization of the Borrowing costs is suspended, and is recognized as the current expenses, until the acquisition and construction activities of the assets are restarted.

北京东审会计师事务所（特殊普通合伙）

（3）Stopping of capitalization: when the acquired and constructed fixed assets are ready for their intended use, capitalization of the Borrowing costs is stopped.

3. Determination of the capitalized amount of the loan interest

（1）If the loans are especially used for acquisition, construction or production of the qualifying assets, the capitalized amount shall be determined at the actual interest expenses of the special loans, net of the interest income from deposit of the unused loans in the bank or the investment income from temporary investments of the loans.

（2）If the general loans are used for acquisition, construction or production of the qualifying assets, the Company shall calculate and determine the interest amounts of the general loans that should be capitalized at the product of the excesses of the accumulated asset expenditures over the weighted asset expenditure means of the special loans multiplied by the capitalization rate of the general loans.

4. Disposal of the foreign-currency loans

During the capitalization period, the exchange difference of the principal and interest of the special loans denominated in foreign currencies shall be capitalized. The exchange difference arising from the principal and interest of other foreign-currency loans than the special loans denominated in foreign currencies shall be recognized in the financial expenses through profit or loss.

(XIV) Employee Remuneration

1. Employee remuneration includes short-term pay, post-employment benefits, dismission welfare and other long-term employee benefits.

2. Accounting Treatment Method of Short-Term Compensation

During the accounting period of an employee providing service to company, company shall recognize the actually incurred short-term remuneration as liability, and account it into current profit or loss or related asset cost.

3. Accounting Treatment Method of Post-Employment Benefits

The post-employment benefits are classified into defined contribution plans and defined benefit plans.

北京东审会计师事务所（特殊普通合伙）

(1) During the accounting period when an employee provides service to the company, the payable amount calculated according to defined contribution plans shall be recognized as liability, and accounted into current profit or loss or related asset cost.

(2) The accounting treatment of defined benefit plans usually includes the following steps:

a. Based on the method of estimated accumulative welfare unit, adopt unbiased and consistent actuarial assumption to make estimation about related demographic variables and financial variables, measure the obligations generated from defined benefit plans, and recognize the periods of related obligations. Meanwhile, discount the obligations generated from the defined benefit plans, so as to recognize the present value of defined benefit plans and service cost in current period;

b. If there's any asset in defined benefit plans, the deficit or surplus generated from the present value of defined benefit plans obligation less the fair value of defined benefit plans asset shall be recognized as the net liability or net asset of a defined benefit plan. If there's surplus in a defined benefit plan, measure the net asset of defined benefit plan based on whichever lower between the upper limits of the surplus and asset of defined benefit plan.

c. At the end of period, recognize the employees remuneration cost generated from defined benefit plans into three parts, namely the service cost, the net amount of interest of the net liability or net asset of defined benefit plan, and the changes from re-measurement of the net liability or net asset of defined benefit plans, in which the service cost and the net amount of interest of the net liability or net asset of defined benefit plan shall be accounted into current profit or loss or related asset cost, the changes from re-measurement of the net liability or net asset of defined benefit plans shall be accounted into other comprehensive income, and shall not be allowed to transfer back to the profit or loss in subsequent accounting period, but these amounts recognized in other comprehensive income can be transferred in the scope of equities.

4. Accounting Treatment Method of Dismission Welfare

For the dismission welfare provided to employee, the employee remuneration liability generated from dismission welfare shall be recognized on whichever earlier between the following two options, and accounted into current profit or loss:

北京东审会计师事务所(特殊普通合伙)

(1) When the company is unable to unilaterally withdraw the dismission welfare provided when cancelling labor relation plan or layoff suggestions;

(2) When the company recognizes the cost or expense related to the restructuring involving payment of dismission welfare.

5. Accounting Treatment of Other Long-Term Employee Welfare

For other long-term welfare provided to employees, if meeting the conditions for defined contribution plans, the accounting treatment shall be made according to related regulations on defined contribution plans; other long-term welfares shall have accounting treatment according to related regulations on defined contribution plans, in order to simplify the related accounting treatments, its generated employees remuneration cost shall be recognized as service cost, the total net amount, including the net amount of interest of net liability or net asset of other long-term employees welfare, the changes generated from remeasurement of the net liability or net asset of other long-term employees welfare and other component items, shall be accounted into current profit or loss or related asset cost.

(XV) Lease Liabilities

On the beginning date of lease period, the company shall recognize the use right asset and lease liability over the lease, except for the short-term lease and low-value asset lease that shall have simplified treatment according to related standards.

Lease liabilities shall make initial measurement based on the present value of the lease payment not yet paid on the beginning date of lease period.

Lease payment amount means the payment that the company pays to lessor for the right to use the leased asset during the lease period, including:

1. Fixed payment and substantial fixed payment, if there's any lease incentive, deduct the related amount of lease incentive;

2. Variable lease payment depending on index or ratio, such payment shall be recognized at initial measurement based on the index or ratio on the beginning date of lease period;

北京东审会计师事务所(特殊普通合伙)

3. Executive price of call option, under the precondition that the company is reasonably recognized to execute such option;

4. The payment to be paid for exercising the option of terminating lease, under the precondition

that it's reflected during the lease period that the company will exercise the option of terminating the lease;

5. Estimate the payable amount based on the residual value of the guarantee provided by the company.

When calculating the present value of lease payment, this company adopts the interest rate implicit in lease as the discount rate; if it's unable to recognize the interest rate implicit in lease, the company shall adopt incremental borrowing interest rate as the discount rate.

(XVI) Incomes

1. Income Recognition Principle

On the beginning date of contract, this company shall evaluate contract, identify the various single contract performance obligations contained in the contract, and recognize whether each single contract performance obligation is to be performed during certain time section or performed at certain time point.

If meeting any of the following conditions, it shall be performance of contractual obligation during certain time section, otherwise, it shall be performance of contractual obligation at certain time point:

(1) The customer obtains and consumes the economic interest brought from this company's performance of contract immediately when this company performs the contract;

(2) The customer is able to control the commodity or service in the process of contract performance by this company;

(3) The commodity or service generated from this company's contract performance process has irreplaceable use, and this company has the right to collect payment for the part of accumulatively completed contract performance until present during the entire contract period.

北京东审会计师事务所(特殊普通合伙)

For any contractual obligation performed during certain time section, this company shall recognize income based on the contract performance progress within such time section. If the contract performance progress can't be reasonably recognized, and the already incurred cost is estimated to be compensated, the income shall be recognized based on the amount of already incurred cost, until the

contract performance progress can be reasonably recognized. For any contractual obligation to be performed at certain time point, the income shall be recognized at the time point when the customer obtains the control over the related commodity or service. When judging whether a customer has obtained the control over commodity, this company shall consider the following signs:

(1) The company is entitled to the right to immediately collect payment for the commodity, meaning the customer has the obligation to immediately pay for such commodity;

(2) The company has transferred the legal ownership of such commodity to a customer, meaning the customer already has the legal ownership of such commodity;

(3) The company has transferred the physical commodity to a customer, meaning the customer has physically occupied the commodity;

(4) The company has transferred the main risks and rewards on the commodity to a customer, meaning the customer has obtained the main risks and rewards on the ownership of such commodity;

(5) A customer has accepted the commodity;

(6) Other signs indicating that a customer has obtained the control over the commodity.

2. Income Measurement Principle

(1) This company shall measure income based on the transaction price allocated to each single contractual obligation. Transaction price means the amount of consideration that this company is estimated entitled to receive for transfer of commodity or service to a customer, excluding the payment collected on behalf of a third party and the payment estimated to be refunded to a customer.

(2) If there's any variable consideration in a contract, this company shall recognize the best estimation of variable price based on the expected value or the most likely amount, but the transaction price including variable consideration shall not exceed the amount of already recognized accumulative income is extremely unlikely to have major transfer-back when the related uncertainty has been eliminated.

北京东审会计师事务所(特殊普通合伙)

(3) If a contract contains major financing component, the company shall recognize the transaction price based on the assumed payable amount in cash by the customer when obtaining control over the

commodity or service. The difference between such transaction price and contractual consideration shall be amortized in effective interest method during contractual period. On the beginning date of contract, if the company estimates that the time interval between the time when the customer obtains control over the commodity or service and the time when the customer pays the price doesn't exceed one year, the major financing component existing in contract shall not be considered.

(4) If a contract contains two or more contractual obligations, on the beginning date of contract, this company shall amortize transaction price to each single contractual obligation based on the relative ratio of separate sales price of commodity assumed by each single contractual obligation.

IV. Notes to Change of Important Accounting Policy, Accounting Estimation, Correction of Major Accounting Error

(I) Change in Accounting Policies

The Company has no changes in accounting policy during the reporting period.

(II) Change of Accounting Estimation

The Company has no changes in accounting estimates during the reporting period.

(III) Major Accounting Error

The Company has no material accounting error correction items during the reporting period

V. Taxes

(I) Main Taxes and Tax Rates are Presented as Follows

Tax item	Tax basis	Tax rate
VAT	The output tax shall be calculated on the basis of the sales of goods and taxable labor income calculated according to tax regulation, after deducting the currently deductible input tax, the different part shall be the VAT payable	13%、6%
Urban construction tax	Turnover tax	7%
Educational surtax	Turnover tax	3%
Local educational surtax	Turnover tax	2%

北京东审会计师事务所(特殊普通合伙)

Corporate income tax	Taxable income	25%
Individual income tax	---	---

(II) Preferential Tax Policy

This company didn't apply to the related preferential tax policies.

Auditor's Report

DSK [2026] No. A06-009

To the Shareholders of Atrails Travel Services (Beijing) Co., Ltd.:

I. Audit Opinion

We have audited the financial statements of Atrails Travel Services (Beijing) Co., Ltd. (hereinafter referred to as the "Company"), including the balance sheet as of December 31, 2025, and the income statements, the cash flow statements, and the statements of changes in equity for the year then ended, as well as notes to financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025, and its financial performance and its cash flows for the year then ended in accordance with China Accounting Standards for Business Enterprises.

II. Basis for Opinion

We conducted our audit in accordance with China Standards on Auditing. Our responsibilities under those standards are further described in the Certified Public Accountant's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the China Code of Ethics for Certified Public Accountants, and we have fulfilled other ethical responsibilities. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Ⅲ. Responsibilities of the Management and Those Charged with Governance for the Financial Statements

The Management is responsible for preparing and presenting fairly the financial statements in accordance with China Accounting Standards for Business Enterprises, as well as designing, implementing and maintaining internal control relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

北京东审会计师事务所(特殊普通合伙)

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial

reporting process.

IV. Certified Public Accountant's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with China Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

We applied professional judgment and professional skepticism during conducting audit work in accordance with the Auditing Standards for CPA while performing following works:

(I) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(II) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.

(III) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.

(IV) Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

北京东审会计师事务所(特殊普通合伙)

(V) Evaluate the overall presentation, structure and content of the financial statements, , including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We have communicated with the governance on the matters such as the scope and timing of audit and major audit findings, including the notable defects of internal control identified in our audit.

This audit report is not to be used for any purpose related to securities markets, including but not limited to listing, bond issuance, or the New Third Board. It is also not to be used for investment and financing activities that require securities qualifications, or for performance-based wagering agreements. Any consequences arising from the improper use of this report beyond the specified scope shall not be the responsibility of the certified public accountants involved in this audit or this accounting firm

Atrails Travel Services (Beijing) Co., Ltd.

Notes to Financial Statements

Year 2025

(Unless otherwise especially specified, the amounts are stated in RMB)

I. Company Profile

Atrails Travel Services (Beijing) Co., Ltd. (the "Company") was established on February 26, 2019. Registration Number of Corporate Business License: 91110105MA01HE2K5Q; Registered Address: Room 1160A, 11th Floor, No. 37, Maizidian Street, Chaoyang District, Beijing. Registered Capital: 300,000 yuan; Operation period: February 26, 2019 to no fixed period; Legal Representative: Zhang Xiaolin.

Scope of Business：domestic tourism business; inbound tourism business; economic and trade consultation; tourism information consultation; undertaking exhibition activities; conference services; organizing cultural and artistic exchange activities (excluding performances); import and export of goods, technology and import and export.

II. Basis of Preparation of Financial Statements

(I) Basis for preparation

The financial statements are prepared by the Company on a going concern basis, in accordance with the actual transactions and events occurred. The preparation complies with the Accounting Standards for Business Enterprises (ASBE) system promulgated and amended by the Ministry of Finance of the People's Republic of China, which encompasses the Basic Standards, specific accounting standards, application guidelines, interpretations and other relevant provisions. These financial statements appropriately recognize and measure transactions and events in strict adherence to the ASBE framework, ensuring consistent application of accounting policies with preceding periods.

北京中审会计师事务所（特殊普通合伙）

(II) Assessment of the Company's Going Concern Ability

The financial statements are prepared on a going concern basis. Management has concluded that no material uncertainties exist which may cast significant doubt on the Company's ability to continue as a going concern for the twelve-month period following the reporting date.

III. Significant Accounting Policies and Key Accounting Estimates

(I) Statements on Compliance with the Accounting Standards for Business Enterprises

The financial statements prepared by the Company conform to the requirements of the Accounting Standards for Business Enterprises, and have given true and complete views on the Company's financial position, and other information related to operating results and cash flows of 2025.

(II)Accounting period

The Company's accounting year begins on January 1 and ends on December 31 of every Gregorian calendar year.

(III)Operating cycle

The Company considers 12 months as the standard to classify the liquidity of assets and liabilities.

(IV)Functional currency

The Company's functional currency is Renminbi (CNY)

(V)Basis of accounting and measurement principles

According to related regulations of ASBE, the Company's accounting shall be on the accrual basis. Except for certain financial instruments and Investment Properties, the financial statement shall adopt historical cost as the measurement basis.

(VI)Criteria for determining cash and cash equivalents

Cash presented in the statement of cash flows refers to cash on hand and deposits that are available for immediate payment. Cash equivalents refer to investments held by the enterprise with short - term maturities, high liquidity, easy convertibility into a known amount of cash, and minimal risk of value fluctuation.

(VII)Foreign currency transactions and financial statements translation

1.Foreign currency transactions

北京东审会计师事务所(特殊普通合伙)

Foreign currency transactions are initially recorded in Renminbi (CNY) using the spot exchange rate prevailing on the transaction date.

Monetary items denominated in foreign currencies are retranslated using the spot exchange rate on the

balance sheet date. Exchange differences arising from such translation are recognized in profit or loss, except for those relating to specific foreign currency borrowings used for the acquisition, construction or production of qualifying assets, which are capitalized as part of the asset costs.

Foreign currency non-monetary items measured at historical cost are translated using the spot exchange rate at the transaction date. Those measured at fair value are translated at the rate on the fair value determination date, with differences recognized in profit or loss or other comprehensive income.

2.Translation of foreign currency financial statements

Assets and liabilities in the balance sheet are translated at the closing rate on the balance sheet date, while equity items (excluding Retained Earnings) are translated at the historical rates applicable to their respective transaction dates. Revenue and expenses in the income statement are translated at the average exchange rate for the reporting period or specific transaction date rates where more appropriate. Exchange differences arising from these translations are recognized in other comprehensive income and presented as a separate component of equity until disposal of the foreign operation.

(VIII)**Receivables**

Receivables include accounts receivable and other receivables.

1.Criteria for Recognition of Bad Debt Provisions

The Company reviews the book value of receivables on the balance sheet date and recognizes bad debt provisions when there is objective evidence indicating that the receivables are impaired:

(1) The debtor is experiencing severe financial difficulties;

(2) The debtor has violated contract terms (such as defaulting on interest payments or principal repayments or being overdue);

(3) The debtor is highly likely to go bankrupt or undergo other financial restructuring;

(4) Other objective evidence indicating impairment of receivables.

北京东审会计师事务所(特殊普通合伙)

2.Method for recognizing bad debt provisions

(1) Method for recognizing bad debt provisions for individual amounts that are significant: For receivables with individual amounts that are significant, a separate impairment test is conducted. If there is

objective evidence of impairment, bad debt provisions are recognized based on the difference where the present value of future cash flows is lower than the carrying amount.

Receivables with significant individual amounts that have been individually tested and found not impaired will then be assessed for bad debt provisions on a portfolio basis.

(2) Receivables that are not significant in amount but are recognized individually for bad debt provisions

Reasons for recognizing bad debt provisions individually	Receivables related to litigation and receivables with deteriorating customer credit status
Method for recognizing bad debt provisions	Provision for bad debts based on the present value of future cash flows being lower than their carrying amount

(3) Provision for bad debts for receivables assessed on a portfolio basis

Receivables that have not been impaired after individual testing (including both significant and insignificant amounts) and those that have not been individually tested but are not significant in amount, shall be provisioned for bad debts based on the following credit risk characteristics:

Portfolio type	Basis for determining the portfolio	Provisioning method for bad debts on a portfolio basis
Ageing portfolio	Ageing status	Ageing analysis method

(IX)Right-of-use assets

1.Conditions for recognition of right-of-use assets

A right-of-use asset refers to the right of the company, as a lessee, to use the leased asset during the lease term. The company recognizes the right-of-use asset on the commencement date of the lease. The right-of-use asset is recognized when it is probable that economic benefits will flow to the entity and the cost can be measured reliably.

2. Initial measurement of right-of-use assets

Right-of-use assets are initially measured at cost, which includes:

北京东审会计师事务所（特殊普通合伙）

(1) The initial measurement amount of the lease liability;

(2) Lease payments made on or before the commencement date of the lease, less any lease incentives received;

(3) Initial direct costs incurred by the lessee;

(4) Costs expected to be incurred by the lessee for dismantling and removing the leased asset, restoring the site where the leased asset is located, or returning the leased asset to the condition required by the lease terms.

3. Subsequent measurement of right-of-use assets

(1) The company adopts the cost model for the subsequent measurement of right-of-use assets.

(2) The company depreciates the right-of-use assets. If it can be reasonably determined that ownership of the leased asset will be obtained at the end of the lease term, the company will depreciate the asset over its remaining useful life. If it cannot be reasonably determined whether ownership of the leased asset will be obtained at the end of the lease term, the company will depreciate the asset over the shorter of the lease term or the remaining useful life of the leased asset. The company depreciates the right-of-use assets using the straight-line method, units of production method, double declining balance method, and sum-of-the-years'-digits method.

(3) The company remeasures the lease liabilities at the present value of the adjusted lease payments and correspondingly adjusts the carrying amount of the right-of-use assets. If the carrying amount of the right-of-use asset has been reduced to zero, but the lease liability still needs to be further reduced, the remaining amount will be recognized in the current profit or loss.

(4) At the balance sheet date, if there are indications that the right-of-use asset has been impaired, an impairment provision will be made based on the difference between the carrying amount and the recoverable amount.

(X)Payroll and employee benefits payable

1.Employee compensation includes short-term compensation, post-employment benefits, termination benefits, and other long-term employee benefits.

2.Accounting Treatment of Short-Term Employee Benefits

During the accounting period when employees provide services to the company, the company shall recognize the actually incurred short - term employee benefits as liabilities and record them in the current profit or loss or the cost of related assets.

北京东审会计师事务所(特殊普通合伙)

3. Accounting treatment of post-employment benefits

The post-employment benefits are classified into defined contribution plans and defined benefit plans.

(1) During the accounting period when employees provide services to the Company, the amount payable calculated in accordance with the defined contribution plans shall be recognized as a liability and recorded in the current profit or loss or the cost of related assets.

The accounting treatment of defined benefit plans usually includes the following steps:

1) Based on the projected unit credit method, make unbiased and consistent actuarial assumptions to estimate relevant demographic and financial variables. Measure the obligations arising from the defined benefit plans and determine the periods to which the related obligations belong. At the same time, discount the obligations arising from the defined benefit plans to determine the present value of the defined benefit plan obligations and the current service cost.

2) If there are assets in the defined benefit plan, recognize the deficit or surplus resulting from subtracting the fair value of the defined benefit plan assets from the present value of the defined benefit plan obligations as a net liability or net asset of the defined benefit plan. If there is a surplus in the defined benefit plan, measure the net asset of the defined benefit plan at the lower of the surplus of the defined benefit plan and the asset ceiling.

3) At the end of the period, recognize the employee compensation costs arising from the defined benefit plan as three components: service cost, the net interest on the net defined benefit liability or asset, and the changes arising from the re - measurement of the net defined benefit liability or asset. Among them, the service cost and the net interest on the net defined benefit liability or asset are recognized in the current profit or loss or the cost of related assets. The changes arising from the re - measurement of the net defined benefit liability or asset are recognized in other comprehensive income and are not allowed to be reclassified to profit or loss in subsequent accounting periods. However, the amounts recognized in other comprehensive income can be transferred within the scope of equity.

北京东审会计师事务所（特殊普通合伙）

4.Accounting Treatment of Termination Benefits

For the termination benefits provided to employees, the employee compensation liability arising from

the termination benefits shall be recognized on the earlier of the following two dates and recorded in the current profit or loss:

(1) When the Company is unable to unilaterally withdraw the termination benefits offered under the plan to terminate the labor relationship or the redundancy proposal;

(2) When the Company recognizes the costs or expenses related to the restructuring involving the payment of termination benefits.

5. Accounting Treatment of other long-term employee benefits

For other long - term employee benefits provided to employees, if they meet the conditions for defined contribution plans, accounting treatment shall be carried out in accordance with the relevant regulations of defined contribution plans. For other long - term employee benefits that do not meet the above conditions, accounting treatment shall be carried out in accordance with the relevant regulations of defined benefit plans. To simplify the relevant accounting treatment, the employee compensation cost arising from them shall be recognized as the total net amount of components such as service cost, the net interest on the net liability or net asset of other long - term employee benefits, and the changes arising from the re - measurement of the net liability or net asset of other long - term employee benefits, and this total net amount shall be recognized in the current profit or loss or the cost of related assets.

(XI)Lease liabilities

On the commencement date of the lease term, the Company shall recognize the right - of - use asset and lease liability for the lease, except for short - term leases and low - value asset leases that are subject to simplified treatment in accordance with the relevant standards.

Lease liabilities shall be initially measured at the present value of the lease payments that are not yet paid as of the commencement date of the lease term.

北京东审会计师事务所(特殊普通合伙)

Lease payments refer to the amounts that the Company pays to the lessor in connection with the right to use the leased asset during the lease term, and include:

1. Fixed payments and payments that are in substance fixed, deducting amounts related to lease incentives if applicable;

2. Variable lease payments dependent on an index or rate, determined at the lease commencement date based on the index or rate as of that date;

3. The exercise price of a purchase option, provided the Company reasonably determines to exercise it;

4. Payments for exercising a lease termination option, if the lease term reflects the Company's intent to terminate;

5. Expected payments based on the guaranteed residual value provided by the Company.

When calculating the present value of lease payments, the Company uses the interest rate implicit in the lease as the discount rate. If such rate cannot be determined, the incremental borrowing rate is applied.

(XII) Revenue

1. Revenue recognition principles

On the commencement date of the contract, the Company shall evaluate the contract, identify each individual performance obligation included in the contract, and determine whether each individual performance obligation is to be satisfied over a period of time or at a point in time.

When one of the following conditions is met, the performance obligation is satisfied over a period of time. Otherwise, it is satisfied at a point in time:

(1) The customer simultaneously obtains and consumes the economic benefits brought about by the Company's performance of the obligation while the Company is performing it.

(2) The customer is able to control the goods or services under construction during the Company's performance of the obligation.

(3) The goods or services produced during the Company's performance of the obligation have an irreplaceable use, and the Company has the right to receive payment for the cumulative amount of performance completed to date throughout the entire contract period.

北京东审会计师事务所(特殊普通合伙)

For a performance obligation that is satisfied over a period of time, the Company recognizes revenue over that period in accordance with the progress of the performance. When the progress of the performance cannot be reasonably determined, if the costs already incurred are expected to be recovered, revenue is

recognized in an amount equal to the costs already incurred until the progress of the performance can be reasonably determined. For a performance obligation that is satisfied at a point in time, revenue is recognized at the point in time when the customer obtains control of the related goods or services. When determining whether the customer has obtained control of the goods, the Company considers the following indicators:

(1) The Company has the present right to receive payment for the goods, which means that the customer has the present obligation to pay for the goods.

(2) The Company has transferred the legal title of the goods to the customer, which means that the customer has obtained the legal title of the goods.

(3) The Company has transferred the physical possession of the goods to the customer, which means that the customer has taken physical possession of the goods.

(4) The Company has transferred the significant risks and rewards associated with the ownership of the goods to the customer, which means that the customer has obtained the significant risks and rewards associated with the ownership of the goods.

(5) The customer has accepted the goods.

(6) Other indicators that demonstrate the customer has obtained control of the goods.

2. Revenue measurement principles

(1) The Company measures revenue based on the transaction price allocated to each individual performance obligation. The transaction price is the amount of consideration that the Company expects to be entitled to receive for transferring goods or services to customers, excluding amounts collected on behalf of third parties and amounts expected to be refunded to customers.

(2) If there is variable consideration in a contract, the Company determines the best estimate of the variable consideration using either the expected value or the most likely amount. However, the transaction price including variable consideration shall not exceed the amount for which it is highly probable that there will not be a significant reversal of cumulative revenue recognized when the related uncertainty is subsequently resolved.

北京东审会计师事务所(特殊普通合伙)

(3) If a contract contains a significant financing component, the Company determines the transaction price based on the amount that the customer would pay in cash if the customer paid for the goods or services when obtaining control. The difference between the transaction price and the contract consideration is amortized over the contract period using the effective interest method. At the inception of the contract, if the Company expects that the period between the customer's obtaining control of the goods or services and the customer's payment will be no more than one year, the significant financing component in the contract is not considered.

(4) If a contract contains two or more performance obligations, at the inception of the contract, the Company allocates the transaction price to each individual performance obligation in proportion to the relative stand-alone selling prices of the promised goods or services underlying each performance obligation.

(XIII)Leases

1. Identification of leases

On the commencement date of a contract, the Company shall assess whether the contract is a lease or contains a lease. If one party to the contract conveys the right to control the use of one or more identified assets for a certain period of time in exchange for consideration, then the contract is a lease or contains a lease. To determine whether a contract conveys the right to control the use of an identified asset for a certain period of time, the Company will evaluate whether the customer under the contract has the right to obtain substantially all of the economic benefits arising from the use of the identified asset during the use period, and has the right to direct the use of the identified asset during that use period.

2. Identification of separate leases

If the contract contains multiple separate leases, the company will separate the contract and account for each separate lease individually. The right to use the identified asset constitutes a separate lease in the contract if it meets the following conditions:

北京东审会计师事务所（特殊普通合伙）

(1) The lessee can benefit from using the asset on its own or by combining it with readily available other resources;

(2) There is no high dependency or highly interrelated relationship between the asset and other assets in the contract.

3. Accounting treatment method of the company as the lessee

On the lease commencement date, the company recognizes leases with a lease term of no more than 12 months and without purchase options as short-term leases; leases of individual leased assets that are new and have a lower value are recognized as low-value asset leases. If the company subleases or expects to sublease leased assets, the original lease is not recognized as a low-value asset lease.

For all short-term leases and low-value asset leases, the lease payments shall be recognized as part of the relevant asset costs or recorded in the current period's profit and loss.

Except for the short-term leases and low - value asset leases that are subject to the simplified treatment, on the commencement date of the lease term, the Company shall recognize the right - of - use asset and the lease liability for the lease.

On the lease commencement date, the company recognizes the present value of the unpaid lease payments as a lease liability. When calculating the present value of lease payments, the implicit interest rate in the lease is used as the discount rate; if the implicit interest rate cannot be determined, the company's incremental borrowing rate is used as the discount rate. The difference between the lease payments and their present value is recognized as unrecognized financing costs, and interest expenses are recognized in each period of the lease term at the discount rate used to recognize the present value of lease payments, and included in the current profit and loss. Variable lease payments not included in the measurement of lease liabilities are recognized in the current profit and loss when incurred.

After the commencement date of the lease term, when there is a change in the substantially fixed payment amount, a change in the estimated payable amount of the guaranteed residual value, a change in the index or rate used to determine the lease payments, or a change in the assessment result or actual exercise of the purchase option, renewal option, or termination option, the Company shall re - measure the lease liability based on the present value of the revised lease payments.

北京东审会计师事务所(特殊普通合伙)

4. Accounting treatment method of the company as the lessor

On the lease commencement date, the company classifies leases that substantially transfer almost all risks and rewards related to the ownership of the leased asset as finance leases; all others are classified as operating leases.

(1) Operating leases

During each period of the lease term, the Company shall recognize lease receipts as rental income on a straight-line basis. Any initial direct expenses incurred shall be capitalized and amortized on the same basis as the recognition of rental income, and recognized in the current profit and loss in installments. Variable lease payments related to operating leases that are not included in lease receipts shall be recognized in the current profit and loss when they actually occur.

If there is a modification to an operating lease, the Company shall account for it as a new lease from the effective date of the modification. Any prepaid or receivable lease payments related to the lease before the modification shall be regarded as payments received for the new lease.

(2) Finance lease

On the lease commencement date, the Company shall recognize finance lease receivables based on the net investment in the lease (the sum of the unguaranteed residual value and the present value of lease payments not yet received as of the commencement date, discounted at the implicit interest rate of the lease), and derecognize the finance lease asset. During each period of the lease term, the Company shall calculate and recognize interest income based on the implicit interest rate of the lease.

Any variable lease payments obtained by the Company that are not included in the measurement of the net investment in the lease shall be recorded in the current period's profit and loss when they actually occur.

5.Accounting treatment of lease modifications

(1) The lease modification is accounted for as a separate lease

北京东审会计师事务所（特殊普通合伙）

If a lease is modified and the following conditions are met simultaneously, the Company shall account for the lease modification as a separate lease:

a. The lease modification expands the scope of the lease by adding the right - to - use of one or more

underlying assets;

b. The additional consideration is commensurate with the amount of the standalone price of the expanded part of the lease scope adjusted according to the circumstances of the contract.

(2) The lease modification is not accounted for as a separate lease

① The Company as the lessee

On the effective date of the lease modification, the Company shall re-determine the lease term and use the revised discount rate to discount the modified lease payments for the re-measurement of the lease liability. When calculating the present value of the modified lease payments, the Company shall use the implicit interest rate in the lease for the remaining lease term as the discount rate. If the implicit interest rate in the lease for the remaining lease term cannot be determined, the Company's incremental borrowing rate as of the effective date of the lease modification shall be used as the discount rate.

In respect of the impact of the above - mentioned adjustment to the lease liability, the Company shall conduct accounting treatment according to the following scenarios.

a. If the lease modification results in a reduction of the lease scope or a shortening of the lease term, the Company shall decrease the carrying amount of the right - of - use asset and recognize the related gains or losses from the partial or full termination of the lease in the current period's profit or loss.

b. For other lease modifications, the Company shall adjust the carrying amount of the right - of - use asset accordingly.

② The Company as the Lessor

If a lease modification takes effect on the commencement date of the lease and the lease would be classified as an operating lease, the Company shall account for it as a new lease from the effective date of the lease modification. The net investment in the lease before the effective date of the lease modification shall be regarded as the carrying amount of the leased asset. If a lease modification takes effect on the commencement date of the lease and the lease would be classified as a finance lease, the Company shall conduct accounting treatment in accordance with the provisions of “Accounting Standards for Business Enterprises No. 22 - Recognition and Measurement of Financial Instruments” regarding contract

北京东审会计师事务所（特殊普通合伙）

modification or renegotiation.

6. Sale and Leaseback

If the transfer of assets in a sale and leaseback transaction is deemed a sale, the Company shall measure the right-of-use asset formed from the sale and leaseback based on the portion of the original carrying amount of the asset that is related to the right-of-use obtained from the leaseback. The Company shall recognize the relevant gains or losses only for the rights transferred to the lessor. If the fair value of the consideration for the sale is different from the fair value of the asset, or if the lessor does not charge the rent at the market price, the Company shall account for the amount by which the consideration for the sale is lower than the market price as prepaid rent, and account for the amount by which it is higher than the market price as additional financing provided by the lessor to the lessee. At the same time, the relevant gains or losses from the sale shall be adjusted according to the fair value. If the transfer of assets in a sale and leaseback transaction is not deemed a sale, the Company shall continue to recognize the transferred asset and, at the same time, recognize a financial liability equal to the transfer proceeds.

IV. Explanation of Changes in Important Accounting Policies, Changes in Accounting Estimates, and Correction of Major Accounting Errors

(I) Changes in accounting policies

The Company has no changes in accounting policies during the reporting period

(II) Changes in accounting estimates

The Company has no changes in accounting estimates during the reporting period.

(III) Significant accounting errors

The Company has no material accounting error correction items during the reporting period.

V. Tax matters

(I)Main Taxes and Tax Rates are Presented as Follows

北京东审会计师事务所（特殊普通合伙）

Tax item	Tax basis	Tax rate
Value-added Tax (VAT)	The output tax is calculated on the basis of the income from the sales of goods and taxable services calculated in accordance with tax laws and regulations. After deducting the input tax that is	6%、0%

	allowable to be deducted in the current period, the difference shall be the value-added tax payable.	
Urban maintenance and construction Tax	Turnover tax amount	7%
Education surcharge	Turnover tax amount	3%
Local Education Surcharge	Turnover tax amount	2%
Corporate Income Tax (CIT)	Taxable income	25%
Individual Income Tax	---	---

(II)Preferential Tax Policy

1.Preferential policies for corporate income tax

In accordance with Article 2 of the Notice of the Ministry of Finance and the State Taxation Administration on Implementing Preferential Tax Policies for Small and Micro Enterprises (Cai Shui [2019] No. 13), Article 1 of the Announcement of the Ministry of Finance and the State Taxation Administration No. 13, 2022, Article 3 of the Announcement of the Ministry of Finance and the State Taxation Administration on Tax Incentives for Small and Micro Enterprises and Individual Industrial and Commercial Households (No. 6, 2023), and Article 3 of the Announcement of the Ministry of Finance and the State Taxation Administration on Further Supporting the Development of Small and Micro Enterprises and Individual Industrial and Commercial Households (No. 12, 2023), as well as the provisions of the State Taxation Administration Announcement No. 6, 2023 on Tax Administration Issues Related to the Implementation of Preferential Income Tax Policies for Small and Micro Enterprises, the policy of "reducing the taxable income by 25% for calculation and paying corporate income tax at a 20% tax rate" for small and micro enterprises shall be extended to December 31, 2027.

2.Other preferential tax policies

In accordance with Announcement No. 12 of 2023 of the Ministry of Finance and the State Taxation Administration on Further Supporting the Development of Small and Micro Enterprises and Self-Employed Households with Tax and Fee Policies, from January 1, 2023, to December 31, 2027, the following entities—value-added tax (VAT) small-scale taxpayers, small and micro enterprises (as defined under corporate income tax regulations), and self-employed households—shall be subject to a halved levy on the

北京市审计师事务所(特殊普通合伙)

following taxes and surcharges:

- Resource tax (excluding water resource tax),
- Urban maintenance and construction tax,
- Property tax,
- Urban land use tax,
- Stamp duty (excluding securities transaction stamp duty),
- Cultivated land occupation tax,
- Education surcharge,
- Local education surcharge.

Annual Report - 31 December 2025

Kuoni Australia Holding Pty Ltd
Directors' report
31 December 2025

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Kuoni Australia Holding Pty Ltd (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the year ended 31 December 2025.

Directors
The following persons were directors of Kuoni Australia Holding Pty Ltd during the whole of the financial year and up to the date of this report, unless otherwise stated:

Mahesh Chandran Iyer
Laurent Kuenzle
Hong Wah Cheong
Sebastian Alex Mendonca

Principal activities
The principal activity of the company during the financial year was investment holding of Australian Tours Management Pty Ltd. The company did not generate revenue during the year.

There has been no significant change in the nature of the entity’s principal activity during the year.

The principal activities of Australian Tours Management Pty Ltd during the financial year were managing and co-ordinating tours. No significant change in the nature of this activity occurred during the year.

Review of operations
The loss for the consolidated entity after providing for income tax amounted to $487,163 (31 December 2024: $1,114,988).

Significant changes in the state of affairs
There were no significant changes in the state of affairs of the consolidated entity during the financial year.

Matters subsequent to the end of the financial year
No matter or circumstance has arisen since 31 December 2025 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Likely developments and expected results of operations
The company expect to maintain the present status and level of operations and hence there are no likely developments in the operations in future financial years.

Environmental regulation
The company operations are not regulated by any significant environmental regulation under a law of the Commonwealth or of a State or Territory.

Shares under options
There were no unissued ordinary shares of the company under option outstanding at the date of this report.

Dividends
No dividends were paid or declared during the financial year. No recommendation for payment of dividends has been made.

Indemnification and insurance of auditor
The company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

Proceedings on behalf of the company
No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

Kuoni Australia Holding Pty Ltd
Directors' report
31 December 2025

Auditor's independence declaration
A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

The above statement of cash flows should be read in conjunction with the accompanying notes

Note 1. Material accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted
The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of preparation
These consolidated general purpose financial statements have been prepared in accordance with the Australian Accounting Standards - Simplified Disclosures issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities.

Historical cost convention
The financial statements have been prepared under the historical cost convention.

Critical accounting estimates
The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

Principles of consolidation
The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Kuoni Australia Holding Pty Ltd ('company' or 'parent entity') as at 31 December 2025 and the results of all subsidiaries for the year then ended. Kuoni Australia Holding Pty Ltd and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Note 1. Material accounting policies (continued)

Comparative information
The comparatives used in this financial report are taken from the financial report dated and approved by the directors on 30 May 2025. Where required by Accounting standards, comparative information has been adjusted/reclassified to conform changes in presentation for the current financial year disclosures.

Revenue recognition
The consolidated entity recognises revenue as follows:

Sales revenue
The company renders a wide range of travel services. The revenue from rendering these services is recognised in the statement of comprehensive income at the time when the significant risks and rewards are transferred to the customers. In the case of destination management activities, this is generally on the date of arrival.

Revenue comprises net sales revenues from the tour operating business (after deduction of sales taxes, goods and services tax, discounts and commissions).

Unconditional payments due from customers for satisfied performance obligations are recorded as sales receivables within other assets on the Statement of Financial Position. Customer prepayments are recorded as deferred revenue within accounts payable and accrued liabilities on Statement of Financial Position and are not recognised as revenue until the provision of services occurs. Certain contracts include multiple deliverables which are accounted for as separate performance obligations, with the transaction price allocated among the performance obligations based on their individual selling prices.

Income tax
The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognized from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at the end of the reporting period. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences are recognized only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entity where it is intended that net settlement or simultaneous realization and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Note 1. Material accounting policies (continued)

Tax Consolidation

Kuoni Australia Holding Pty Ltd and its controlled entities have formed an income tax consolidated group under Australian tax consolidation legislation. Kuoni Australia Holding Pty Ltd, the parent entity is responsible for recognising the current tax liabilities and deferred tax assets arising in respect of tax losses to the extent that they are recoverable, for the tax consolidated group. The tax consolidated group has also entered a tax funding agreement whereby each company in the group contributes to the income tax payable in proportion to their contribution to the net profit before tax of the tax consolidated group.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The consolidated entity has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Trade and other payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Contract liabilities

Contract liabilities represent the consolidated entity's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the consolidated entity recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the consolidated entity has transferred the goods or services to the customer.

Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Note 1. Material accounting policies (continued)

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Allowance for expected credit losses
The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience and historical collection rates.

Income tax
The consolidated entity is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The consolidated entity recognises liabilities for anticipated tax audit issues based on the consolidated entity's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Recovery of deferred tax assets
Deferred tax assets are recognised for deductible temporary differences only if the company considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Note 3. Revenue

	Consolidated	
	2025	**2024**
	$	**$**
Sales - external parties	13,901,716	7,758,440
Sales - related parties	6,731,109	4,726,123
	20,632,825	12,484,563

The Company operates in only one geographical region being Australia.

Note 4. Income tax expense

	Consolidated 2025 $	Consolidated 2024 $
Numerical reconciliation of income tax expense and tax at the statutory rate		
Loss before income tax expense	(487,163)	(1,114,988)
Tax at the statutory tax rate of 30%	(146,149)	(334,496)
Tax effect amounts which are not deductible/(taxable) in calculating taxable income:		
Other deductible expenses	(69,954)	(65,350)

Note 16. Events after the reporting period

No matter or circumstance has arisen since 31 December 2025 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Note 17. Economic Dependency

As at 31 December 2025 the consolidated entity incurred a net loss after tax of $565,110 and had net current liabilities totalling $12,712,417 which included amounts payable, secured by or guaranteed by related entities ultimately controlled by Fairfax Financial Holdings Limited totalling $8,763,245. These conditions highlight that there is a material uncertainty that may cast significant doubt on the company's ability to continue as a going concern due to the continued trading losses and operating cash outflows. The continued economic support of the company from its ultimate parent entity is a fundamental element of the capacity of the company to meet its debts as and when they fall due and therefore a significant decision of the directors in preparing the financial report on a going concern basis.

The company has received a commitment of continuous financial support from the parent company, Travel Circle International (Mauritius) Limited. This commitment of financial support is given on the basis that Travel Circle International (Mauritius) Limited controls the ownership of the company and that the company will continue to be economically dependent upon of Travel Circle International (Mauritius) Limited for its financial and operational stability. In addition, the directors have reviewed the quarterly cash flow forecast, which indicates that the consolidated entity will have sufficient cash flows to meet its obligations as and when they fall due until 30 June 2026.

Whilst the Directors have every confidence in the above, should this support from the parent company be withdrawn and the cash flow forecast not be completed as anticipated whether the entity is able to continue as a going concern and therefore realise its assets and discharge its liabilities in the normal course of business, is uncertain.

Kuoni Australia Holding Pty Ltd
Directors' declaration
31 December 2025

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Australian Accounting Standards - Simplified Disclosures, the Corporations Regulations 2001 and other mandatory professional reporting requirements;

- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 31 December 2025 and of its performance for the financial year ended on that date; and

- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the directors

Hong Wah Cheong
Director

Laurent Kuenzle

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF KUONI AUSTRALIA HOLDING PTY LTD

Opinion

We have audited the financial report of Kuoni Australia Holding Pty Ltd ("Company") and its controlled entity, Australian Tour Management Pty Ltd (collectively, "consolidated entity") which comprises the consolidated statement of financial position as at 31 December 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the consolidated entity, is in accordance with the *Corporations Act* 2001, including:

a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2025 and of its financial performance for the year then ended; and
b) complying with Australian Accounting Standards to the extent described in Note 1 and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act* 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the entity, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 17 in the financial report, which indicates that for the year ended 31 December 2025 the consolidated entity incurred a net loss after tax of $565,110 and had net current liabilities totalling $12,712,417 which included amounts payable, secured by or guaranteed by related entities ultimately controlled by Fairfax Financial Holdings Limited totalling $8,763,245. These conditions highlight that there is a material uncertainty that may cast significant doubt on the company's ability to continue as a going concern due to the continued trading losses and operating cash outflows. The continued economic support of the company from its ultimate parent entity is a fundamental element of the capacity of the company to meet its debts as and when they fall due and therefore a significant decision of the directors in preparing the financial report on a going concern basis.

The company has received a commitment of continuous financial support from the parent company, Travel Circle International (Mauritius) Limited. This commitment of financial support is given on the basis that Travel Circle International (Mauritius) Limited controls the ownership of the company and that the company will continue to be economically dependent upon of Travel Circle International (Mauritius) Limited for its financial and operational stability. In addition, the directors have reviewed the quarterly cash flow forecast, which indicates that the consolidated entity will have sufficient cash flows to meet its obligations as and when they fall due until 30 June 2026.

Whilst the Directors have every confidence in the above, should this support from the parent company be withdrawn and the cash flow forecast not be completed as anticipated whether the entity is able to continue as a going concern and therefore realise its assets and discharge its liabilities in the normal course of business, is uncertain.

Our opinion is not modified in respect of these matters.

Other Matter

The financial report of Kuoni Australia Holding Pty Ltd, for the year ended 31 December 2024 was audited by another auditor who expressed an unmodified opinion on that report on 30 May 2025.

Responsibilities of the directors for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view and have determined that the basis of preparation described in Note 1 to the financial report is appropriate to meet the requirements of the Corporations Act 2001 and is appropriate to meet the needs of the members. The directors' responsibility also includes such internal control as the directors determine is necessary to enable the preparation of a financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the entity or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/Home.aspx. This description forms part of our auditor's report.

Independent Auditor's Report

To the Shareholders of Asian Trails Ltd.

Opinion

I have audited the financial statements of Asian Trails Ltd. (the "Company"), which comprise the statement of financial position as at 31 March 2026, the statements of income and changes in capital deficiency for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2026 and its financial performance for the year then ended in accordance with the Thai Financial Reporting Standard for Non-Publicly Accountable Entities (TFRS for NPAEs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Company in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that is relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRS for NPAEs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

KPMG Phoomchai Audit Ltd., a Thai limited liability company and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements and were approved and authorised for issue by the directors on 24 June 2026.

1 General information

Asian Trails Ltd., the "Company", is incorporated in Thailand and has its registered office at no. 183 Regent House Building, 12th Floor, Rajdamri Road, Lumpini Sub-district, Pathumwan Distrrict, Bangkok. The principal activity of the Company is tour operating services, both inbound and outbound services.

The immediate and ultimate parent companies during the financial year were Asian Trails Holding Ltd. and Thomas Cook (India) Limited, which are incorporated in Republic of Mauritius and India, respectively.

2 Basis of preparation of the financial statements

The financial statements are prepared in accordance with Thai Financial Reporting Standard for Non-Publicly Accountable Entities (Revised B.E. 2565) ('TFRS for NPAEs'), which promulgated by the Federation of Accounting Professions (TFAC)

In addition, the Company has applied the following Thai Financial Reporting Standard for Publicly Accountable Entities (TFRS for PAEs).

TFRS	Topic
TAS 12	Income Taxes

The financial statements are prepared and presented in Thai Baht. Accounting policies disclosed in note 3 are applied consistently to all periods presented in these financial statements.

The preparation of financial statements in conformity with TFRS for NPAEs requires management to make judgements, estimates and assumptions that affect the application of the Company's accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Use of going concern basis of accounting

For the year ended 31 March 2026, the Company incurred a net loss of Baht 48.51 million *(for the year ended 31 March 2025: net loss of Baht 40.00 million)* and, as of that date, the Company's current liabilities exceeded its current assets by Baht 299.23 million *(2025: Baht 236.44 million)* and the Company had deficit of Baht 557.83 million *(2025: Baht 509.33 million)* and capital deficiency as of that date of Baht 531.43 million *(2025: Baht 482.93 million)*. Such circumstances indicate the existence of an uncertainty which may cast doubt about the Company's ability to continue as a going concern.

However, the financial statements have been prepared assuming the Company will continue on a going concern basis because the immediate parent company has provided a formal undertaking to provide financial support to enable the Company to continue its operations and to meet its liabilities as they fall due for at least 12 months from the reporting date. Accordingly, the financial statements do not include any adjustments relating to the recoverability and classification of recorded assets amounts or the classification of the recorded liabilities amounts that might be necessary should the Company be unable to continue its operations as a going concern.

3 Significant accounting policies

(a) Foreign currency

Transactions in foreign currencies including non-monetary assets and liabilities denominated in foreign currencies are translated to Thai Baht at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies, are translated at the exchange rate at the reporting date.

Foreign currency differences are recognised in the statement of income.

(b) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and demand deposits.

(c) Trade and other current receivables

Trade and other current receivables measured at invoice value less allowance for doubtful accounts.

The allowance for doubtful accounts is assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred. Bad debts recovered are recognised in other income in the statement of income.

(d) Investment

Investment in subsidiaries

Investment in subsidiaries are measured at cost less loss on decline in value.

(e) Leasehold improvements and equipment

Leasehold improvements and equipment are measured at cost less accumulated depreciation and losses on decline in value.

Cost includes expenditure that is directly attributable to the acquisition of the asset and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Differences between the proceeds from disposal and the carrying amount of leasehold improvements and equipment are recognised in the statement of income.

Leased assets

Assets which the Company leases and substantially assumes all the risk and rewards of ownership are classified as finance leases and recognised as leasehold improvements and equipment at the lower of its fair value and the present value of the minimum lease payments, plus initial direct costs, less accumulated depreciation and losses on decline in value. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to the statement of income.

Subsequent costs

The cost of replacing a part of an item of leasehold improvements and equipment is recognised in the carrying amount of the item when the future economic benefits embodied within the part will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of leasehold improvements and equipment are recognised in the statement of income as incurred.

Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful life of each component of an asset and recognised in the statement of income. The estimated useful lives are as follows:

Leasehold improvements	10 years
Furniture, fixtures and office equipment	3 and 5 years
Vehicles	5 years

(f) Intangible assets

Intangible assets are measured at cost less accumulated amortisation and loss on decline in value.

Amortisation is calculated on a straight-line basis over the estimated useful lives of intangible assets and recognised in the statements of income. The estimated useful lives are as follow:

Computer software	3 years

(g) Losses on decline in value

The carrying amounts of the Company's assets are reviewed at each reporting date to determine whether there is any indication of a permanent decline in value. If any such indication exists, the assets' recoverable amounts are estimated. A loss on decline in value is recognised if the carrying amount of an asset exceeds its recoverable amount. The loss on decline in value is recognised in the statement of income.

(h) Interest-bearing liabilities

Interest-bearing liabilities are measured initially at fair value less attributable transaction charges and subsequently at amortised cost. Differences between cost and redemption value is amortised using the effective interest rate method over the term of the borrowings.

(i) Trade and other current payables

Trade and other current payables are stated at cost.

(j) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate method.

Provision for employee benefits

Provision for employee benefits are recognised using the best estimate method at the reporting date. The Company derecognises the provision when actual payment is made.

(k) Revenue

Revenue excludes value added taxes and is arrived at after deduction of trade discounts.

Sale of goods and rendering of services

Revenue from sale of ticket is recognised when the significant risks and rewards of ownership have been transferred to the buyer.

Revenue from tour operating is recognised as services are provided.

Interest income

Interest income is recognised using the effective interest method.

(l) Operating leases

Payments made under operating leases are recognised on a straight-line basis over the term of the lease.

(m) Finance costs

Interest expenses, the interest component of finance lease payments and similar costs are recognised using the effective interest rate method.

(n) Income tax

Income tax expense for the year comprises current and deferred tax, which is recognised in the statement of income.

Current tax is recognised in respect of the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination or at the time of the transaction (i) affects neither accounting nor taxable profit or loss and (ii) does not give rise to equal taxable and deductible temporary differences.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Current deferred tax assets and liabilities are offset in the financial statements.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

4 Trade and other current receivables

Financial position and business results

The financial position as of Asian Trails Co., Ltd, the business results and the cash flows for the year then ended of the company have been expressed in the financial statements attached to this report (from page 04 to page 14).

Current assets

At the date of this report, the Directors are not aware of any circumstances, which would render the values attributed to current assets in the financial statements as misleading.

Contingent liabilities

At the date of this report, no contingent liabilities have arisen since the end of the fiscal year against the assets of the Company.

Subsequent events

The Directors of the company hereby confirm that there have been no events after 31 December 2025 to the date of this report, which need any adjustments on the figures or the disclosures in the financial statements.

The Board of Directors

The Board of Directors of the company during the year and as of the date of this report include:

Full name	Position
– Ms Bui Viet Thuy Tien	Director

Auditors

Thuy Chung Auditing - Branch of the Great South Auditing & Information Technology Solution Co., Ltd have performed the audit on the company's financial statements for the fiscal year ended 31 December 2025 and have expressed their willingness to be appointed the company's external auditors in the coming years.

Confirmations of the Directors

The Directors of the company are responsible for the preparation of the financial statements to give a true and fair view of the financial position as of the balance sheet date, the business results, and the cash flows of the company for each of the company's fiscal year. In order to prepare these financial statements, the Directors must:

- Select the appropriate accounting policies and apply them consistently;
- Make judgments and estimates prudently.
- Announce the accounting standards to be followed for the material issues to be disclosed and explained in the financial statements; and
- Prepare the financial statements of the company on the basis of the going-concern assumption, except for the cases that the going-concern assumption is considered inappropriate.

The Directors hereby ensure that all the requirements mentioned above have been followed when the financial statements are prepared, that all the accounting books of the company have been fully recorded and can fairly reflect the financial position of the company at any time, and that all the financial statements have been prepared in compliance with the Vietnamese accounting system and standards.

The Directors are also responsible to protect the assets of the company, and consequently have proceeded appropriate measures to prevent and to detect frauds and other irregularities.

We, the Directors of the company, confirm that all the accompanying financial statements and the notes to the financial statements have been properly prepared and have given a true and fair view of the financial position as of 31 December 2025, the business results and the cash flows for the year then ended of the company in compliance with the Vietnamese accounting system and standards as well as other related regulations.

INDEPENDENT AUDITOR'S REPORT

To: THE DIRECTOR OF ASIAN TRAILS CO., LTD

We have audited the accompanying financial statements of Asian Trails Co., Ltd for the fiscal year ended 31 December 2025 prepared on 30 March 2026 on pages from 04 to 14 including Balance Sheet, Income statement, Cash flow and Notes to the Financial Statements of your Company attached with hereafter.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Vietnamese accounting standards and systems and statutory regulations relevant to preparation and presentation of financial statements; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material mis-statement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, in the all material respects, these financial statements give a true and fair view of the financial position of the Company as at 31 December 2025, and of the results of its operations and its cash flow for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory regulations relevant to preparation and presentation of financial statements.

NOTES TO THE FINANCIAL STATEMENTS
For the fiscal year ended 31 December 2025

These notes are integral part of and should be read in conjunction with the financial statements for the fiscal year ended 31 December 2025 of Asian Trails Co., Ltd ("the Company").

I. OPERATION FEATURES

1. **Form of owner:** Asian Trails Co. Ltd is established under the business license No. 4102003844 granted by Planning and Investment Department on 22 February 2001 and the 10th changing of certificate business registration on 16 July 2021 has allowed the company to move the head quarter to10th Floor, 194 Golden Building, No. 473 Dien Bien Phu, Thanh My Tay Ward, Ho Chi Minh City .
2. **Business lines:** Domestic and international tour service, trading souvenir, handicraft products, commercial services, goods consignment agent.
3. **Material effects on the Company's operation:**
   - There have not any fluctuations which can cause material effects on the Company's operations during the year.

II. ACCOUNTING PERIOD AND STANDARD CURRENCY UNIT USED IN ACCOUNTING

1. **Fiscal year**
   The fiscal year is from 01 January to 31 December annual.
2. **Standard currency unit used in accounting and method of foreign currency transaction**
   The standard currency unit used is USD, other currencies are converted into USD at the time the business transactions happen with the exchange rate issued by State Bank or real exchange ruling at the date of the transaction.

III.ACCOUNTING SYSTEM AND STANDARDS

1. **Accounting system**
   The company adopt the International Accounting Standards.
2. **Accounting form:**
   General Journal.
3. **Fixed assets and depreciation of fixed assets**

   Evaluation method

   Historical costs of fixed assets include the buying prices and other directly related costs to put the fixed assets into use.

   When the assets are disposed or liquidated, their historical costs and accumulated depreciation are written off then any profit or loss generated from the liquidation is included in the Income Statement.

   Depreciation method

   Fixed assets are depreciated in accordance with the straight-line method to write off their historical costs during their estimated useful lives as stipulated in the Decision No. 45/2013/TT-BTC dated 25 April 2013 of the Ministry of Finance.

The annual depreciation periods applied are as follows:

Fixed assets	Years
Office equipment	03
Means of transportation	10
Intangible fixed assets	03

4. Method of sales and expenditure recognition

Revenue of sales is recognized in the income statement when service is performed.
Expenses are recorded corresponding to the sales at the transaction dates.

5. Principles of recognized accruals and unemployment funds.

Accrued tours cost made by invoices received up to the date signed financial report and estimated by the managers.
Unemployment fund made by 50% of one month salaries.

6. Principles for recognized provision for bad debts.

Provision for bad debts made for all trade receivables over due 3 months.

Directors' Statement

The Directors are pleased to present this statement to the member together with the audited financial statements of Asian Trails Singapore Pte. Ltd. (the "Company") for the financial year ended 31 December 2025.

Opinion of the Directors
In the opinion of the Directors,

(i) the financial statements of the Company are drawn up so as to give a true and fair view of the financial position of the Company as at 31 December 2025 and the financial performance, changes in equity and cash flows of the Company for the financial year ended on that date in accordance with the provisions of the Companies Act 1967 (the "Act") and Financial Reporting Standards in Singapore; and

(ii) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

Directors
The Directors of the Company in office at the date of this statement are:

Emir Cherif
Laurent Kunzle
Lim Geok Thye
Misitsakul Lersan
Sebastian Alex Mendonca

Arrangements to enable Directors to acquire shares or debentures
Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

Directors' interest in shares or debentures
According to the register of Directors' shareholdings kept by the Company under section 164 of the Act, the Directors of the Company who held office at the end of the financial year had no interests in the shares or debentures of the Company and its related corporations except as stated below:

Directors' Statement (Cont'd)

Directors' interest in shares or debentures (Cont'd)

	Direct interest		Deemed interest	
	At the beginning of the financial year	At the end of the financial year	At the beginning of the financial year	At the end of the financial year

Independent Auditor's Report to the Member of Asian Trails Singapore Pte. Ltd.

Report on the Audit of Financial Statements

Opinion

We have audited the financial statements of Asian Trails Singapore Pte. Ltd. (the "Company"), which comprise the statement of financial position as at 31 December 2025, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements are properly drawn up in accordance with the provisions of the Companies Act 1967 (the "Act") and Financial Reporting Standards in Singapore ("FRSs") so as to give a true and fair view of the financial position of the Company as at 31 December 2025 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the Directors' Statement.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report to the Member of Asian Trails Singapore Pte. Ltd. (Cont'd)

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Directors' responsibilities include overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

Independent Auditor's Report to the Member of Asian Trails Singapore Pte. Ltd. (Cont'd)

Auditor's Responsibilities for the Audit of the Financial Statements (Cont'd)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements
In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

The accompanying notes form an integral part of these financial statements.

Notes to the Financial Statements – 31 December 2025

1. Corporate information

The financial statements of the Company for the financial year ended 31 December 2025 were authorised for issue in accordance with a resolution of the Directors on the date of the Directors' Statement.

The Company is incorporated as a limited liability company and domiciled in the Republic of Singapore.

The registered office and principal place of business of the Company is located at 105 Cecil Street, #22-00 The Octagon, Singapore 069534.

The principal activities of the Company are those of travel agencies and tour operator.

The immediate holding company of the Company is Asian Trails Holding Ltd and the ultimate holding company is Fairfax Financial Holdings Ltd. The immediate holding company is incorporated in Mauritius and the ultimate holding is incorporated in Canada and listed on Toronto Stock Exchange. Fellow subsidiaries refer to members of the holding company's group of companies.

2. Material accounting policy information

(a) Basis of preparation

The financial statements are prepared in accordance with Financial Reporting Standards in Singapore ("FRSs") including related Interpretations ("INT FRSs") promulgated by the Accounting Standards Committee under ACRA. The financial statements have been prepared under the historical cost convention, except as disclosed in the accounting policies below.

The financial statements are presented in Singapore Dollar which is the Company's functional currency. All financial information is presented in Singapore Dollar, unless otherwise stated.

(b) Interpretation and amendments to published standards effective in 2025

The accounting policies adopted are consistent with those of the previous financial year except that in the current financial year, the Company has adopted all the new and amended standards which are relevant to the Company and are effective for annual financial periods beginning on or after 1 January 2025. The adoption of these standards did not have any material effect on the financial performance or position of the Company.

2. Material accounting policy information (Cont'd)

(c) FRSs and INT FRSs not effective

The Company has not applied the following FRSs and INT FRSs that have been issued but not yet effective:

		Effective date (Annual periods beginning on or after)
FRS 28 and FRS 110	Amendments to FRS 110 and FRS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined
FRS 107 and FRS 109	Amendments to FRS 107 and FRS 109: Amendments to the Classification and Measurement of Financial Instruments	1 January 2026
	Amendments to FRS 107 and FRS 109: Contracts Referencing Nature-dependent Electricity	1 January 2026
FRS 118	Presentation and Disclosure in Financial Statements	1 January 2027
FRS 119	Subsidiaries and Small Entities without Public Accountability: Disclosures	1 January 2027
Various	Annual Improvements to FRSs – Volume 11	1 January 2026

The management does not anticipate that the adoption of these FRSs and INT FRSs in the period of initial application will have a material impact on the financial statements.

(d) Significant accounting estimates and judgements

The preparation of the financial statements in conformity with FRSs requires the use of judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the end of each reporting period and the reported amounts of revenues and expenses during the financial year. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates.

2. Material accounting policy information (Cont'd)

(d) Significant accounting estimates and judgements (Cont'd)

Judgements made in applying accounting policies

Income tax

Significant judgement is required in determining the capital allowances and deductibility of certain expenses during the estimation of the income tax liabilities. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary courses of business. The Company recognises liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. When the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Determination of functional currency

In determining the functional currency of the Company, judgement is used by the Company to determine the currency of the primary economic environment in which the Company operates. Consideration factors include the currency that mainly influences sales prices of the goods and services and the currency of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services.

Key source of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period are discussed below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Depreciation of property, plant and equipment

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. Management estimates the useful lives of these property, plant and equipment to be 3 years. The net carrying amount of the Company's property, plant and equipment as at end of the financial year is disclosed in Note on Property, plant and equipment. Changes in the expected level of usage and technological developments could impact the economic useful live and the residual values of these assets, therefore future depreciation charges could be revised.

2. Material accounting policy information (Cont'd)

(d) Significant accounting estimates and judgements (Cont'd)

Key source of estimation uncertainty (Cont'd)

Provision for expected credit losses ("ECLs") of trade receivables

The Company uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust historical credit loss experience with forward-looking information. At every reporting date, historical default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Company's trade receivables is disclosed in Note on Financial risk management policies – credit risk.

Impairment of property, plant and equipment

The Company reviews the carrying amounts of the property, plant and equipment as at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amount or value in use is estimated. Determining the value in use of property, plant and equipment, require the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets.

The preparations of the estimated future cash flows involve significant judgment and estimations. While the Company believes that the assumptions are appropriate and reasonable, significant changes in the assumptions may materially affect the assessment of recoverable amounts and may lead to future impairment charges.

2. Material accounting policy information (Cont'd)

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is computed utilising the straight-line method to write off the cost of these assets over their estimated useful lives as follows:

Computer equipment	3 years

The residual value, useful lives and depreciation method are reviewed at the end of each reporting period, and adjusted prospectively, if appropriate.

The cost of property, plant and equipment includes expenditure that is directly attributable to the acquisition of the items. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the asset.

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the standard of performance of the asset before the expenditure was made, will flow to the company and the cost can be reliably measured. Other subsequent expenditure is recognised as an expense during the financial year in which it is incurred.

For acquisitions and disposals during the financial year, depreciation is provided from the month of acquisition and to the month before disposal respectively.

On disposal of an item of property, plant and equipment, the difference between the disposal proceeds and its carrying amount is recognised in the profit or loss.

Fully depreciated assets are retained in the financial statements until they are no longer in use.

2. Material accounting policy information (Cont'd)

Financial instruments

(i) Financial assets

Initial recognition and measurement
Financial assets are recognised when, and only when the entity becomes party to the contractual provisions of the instruments.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss ("FVPL"), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Trade receivables are measured at the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party, if the trade receivables do not contain a significant financing component at initial recognition.

Subsequent measurement
Debt instrument
Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the contractual cash flow characteristics of the asset. The three measurement categories for classification of debt instruments are amortised cost, fair value through other comprehensive income ("FVOCI") and FVPL. The Company only has debt instruments at amortised cost.

Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired, and through the amortisation process.

Derecognition
A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income for debt instruments is recognised in profit or loss.

2. Material accounting policy information (Cont'd)

Financial instruments (Cont'd)

(ii) Financial liabilities

Initial recognition and measurement
Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at FVPL, net of directly attributable transaction costs.

Subsequent measurement
After initial recognition, financial liabilities that are not carried at FVPL are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

Derecognition
A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. On derecognition, the difference between the carrying amounts and the consideration paid is recognised in profit or loss.

Impairment of financial assets

The Company recognises an ECLs for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a lifetime ECL).

2. Material accounting policy information (Cont'd)

Impairment of financial assets (Cont'd)

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment which could affect debtors' ability to pay.

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, (or, where applicable, when an annual impairment testing for an asset is required), the Company makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses are recognised in profit or loss.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss.

2. Material accounting policy information (Cont'd)

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and bank balances, net of outstanding bank overdrafts, if any. Cash and cash equivalents also include highly liquid investments which are readily convertible to cash and which are subject to an insignificant risk of changes in value.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

Preference share capital

Preference share capital is classified as equity if they are non-redeemable, or are redeemable only at the option of the Company and dividend payments are discretionary. Dividends thereon are recognised as distributions within equity.

Taxes

(i) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the end of the reporting period.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

2. Material accounting policy information (Cont'd)

Taxes (Cont'd)

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the end of the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(iii) Goods and service tax ("GST")

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and

- receivables and payables that are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2. Material accounting policy information (Cont'd)

Revenue recognition

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

Travel and related services
Travel and related services comprise of leisure tours/ holiday's packages which are recognised at a point in time on the completion of the performance obligation. The completion of the performance obligation is based on the date of departure of the tour.

Employee benefits

Pension obligation
The Company contributes to the Central Provident Fund ("CPF"), a defined contribution plan regulated and managed by the Government of Singapore, which applies to the majority of the employees. The Company's contributions to CPF are charged to the profit or loss in the period to which the contributions relate.

Short-term employee benefits
Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency that best reflects the economic substance of the underlying events and circumstances relevant to that entity ("the functional currency"). The financial statements of the Company are presented in Singapore Dollar, which is also the functional currency of the Company.

2. Material accounting policy information (Cont'd)

Conversion of foreign currencies

(i) Monetary items

Monetary assets and liabilities in foreign currencies are translated into functional currency at rates of exchange closely approximating those ruling at end of the reporting period. Transactions in foreign currencies are converted at rates closely approximating those ruling at transaction dates. Exchange differences arising from such transactions are recorded in the profit or loss in the period in which they arise.

(ii) Non-monetary items

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items are measured at fair value in a foreign currency are translated using the exchange rates as the date when the fair value was determined.

Government grants

Government grants are recognised as a receivable when there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, the fair value is recognised as deferred income on the statement of financial position and is recognised as income in equal amounts over the expected useful life of the related asset.

When loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as additional government grant.

Contract liabilities

Where the amounts received or receivable from customers exceed the revenues recognised for contracts, contract liabilities are recognised in the statement of financial position. Contract liabilities are recognised as revenues when services are provided to customers.

Notes to the Financial Statements – 31 December 2025

3. Property, plant and equipment

	Computer equipment S$
Cost	
At 1 January 2024 / 31 December 2024 / 31 December 2025	**5,112**

14. Significant related parties transactions

For the purposes of these financial statements, a party is related to the Company if directly, or indirectly through one or more intermediaries, the party controls, is controlled by, or is under common control with, the Company, or has an interest in the Company that gives it significant influence over the Company, or has joint control over the Company.

A party is also related to the Company if the party is an associate; a member of the key management personnel of the Company, a close member of the family of any individual referred to in the previous paragraph or of a member of the key management personnel of the Company; an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to above; or a post-employment benefit plan for the benefit of employees of the entity or of any entity that is a related party of the Company.

14. Significant related parties transactions (Cont'd)

Key management personnel

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including any Directors (whether executive or otherwise) of that Company.

Key management personnel compensation is as follows:

	2025 S$	2024 S$
Salaries and other related costs	**122,500**	120,000

Included in the above is total compensation to Directors of the Company amounting to S$122,500 (2024: S$120,000).

Other related party transactions

Other than the related party information disclosed elsewhere in the financial statements, the followings are significant related party transactions entered into by the Company with related parties at the agreed rate:

	2025 S$	2024 S$
Sales to penultimate holding company	**4,005**	5,552
Sales to fellow subsidiaries	**921,118**	656,453
Purchase from immediate holding company	**570**	0
Purchase from fellow subsidiaries	**72,767**	47,686
Management fee charged by fellow subsidiaries	**494,591**	654,117
Management fees charged by immediate holding company	**57,206**	43,613
Management fee charged by penultimate holding company	**1,153**	0
Recharged operating cost to fellow subsidiaries	**23,709**	0
Royalty fees charged by immediate holding company	**71,810**	89,329

15. Financial risk management policies

The Company's activities expose it to a variety of financial risks from its operations. The key financial risks include credit risk, liquidity risk and currency risk.

The Directors review and agree policies and procedures for the management of these risks, which are executed by the management team. It is, and has been throughout the current and previous financial year, the Company's policy that no trading in derivatives for speculative purposes shall be undertaken.

The following sections provide details regarding the Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

There has been no change to the Company's exposure to these financial risks or the manner in which it manages and measures the risks.

15.1 Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in a loss to the Company. The Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including cash), the Company minimises credit risk by dealing exclusively with high credit rating counterparties.

The Company has adopted a policy of only dealing with creditworthy counterparties. The Company performs ongoing credit evaluation of its counterparties' financial condition and generally do not require a collateral.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

The Company determined that its financial assets are credit-impaired when:

- There is significant difficulty of the debtor
- A breach of contract, such as a default or past due event
- It is becoming probable that the debtor will enter bankruptcy or other financial reorganisation
- There is a disappearance of an active market for that financial asset because of financial difficulty

15. Financial risk management policies

15.1 Credit risk (Cont'd)

Financial assets are written off when there is evidence indicating that the debtor is in severe financial difficulty and the debtor has no realistic prospect of recovery.

Trade receivables
For trade receivables, the Company has applied the simplified approach in FRS 109 to measure the loss allowance at lifetime ECL. The Company determines the ECL by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Accordingly, the Company measured the impairment loss allowance using lifetime ECL and determined that the ECL is insignificant.

Excessive risk concentration
Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

Exposure to credit risk
The Company has no significant concentration of credit risk.

Other receivables
The Company assessed the latest performance and financial position of the counterparties, adjusted for the future outlook of the industry in which the counterparties operate in, and concluded that there has been no significant increase in the credit risk since the initial recognition of the financial assets. Accordingly, the Company measured the impairment loss allowance using 12-month ECL and determined that the ECL is insignificant.

15.2 Liquidity risk

Liquidity or funding risk is the risk that an enterprise will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value.

The Company maintains sufficient level of cash and cash equivalents to meet its working capital requirements.

Notes to the Financial Statements – 31 December 2025

15. Financial risk management policies

15.2 Liquidity risk (Cont'd)

The table below analyses the maturity profile of the Company's financial liabilities based on contractual undiscounted cash flows.

	Less than 1 year S$	Between 2 to 5 years S$	Over 5 years S$	Total S$
As at 31 December 2025				
Trade and other payables	**631,899**	**0**	**0**	**631,899**
As at 31 December 2024				
Trade and other payables	959,613	0	0	959,613

15.3 Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Company's operational activities are mainly carried out in Singapore Dollar. The risk arising from movements in foreign exchange rates is minimised as the Company has minimal transactions in foreign currency.

Sensitivity analysis is not presented as the impacts to the profit before taxation and equity are not material.

16. Financial instruments by category

The following table categorises the carrying amount of financial assets and liabilities recorded at the end of the financial year:

	2025 S$	2024 S$
Financial assets measured at amortised cost		
Trade receivables	**356,196**	496,245
Other receivables	**31,821**	4,102
Staff advances	**2,000**	2,000
Deposits	**10,642**	10,622
Cash and bank balances	**253,598**	155,620
	654,257	668,589

Notes to the Financial Statements – 31 December 2025

16. Financial instruments by category (Cont'd)

	2025 S$	2024 S$
Financial liabilities measured at amortised cost		
Trade payables	**180,297**	462,476
Other payables	**38,988**	13,434
Advance receipts from customers	**50,461**	57,658
Accruals	**362,153**	426,045
	631,899	959,613

17. Capital management

The Company is able to obtain funds from the holding company for its operation. In addition, capital of the Company is managed by the holding company on a group basis.

18. Restatement of comparative figures

Certain comparative figures have been reclassified to conform with current year's presentation.

	As reclassified 2024 S$	As previously reported 2024 S$
Trade and other payables	982,221	924,563
Contract liabilities	127,786	185,444

Statement by the Board of Directors

I, the undersigned, on behalf of the Board of Directors of Asian Trails Co., Ltd. ("the Company"), do hereby state that the financial statements as set out on pages 5 to 24 present fairly, in all material respects, the financial position of the Company as at 31 December 2025, and its financial performance and its cash flows for the year then ended in accordance with Cambodian International Financial Reporting Standards for Small and Medium-sized Entities ("CIFRS for SMEs").

Signed on behalf of the Board of Directors in accordance with a resolution of the Board of Directors,

Virginie Laurence Kury
Chairwoman and Managing Director

2 April 2026

Report of the Independent Auditors

To the shareholders

Asian Trails Co., Ltd.

Qualified Opinion

We have audited the financial statements of Asian Trails Co., Ltd. ("the Company"), which comprise the statement of financial position as at 31 December 2025, and the statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information as set out on pages 5 to 24.

In our opinion, except for the possible effects of the matters described in the "Basis for Qualified Opinion" section below, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2025, and its financial performance and its cash flows for the year then ended in accordance with Cambodian International Financial Reporting Standards for Small and Medium-sized Entities ("CIFRS for SMEs").

Basis for Qualified Opinion

(i) We were unable to satisfy ourselves as to completeness and accuracy of tax related exposures, including salary tax, value added tax and prepayment of profit tax as at and for the year ended 31 December 2025. We were unable to determine whether adjustments might have been necessary the amounts shown in the financial statements for tax related exposure, net loss and accumulated losses as at and for the year then ended.

(ii) The Company does not recognise and disclose income tax in accordance with Section 19, Income Tax of CIFRS for SMEs. We were unable to determine whether adjustments might have been necessary the amounts shown in the financial statements for income tax expense, income tax liability, net loss and accumulated losses as at and for the year ended.

Our opinion expressed on the financial statements of the Company as at and for the year ended 31 December 2024 was qualified of opinion due to above similar matters.

We conducted our audit in accordance with Cambodian International Standards on Auditing ("CISAs"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Cambodia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 4 to the financial statements which describes that the Company incurred a net loss of US$137,706 during the year ended 31 December 2025 and, as of that date, the Company carried accumulated losses of US$1,643,657, the current liabilities exceeded its current assets by US$874,223. These conditions indicate a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with CIFRS for SMEs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with CISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with CISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosure, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the financial statements for the year ended 31 December 2025

1. Reporting entity

Asian Trails Co., Ltd ("the Company") is a private limited company incorporated in the Kingdom of Cambodia on 1 June 1999 under registration number 00007518 issued by the Ministry of Commerce. The Company has its head office located in Phnom Penh and one branch in Siem Reap province.

The principal activities of the Company include provision of inbound package tours and related services.

The Company's head office is located in Phnom Penh at Building No. G5ab, No. 540 Aquation, Koh Pich Street, Phum 14, Sangkat Tonle Bassac, Khan Chamkarmorn, Phnom Penh, Cambodia.

As at 31 December 2025, the Company had 39 employees (31 December 2024: 39 employees).

2. Basis of preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with Cambodian International Financial Reporting Standards for Small and Medium-sized Entities ("CIFRS for SMEs").

Details of the Company's significant accounting policies are included in Note 20.

These financial statements were approved by the Board of Directors and authorised for issue on 2 April 2026.

2.2 Fiscal year and reporting period

The Company's fiscal year starts on 1 January and ends on 31 December.

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis.

2.4 Functional and presentation currency

The national currency of Cambodia is the Khmer Riel ("KHR"). The Company transacts its business and maintains its accounting records primarily in United States Dollars ("US$"). Management has determined the US$ to be the Company's functional currency as it reflects the economic substance of the underlying events and circumstances of the Company.

2. Basis of preparation (continued)

2.4 Functional and presentation currency (continued)

The financial statements are expressed in US$. The translations of US$ amounts into KHR are included solely for meeting the presentation requirements pursuant to the Law on Accounting and Auditing.

Assets and liabilities are translated at the closing rate as at the reporting date, and the share capital is translated at the historical rate. The statements of comprehensive income and cash flows are translated into KHR using the average rate for the year. Exchange differences arising from the translation are recognised as "currency translation difference" in the other comprehensive income. The accumulated currency translation differences are recognised as a separate component of equity. All values in KHR are rounded to the nearest thousand ("KHR'000"), except if otherwise indicated.

The financial statements are presented in KHR based on the following applicable exchange rate per US$1:

Reporting date			Closing rate	Average rate
31 December 2025	US$1	=	KHR4,013	KHR4,071
31 December 2024	US$1	=	KHR4,011	KHR4,071

These translations are for compliance purposes only and should not be construed as presentations that the US$ amounts have been, could be, or could in the future be, converted into KHR at this or any other rate of exchange.

2.5 Use of estimates and judgments

The preparation of financial statements in conformity with CIFRS for SMEs requires management to make judgments, estimates assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised in period in which the estimates are revised and in any future period affected.

3. Critical accounting estimates and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates, assumptions and judgements that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

3.1 Income and other taxes

Taxes are calculated on the basis of current interpretation of the tax obligations. However, these regulations are subject to periodic variation and different interpretation following inspection by the tax authorities. These may result in tax increases and other retroactive tax claims. It is difficult to predict the timing and severity of these occurrences or their potential effect.

3.2 Property and equipment

Accounting for property and equipment involves the use of estimates for determining the expected useful lives of these assets. The determination of useful lives of the assets is based on Management's judgement.

3.3 Allowance for doubtful debts

Management establishes allowance for doubtful debts on a case-by-case basis when they believe collection of amounts owed is unlikely to occur. In establishing these allowances, the management considers its historical experience and changes to its customers' financial position. If the financial condition of customer were deteriorated, resulting in an inability to make the required payments, allowance may be required to be made for such receivable.

4. Going concern

The financial statements have been prepared on a going concern basis. The Company incurred a net loss of US$137,706 during the year ended 31 December 2025 and, as of that date, the Company carried accumulated losses of US$1,643,657, the current liabilities exceeded its current assets by US$874,223. The validity of the going concern assumption fundamentally depends on the shareholders continuing to provide such financial assistance as is necessary to enable the Company to meet its liabilities as and when they fall due and to maintain the Company in existence as a going concern for the foreseeable future of its operations.

At the date of this report, there is no reason for the management to believe that the shareholder will not provide their support.

5. Cash and cash equivalents

	2025		2024	
	US$	KHR'000 (Note 2.4)	US$	KHR'000 (Note 2.4)
Cash on hand	21,365	85,738	21,981	88,474
Cash at banks	171,952	690,043	353,293	1,422,004

(**) Borrowings represent borrowings from Asian Trails Holding Limited which are unsecured, bear interests at 9.32% to 9.82% and maturing in 2025 and 2026 respectively.

18. Operating lease commitments

	2025		2024	
	US$	KHR'000 (Note 2.4)	US$	KHR'000 (Note 2.4)
Within 1 year	21,600	86,681	43,320	174,363
Within 2-5 years	43,200	173,362	92,600	372,715
	64,800	260,043	135,920	547,078

19. Taxation contingencies

The taxation system in Cambodia is characterised by numerous taxes and frequently changing legislation, which is often unclear, contradictory, and subject to interpretation. Often, differing interpretations exist among numerous taxation authorities and jurisdictions. Taxes are subject to review and investigation by a number of authorities, who are enabled by law to impose severe fines, penalties and interest charges.

20. Significant accounting policies

The significant accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

20.1 Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits with banks and other highly liquid investments with original maturities of three months or less and that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

20.2 Trade and other receivables

Trade and other receivables are recognised initially at fair value plus any directly attributable transaction costs. Where credit is extended beyond normal credit terms, receivables are measured at amortised cost using the effective interest method.

At the end of each reporting period, the carrying amounts of trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If so, an impairment loss is recognised immediately in profit or loss.

20. Significant accounting policies (continued)

20.3 Property and equipment

(i) Recognition and measurement

Items of property and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Gains or losses on disposal of an item of property and equipment are determined by comparing the proceeds from disposal with the carrying amount of property and equipment and are recognised net within other income in profit or loss.

(ii) Subsequent costs

The costs of replacing a part of an item of property and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is calculated using the straight-line method on all property and equipment to allocate their cost to their residual values over their estimated useful lives as follows:

Leasehold improvement	20% to 100%
Furniture and fixtures	6.66% to 100%
Office and IT equipment, EDP equipment	20% to 100%
Vehicles	20%

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of an asset, the depreciation of that asset is revised prospectively to reflect the new expectations.

20. Significant accounting policies (continued)

20.4 Intangible assets

Intangible assets are purchased computer software that is stated at cost less accumulated amortisation and any accumulated impairment losses. The cost is amortised on a straight-line method at the rate of 33% per annum. If there is an indication that there has been a significant change in amortisation rate, useful life or residual value of an intangible asset, the amortisation is revised prospectively to reflect the new expectations.

20.5 Impairment of assets

At each reporting date, property and equipment are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit or loss.

Similarly, at each reporting date, inventories are assessed for impairment by comparing the carrying amount of each item of inventory (or group of similar items) with its selling price less costs to complete and sell. If an item of inventory (or group of similar items) is impaired, its carrying amount is reduced to selling price less costs to complete and sell, and an impairment loss is recognised immediately in profit or loss.

If an impairment loss subsequently reverses, the carrying amount of the asset (or group of related assets) is increased to the revised estimate of its recoverable amount (selling price less costs to complete and sell, in the case of inventories), but not in excess of the amount that would have been determined had no impairment loss been recognised for the asset (group of related assets) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

20.6 Trade and other payables

Trade and other payables are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these liabilities are measured at amortised cost using the effective interest method except for non-interest bearing trade payables on the basis of normal credit terms are not amortised.

20. Significant accounting policies (continued)

20.7 Provisions

Provisions are recognised in the statement of financial position when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are measured at the present value of the expenditure expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as finance cost.

20.8 Revenue

Revenue is recognised on an accrual basis to the extent that it is possible that the economic benefit will flow to the Company and the revenue can be reliably measured. For monthly and annual cut-off purposes, revenue is recognised on the first day of arrival of each group of tour in Cambodia and the related cost of sales is immediately accrued based on standard costing to match this early revenue recognition.

20.9 Leases

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease.

20.10 Employee benefits

(i) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) Other long-term employee benefits

The Company's net obligation in respect of long-term employee benefits is the amount of the benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise.

20. Significant accounting policies (continued)

20.11 Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, or items recognised in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year using tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and their corresponding tax bases (known as temporary differences). Deferred tax liabilities are recognised for all temporary differences that are expected to increase taxable profit in the future. Deferred tax assets are recognised for all temporary differences that are expected to reduce taxable profit in the future, and any unused tax losses or unused tax credits. Deferred tax assets are measured at the highest amount that, on the basis of current or estimated future taxable profit, is more likely than not to be recovered.

The net carrying amount of deferred tax assets is reviewed at each reporting date and is adjusted to reflect the current assessment of future taxable profits. Any adjustments are recognised in profit or loss, except that an adjustment attributable to an item of income or expense recognised in other comprehensive income shall also be recognised in other comprehensive income.

Deferred tax is calculated at the tax rates that are expected to apply to the taxable profit (tax loss) of the periods in which it expects the deferred tax asset to be realised or the deferred tax liability to be settled, on the basis of tax rates that have been enacted or substantively enacted by the end of the reporting period.

20.12 Related parties

Enterprises and individual that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the Company, including the holding companies, subsidiaries and fellow subsidiaries, are related parties of the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the enterprise, key management personnel, including Director and officers of the Company and close members of the family of these individuals and companies associated with these individuals, also constitute related parties.

21. Upcoming changes in Accounting Standards

On 27 February 2025, the International Accounting Standards Board issued the third edition of the IFRS for SMEs, introducing revisions to key areas, including revenue recognition. As IFRS for SMEs is adopted in Cambodia, the updated standard will be applicable upon issuance. The standard is effective for annual periods beginning on or after 1 January 2027, with early adoption permitted. Management is assessing its impact and will adopt it in line with the effective date or earlier if appropriate.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders and Directors of **Chang Som Company Limited**

Opinion

I have audited the financial statements of Chang Som Company Limited (the Company), which comprise the statement of financial position as at December 31, 2025, and the statement of income and statement of changes in shareholders' equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025, and its financial performance for the year then ended in accordance with Thai Financial Reporting Standard for Non-Publicly Accountable Entities.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Company in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standard for Non-Publicly Accountable Entities, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Email: info@blissaccountingth.com

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

The accompanying notes are an integral part of the financial statements.

บริษัท ช้างส้ม จำกัด
CHANG SOM LTD

1. GENERAL INFORMATION

Chang Som Company Limited ("the Company") is incorporated under the law of Thailand on August 23, 2002. Registered Number 0105545087655. The principal business operation of the Company is to provide transportation services which exemption from the value added tax law 81(1). The address of its registered office is located on 12th floor, the Regent House Building, 183 Ratchadamri Road, Lumphini. Patumwan, Bangkok 10330

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

These financial statements have been prepared in accordance with the Thai Financial Reporting Standard for Non-Publicly Accountable Entities (TFRS for NPAEs) (Revised B.E. 2565), as issued by the Federation of Accounting Professions, and in compliance with the Notification of the Department of Business Development regarding the summary reports required to be included in financial statements, B.E. 2566.
The financial statements have been prepared under the historical cost convention.

An English version of the financial statements have been prepared from the statutory financial statements that are in the Thai language. In the event of a conflict or a difference in interpretation between the two languages, the Thai language statutory financial statements shall prevail.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Cash and cash equivalents

Cash comprise cash on hand, deposit held at call with banks but exclude deposits with banks which are held to maturity, certificates of deposit issued by commercial banks and financial institutions, and restricted deposits. Cash equivalent comprise short-term highly liquid investments with maturities of three months or less from the date of acquisition.

3.2 Trade and other receivable

Trade and other receivable are initially recognised at the fair value of the consideration received or receivable and subsequently measured at the remaining amount less any allowance for doubtful receivables based on a review of all outstanding amounts at the year end. The amount of the allowance is the difference between the carrying amount of the receivable and the amount expected to be collectible. Bad debts are written-off during the year in which they are identified and recognised in the income statement.

Signed ..... Director
(Mr.Lersan Misitsakul)

บริษัท ช้างสม จำกัด
CHANG SOM LTD

3.3 Loans

Loans are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the statement of financial position date or it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. If the borrowings do not meet the criteria as aforementioned, the borrowings are classified as non-current liabilities.

3.4 Equipments

An item of building improvements and equipment is stated at cost less any accumulated depreciation and any accumulated allowance for impairment (if any).

Depreciation is calculated on the straight line basis to their costs over the estimated useful life of equipment is 5 years. Depreciation expenses record as administrative expenses.

The assets' residual value, useful lives, and depreciation method are regularly reviewed.

3.5 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

3.6 Provisions for employee benefits

An entity has an obligation under labour law in benefit payable under the plan for employees until retirement date. The maximum amount of obligation shall not exceed the amount of final salary payable for 13.33 months (400 days). The employees will receive the payment amount at retirement date. An entity estimated a provision at the end of reporting period, which calculation is based on current salary reflected by the employee turnover and the proportion of working period of employees and working period until retirement.

3.7 Income tax

Income tax paid to the authorities will be recognised as expenses in statement of income. The Company recognises income taxes payable netting off withholding taxes in liabilities.

3.8 Revenue

Service income is recognized as services provided.

Other revenues earned by the Company are recognised on the following basis:

- interest income is recognised on a time proportion basis, taking account of the principal outstanding and the effective rate over the period to maturity, when it is determined that such income will accrue to the Company

Signed ..... Director
(Mr.Lersan Misitsakul)

บริษัท ช้างส้ม จำกัด
CHANG SOM LTD.

3.9 Expense

Payments made under operating leases are recognized in the statement of income on a straight- line basis over the term of the lease.

Expense is recognized in the statement of income as it accrues.

3.10 Foreign currency transactions

Items included in the financial statements of the Company are measured using Thai Baht. The financial statements are presented in Thai Baht.

Foreign currency transactions are translated into Thai Baht using the exchange rates prevailing at the date of the transaction.

At the end of each reporting period, foreign currency monetary balances are translated by using the exchange rate at the closing rate. Monetary assets denominated in foreign currency are translated to Thai Baht by using a bank' s buying rate and monetary liabilities denominated in foreign currency are translated to Thai Baht by using a bank' s selling rate. Non-monetary balances denominated in a foreign currency are carried at cost using the exchange rate at the date of transaction.

Gains and losses resulting from the settlement of foreign currency transactions and from the translation of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

4. CASH AND CASH EQUIVALENTS

	2025 Baht	2024 Baht
Cash	5,584.00	15,578.75
Cash at banks	1,392,021.61	594,268.12
Total Cash and cash equivalents	1,397,605.61	609,846.87

5. RELATED PARTY TRANSACTIONS

The Company had business transactions with its related company which are related by shareholding or directorship. These transactions were concluded on the terms and basis stated in the relevant agreement, or as agreed by the Company.

The Company had significant business transactions with its related company for the year ended December 31, 2025 and 2024, and outstanding balance with its related company as summarized below:

Digiphoto Entertainment Imaging Co.,Ltd.

Annual Financial Statements

For the year ended 31 December 2025

Independent Auditor's Report

To the Shareholders of Digiphoto Entertainment Imaging Co., Ltd.

Opinion

I have audited the financial statements of Digiphoto Entertainment Imaging Co., Ltd. (the Company), which comprise the statement of financial position as at December 31, 2025, and the statement of income, and statement of changes in equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025, and its financial performance for the year then ended in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities (revised 2022).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Company in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities (revised 2022), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit . I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may

involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

The accompanying notes are an integral part of these financial statements

Digiphoto Entertainment Imaging Co., Ltd

Notes to financial statements

As at December 31, 2025

1 General Information

Digiphoto Entertainment Imaging Co., Ltd "the Company", is incorporated in Thailand on August 21, 2012 and has its registered office at 19 Soi Therdthai 77, Bangwa, Pasricharoen District, Bangkok.
The company has registration number 0105555122356

The principal activities of the Company is providing customized imaging solutions to theme parks, resorts and entertainment arenas as well as retail sale of accessories and frames.

2 Basis of preparation of financial statements

2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities (Revised 2022); guidelines promulgated by the Federation of Accounting Professions. And their presentation has been made in compliance with the stipulations of the announcement of the Departmen of Business Development on the abbreviation of items required in the financial statements for B.E. 2566 (2023) issued under the Accounting Act B.E. 2543 (2000).

2.2 New finance reporting standards

During the year, the Company changed its accounting policy relating to income taxes from a tax payable basis to recognition in accordance with Thai Accounting Standard (TAS) 12, Income Taxes, in order to comply with the relevant financial reporting standards, and as a result of this change in the basis of preparation of the financial statements, the Company is required to present the financial statements and disclose additional information in accordance with the requirements of such financial reporting standards, and the effects of adopting such financial reporting standards are disclosed in Note 3 to the financial statements.

3 Cumulative effects of Change in basis of financial statements preparation

During the year, the Company changed its accounting policy relating to income taxes from a tax payable basis to preparation in accordance with the financial reporting standards as described in Note 2.2 to the financial statements, and the Company has applied the change retrospectively by restating the statement of financial position as at 31 December 2567, the statement of comprehensive income, and the statement of changes in equity, and the cumulative effects of this change in the basis of preparation of the financial statements have been presented as a separate line item in the statement of changes in equity.

The amounts of adjustments affecting the statement of financial position and the income statement are summarised below.

(Unit: Baht)

Statement of financial position	As at 31 December 2024 Increase(Decrease)	As at 1 January 2024 Increase(Decrease)
Asset

(Unit: Baht)

	Profit for the year ended 31 December 2024 Increase(Decrease)
Income statement	
Profit or loss:	
Income tax expenses	329,865.09

.....

(Mr Ramakrishnan Kalapathy Shankar)

Director

4 Significant accounting policies

(a) Foreign currency transactions

Transactions in foreign currencies are translated to Thai Baht at the foreign exchange rates ruling at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are translated to Thai Baht at the foreign exchange closing rates ruling for the period then ended. Foreign exchange differences arising on translation are recognized in the statement of income.

(b) Cash and cash equivalents

Cash and cash equivalents consist of cash balances, current accounts and call deposits.

(c) Trade accounts receivable

Trade accounts receivable are stated at their invoice value less allowance for doubtful accounts.

Any allowance for loss on doubtful account is assessed primarily on analysis of payment histories and future expectations of customer payments. Allowance made are based on historical write-off patterns and the aging of accounts receivable. Bad debts are written off when incurred.

(d) Inventories

Inventories are stated at the lower of cost and net realizable value.

Cost is calculated using the weighted-average.

(e) Property, plant and equipment; and Depreciation

- Property is stated at cost, while plant and equipment are stated at cost less accumulated depreciation and allowance for decline in value (if any).

Depreciation

Depreciation is charged to the statement of income on a straight-line basis over the estimated useful lives of each part of an item of property and equipment. The estimated depreciation rates are 3-5 years.

(f) Provision

A provision is recognised when the Company has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Employee benefit

Obligations for retired benefits are recognised using the best estimated method at the reporting date.

.....

(Mr Ramakrishnan Kalapathy Shankar)

Director

(g) Revenues

Revenue excludes value added taxes and is arrived at after deduction of trade discounts.

Services rendered

Service income is recognised as services are provided.

(h) Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Company recognises deferred tax liabilities for all taxable temporary differences while it recognises deferred tax assets for all deductible temporary differences to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

5 Cash and cash equivalents

	Baht	
	2025	**2024**
Cash on hand	10,000.00	9,999.81
Cash deposit in current account	1,006,435.36	2,027,312.01
Total	1,016,435.36	2,037,311.82

6 Long term loan to related person

The Company has long-term loan to director amounting to 20 million baht with no interest charge since 2016.

There is no specific date of repayment and no colleateral against loan.

The balance of loan comprise of the following:-

	Baht	
	2025	**2024**
Principal of loan	20,000,000.00	20,000,000.00

	Baht	
	2025	**2024**
Current income tax:		
Current income tax charge	-	-
Deferred tax:		
Relating to origination and reversal of temporary differences	(154,727.22)	329,865.09
Income tax expense reported in profit or loss	(154,727.22)	329,865.09

The reconciliation between accounting profit and income tax expense is shown below.

	Baht	
	2025	**2024**
Accounting profit before tax	(1,515,775.47)	888,125.58
Applicable tax rate	20%	20%
Accounting profit before tax multiplied by income tax rate	(303,155.09)	177,625.12
Effects of:		
Interest income from loans to director	120,000.00	120,000.00
Non-deductible expenses	28,427.87	32,239.97
Total	148,427.87	152,239.97
Income tax expense reported in profit or loss	(154,727.22)	329,865.09

.....

(Mr Ramakrishnan Kalapathy Shankar)

Director

9 Income tax (Continue)

The components of deferred tax assets are as follows:

	Baht	
	2025	**2024**
Deferred tax assets		
Tax loss carryforward - 2021	648,230.72	648,230.72
Tax loss carryforward - 2022	648,659.32	648,659.32
Tax loss carryforward - 2025	154,727.22	-
	1,451,617.26	1,296,890.04

Deferred tax assets arising from tax loss carryforwards were recognised as management believes that sufficient future taxable profits will be available to utilise such tax losses. The deferred tax assets were calculated at the corporate income tax rate of 20%.

10 Reclassification of financial statements

The Company has reclassified some items in the 2024 financial statements for comparative purposes to be consistent with the presentation in the 2025 financial statements, without any effect on the financial position and results of operations.

11 The approval of financial statement

The financial statements were authorised for issue by the directors on 18 April 2026.

Statement of changes in equity	8
Notes to financial statements	9-29

Directors' Report

The directors submit their report together with the audited financial statements of the Company for the year ended 31st December 2025.

LEGAL STATUS

Muscat Desert Adventures Tourism LLC is a limited liability company ("the Company") registered with the Ministry of Commerce and Industry in the Sultanate of Oman on October 31, 2005, under the commercial registration no. 1808435.

The Company is 70% owned subsidiary of Desert Adventures Tourism LLC ("the Holding Company"), a company registered in Dubai, United Arab Emirates and 30% shares are held by a local partner namely Hani Bin Juman Ashour Rajab who has agreed not to take part in the operational and financial management of the Company and has confirmed that these shares are held for the beneficial interest of the Company.

The ultimate parent and ultimate controlling party of the Company is Fairfax Financial Holdings Limited with a registered address at 95 Wellington Street West, Suite 800, Toronto, Ontario, Canada.

The principal activity of the Company is to carry out tour operation business which include handling Hotel Booking, Leisure, FIT, Visa Processing and Transfer.

The registered office of the Muscat Desert Adventures Tourism LLC is P.O. Box No. 809, P.C.133, Al Khuwair, Sultanate of Oman.

FINANCIAL PERFORMANCE

The results of the Company for the year ended 31st December 2025 and 31st December 2024 are stated below:

Financial highlights	**2025**	2024
	£	£
Net loss	(7,576)	(25,240)
Accumulated losses	(90,424)	(82,848)

SUBSEQUENT EVENT:

Subsequent to the reporting date, geopolitical tensions in the Middle East have escalated, resulting in increased regional uncertainty. While no adjustments have been made to the financial statements, the Company has experienced a decline in business volumes due to reduced inbound tourism demand following the onset of the conflict.

Management continues to monitor the situation closely and, with the support of its parent entity, believes the Company will be able to continue its operations and benefit from a recovery in travel demand once conditions stabilize.

AUDITORS

KPMG LLC was appointed as the independent auditor for the year ended 31 December 2025. The firm is eligible for reappointment for the financial year 2026 and has expressed its willingness to continue in office. The Director recommends the reappointment of KPMG LLC as the Company's auditor for the year ending 31 December 2026.

Independent auditors' report

To the Shareholders of Muscat Desert Adventures Tourism LLC

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Muscat Desert Adventures Tourism LLC ("the Company"), which comprise the statement of financial position as at 31 December 2025, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2025 and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the Sultanate of Oman, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2 (a) of the financial statements, which indicates that the Company incurred a net loss of OMR 7,576 during the year ended 31 December 2025 and, as of that date, the Company's total liabilities exceeded its total assets by OMR 90,424. As stated in Note 2 (a), these events or conditions, along with other matters as set forth in Note 2 (a), indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information. The other information comprises the Directors' report which is set out on Page 1.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards, and their preparation in compliance with the applicable provisions of the Commercial Companies Law of 2019 and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with Governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Continued from page 3

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

We report that these financial statements comply, in all material respects, with the applicable provisions of the Commercial Companies Law of 2019.

Muscat Desert Adventures Tourism LLC

Notes to the financial statements

For the year ended 31 December 2025

1 Reporting entity

Muscat Desert Adventures Tourism LLC is a limited liability company ("the Company") registered with the Ministry of Commerce and Industry in the Sultanate of Oman on October 31, 2005, under the commercial registration no. 1/80843/5. The Company is 70% owned subsidiary of Desert Adventures Tourism LLC ("the Holding Company"), a company registered in Dubai, United Arab Emirates and 30% shares are held by a local partner namely Hani Bin Juman Ashour Rajab who has agreed not to take part in the operational and financial management of the Company and has confirmed that these shares are held for the beneficial interest of the Company.

The principal activity of the Company is to carry out tour operation business which include handling Hotel Booking, Leisure, FIT, Visa Processing and Transfer. The Company secures access to hotel accommodation and other travel and tourism related activities and sells it to customer who generally are tour operators, travel agents and other wholesalers.

The registered office of Muscat Desert Adventures Tourism LLC is P.O. Box No. 809, P.C.133, Al Khuwair, Sultanate of Oman.

The ultimate parent and ultimate controlling party of the Company is Fairfax Financial Holdings Limited with a registered address at 95 Wellington Street West, Suite 800, Toronto, Ontario, Canada.

The Company did not purchase any shares during the year.

2 Basis of accounting

a) Going concern

During the year ended 31 December 2025, the Company incurred a loss after tax of OMR 7,576 (31 December 2024: loss of OMR 25,240) and as at 31 December 2025 its accumulated losses amounted to OMR 90,424 (2024: accumulated losses OMR 82,848). As at the date of this report, the Company continues to operate, however, business volumes have declined significantly due to the ongoing geopolitical situation in the region, resulting in reduced inbound tourism demand. This has adversely impacted the Company's recent performance and creates uncertainty in the development and execution of its business plans, including assumptions relating to revenue growth and recovery timelines.
The Company's ability to continue as a going concern is dependent on the continued financial support from its Parent Company and the expectation of future profitable operations. The Parent Company has issued a letter of support, confirming its commitment to provide the necessary financial assistance to enable the Company to meet its working capital requirements in the foreseeable future.

Accordingly, the accompanying financial statements have been prepared on a going concern basis and do not include any adjustments that might be required if the Company were unable to continue as a going concern.

b) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by International Accounting Standards Board (IASB) and the requirements of the Commercial Companies Law of 2019.

c) Basis of measurement

The financial statements have been prepared on the historical cost basis.

d) Functional and presentation currency

The financial statements are presented in Omani Rial ("OMR- ﷼"), which is the Company's functional currency.

e) Use of estimates and judgments

The preparation of the financial statements in conformity with IFRS requires management to make judgments and estimates that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

2 Basis of accounting *(continued)*

e) Use of estimates and judgments *(continued)*

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.
Information about significant areas of estimation uncertainty and critical judgments in applying policies that have the most significant effect on the amounts recognized in these financial statements are disclosed in note 22.

3 Material accounting policies

The Company has consistently applied the following accounting policies to all periods presented in these financial statements, except if mentioned otherwise.

Revenue

The Company renders a wide range of tourism and related services.

Revenue includes hotel accommodation, transfers, visa services and other tourism and travel related services. The revenue from rendering these services is recognized in profit or loss at the fair value of the consideration received or receivable.

The following table provides information about the nature and timing of the satisfaction of performance obligation in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Type of product/service	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition under IFRS 15
Tourism & related services including: Hotel accommodation Visas Transfers Meet and greet and. Excursions	Control of travel related services is considered transferred to customer at the travel in date i.e. in case of: - Visas at the date of issuance. - Hotel accommodation on the date hotel check in. - Transfers on the date of arrival. - Meet and greet on the date of arrival; and - Excursions on the date excursions Invoices are usually payable within 30 days. Booking cancellations vary depending on the timing of the season during the year.	Revenue is recognized at a point in time i.e. the time of travel in date.
Tour Packages	The services above are also sold as a combined tour package to travelers. In case of a combined tour package, entire package is generally considered as a single performance obligation. The combination of separate services in a combined tour package is considered significant integration and revenue for the entire tour package is recognized at the time of travel in date. Invoices are usually payable within 30 days. Booking cancellations vary depending on the timing of the season during the year.	Revenue is recognized at a point in time i.e. the time of travel in date.

3 Material accounting policies *(continued)*

Financial instruments

Recognition and initial measurement

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as and measured at: amortized cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets – Subsequent measurement and gains and losses:

inancial assets at VTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
inancial assets at mortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

3 Material accounting policies *(continued)*

Financial instruments *(continued)*

Classification and subsequent measurement

Financial assets(continued)

Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred, or liabilities assumed) is recognized in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3 Material accounting policies *(continued)*

Financial instruments *(continued)*

Derecognition(continued)

Foreign currency transactions

Transactions in foreign currencies are translated to OMR at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to OMR at the foreign exchange rate ruling at that date. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated into OMR using the exchange rates at the date of the transaction. Foreign exchange differences arising on translation are recognized in profit or loss.

Property and equipment

Items of property and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures that are directly attributable to the acquisition of the asset. When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Subsequent cost

The cost of replacing an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of day-to-day servicing of property and equipment are recognized in the profit or loss as incurred.

Depreciation

Depreciation is recognized in the profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property and equipment. Depreciation on additions is calculated on a pro-rata basis from the day of addition and on disposal up to and including the month of disposal of the asset. The estimated useful lives for the current year and prior years are as follows:

	Years
Motor vehicles	4
Office equipment	2 – 5
Office furniture and installations	5

The depreciation method and useful lives, as well as estimates of residual lives, are reassessed annually.

Impairment

Non-derivative financial assets

Financial instruments

The Company recognizes loss allowances for Expected Credit Losses (ECLs) on financial assets measured at amortized cost. The Company measures loss allowances at an amount equal to lifetime ECLs, except for bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition. Loss allowances for trade receivables and due from related parties are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on trade receivables has increased significantly if it is more than 90 days past due i.e. 120 days from the invoice date.

3 Material accounting policies *(continued)*

Impairment *(continued)*

The Company considers trade receivables to be in default when:
- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- The financial asset is more than 90 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:
- significant financial difficulty of the borrower or issuer.
- a breach of contract such as a default.
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise; or
- it is probable that the borrower will enter bankruptcy or other financial reorganization

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Company has a policy of writing off the gross carrying amount when the financial asset is past due based on historical experience of recoveries of similar assets. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Financial assets not classified as at FVTPL were assessed at each reporting date to determine whether there was objective evidence of impairment.

Objective evidence that financial assets were impaired included:
- default or delinquency by a debtor.
- restructuring of an amount due to the Company on terms that the Company would not consider otherwise.
- indications that a debtor or issuer would enter bankruptcy.
- adverse changes in the payment status of borrowers or issuers.

observable data indicating that there was a measurable decrease in the expected cash flows from a Company of financial assets.

3 Material accounting policies *(continued)*

Impairment *(continued)*

Write-off(continued)

Financial assets measured at amortized cost

The Company considered evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets were individually assessed for impairment. Those found not to be impaired were then collectively assessed for any impairment that had been incurred but not yet individually identified. Assets that were not individually significant were collectively assessed for impairment. Collective assessment was carried out by grouping together assets with similar risk characteristics.

In assessing collective impairment, the Company used historical information on the timing of recoveries and the amount of loss incurred and made an adjustment if current economic and credit conditions were such that the actual losses were likely to be greater or lesser than suggested by historical trends.

An impairment loss was calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses were recognized in profit or loss and reflected in an allowance account. When the Company considered that there were no realistic prospects of recovery of the asset, the relevant amounts were written off. If the amount of impairment loss subsequently decreased and the decrease was related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss was reversed through profit or loss.

Non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets, investment property and inventories to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

An impairment loss is recognized whenever the carrying amount of the asset exceeds the recoverable amount. Impairment losses, if any, are recognized in the statement of profit or loss.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss.

Impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

3 Material accounting policies *(continued)*

Provisions

A provision is recognized, if as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Employees' end of service benefits

Employees' end of service benefits is accrued in accordance with the terms of employment of the Company's employees at the reporting date, having regard to the requirements of IFRS and the Oman Labor Law 2003 and its amendments.

Employee entitlements to annual leave and leave passage are recognized when they accrue to employees and an accrual is made for the estimated liability arising as a result of services rendered by employees up to the reporting date. These accruals are included in liabilities.

Tax

Tax expense comprises current and deferred tax. Current and deferred tax is recognized in the profit or loss except to the extent that it relates to a business combination, or items recognized directly in the equity or in other comprehensive income.

Current tax (refer to note 18) is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect to previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantially enacted at the reporting date.

Intercompany recharges

Intercompany expenses are recharged to related parties at arm's length price. Charges mainly includes Salaries and Other Admin expense including IT system cost as paid by / charged to the Company

Contract assets

The contract assets are recognized for the Company's rights to consideration for services provided to the customer but not billed at the reporting date. The amount is netted with the expected credit losses, if any. The contract assets are transferred to receivables when the rights become unconditional. This usually occurs when the Company issues an invoice to the customers.

Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- The contract involves the use of an identified asset – this may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified; and

- The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use.

3 Material accounting policies (continued)

Leases*(continued)*

The Company has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:

- the Company has the right to operate the asset; or
- the Company designed the asset in a way that predetermines how and for what purpose it will be used.

As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased. Lease payments included in the measurement of the lease liability comprise fixed payments, including in-substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3 Material accounting policies *(continued)*

Accounting standards issued but not yet effective

A number of new accounting standards are effective for annual reporting periods beginning after 1 January 2025 and earlier application is permitted. However, the Company has not early adopted the following new or amended accounting standards in preparing these financial statements.

a) IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 will replace IAS 1 Presentation of Financial Statements and applies for annual reporting periods beginning on or after 1 January 2027. The new standard introduces the following key new requirements.

• Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal. Entities' net profit will not change.
• Management-defined performance measures (MPMs) are disclosed in a single note in the financial statements.
• Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under indirect method.

The Company is still in the process of assessing the impact of the new standard, particularly with respect to the structure of the Company's statement of profit or loss, the statement of cash flows and the additional disclosures required for MPMs. The Company is also assessing the impact on how information is grouped in the financial statements, including for items currently labelled as "other".

b) Other accounting standards

The following new and amended standards are not expected to have a significant impact on the Company's financial statements.

— Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) and
— Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7).

New standards or amendments and forthcoming requirements

Below is a list of recent changes to the Accounting Standards that are required to be applied for annual reporting periods beginning after 1 January 2025 and that are available for early adoption in annual reporting periods beginning on 1 January 2025.

- Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7 (1 January 2026)
- Contract Referencing Nature-dependent Electricity - Amendments to IFRS 9 and IFRS 7 (1 January 2026)
- Annual Improvements to IFRS Accounting Standards – Volume 11 (1 January 2026)
- IFRS 18 Presentation and Disclosure in Financial Statements (1 January 2027)
- IFRS 19 Subsidiaries without Public Accountability: Disclosures (1 January 2027)
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture Amendments to IFRS 10 and IAS 28 (effective date deferred indefinitely)

4 Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk; and
- market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included on note 17 of these financial statements.

Risk management framework

The management of the Company has overall responsibility for the establishment and oversight of the Company's risk management framework and is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risk faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash at bank, trade and other receivables (excluding prepayments and advances to suppliers) and amounts due from a related party.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Company's customer base, including the default risk of the industry and country, in which customers operate, has less of an influence on credit risk.

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade receivables. The main component of this allowance is a specific loss component that relates to individually significant exposures in respect of losses that have been incurred but not yet identified. The Company's cash is placed with bank of good repute.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk mainly relates to trade and other payables (excluding advances from customers), and due to related parties. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company maintains adequate reserves, by continuous monitoring, forecast and actual cash flows.

4 Financial risk management *(continued)*

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and fluctuations in fair value will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on purchases that are denominated in a currency other than its functional currency, primarily the US Dollar (USD). Since USD is currently pegged to OMR, the Company does not hedge the currency risk in respect of its foreign currency exposure.

Interest rate risk
Interest rate risk is the risk of loss from fluctuations of future cash flows because of a change in market interest rates.

Other market price risk

Price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

Capital management

The Company's objectives when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain a strong capital structure to reduce the cost of capital. Capital requirements are prescribed by the Commercial Companies Law of 2019.

5 Revenue

Revenue from contract with customers is disaggregated by major products and service lines.

10.1 Provision for impairment loss on trade receivables

The movement in the provision for impairment loss on trade receivables during the year was as follows:

	2025	2024
	﷼	﷼
As at 1 January	**5,713**	5,713
As at 31 December	**5,713**	5,713

11 Related parties

Related parties, within the definition of a related party contained in International Accounting Standard 24, represent associated companies, major shareholders, directors and key management personnel of the Company, and entities controlled, jointly controlled or significantly influenced by such parties. With respect to related party relationships, Desert Adventure Tourism L.L.C. is the Parent Company of the Company, while Gulf Dunes L.L.C. and Jordan Desert Adventures Tourism L.L.C. are its sister concerns.

Significant transactions entered with related parties during the year were:

	Relationship	**2025**	2024
		﷼	﷼
Interest income	Fellow subsidiaries	**-**	5,147
Revenue	Fellow subsidiaries	**1,604**	437
Interest Expense	Fellow subsidiaries	**1,666**	-

	2025	2024
	OMR	OMR
Due from related parties		
Desert Adventures Tourism L.L.C. – Dubai	**259,930**	111,602
Gulf Dunes LLC – Oman	**-**	5,308
Desert Adventures Tourism PSC - Jordan	**-**	273
	259,930	117,183

The above-mentioned related party receivable as of the reporting date are unsecured and will be settled in the next twelve months from the reporting date. Accordingly balance due from related party is classified as stage 1 and expected credit losses have been recognized based on the loss allowance expected within next 12 months from the reporting date. Furthermore, the balance is not past due as of the reporting date.

Key management compensation

The key management personnel compensation is as follows:

	2025	2024

Deferred tax on prior years	**(22,456)**	(3,824)
Unrecognized deferred tax on losses	**3,601**	6,890
Tax income for the year	**(22,456)**	-

Status of assessment

The assessment of the Company has been completed and agreed up to the Tax Year 2021. The assessment for Tax Years 2022 and 2024 has not yet initiated by the Tax Authority. Management is of the opinion that any additional taxes, if any, related to the open years would not be significant to the Company's financial position as at 31 December 2025.

20 Financial risk management

The Company has exposure to the following risks arising from financial instruments

- Credit risk.
- Liquidity risk; and
- Market risk.

Risk management framework

The Company's management has overall responsibility for the establishment and oversight of the Company's risk management framework. The management is responsible for developing and monitoring the Company's risk management policy.

The Company's risk management policies are established to identify and analyze the risk faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash at bank, trade and other receivables and amounts due from related parties.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company's cash and cash equivalents are held with bank and financial institution counterparties, which have good market credibility and stability.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2025	2024
	£	£
Trade and other receivables *	**197,443**	165,619
Due from related parties	**259,930**	117,183
Cash at bank	**33,439**	18,431
	490,812	301,233

* Prepayments are excluded.

At 31 December 2025 and 31 December 2024, the Company's exposure of credit risk to trade receivables by geographical region was as follows:

	Gross Amount 2025	Gross Amount 2024
	£	£
Geographical regions		
Europe	**68,394**	35,631
Middle East	**35,561**	28,999
Commonwealth of Independent States	**57,217**	43,593
Others	**17,775**	46,582
Grand total	**178,947**	154,805

20 Financial risk management *(continued)*

Credit risk

The ageing of trade receivables at the reporting date was:

	Not credit-impaired 2025	**Credit impaired 2025**	Not credit-impaired 2024	Credit impaired 2024
	£	£	£	£
Not yet due	124,914	-	101,420	-
1-30 days	42,812	-	30,890	-
31- 90 days	9,947	-	21,220	-
91- 120 days and above	1,274	(5,713)	1,275	(5,713)
Total	178,947	(5,713)	154,805	(5,713)

Impairment losses

Expected credit losses assessment for individual customers as at 31 December 2025 and 31 December 2024.

The Company uses an allowance matrix to measure the ECLs of trade receivables from individual customers, which comprise large number of trade balances. Loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency to write-off. Roll rates are calculated separately for exposures in different segments based on the following common credit risk characteristics - geographic region and industry.

Loss rates are based on actual credit loss experience over the past three years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Company's view of economic conditions over the expected lives of the receivables. Exposure is segmented by geographical region and an ECL rate is calculated for each segment based on delinquency status and actual credit loss experience over the past three years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Company's view of economic conditions over the expected lives of the receivables. Scalar factors are based on GDP.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company aims to maintain the level of cash and cash equivalents at an amount in excess of expected cash outflows on financial liabilities by continuous monitoring of forecast and actual cash outflows.

20 Financial risk management *(continued)*

Liquidity risk*(continued)*

The following are the contractual maturities of financial liabilities based on contractual payments:

	Carrying amount	Contractual cash outflows	1 year or less
	£	£	£
2025			
Non derivative financial liabilities			
Trade and other payables*	**494,291**	**494,291**	**494,291**
2024			
Non derivative financial liabilities			
Trade and other payables*	309,354	309,354	309,354

**excluding advances from customers*

Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates, interest rates and equity prices - will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on purchases that are denominated in a currency other than its functional currency, primarily the US Dollar (USD). Since USD is currently pegged to OMR, the Company does not hedge the currency risk in respect of its foreign currency exposure.

Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to shareholders. The Company is not subject to externally imposed capital requirements.

21 Fair values

The fair values of the Company's financial assets and financial liabilities approximate their carrying amounts.

Fair value hierarchy

As at 31 December 2025 and 31 December 2024, there are no financial instruments carried at fair value by valuation method.

22 Use of judgments and estimates

In the process of applying the entity's accounting policies, which are described in the notes, management has made certain judgment and estimates as mentioned below.

22 Use of judgments and estimates *(continued)*

Assumptions and estimation uncertainties

The key assumption concerning the future, and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Impairment losses on receivables

The measurement of the expected credit loss allowance for financial assets measured at amortized cost is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g. the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in note 20.

Elements of the ECL models that are considered accounting judgments and estimates include:

- Development of ECL models, including various formulas and choice of inputs
- The segmentation of financial assets when their ECL is assessed on a collective basis; and
- Determination of associations between macroeconomic scenarios and, economic inputs, and their effect on probability of default (PDs), exposure at default (EADs) and loss given default (LGDs).

Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models. The Company's policy is to regularly review its models in the context of actual loss experience and adjust when necessary. Detailed information about the judgments and estimates made by the Company in the above areas is set out in note 20.

23 Subsequent events

Subsequent to the reporting date, geopolitical tensions in the Middle East have escalated, resulting in increased regional uncertainty across the Arabian Gulf region, including the Sultanate of Oman. The situation remains dynamic and continues to evolve.

As these events occurred after the reporting date, no adjustments have been made to the amounts recognized in the financial statements as at 31 December 2025. Management of the Company continues to closely monitor developments, particularly considering the potential impact on the tourism sector, including travel demand and customer activity.

As at the date of this report, the Company continues to operate; however, business volumes have declined significantly following the onset of the conflict, resulting in reduced inbound tourism demand. Management and the Board of Directors are of the view that the Company will be able to continue its operations, supported by financial assistance from its parent entity.

Furthermore, management believes that, once the regional situation stabilizes, the Company is likely to benefit from a recovery in travel demand initially driven by the local, CIS, and Sub-continent markets which are expected to contribute positively to business volumes in the short term, until traditional markets return to their normal levels.

Notes to financial statements	9 - 27

Directors' Report

The directors submit their report together with the audited financial statements of Gulf Dunes LLC for the year ended 31 December 2025.

LEGAL STATUS

Gulf Dunes LLC ("the Company") is a limited liability company registered with the Ministry of Commerce and Industry in the Sultanate of Oman on May 01, 2001, under the commercial registration no. 1684345.

The Company's 70% shares are held by Gulf Dunes LLC, Dubai, UAE for the beneficial interest of Travel Circle International Ltd. ("the Parent Company") and 30% by Hani Juma'an Ashoor Al Rajab.

The main business activity of the Company is organizing of conventions, conferences and meeting for groups, management of lounges and carry out tour operator activities in Sultanate of Oman.

The registered office of Gulf Dunes LLC is P.O. Box no. 6655, Muscat, Sultanate of Oman.

FINANCIAL PERFORMANCE

The results of the Company for the year ended 31st December 2025 and 31st December 2025 are stated below:

Financial highlights	**2025**	2024
	﷼	﷼
Net loss	(28,358)	(9,955)
Total equity	56,580	84,938

SUBSEQUENT EVENT:

Subsequent to the reporting date, geopolitical tensions in the Middle East have escalated, resulting in increased regional uncertainty. While no adjustments have been made to the financial statements, the Company has experienced a decline in business volumes due to reduced inbound tourism demand following the onset of the conflict.

Management continues to monitor the situation closely and, with the support of its parent entity, believes the Company will be able to continue its operations and benefit from a recovery in travel demand once conditions stabilize.

AUDITORS

KPMG Lower Gulf Limited was appointed as the independent auditor for the year ended 31 December 2025. The firm is eligible for reappointment for the financial year 2026 and has expressed its willingness to continue in office. The Director recommends the reappointment of KPMG Lower Gulf Limited as the Company's auditor for the year ending 31 December 2026.

Independent auditors' report

To the Shareholders of Gulf Dunes LLC

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Gulf Dunes LLC ("the Company"), which comprise the statement of financial position as at 31 December 2025, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2025 and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the Sultanate of Oman, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2 (e) of the financial statements, which indicates that the Company incurred a net loss of OMR 28,358 during the year ended 31 December 2025. As stated in Note 2 (e), these events or conditions, along with other matters as set forth in Note 2 (e), indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Continued from page 2

Other Information

Management is responsible for the other information. The other information comprises the Directors' report which is set out on Page 1.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards, and their preparation in compliance with the applicable provisions of the Commercial Companies Law of 2019 and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with Governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Continued from page 3

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

We report that these financial statements comply, in all material respects, with the applicable provisions of the Commercial Companies Law of 2019.

To the best of our knowledge, the financial statements fairly presents, in all material respects, the financial position, results of operation and cash flows of the Company as of, and for, the year ended 31 December 2025.

These financial statements were authorized for issue on behalf of the Company's Directors on 28 April 2026:

Salim Sikander
Chief Financial Officer

Peter Payet
Chief Executive Officer

The notes on pages 9 to 27 are an integral part of these financial statements.

The independent auditors' report is set out on pages 2 - 4.

1 Reporting entity

Gulf Dunes LLC ("the Company") is a limited liability company registered with the Ministry of Commerce and Industry in the Sultanate of Oman on May 01, 2001, under the commercial registration no. 1684345.

The Company's 70% shares are held by Gulf Dunes LLC, Dubai, UAE for the beneficial interest of Travel Circle International Ltd. ("the Parent Company") and 30% by Hani Juma'an Ashoor Al Rajab. The Ultimate Parent of the Company is Fairfax Financial Holdings Limited ("the Ultimate Parent Company and Ultimate Controlling Party"), a company registered in Toronto, Ontario, Canada.
Hani Juma'an Ashoor Al Rajab is acting as the local sponsor under an agreement dated May 16, 2011 and receives a sponsorship fee. Hani Juma'an Ashoor Al Rajab has agreed not to take part in the operational and financial management of the Company.

The main business activity of the Company is organizing of conventions, conferences and meeting for groups, management of lounges and carry out tour operator activities in Sultanate of Oman. The registered office of Gulf Dunes LLC is P.O. Box no. 6655, Muscat, Sultanate of Oman.

2 Basis of accounting

a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by International Accounting Standards Board (IASB) and the requirements of the Commercial Companies Law of 2019.

b) Basis of measurement

The financial statements have been prepared under the historical cost basis.

c) Functional and presentation currency

These financial statements are presented in Omani Rial ("OMR- ﷼"), which is the Company's functional currency as well.

d) Use of estimates and judgments

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.
Judgements made by management in the application of IFRS does not have any significant effect on the financial statements and there are no management estimates which could have a significant risk of material adjustment in the future years.

2 Basis of accounting (continued)

e) Going concern

During the year ended 31 December 2025, the Company incurred a loss after tax of OMR 28,358 *(31 December 2024: OMR 9,955)* and as at 31 December 2025 its accumulated losses amounted to OMR 98,621 (2024: accumulated losses OMR 70,263). As at the date of this report, the Company continues to operate, however, business volumes have declined significantly due to the ongoing geopolitical situation in the region, resulting in reduced inbound tourism demand. This has adversely impacted the Company's recent performance and creates uncertainty in the development and execution of its business plans, including assumptions relating to revenue growth and recovery timelines.
The Company's ability to continue as a going concern is dependent on the continued financial support from its Parent Company and the expectation of future profitable operations. The Parent Company has issued a letter of support, confirming its commitment to provide the necessary financial assistance to enable the Company to meet its working capital requirements in the foreseeable future.

Accordingly, the accompanying financial statements have been prepared on a going concern basis and do not include any adjustments that might be required if the Company were unable to continue as a going concern.

3 Material accounting policies

The Company has consistently applied the following accounting policies to all periods presented in these financial statements, except if mentioned otherwise.

Revenue from contract with customers

The Company renders a wide range of tourism and related services (hotel bookings, transport and visa services, excursion and travel related services) to groups. Revenue from rendering these services is recognized in the profit or loss when it transfers control over a service to a customer. This is generally the case on the date of arrival. Any expected discounts to the customers are estimated and are netted off against transaction price as per the requirements of the accounting standard.

Financial instruments

Recognition and initial measurement

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Classification and subsequent measurement

On initial recognition, a financial asset is classified as and measured at: amortized cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

3 Material accounting policies

Financial instruments (continued)

Classification and subsequent measurement (continued)

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis. Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets – Subsequent measurement and gains and losses:

'inancial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

3 Material accounting policies(continued)

Financial instruments (continued)

Classification and subsequent measurement (continued)

Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3 Material accounting policies(continued)

Derecognition(continued)

Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized is recognized as finance cost.

Employees' end of service benefits

The Company provides employee' end of service benefits to its employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

Contributions to a defined contribution retirement plan and occupational hazard insurance for Omani employees in accordance with the Omani Social Insurances Law of 1991 are recognised as an expense in the profit or loss as incurred.

Share capital

Ordinary shares are classified as equity. Balances which represent a residual interest in the net assets of the Company are presented within equity.

Foreign currency transactions

Transactions in foreign currencies are translated to OMR and recorded at the rates of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to OMR at the foreign exchange rate ruling at that date. Non-monetary items in a foreign currency that are measured in terms of historical cost are

translated into RO using the exchange rates at the date of the transaction. Foreign exchange differences arising on translation are recognised in profit or loss.

Tax

Tax expense comprises current and deferred tax. Current and deferred tax is recognised in the profit or loss except to the extent that is relates to a business combination, or items recognised directly in the equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect to previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantially enacted at the reporting date.

3 Material accounting policies(continued)

Derecognition(continued)

Impairment

Non-derivative financial assets

Financial instruments

The Company recognizes loss allowances for Expected Credit Losses (ECLs) on financial assets measured at amortized cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for bank balances for which credit risk (i.e.the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables and due from related parties are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on trade receivables has increased significantly if it is more than 90 days past due i.e.120 days from the invoice date.

The Company considers trade receivables to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or

- the financial asset is more than 90 days past due

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

3 Material accounting policies(continued)

Impairment(continued)

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:
- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise; or
- it is probable that the borrower will enter bankruptcy or other financial reorganization

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Financial assets not classified as at FVTPL were assessed at each reporting date to determine whether there was objective evidence of impairment.

Non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets, investment property and inventories to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

An impairment loss is recognized whenever the carrying amount of the asset exceeds the recoverable amount. Impairment losses, if any, are recognized in the statement of profit or loss.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

3 Material accounting policies (continued)

Impairment (continued)

Non-financial assets (continued)

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss.

Impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognized.

Write-off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Company has a policy of writing off the gross carrying amount when the financial asset is past due based on historical experience of recoveries of similar assets. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Leases

At inception of a contract the Company assess whether a contract is or contain a lease. A contract is or contains, a lease if contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

a) The contract involves the use of an identified asset - this may be specified explicitly or implicitly and should be physically distinct asset or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified.
b) The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
c) The Company has the right to direct the use of the asset. The Company has this right when it has the decision -making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:

3 Material accounting policies (continued)

Leases (continued)

- The Company has the right to operate the asset; or
- The Company designed the asset in a way that predetermines how and for what purpose it will be used

At inception or on assessment of a contract that contains a lease component, the Company applies, by class of underlying asset, not to separate non-lease components from lease components, and instead account for each lease component and any associated non-lease components as a single lease component.

Right of use asset

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right of use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

Lease liability

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments in the measurement of the lease liability comprise the following:

a) fixed payments, including in-substance fixed payments.
b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date.
c) amounts expected to be payable under a residual value guarantee; and
d) the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company’s estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

3 Material accounting policies (continued)

Leases (continued)

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases of equipment's that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term. All the lease contracts of the Company are short term contracts hence there is no impact of adoption of IFRS 16 on the Company's financial statements.

a) IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 will replace IAS 1 Presentation of Financial Statements and applies for annual reporting periods beginning on or after 1 January 2027. The new standard introduces the following key new requirements.

- Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal. Entities' net profit will not change.
- Management-defined performance measures (MPMs) are disclosed in a single note in the financial statements.
- Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under indirect method.

The Company is still in the process of assessing the impact of the new standard, particularly with respect to the structure of the Company's statement of profit or loss, the statement of cash flows and the additional disclosures required for MPMs. The Company is also assessing the impact on how information is grouped in the financial statements, including for items currently labelled as "other".

3 Material accounting policies (continued)

New standards or amendments and forthcoming requirements (continued)

b) Other accounting standards

The following new and amended standards are not expected to have a significant impact on the Company's financial statements.

- Lack of Exchangeability - Amendments to IAS 21 (1 January 2025)

Standards issued but not yet effective

A number of new accounting standards are effective for annual reporting periods beginning after 1 January 2025 and earlier application is permitted. However, the Company has not early adopted the following new or amended accounting standards in preparing these financial statements. The following new and amended standards are not expected to have a significant impact on the Company's financial statements.

- Contract Referencing Nature-dependent Electricity - Amendments to IFRS 9 and IFRS 7 (1 January 2026)
- Annual Improvements to IFRS Accounting Standards – Volume 11 (1 January 2026)
- IFRS 18 Presentation and Disclosure in Financial Statements (1 January 2027)
- IFRS 19 Subsidiaries without Public Accountability: Disclosures (1 January 2027)
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture Amendments to IFRS 10 and IAS 28 (effective date deferred indefinitely)

4 Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk; and
- market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included on note 17 of these financial statements.

Risk management framework

The management of the Company has overall responsibility for the establishment and oversight of the Company's risk management framework and is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risk faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash at bank, trade and other receivables (excluding prepayments and advances to suppliers) and amounts due from a related party.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Company's customer base, including the default risk of the industry and country, in which customers operate, has less of an influence on credit risk.

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade receivables. The main component of this allowance is a specific loss component that relates to individually significant exposures in respect of losses that have been incurred but not yet identified. The Company's cash is placed with bank of good repute.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk mainly relates to trade and other payables (excluding advances from customers), and due to related parties. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company maintains adequate reserves, by continuous monitoring, forecast and actual cash flows.

4 Financial risk management *(continued)*

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and fluctuations in fair value will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on purchases that are denominated in a currency other than its functional currency, primarily the US Dollar (USD). Since USD is currently pegged to OMR, the Company does not hedge the currency risk in respect of its foreign currency exposure.

Interest rate risk
Interest rate risk is the risk of loss from fluctuations of future cash flows because of a change in market interest rates.

Other market price risk

Price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

Capital management

The Company's objectives when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain a strong capital structure to reduce the cost of capital. Capital requirements are prescribed by the Commercial Companies Law of 2019.

5 Revenue

The Company's revenue is generated by providing a wide range of tourism and related services (hotel bookings, transport and visa services, excursion and travel related services) to groups.

9 Related party transactions

The Company in normal course of business, enter into transactions with other business entities which fall within the definition of related party contained in International Accounting Standard 24. Such transactions are on terms and conditions mutually agreed between them. There were no transactions with the related party except for the funds payment and receipt during the year ended 31 December 2025 and 31 December 2024. Gulf Dunes LLC, Dubai and Muscat Desert Adventures Tourism LLC are sister concerns of the Company.

9 Related party transactions

Significant transactions entered with related parties during the year were:

	Relationship	**2025** £	2024 £
Cost of sales	Fellow subsidiaries	**-**	437

	2025 £	2024 £
Due from a related party		
Gulf Dunes LLC, Dubai	**31,441**	80,898

Authorized, issued and fully paid-up capital		
150,000 ordinary shares of OMR 1 each	**150,000**	150,000

12.1 The authorized and fully paid-up share capital of the Company is 150,000 divided into 150,000 shares of Omani Rial 1.

13 Statutory reserves

In accordance with Article 132 of the Commercial Companies Law of 2019, a minimum of 10% of the net profit of the Company is to be allocated every year to a statutory reserve. No such transfer is required once the statutory reserve has reached one-third of the paid-up share capital of the Company. During the year, as Company has incurred loss, no amount was transfer to reserves (2024: OMR Nil).

14 Cash at bank

	2025	2024

15 Taxes (continued)

Deferred tax asset on losses has not been recognized as the Company believes that sufficient taxable profits will not be generated to utilize deferred tax asset.

b) ***Reconciliation***

The following is tax reconciliation of income taxes calculated at applicable tax rate with income tax expense:

	2025	2024
Loss for the year	**(28,358)**	(11,279)
Income tax as per rates mentioned above	**(4,254)**	(1,692)
Non-deductible expenses	**993**	1,007
Deferred tax not recognized for prior period	**3,261**	685
Current tax – prior year	**-**	(1,324)
Tax expense for the year	**-**	(1,324)

c) ***Status of tax assessments***

The assessment of the Company has been completed upto Tax Year 2021. The assessment for Tax years 2022 to 2024 has not yet been initiated by the Tax Authority. Management is of the opinion that any additional taxes, if any, related to the open years would not be significant to the Company's financial position as at 31 December 2025.

16 Contingent liabilities and capital commitment

The Company had Nil contingent liabilities and capital commitment as at 31 December 2025 (*2024: OMR Nil*).

17 Financial instruments

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash at bank, trade and other receivables and amounts due from related parties.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company's cash and cash equivalents are held with bank and financial institution counterparties, which have good market credibility and stability.

17 Financial instruments (continued)

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2025	2024
	£	£
Trade and other receivables *	**2,858**	-
Cash at bank	**23,790**	7,382
Due from a related party	**31,441**	80,898
	57,777	88,280

* Prepayments are excluded.
At 31 December 2025 and 31 December 2024, the Company's exposure of credit risk to trade receivables by geographical region was as follows:

	Gross Amount 2025	Gross Amount 2024
	£	£
Geographical regions		
Middle East	**2,858**	-
Grand total	**2,858**	-

Liquidity risk

The following are the contractual maturities of financial liability based on contractual undiscounted payments including interest payment and excluding impact of netting:

	Carrying amount	**Contractual cashflows**	**1 year or less**
	£	£	£
31 December 2025			
Non derivative financial liabilities			
Trade and other payables*	**4,459**	**(4,459)**	**(4,459)**
	4,459	**(4,459)**	**(4,459)**

***(excluding advances from customers, Tax and VAT payable)**

	Carrying amount	Contractual cashflows	1 year or less
	£	£	£
31 December 2024			
Non derivative financial liabilities			
Trade and other payables*	141	(141)	(141)
	141	(141)	(141)

*(excluding advances from customers and VAT payable)

17 Financial instruments (continued)

Market risk

Foreign exchange risk

The Company has no significant exposure to foreign currency risk as foreign currency transactions are mainly made in USD and the Omani Rial to USD exchange rate has remained unchanged since 1986.

Interest rate risk
The Company has no borrowings and is not exposed to interest rate risk.

18 Fair values

The fair values of the Company's financial assets and financial liabilities approximate their carrying amounts due to the short-term nature of these instruments.

Fair value hierarchy

As at 31 December 2025 and 31 December 2024, there are no financial instruments carried at fair value by valuation method. Accordingly, fair value hierarchy disclosures are not applicable.

19 Subsequent events

Subsequent to the reporting date, geopolitical tensions in the Middle East have escalated, resulting in increased regional uncertainty across the Arabian Gulf region, including the Sultanate of Oman. The situation remains dynamic and continues to evolve.

As these events occurred after the reporting date, no adjustments have been made to the amounts recognized in the financial statements as at 31 December 2025. Management of the Company continues to closely monitor developments, particularly considering the potential impact on the tourism sector, including travel demand and customer activity.

As at the date of this report, the Company continues to operate; however, business volumes have declined significantly following the onset of the conflict, resulting in reduced inbound tourism demand. Management and the Board of Directors are of the view that the Company will be able to continue its operations, supported by financial assistance from its parent entity.

Furthermore, management believes that, once the regional situation stabilizes, the Company is likely to benefit from a recovery in travel demand initially driven by the local, CIS, and Sub-continent markets which are expected to contribute positively to business volumes in the short term, until traditional markets return to their normal levels

INDEPENDENT AUDITOR'S REPORT

To The General Assembly of
DESERT ADVENTURES TOURISM
(PRIVATE SHAREHOLDING COMPANY)
Amman – Jordan
For The Year Ended December 31, 2025

Report on The Audit of The Financial Statements

Opinion

We have audited the financial statements of **Desert Adventures Tourism – Private Shareholding Company - ("the Company")**, which comprise the statement of financial position as at December 31, 2025, the statements of profit or loss and other comprehensive income, changes in shareholder equity and cash flows for the year then ended, and notes to the financial statements, comprising material accounting policies and other explanatory information .

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as issued by International Accounting Standards Board (IASB).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error .

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
Those charged with governance are responsible for overseeing the Company's financial reporting process.

INDEPENDENT AUDITOR'S REPORT

To The General Assembly of
DESERT ADVENTURES TOURISM
(PRIVATE SHAREHOLDING COMPANY)
Amman – Jordan
For The Year Ended December 31, 2025

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

The Company maintains proper accounting records. The accompanying financial statements are, in all material aspects, in agreement with the Company's accounting records, and we recommend that the Company's General Assembly of the Shareholder approves these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL

Desert Adventures Tourism PSC was incorporated on 16 September 2010 as a Private Shareholding Company in the Hashemite Kingdom of Jordan, under number (767), with a paid up capital of JD 100,000, divided into 100,000 shares, distributed as the below schedule. The Company's parent is Desert Adventures Tourism LLC (Dubai), which is ultimately owned by Travel Circle International (Mauritius) Limited ("the Holding Company"). The ultimate parent and ultimate controlling party is Fairfax Financial Holdings Limited, with its registered address at 95 Wellington Street West, Suite 800, Toronto, Ontario, Canada.

The shareholding in the Company is as follows:

Shareholder	Share
Desert Adventures Tourism LLC (Dubai)	100%

Previously, Loai Khalid Ahmed Najdawi held shares for the beneficial interest of the Parent Company. On 27 September 2025, all shares held by Loai Khalid Ahmed Najdawi were transferred to Desert Adventures Tourism LLC (Dubai). Accordingly, Desert Adventures Tourism LLC (Dubai) became the sole shareholder of the Company.

The principal business activity of the Company is organizing leisure and individual business tours. The Company secures access to hotel accommodation and other activities and services from hotels and other service providers at competitive rates which are offered at preferential rates to tour operators, travel agents and other wholesalers.

The registered address of the Company is Amman – Mecca Street, Jordan.
The financial statements were authorised and approved by the General Assembly on 24 May 2026

2. BASIS OF PREPARATION

(a) Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs").

(b) Basis of measurement

The financial statements have been prepared on a historical cost basis except for financial assets and financial liabilities measured at fair value.

(c) Functional and presentation currency

The financial statements are presented in Jordanian Dinar, which is also the Company's functional currency.

(d) Use of estimates and judgments

In preparing the financial statements, management has made judgements and estimates that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Judgments

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- Revenue recognition: whether revenue is recognised over time or at a point in time. Revenue from hotel accommodation (both separate and sold as part of tour package) is recognized when the control is transferred to the customer. The customer gets the control when all the tour related vouchers and travel tickets are issued to them. As per the general practice, the Company issues all the vouchers and travel tickets to the Customer at time of travel of the tour. Hence, the Company fully transfers control of the promised services to the customer once all the vouchers and tickets are issued to the customer at time of travel.
- Classification of financial assets: Valuation of the business model under which the asset is to be held and determining whether the contractual terms of the SPPI are on the outstanding balance.
- The development of new criteria to determine whether financial assets have declined significantly since initial recognition and determine the methodology of future expectations and methods of measuring expected credit loss.

Estimates

Information about assumptions and estimation uncertainties at 31 December 2025 that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next financial year is included in the following notes:

- Revenue recognition: estimate of expected returns.
- Impairment of financial instruments: input and measurement of expected credit loss and future expectations. The measurement of the expected credit loss allowance for financial assets measured at amortized cost is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g. the likelihood of customers defaulting and the resulting losses).

Elements of the ECL models that are considered accounting judgments and estimates include:

- Development of ECL models, including various formulas and choice of inputs
- The segmentation of financial assets when their ECL is assessed on a collective basis; and
- Determination of associations between macroeconomic scenarios and, economic inputs, and their effect on probability of default (PDs), exposure at default (EADs) and loss given default (LGDs).

Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models. The Company's policy is to regularly review its models in the context of actual loss experience and adjust when necessary.

- Measurement of defined benefit obligations: key actuarial assumptions.
- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.
- Recognition of deferred tax assets: availability of future taxable profit against which deductible temporary differences and tax losses carried forward can be utilized.
- Impairment test of intangible assets and property, plant and equipment : key assumptions underlying recoverable amounts.

Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values.

This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer. The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of the Standards, including the level in the fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Company's audit committee.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Estimates and underlying assumptions are reviewed on an ongoing basis, revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of uncertain estimations and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are summarized as follows:

Measurement of expected credit loss allowance for receivables and contract assets, including the assumptions in determining weighted average loss rate.

- Management recognizes income tax expense for the year based on management's estimate for taxable profit in accordance with the prevailing laws, regulations and IFRSs.
- Management periodically reassesses the economic useful life of property, plant and equipment, intangible assets and refundable cases based on the general condition of these assets and the expectation of their useful economic lives in the future.
- Management frequently reviews the lawsuits raised against the Company based on a legal study prepared by the Company's legal advisors. This study highlights potential risks that the Company may incur in the future.

Management believes that its estimates and judgments are reasonable and adequate.

3. MATERIAL ACCOUNTING POLICIES

The accounting policies applied by the Company in these financial statements for the year ended December 31, 2025 are the same as those applied by the Company in its financial statements for the year ended December 31, 2024, except for the following new International Financial Reporting Standards or amendments that become effective after January 1, 2025:

New International Financial Reporting Standards or amendments	Application Date
Lack of Exchangeability – Amendments to IAS 21	January 1, 2025

The application of these new standards and amended standards did not have a significant effect on the Company's financial statements.

The following are the material accounting policies applied by the Company:

a) Revenue recognition

The Company generates revenue primarily from wide range of tourism and related services. Revenue includes hotel accommodation, transfers, visa services and other tourism and travel-related services. The revenue from rendering these services is recognized in profit or loss at the fair value of the consideration received or receivable.

Contract balances results from contracts with customers include receivables, contract assets and contract liabilities. The contract liabilities primarily relate to the advance consideration received from customers, for which revenue is recognized over time.

Revenue is measured based on the consideration specified in a contract with a customer. The Company recognizes revenue when it transfers control - at a point in time or over time - over a good or service to a customer in accordance with IFRS 15 as follows:

1 Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations.

2 Identify the performance obligations in the contract.

3 Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

4 Allocate the transaction price to the performance obligations in the contract. For a contract that has more than one performance obligation, the Company will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

5 Recognize revenue when (or as) the entity satisfies a performance obligation at a point in time or over time.

The Company satisfies a performance obligation and recognizes revenue over time, if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs; or
- The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- The Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date.

The following table provides information about the nature and timing of the satisfaction of performance obligation in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Type of product/service	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition under IFRS 15
Tourism & related services including: Hotel accommodation Visas Transfers Meet and greet and; Excursions	Control of travel related services is considered transferred to customer at the travel in date i.e. in case of: - Visas at the date of issuance; - Hotel accommodation on the date hotel check in; - Transfers on the date of arrival; - Meet and greet on the date of arrival; and - Excursions on the date excursions Invoices are usually payable within 30 days. Terms of cancellations vary depending on the timing of the season during the year. The services are generally short-term in nature, and the lead time between booking confirmation, invoicing and delivery of the related travel service is typically short. Revenue is recognized when the customer travels, checks in, or otherwise consumes the relevant service or package.	Revenue is recognized at a point in time i.e. the time of travel in date.

Principal versus agent assessment
Management has assessed whether the Company acts as a principal or an agent in these arrangements in accordance with IFRS 15. The Company is acting as a principal, as it has primary responsibility for fulfilling the promise to the customer, is responsible for coordinating and delivering the overall travel experience, bears service-related risks, and has discretion in establishing prices. Customers contract directly with the Company, and the Company remains responsible for addressing service issues or arranging alternative services where required. Accordingly, revenue from these arrangements is recognized on a gross basis, with the full amount of consideration received from customers recognized as revenue and the related supplier costs recognized separately as cost of sales**.**

b) Financial instruments

i. *Recognition and initial measurement for financial assets and liabilities*

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

ii. *Classification and subsequent measurement for financial assets and liabilities*

- ***Financial assets:***

On initial recognition, a financial asset is classified as and measured at: amortized cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows (that are solely payments of principal and interest on the principal amount outstanding).

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

- **Business model assessment**

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- The stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- How the performance of the portfolio is evaluated and reported to the Company's management;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- How managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- The frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

- **Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest**

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- Contingent events that would change the amount or timing of cash flows;
- Terms that may adjust the contractual coupon rate, including variable-rate features;
- Prepayment and extension features; and
- Terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

- **Financial assets – Subsequent measurement and gains and losses:**

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

- **Financial liabilities – Classification, subsequent measurement and gains and losses**

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

iii. *Derecognition*

- **Financial assets**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

- **Financial liabilities**

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

iv. *Offsetting*

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

c) Foreign currency transactions

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in profit or loss and presented within finance costs.

d) Property, Plant and equipment

Recognition and Measurement

- Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.
- Cost includes expenditures that are directly attributable to the acquisition of the property, plant and equipment.
- When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separated items of property, plant and equipment.
- Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within the statement of profit or loss and other comprehensive income.

Subsequent cost

- The cost of replacing an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of day-to-day servicing of property and equipment are recognized in the profit or loss as incurred.
- Ongoing costs of repair and maintenance of property, plant and equipment are expensed in the statement of profit or loss and other comprehensive income as incurred.

Depreciation

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognized in profit or loss. Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

Property and equipment	Depreciation rate%
Office Decoration and Accessories	33%
Office Equipment	35%
Furniture and Fixture	15%

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

e) Impairment

i.Non-derivative financial assets

- **Financial instruments and contract assets**

The Company recognizes loss allowances for ECLs on:

- Financial assets measured at amortised cost;
- Debt investments measured at FVOCI; and
- Contract assets.

The Company also recognises loss allowances for ECLs on lease receivables, which are disclosed as part of trade and other receivables.

Loss allowances for trade receivables (including lease receivables) and contract assets are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on trade receivables has increased significantly if it is more than 90 days past due i.e. 120 days from the invoice date.

The Company considers trade receivables to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- the financial asset is more than 90 days past due

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

- **Measurement of ECLs**

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

- **Credit-impaired financial assets**

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise; or
- it is probable that the borrower will enter bankruptcy or other financial reorganization
- The disappearance of an active market for a security because of financial difficulties.

- **Presentation of allowance for ECL in the statement of financial position**

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.
For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in OCI.

- **Write-*off***

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Company has a policy of writing off the gross carrying amount when the financial asset is past due based on historical experience of recoveries of similar assets. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Financial assets not classified as at FVTPL were assessed at each reporting date to determine whether there was objective evidence of impairment.

Objective evidence that financial assets were impaired included:

- default or delinquency by a debtor;
- restructuring of an amount due to the Company on terms that the Company would not consider otherwise;
- indications that a debtor or issuer would enter bankruptcy;
- adverse changes in the payment status of borrowers or issuers;
- observable data indicating that there was a measurable decrease in the expected cash flows from a Company of financial assets.

- **Financial assets measured at amortized cost**

The Company considered evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets were individually assessed for impairment. Those found not to be impaired were then collectively assessed for any impairment that had been incurred but not yet individually identified. Assets that were not individually significant were collectively assessed for impairment. Collective assessment was carried out by grouping together assets with similar risk characteristics.

In assessing collective impairment, the Company used historical information on the timing of recoveries and the amount of loss incurred, and made an adjustment if current economic and credit conditions were such that the actual losses were likely to be greater or lesser than suggested by historical trends.

An impairment loss was calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses were recognized in profit or loss and reflected in an allowance account. When the Company considered that there were no realistic prospects of recovery of the asset, the relevant amounts were written off. If the amount of impairment loss subsequently decreased and the decrease was related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss was reversed through profit or loss.

f) Non-*financial assets*

At each reporting date, the Company reviews the carrying amounts of its non-financial assets, investment property and inventories to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis. An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

g) Provisions

A provision is recognized, if as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a rate that reflects current market assessments of the time value of money and the risks specific to the liability.

h) Income Tax and National Contribution

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in statement of income except to the extent that it relates to a business combination, or items recognized directly in equity or in other statement of profit or loss and other comprehensive income. Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect to previous years. Current tax payable is in accordance with prevailing income tax law in Jordan.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously. A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

i) Intercompany recharges

Intercompany expenses are recharged to related parties at arm's length price. Charges mainly includes Salaries and Other Admin expense including IT system cost as paid by / charged to the Company.

j) Contract assets

The contract assets are recognized for the Company's rights to consideration for services provided to the customer but not billed at the reporting date. The amount is netted with the expected credit losses, if any. The contract assets are transferred to receivables when the rights become unconditional. This usually occurs when the Company issues an invoice to the customers.

k) Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company uses the definition of a lease in IFRS 16.

As a lessee

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component. The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use assets reflect that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate. The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased. Lease payments included in the measurement of the lease liability comprise fixed payments, including in-substance fixed payments.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment. The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero. The Company presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'Lease Liability' in the statement of financial position.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a lessor

At inception or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative standalone prices. When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

At inception or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative standalone prices. When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset. When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, then the Company applies IFRS 15 to allocate the consideration in the contract.

The Company applies the derecognition and impairment requirements in IFRS 9 to the net investment in the lease. The Company further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease. The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other revenue'. Generally, the accounting policies applicable to the Company as a lessor in the comparative period were not different from IFRS 16 except for the classification of the sub-lease entered into during current reporting period that resulted in a finance lease classification.

4. STANDARDS NOT YET EFFECTIVE WITH EARLY ADOPTION PERMITTED

A number of new standards, amendments to standards and interpretations have been issued but have not been applied yet, and have not been applied when preparing these financial statements:

New Policies	Application Date
Classification and Measurement of Financial Instruments - Amendments to IFRS 9 and IFRS 7	January 1, 2026
Annual Improvements to IFRS Accounting Standards - Volume 11	January 1, 2026
IFRS 18 Presentation and Disclosure in Financial Statements	January 1, 2027
IFRS 19 Subsidiaries without Public Accountability Disclosures	January 1, 2027
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments to IFRS 10 and IAS 28	(To be determined-Early adoption is permitted)

The management does not expect that there will be a significant impact on the financial statements of the Company when applying the above standards.

5. CASH ON HAND AND AT BANK

This item represents:

In Jordanian dinar	As of December 31,	
	2025	**2024**
Cash at hand	55	2,314
Cash at bank	560,734	207,759
	560,789	**210,073**

6. TRADE AND OTHER RECEIVABLES

This item represents:

In Jordanian dinar	As of December 31,	
	2025	**2024**
Trade receivables	21,315	11,793
Expected credit loss allowance *	(758)	(758)
	20,557	**11,035**
Advances to suppliers	53,457	241,501
Expected credit loss allowance *	-	(231,144)
	53,457	**10,357**
Prepaid expenses and other debit balances	6,845	3,517
Deposits	25,000	25,000
	105,859	**49,909**

*The following table illustrates the movement on the allowance for expected credit loss on trade receivables and advance to suppliers:

Jordanian Dinar	As of December 31,	
	2025	**2024**
Balance at the beginning of the year	231,902	231,902
Reversal of impairment loss on advance to suppliers	(231,144)	-
Balance at the end of the year	**758**	**231,902**

7. PROPERTY AND EQUIPMENT

This item represents:

In Jordanian dinar	Office Equipment	Furniture and Fixture	Total
Balance at January 1, 2024	15,806	14,560	30,366
Balance at December 31, 2024	**15,806**	**14,560**	**30,366**
Balance at January 1, 2025	15,806	14,560	30,366
Addition for the year	2,001	-	2,001
Balance at December 31, 2025	**17,807**	**14,560**	**32,367**

Balance at January 1, 2024	13,432	13,097	26,529
Depreciation for the year	1,286	407	1,693
Balance at December 31, 2024	**14,718**	**13,504**	**28,222**
Balance at January 1, 2025	**14,718**	**13,504**	**28,222**
Depreciation for the year	1,152	406	1,558
Balance at December 31, 2025	**15,870**	**13,910**	**29,780**
Net book value as at December 31, 2025	**1,937**	**650**	**2,587**
Net book value as at December 31, 2024	**1,088**	**1,056**	**2,144**

8. TRADE AND OTHER PAYABLES

This item represents:

In Jordanian dinar	As of December 31,	
	2025	**2024**
Hotels and excursion payables	121,547	25,741
Trade payables	11,004	11,047
Advances from customers	181,443	81,606
Accrued expenses	24,898	35,267
	338,892	**153,661**

9. INCOME TAX

This item represents:

9-1) Income tax expense presented in Statement of Profit or Loss and Other Comprehensive Income

In Jordanian dinar	As of December 31,	
	2025	**2024**
Current year	-	-
Change in estimate relating to prior years*	41,168	-
Reversal of deferred tax asset recognized	(9,722)	-
Total income tax benefit	**31,446**	-

*The reversal of tax liability amounting to JOD 41,168 relates to tax provisions recorded in previous years. These provisions were initially recognized based on management's assessment of potential tax exposures arising from non-deductible expenses and other matters for prior tax periods.
During the current year, management reassessed the tax position based on the tax assessments finalized by tax authority for the years 2019 to 2023. Based on this reassessment, management concluded that the previously recorded provision is no longer required. Accordingly, the tax liability of JOD 41,168 has been reversed in the current year.

Income tax expense, current tax liabilities, and deferred tax assets have been calculated using the enacted tax rate of 20% in addition to the national contribution at 1% in accordance with the income tax law prevailing in the Hashemite Kingdom of Jordan in starting January 1, 2019.

9-2) Current Tax Liabilities

In Jordanian dinar	As of December 31,	
	2025	**2024**
Balance at the beginning of the year	**86,726**	86,726
Change in estimate relating to prior years	**(41,168)**	-
Balance at the end of the year	**45,558**	86,726

9-3) Reconciliation of Taxable Income

The total tax charge for the year can be reconciled to the accounting profit as follows:

In Jordanian dinar	As of December 31,	
	2025	**2024**
Reconciliation of effective tax rate

Tax on accounting profit at domestic rate	**21%**	21%
Tax effect of:		
Depreciation charge on right of use asset	**9,248**	9,639
Reversal of impairment loss on advance to suppliers	**(231,144)**	(445)
Contractual rent	**(10,000)**	(9,639)
	(2,406)	(104,784)
Change in estimate relating to prior years*	**(41,168)**	-
Income Tax Expense – current year	-	-

9-4) Income Tax Status

The Company obtained a final clearance with the Income and Sales Tax Department until the end of 2023. The income tax returns for the years 2019 to 2023 were submitted within the statutory deadlines and have been accepted by the Income and Sales Tax Department, however, they have not yet been subject to final tax audit by the Department. Management has recognized a deferred tax asset amounting to JD 19,412 in respect of carry-forward unutilized tax losses, based on the expectation that sufficient taxable profits will be available against which these losses can be utilized.

9-5) Deferred Tax Assets

Deferred tax assets balances are as follows:

In Jordanian dinar	As of December 31,	
	2025	**2024**
Opening balance	**29,134**	29,134
Reversal of deferred tax asset recognized	**(9,722)**	-
Balance at the end of the year	**19,412**	**29,134**

10. RELATED PARTIES BALANCES AND TRANSACTIONS

Related parties represent parent and affiliate companies, directors and key management personnel of the Company. The Company, in the ordinary course of business, enters into transactions with other business enterprises that fall within the definition of a related party contained in International Accounting Standard No. 24. Such transactions are made on terms and conditions agreed between the related parties.

10-1) DUE TO RELATED PARTIES

This item represents:

		As of December 31,	
In Jordanian dinar	**Nature of relationship**	**2025**	**2024**

	25,000	25,000

***** These Guarantees are issued for the favor of the Ministry of Tourism with an amount of JD 25,000 *(2024: JD 25,000)*.

18. FINANCIAL RISK MANAGEMENT

Overview

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

Risk management framework

The Company's management has overall responsibility for the establishment and oversight of the Company's risk management framework. The management is responsible for developing and monitoring the Company's risk management policy.

The Company's risk management policies are established to identify and analyze the risk faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash at bank, trade and trade and other receivables. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

Credit risk (continued)

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables and cash on hand and at bank are held with bank and financial institution counterparties, which have good market credibility and stability.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

In Jordanian dinar	As of December 31	
	2025	**2024**
Trade and other receivables *	45,557	36,035
Cash at bank	560,734	207,759
	606,291	243,794

* Prepayments and advances are excluded.

At 31 December 2025 and 31 December 2024, the Company's exposure of credit risk to trade receivables by geographical region was as follows:

In Jordanian dinar	As of December 31,	
	2025	**2024**
Geographical regions		
USA	11,928	-
Middle East	1,117	-
Europe	4,603	5,721
CIS	412	976
Others	3,255	5,096
Grand total	**21,315**	**11,793**

Expected credit losses assessment for individual customers as at 31 December 2025 and 31 December 2024.

The Company uses an allowance matrix to measure the ECLs of trade receivables from individual customers, which comprise large number of trade balances. Loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency to write-off. Roll rates are calculated separately for exposures in different segments based on the following common credit risk characteristics - geographic region and industry.

The following table provides information about the exposure to credit risk and ECLs for trade receivables from individual customers as at 31 December 2025 and 31 December 2024.

2025	**Gross carrying**	**Loss allowance**	**Credit impaired**
	Amount	**JOD**	
0-59 days	**17,832**	**-**	-
60-89 days	**2,671**	**-**	-
90- 120 days	**812**	**(758)**	-
Total	**21,315**	**(758)**	**-**

2024	**Gross carrying**	**Loss allowance**	**Credit impaired**
	Amount	**JOD**	
0-59 days	11,035	-	-
60-89 days	-	-	-
90- 120 days	758	(758)	-
Total	11,793	(758)	-

Credit risk (continued)

Loss rates are based on actual credit loss experience over the past three years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Company's view of economic conditions over the expected lives of the receivables.

Exposure is segmented by geographical region and an ECL rate is calculated for each segment based on delinquency status and actual credit loss experience over the past three years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Company's view of economic conditions over the expected lives of the receivables. Scalar factors are based on GDP.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company ensures that it has sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. In addition, the company maintains line of credit from its bank for sudden cash requirements.

The following are the contracted maturities of financial liabilities, including estimated interest payments:

Non-derivative financial liabilities:

	As of December 31, 2025			
In Jordanian dinar	**Carrying value**	**Contractual Cash flows**	**12 Month or Less**	**More than one year**
Trade and other payables (excluding advances)	157,449	(157,449)	(157,449)	-
Due to related parties	8,999	(8,999)	(8,999)	-
Lease liability	14,480	(14,480)	(9,459)	(5,021)
	180,928	**(180,928)**	**(175,907)**	**(5,021)**

	As of December 31, 2024			
In Jordanian dinar	**Carrying value**	**Contractual Cash flows**	**12 Month or Less**	**More than one year**
Trade and other payables (excluding advances)	72,055	(72,055)	(72,055)	-
Due to related parties	17,173	(17,173)	(17,173)	-
Lease liability	23,166	(23,166)	(8,648)	(14,518)
	112,394	**(112,394)**	**(97,876)**	**(14,518)**

Market risk
Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rate and equity prices will affect the company's profit or the value of its holdings of financial instruments.

The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Currency risk
Most of the company's financial assets and liabilities are in Jordanian Dinar. Most of the company's transactions in general are in Jordanian Dinar and US Dollar. Due to the fact that the Jordanian Dinar is pegged with US Dollar, the Company's management believes that the foreign currency risk is not material on the financial statements.

Interest rate risk
The Company does not have any financial assets or liabilities that bear interest as of year-end.

Capital management
The company's policy concerning capital management is to maintain a strong capital base to maintain partners, creditors and market confidence and to sustain future development of the business.

The management monitors the return on capital, which the management defined as net operation income divided by total partners' equity.

There have been no changes in the Company's approach to capital management during the year neither the Company is subject to externally imposed capital requirements.

19. FAIR VALUES

The fair values of the Company's financial assets and financial liabilities approximate their carrying amounts.

Fair value hierarchy
The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for financial assets.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instrument evaluated based on:

Prices quoted in active markets for similar instruments or through the use of valuation model that includes inputs that can be traced to markets,

Level 3: inputs for the asset or liability that are not based on observable market data.

- **Financial Instruments measured at fair value:** The Company does not measure financial instruments at fair value except for financial assets at fair value through other comprehensive income.

- **Financial Instruments not measured at fair value:** This instrument measured at amortized cost and its fair value doesn't materially differ of it's amortized cost.

In Jordanian dinar		Fair Value		
	Book value Fair value	**Level (1)**	**Level (2)**	**Level (3)**
December 31, 2025				
Trade and other receivables	105,859	-	105,859	-
Cash on hand and at bank	560,789	560,789	-	-
Trade and other payables	(338,892)	-	(338,892)	-
Lease liability	(14,480)	-	(14,480)	-
Income tax provision	(45,558)	-	(45,558)	-
Due to related parties	(8,999)	-	(8,999)	-
December 31, 2024				
Trade and other receivables	49,909	-	49,909	-
Cash on hand and at bank	210,073	210,073	-	-
Trade and other payables	(153,661)	-	(153,661)	-
Lease liability	(23,166)	-	(23,166)	-
Income tax provision	(86,726)	-	(86,726)	-
Due to related parties	(17,173)	-	(17,173)	-

20. COMPARATIVES

Certain comparative figures have been reclassified to conform to the presentation adopted in these financial statements. These reclassifications do not impact on profit, assets and equity.

21. SUBSEQUENT EVENTS

Subsequent to the reporting date, geopolitical tensions in the Middle East have escalated, resulting in increased regional uncertainty across the Arabian Gulf region. The situation remains dynamic and continues to evolve.

As these events occurred after the reporting date, no adjustments have been made to the amounts recognized in the financial statements as at 31 December 2025. Management of the Company continues to closely monitor developments, particularly considering the potential impact on the tourism sector, including travel demand and customer activity.

As at the date of this report, the Company continues to operate; however, business volumes have declined significantly following the onset of the conflict, resulting in reduced inbound tourism demand. Management and the Board of Directors are of the view that the Company will be able to continue its operations, supported by financial assistance from its parent entity.

Furthermore, management believes that, once the regional situation stabilizes, the Company is likely to benefit from a recovery in travel demand initially driven by the local, CIS, and Sub-continent markets which are expected to contribute positively to business volumes in the short term, until traditional markets return to their normal levels.

Independent auditors' report

To the Shareholder of Desert Adventures Tourism LLC

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Desert Adventures Tourism LLC ("the Company") and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2025, the consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2 (a) of the consolidated financial statements, which indicates that the Group incurred a net loss of AED 7,066,077 during the year ended 31 December 2025 and, as of that date, the Group's total liabilities exceeded its total assets by AED 54,181,120. As stated in Note 2 (b), these events or conditions, along with other matters as set forth in Note 2 (a), indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information. The other information comprises the Directors' Report which is set out on page 1.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards and their preparation in compliance with the applicable provisions of the UAE Federal Decree Law No. 32 of 2021, as amended, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with Governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Further, as required by the UAE Federal Decree Law No. 32 of 2021, as amended, we report that for the year ended 31 December 2025:

i) we have obtained all the information and explanations we considered necessary for the purposes of our audit;

ii) the consolidated financial statements have been prepared and comply, in all material respects, with the applicable provisions of the UAE Federal Decree Law No. 32 of 2021, as amended;

iii) the Group has maintained proper books of account;

iv) the financial information included in the Directors' report is consistent with the books of account of the Group;

v) as disclosed in note 1 to the consolidated financial statements, the Group has not purchased any shares during the year ended 31 December 2025;

vi) note 13 to the consolidated financial statements discloses material related party transactions and the terms under which they were conducted; and

vii) based on the information that has been made available to us, nothing has come to our attention which causes us to believe that the Group has contravened during the financial year ended 31 December 2025 any of the applicable provisions of the UAE Federal Decree Law No. 32 of 2021, as amended, or in respect of the Company, its Articles of Association, which would materially affect its activities or its consolidated financial position as at 31 December 2025.

1 Reporting entity

Desert Adventures Tourism LLC is a limited liability Company (the "Company") registered with the Department of Tourism and Commerce Marketing, Government of Dubai.

The authorised and fully paid up share capital of the Company is AED 300,000 divided into 100 shares of AED 3,000 / share.

The shareholding pattern of the Company as at 31st December 2025 and 31st December 2024 is as follows:

Name of the shareholder	**Shareholding %**
Travel Circle International (Mauritius) Limited ("the Holding Company")	100%

The principal business activity of the Group is providing travel and tourism related services. The Company secures access to hotel accommodation and other travel and tourism related activities and sells it to customer who generally are tour operators, travel agents and other wholesalers.

The registered office of the Desert Adventures Tourism LLC is P.O. Box No. 25488, Dubai, United Arab Emirates.

The consolidated financial statements for the year ended 31 December 2025 comprises the Company and its subsidiaries, Muscat Desert Adventures Tourism LLC and Desert Adventures Tourism (Private Shareholding Company) – Amman, Jordan (collectively referred to as the "Group"). These subsidiaries operate in Oman and Jordan respectively and carry out similar business activities as the Company.

Muscat Desert Adventures Tourism LLC is a 70% owned subsidiary of Desert Adventures Tourism LLC, a company registered in Dubai, United Arab Emirates. The remaining 30% shareholding is held by a local partner, Hani Bin Juman Ashour Rajab, who has agreed not to participate in the operational or financial management of the entity and has confirmed that the shares are held for the beneficial interest of Desert Adventures Tourism LLC.

Desert Adventures Tourism (Private Shareholding Company) – Amman, Jordan is a wholly owned subsidiary of Desert Adventures Tourism LLC.

The ultimate parent and ultimate controlling party of the Group is Fairfax Financial Holdings Limited, a company registered in Toronto, Ontario, Canada.

The Group has not purchased any shares during the year.

2 Basis of accounting

a) Going concern

During the year ended 31 December 2025, the Group reported a net loss of AED 7,066,077 (2024: Net loss of AED 3,207,595), net current liabilities of AED 52,077,613 (2024: AED 44,137,356) and net liabilities of AED 54,181,120 (2024: AED 47,115,043). As at 31 December 2025, the accumulated losses of the Group, amounted to AED 64,579,117 (2024: AED 57,513,040), exceed more than 50% of the share capital.
In accordance with Article 308 of UAE Federal Decree Law No. 32 of 2021, as amended, where losses of a limited liability company reach half of its share capital, management is required to refer the matter to the shareholders to consider the continuation or dissolution of the Group.
As at the date of this report, the Group continues to operate, however, business volumes have declined significantly due to the ongoing geopolitical situation in the region, resulting in reduced inbound

2 Basis of accounting *(continued)*

a) Going concern *(continued)*

tourism demand. This has adversely impacted the Group's recent performance and creates uncertainty in the development and execution of its business plans, including assumptions relating to revenue growth and recovery timelines.
These factors indicate that the Group ability to continue as a going concern is dependent upon the continued financial support of the Holding company. Subsequent to the year end, the Holding Company provided financial support amounting to AED 9,150,000 to the Group. In addition, the Holding Company has provided an undertaking that it will continue to provide the necessary financial support to enable the Group to meet its obligations as they fall due for the foreseeable future. Accordingly, these consolidated financial statements have been prepared on a going concern basis.

b) Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by International Accounting Standards Board (IASB) and the applicable provision of UAE Federal Decree Law no. 32 of 2021, as amended.

c) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis.

d) Functional and presentation currency

The consolidated financial statements are presented in United Arab Emirates Dirham ("AED"), which is the Group's functional currency.

e) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with IFRS requires management to make judgments and estimates that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying policies that have the most significant effect on the amounts recognized in these consolidated financial statements are disclosed in note 24.

3 Summary of Material Accounting Policies

The Group has consistently applied the following accounting policies to all periods presented in these financial statements, except if mentioned otherwise.

Revenue

The Group renders a wide range of tourism and related services.

Revenue includes hotel accommodation, transfers, visa services and other tourism and travel related services. The revenue from rendering these services is recognized in profit or loss at the fair value of the consideration received or receivable.

3 Summary of Material Accounting Policies *(continued)*

Revenue *(continued)*

The following table provides information about the nature and timing of the satisfaction of performance obligation in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Type of product/service	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition
- **Tourism & related services including:** - Hotel accommodation - Visas - Transfers - Meet and greet and; - Excursions	Control of travel related services is considered transferred to customer at the travel in date i.e., in case of: - Visas at the date of issuance. - Hotel accommodation on the date hotel check in. - Transfers on the date of arrival. - Meet and greet on the date of arrival; and - Excursions on the date excursions Invoices are usually payable within 30 days. Terms of cancellations vary depending on the timing of the season during the year. The services are generally short-term in nature, and the lead time between booking confirmation, invoicing and delivery of the related travel service is typically short. Revenue is recognized when the customer travels, checks in, or otherwise consumes the relevant service or package.	Revenue is recognized at a point in time i.e., the time of travel in date.
Tour Packages	The services above are also sold as a combined tour package to travelers. In case of a combined tour package, entire package is generally considered as a single performance obligation. The combination of separate services in a combined tour package is considered significant integration and revenue for the entire tour package is recognized at the time of travel in date. Invoices are usually payable within 30 days. Terms of cancellations vary depending on the timing of the season during the year. The services are generally short-term in nature, and the lead time between booking confirmation, invoicing and delivery of the related travel service is typically short. Revenue is recognized when the customer travels, checks in, or otherwise consumes the relevant service or package.	Revenue is recognized at a point in time i.e., the time of travel in date.

3 Summary of Material Accounting Policies *(continued)*

Revenue *(continued)*

Principal versus agent assessment

The Group provides tourism and travel-related services, including hotel accommodation, transfers, visa services, meet and greet services, excursions and bundled tour packages. In certain arrangements, the Group uses third-party suppliers to deliver parts of the service to customers.

Management has assessed whether the Group acts as a principal or an agent in these arrangements in accordance with IFRS 15. The Group is acting as a principal, as it has primary responsibility for fulfilling the promise to the customer, is responsible for coordinating and delivering the overall travel experience, bears service-related risks, and has discretion in establishing prices. Customers contract directly with the Group, and the Group remains responsible for addressing service issues or arranging alternative services where required. Accordingly, revenue from these arrangements is recognized on a gross basis, with the full amount of consideration received from customers recognized as revenue and the related supplier costs recognized separately as cost of sales**.**

Financial instruments

Recognition and initial measurement

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as and measured at: amortized cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

3 Summary of Material Accounting Policies *(continued)*

Financial instruments (continued)

Financial assets – Subsequent measurement and gains and losses:

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

Derecognition

Financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred, or liabilities assumed) is recognized in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3 Summary of Material Accounting Policies (continued)

Foreign currency transactions

Transactions in foreign currencies are translated to AED at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to AED at the foreign exchange rate ruling at that date. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated into AED using the exchange rates at the date of the transaction. Foreign exchange differences arising on translation are recognized in profit or loss.

Property and equipment

Items of property and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures that are directly attributable to the acquisition of the asset. When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Subsequent cost

The cost of replacing an item of property and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of day-to-day servicing of property and equipment are recognized in the profit or loss as incurred.

Depreciation

Depreciation is recognized in the profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property and equipment. Depreciation on additions is calculated on a pro-rata basis from the day of addition and on disposal up to and including the month of disposal of the asset. The estimated useful lives are as follows:

	Years
Motor vehicles	4
Furniture, fixtures and equipment	2 - 5
Leasehold improvements	10
Leased office premises	3

The depreciation method and useful lives, as well as estimates of residual lives, are reassessed annually.

Intangible Assets

Intangible assets, including software, operating licenses and trademarks, that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses if any.

Subsequent expenditure
Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

Amortization
Amortization is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives and is generally recognized in profit or loss.

The estimated useful lives for current and comparative are 5 years.

3 Summary of Material Accounting Policies (continued)

Impairment

Non-derivative financial assets

Financial instruments

The Group recognizes loss allowances for Expected Credit Losses (ECLs) on financial assets measured at amortized cost.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables and due from related parties are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on trade receivables has increased significantly if it is more than 90 days past due i.e. 120 days from the invoice date.

The Group considers trade receivables to be in default when:
- the borrower is unlikely to pay its credit obligations to the group in full, without recourse by the Group to actions such as realizing security (if any is held); or
- the financial asset is more than 90 days past due

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

3 Summary of Material Accounting Policies (continued)

Impairment (continued)

Non-derivative financial assets *(continued)*

Credit-impaired Financial instruments (continued)

Evidence that a financial asset is credit-impaired includes the following observable data:
- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise; or
- it is probable that the borrower will enter bankruptcy or other financial reorganization

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Group has a policy of writing off the gross carrying amount when the financial asset is past due based on historical experience of recoveries of similar assets. For corporate customers, the Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

Financial assets not classified as at FVTPL were assessed at each reporting date to determine whether there was objective evidence of impairment.

Objective evidence that financial assets were impaired included:
- default or delinquency by a debtor;
- restructuring of an amount due to the Group on terms that the Group would not consider otherwise;
- indications that a debtor or issuer would enter bankruptcy;
- adverse changes in the payment status of borrowers or issuers;
- observable data indicating that there was a measurable decrease in the expected cash flows from a group of financial assets.

Financial assets measured at amortized cost

The Group considered evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets were individually assessed for impairment. Those found not to be impaired were then collectively assessed for any impairment that had been incurred but not yet individually identified. Assets that were not individually significant were collectively assessed for impairment. Collective assessment was carried out by grouping together assets with similar risk characteristics.

3 Summary of Material Accounting Policies *(continued)*

Impairment (continued)

Financial assets measured at amortized cost (continued)

In assessing collective impairment, the Group used historical information on the timing of recoveries and the amount of loss incurred and made an adjustment if current economic and credit conditions were such that the actual losses were likely to be greater or lesser than suggested by historical trends.

An impairment loss was calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses were recognized in profit or loss and reflected in an allowance account.

When the Group considered that there were no realistic prospects of recovery of the asset, the relevant amounts were written off. If the amount of impairment loss subsequently decreased and the decrease was related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss was reversed through profit or loss.

Non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets, investment property and inventories to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

An impairment loss is recognized whenever the carrying amount of the asset exceeds the recoverable amount. Impairment losses, if any, are recognized in the statement of profit or loss.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognized if the carrying

amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss.

Impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognized.

Provisions

A provision is recognized, if as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

3 Summary of Material Accounting Policies *(continued)*

Provision for employees' end of service benefits

The provision is made for the amount of end of service benefits due to employees in accordance with the UAE Labour Law and Oman Labour Law 2003 and its amendments and is based on the current remuneration and the period of service of the employees at the end of the reporting period. The provision has been classified as a non-current liability.

Intercompany recharges

Intercompany expenses are recharged to related parties at arm's length price. Charges mainly includes Salaries and Other Admin expense including IT system cost as paid by / charged to the Company.

Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset only if certain criteria are met.

3 Summary of Material Accounting Policies *(continued)*

Tax

Tax expense comprises current and deferred tax. Current and deferred tax is recognized in the profit or loss except to the extent that it relates to a business combination, or items recognized directly in the equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect to previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantially enacted at the reporting date.

Basis of consolidation

Subsidiary

Subsidiary is an entity controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

Contract assets

The contract assets are recognized for the Group's rights to consideration for services provided to the customer but not billed at the reporting date. The amount is netted with the expected credit losses, if any. The contract assets are transferred to receivables when the rights become unconditional. This usually occurs when the Group issues an invoice to the customers.

Contract liability

A contract liability is an entity's obligation to transfer goods or services to a customer for which the Group has received consideration (or the amount is due) from the customer.

Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

The contract involves the use of an identified asset – this may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified; and

The Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use.

3 Summary of Material Accounting Policies *(continued)*

Leases (continued)

The Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either:

- the Group has the right to operate the asset; or
- the Group designed the asset in a way that predetermines how and for what purpose it will be used.

As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased. Lease payments included in the measurement of the lease liability comprise fixed payments, including in-substance fixed payments.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3 Summary of Material Accounting Policies *(continued)*

Accounting standards issued but not yet effective

A number of new accounting standards are effective for annual reporting periods beginning after 1 January 2025 and earlier application is permitted. However, the Company has not early adopted the following new or amended accounting standards in preparing these financial statements.

a) IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 will replace IAS 1 Presentation of Financial Statements and applies for annual reporting periods beginning on or after 1 January 2027. The new standard introduces the following key new requirements.

- Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal. Entities' net profit will not change.
- Management-defined performance measures (MPMs) are disclosed in a single note in the financial statements.
- Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under indirect method.

The Company is still in the process of assessing the impact of the new standard, particularly with respect to the structure of the Company's statement of profit or loss, the statement of cash flows and the additional disclosures required for MPMs. The Company is also assessing the impact on how information is grouped in the financial statements, including for items currently labelled as "other".

b) Other accounting standards

The following new and amended standards are not expected to have a significant impact on the Company's financial statements.

— Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) and
— Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7).

New standards or amendments and forthcoming requirements

Below is a list of recent changes to the Accounting Standards that are required to be applied for annual reporting periods beginning after 1 January 2025 and that are available for early adoption in annual reporting periods beginning on 1 January 2025.

- Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7 (1 January 2026)
- Contract Referencing Nature-dependent Electricity - Amendments to IFRS 9 and IFRS 7 (1 January 2026)
- Annual Improvements to IFRS Accounting Standards – Volume 11 (1 January 2026)
- IFRS 18 Presentation and Disclosure in Financial Statements (1 January 2027)
- IFRS 19 Subsidiaries without Public Accountability: Disclosures (1 January 2027)
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture Amendments to IFRS 10 and IAS 28 (effective date deferred indefinitely)

Tax credit for the year	**(1,614,110)**	(224,202)
Effective tax rate	**(18.15%)**	(6.53%)

UAE Corporate Income Tax (Desert Adventures Tourism LLC):

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses ("UAE CT Law" or the "Law") to enact a Federal corporate tax ("CT") regime in the UAE. Current taxes shall be accounted for as appropriate in the financial statements for the period beginning on 1 January 2024. The taxable income of the entities that are in scope for UAE CT purposes are subject to the rate of 9% corporate tax. The Company has opted to apply the *realization basis* for recognizing gains and losses on all assets and liabilities. As the Company incurred net losses for the year ended 31 December 2025, no taxable income was generated, and therefore, no income tax expense has been recorded for the year. A deferred tax asset of AED 1,450,740 (2024: AED 224,202) has been recognized during the year, as management anticipates that sufficient taxable profits will be available in the foreseeable future to utilize the related tax losses.

9 Taxation (continued)

9.2 Reconciliation of effective tax rate (continued)

Oman Corporate Income Tax (Muscat Desert Adventures Tourism LLC):

Muscat Desert Adventures Tourism LLC incurred taxable losses during the current year; accordingly, no income tax expense has been recognized. Furthermore, no deferred tax asset has been recorded on these losses, as management does not anticipate the availability of sufficient taxable profits in the foreseeable future to utilize them.

Status of assessment: The assessment of the Company has been completed and agreed up to the Tax Year 2021. The assessment for Tax Years 2022 to 2024 has not yet initiated by the TA. Management is of the opinion that any additional taxes, if any, related to the open years would not be significant to the Company's financial position as at 31 December 2025.

Jordan Corporate Income Tax (Desert Adventures Tourism (Private Shareholding Company)

Income tax expense, current tax liabilities, and deferred tax assets have been calculated using the enacted tax rate of 20% in addition to the national contribution at 1% in accordance with the income tax law prevailing in the Hashemite Kingdom of Jordan in starting January 1, 2019.

Income Tax Status: Desert Adventures Tourism (Private Shareholding Company) obtained a final clearance with the Income and Sales Tax Department until the end of 2023. The Income tax returns for the years from 2019 till 2025 have been submitted within the legal period which were approved but not yet audited by the Income and Sales Tax Department. For the year ended 31 December 2025, the Company reported a profit before tax, however, no current income tax expense has been recognized. The tax reconciliation reflects certain non-deductible items and prior year adjustments, resulting in no current tax charge for the year. With respect to deferred tax, the Company recognized a deferred tax asset in prior years amounting to AED 151,740. During the current year, a reversal of AED 50,635 has been recorded following the tax authority's assessment completed up to FY 2023, which resulted in this adjustment.

9.3 Income tax provision

The movement on the income tax provision during the year was as follows:

	2025	2024
	AED	AED
At 1 January	**451,696**	451,696
Tax credit for the year (refer note 9.1)	**(214,415)**	-
At 31 December	**237,281**	451,696

9 Taxation (continued)

9.4 Deferred tax asset

The movement on the deferred tax asset during the year was as follows:

	AED
Balance at 1 January 2024	151,740
Deferred tax asset for the year	224,202
Balance at 31 December 2024	375,942
Balance at 1 January 2025	**375,942**
Deferred tax asset for the year	1,614,110
Balance at 31 December 2025	**1,990,052**

Group tax rates

The Company is subject to income tax at the statutory rate of 9%. In addition, the Company has subsidiaries in Oman and Jordan. The applicable tax rates in the jurisdictions where the Group operates are outlined below:

Country	Applicable tax rates
Oman	15%
Jordan	21%

10 Property and equipment

Above, deposit balance includes guarantee deposit of AED 370,000 which is in name of Reem Tours and Travel LLC, but it is held and used for the beneficial interest of the Group.

In the prior year, a provision for impairment was recognized against an advance to a supplier amounting to AED 1,203,865. During the current year, this provision has been reversed following recovery of the amount from the supplier.

12.1 Movement for impairment loss on trade receivables

The movement for impairment loss on trade receivables during the year is as follows:

	2025 AED	2024 AED
As at 1 January	3,548,182	3,548,182
Written off during the year	(1,570,344)	-
As at 31 December	**1,977,838**	3,548,182

13 Related parties

In the normal course of business, the Group carries out transactions with other business entities which fall within the definition of related party contained in International Accounting Standard 24. Such transactions are on terms and conditions mutually agreed. Significant related party transactions during the year ended 31 December 2025 were as follows:

	Relationship	2025 AED	2024 AED
Sales to related parties	Fellow subsidiaries	**15,776,136**	32,036,047
Expenses recharged by fellow subsidiaries	Holding Company	**(650,196)**	(434,499)
Expenses recharged to fellow subsidiaries	Fellow subsidiaries	**1,326,582**	1,326,582
Proceeds from loan from holding Company	Holding Company	**7,342,000**	14,684,000
Interest on related party balance	Holding Company	**(503,130)**	(487,439)
Repayment of loan and Interest from holding Company	Holding Company	**(11,279,155)**	(11,332,458)

13 Related parties (continued)

The key management personnel compensation is as follows:

	2025	2024
	AED	AED
Short-term employee benefits	**3,636,848**	3,711,672
Staff terminal benefits	**294,258**	191,642

14.1 Bank borrowings

Overdraft Facility:

The Group has an overdraft facility of USD 5,000,000 (AED 18,355,000) issued by Standard Chartered Bank. This facility is secured by a corporate guarantee provided by the Parent company. Overdraft facility carries interest at the rate of 5.15% per annum over 1 month LIBOR. The principal is payable on demand and interest is payable on monthly basis. The Group has availed overdraft facility during the year and outstanding amount as at 31 December 2025 is AED 12,262,558 (2024: AED 15,640,620). The Group also has commercial card facility of AED 18,300,000 issued by Citi bank.

Auto Loan:

During the year, Group has borrowed an Auto Loan from Emirates Islamic Bank. The outstanding amount as at 31 December 2025 is AED 580,079 (2024: NIL) of which AED 159,955 (2024: AED NIL) is the current portion and remaining balance of AED 420,124 (2024: AED NIL) is non-current portion.

21 Contingencies and commitments

Contingent liabilities

The Group has AED 894,096 (2024: AED 894,096) of bank guarantees as at 31 December 2025, these were issued during the normal course of business.

Capital commitments

There are no capital commitments of the Group as at 31 December 2025 (31 December 2024: AED Nil).

22 Financial risk management

The Group has exposure to the following risks arising from financial instruments

- Credit risk;
- Liquidity risk; and
- Market risk;

Risk management framework

The Group's management has overall responsibility for the establishment and oversight of the Group's risk management framework. Management is responsible for developing and monitoring the Group's risk management policy.

The Group's risk management policies are established to identify and analyze the risk faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's trade and other receivable (excluding prepayment and advance), due from related parties and cash at bank. The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The carrying amount of financial assets represents the maximum credit exposure. The impairment loss on financial assets and contract assets recognized in profit and loss were as follows:

	2025	2024
	AED	AED
Impairment loss of trade receivables and advance to supplier	-	-

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2025	2024
	AED	AED
Trade receivables, net	**19,461,314**	25,511,689
Other receivables	**9,766,380**	11,338,547
Due from related parties	**380,733**	3,278,459
Cash at bank	**7,051,665**	6,496,070
	36,660,092	46,624,765

* Prepayments and advances are excluded.

22 Financial risk management (continued)

Risk management framework (continued)

Credit risk (continued)

At 31 December 2025, the Group's exposure of credit risk to trade receivables by geographical region was as follows:

	Carrying Amount 2025 AED	Carrying amount 2024 AED
Geographical regions		
Commonwealth of Independent States	**8,735,189**	13,255,840
Middle East	**5,297,745**	4,031,561
Europe	**4,422,205**	7,239,661
Asia	**542,996**	786,986
Others	**2,441,017**	3,745,825
Grand total	**21,439,152**	29,059,873

The ageing of trade receivables at the reporting date was:

	Not credit-impaired 2025 AED	**Credit impaired 2025 AED**	Not credit-impaired 2024 AED	Credit impaired 2024 AED
Not yet due	**14,074,059**	**-**	19,124,249	-

91- 120 days and above	**283**	**1,139,340**	-	2,745,641
Total gross carrying amount	**19,461,314**	**1,977,838**	25,511,689	3,548,184
Loss allowance	**-**	**(1,977,838)**	-	(3,548,184)
	19,461,314	**-**	25,511,689	-

Impairment losses

Expected credit losses assessment for individual customers as at 31 December 2025 and 31 December 2024.

The Group uses an allowance matrix to measure the ECLs of trade receivables from individual customers, which comprise large number of trade balances.

Loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency to write-off. Roll rates are calculated separately for exposures in different segments based on the following common credit risk characteristics - geographic region and industry.

22 Financial risk management (continued)

Risk management framework (continued)

Credit risk (continued)

Impairment losses (continued)

The following table provides information about the exposure to credit risk and ECLs for trade receivables from individual customers as at 31 December 2025.

	Gross carrying amount AED	Loss allowance AED	Credit impaired
Not yet due	14,074,059	-	No
1-30 days	4,200,379	-	No
31- 90 days	2,025,090	838,498	Yes
91- 120 days and above	1,139,624	1,139,340	Yes
Total	**21,439,152**	**1,977,838**	

The following table provides information about the exposure to credit risk and ECLs for trade receivables from individual customers as at 31 December 2024.

	Gross carrying amount AED	Loss allowance AED	Credit impaired
Not yet due	19,124,249	-	No
1-30 days	5,968,867	-	No
31- 90 days	1,221,116	802,543	Yes
91- 120 days and above	2,745,641	2,745,641	Yes
Total	29,059,873	3,548,184	

Loss rates are based on actual credit loss experience over the past three years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

Exposure is segmented by geographical region and an ECL rate is calculated for each segment based on delinquency status and actual credit loss experience over the past three years. These rates are multiplied by scalar factors to reflect differences between economic conditions during the period over which the historical data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables. Scalar factors are based on GDP.

Cash at Banks

The Group held cash at banks of AED 7,051,665 at 31 December 2025 (2024: AED 6,496,070). The cash at banks are held with banks, which are rated A1 to A3, based on Mood's ratings. Impairment on cash and cash equivalents has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties.

22 Financial risk management (continued)

Credit risk (continued)

Other receivables

The Group's exposure to credit risk on other receivable from third parties influence mainly by the individual characteristics of each party. Other receivable as at 31 December 2025 include deposits and other receivable of AED 9,766,380 (2024: AED 11,338,547) for which management believes that there is no significant credit risk associated at reporting date.

Due from related parties

For receivables from related parties, the Group as determined Probability of Debt (PD) that is applicable for outstanding related party receivables PD has been determined in accordance with Moody's PD rating scale by considering external credit ratings and adjusting the PDs so determined for macroeconomic factors. The Group has also considered a standard Loss Given Default (LGD) percentage of 45% for all unsecured outstanding exposures in accordance with foundation approach of Basel guidelines in the absence of the Group's historical experience. The Group does not require collateral in respect of its amount due from a related party. The Group does not have amounts for which no loss allowance is recognized because of collateral. At the reporting date there was no significant concentrations of credit risk.

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group aims to maintain the level of cash and cash equivalents at an amount in excess of expected cash outflows on financial liabilities by continuous monitoring of forecast and actual cash outflows.

The following are the contractual maturities of financial liability based on contractual undiscounted payments for the year ended 31 December 2025:

	Carrying Amount AED	Contractual cash out flows AED	1 year or less AED	More than one year AED
Non derivative financial liabilities				
Trade and other payables (excluding advances from customers)	**63,473,578**	**(63,473, 578)**	**(63,473, 578)**	**-**
Lease liabilities	**75,416**	**(75,416)**	**(49,265)**	**(26,151)**
Due to related parties	**4,276,637**	**(4,276,637)**	**(4,276,637)**	**-**
Bank borrowing	**12,842,637**	**(12,842,637)**	**(12,422,513)**	**(420,124)**
	80,668,268	**(80,668,268)**	**(80,221,993)**	**(446,275)**

22 Financial risk management (continued)

Liquidity risk (continued)

The following are the contractual maturities of financial liability based on contractual undiscounted payments for the year ended 31 December 2024:

	Carrying Amount AED	Contractual cash out flows AED	1 year or less AED	More than one year AED
Non derivative financial liabilities				
Trade and other payables (excluding advances from customers)	57,367,829	(57,367,829)	(57,367,829)	-
Lease liabilities	646,339	(646,339)	(570,726)	(75,613)
Due to related parties	6,345,213	(6,345,213)	(6,345,213)	-
Bank borrowing	15,873,236	(15,873,236)	(15,873,236)	-
Loan from holding Company	3,788,530	(3,788,530)	(3,788,530)	-
	84,021,147	(84,021,147)	(83,945,534)	(75,613)

Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates, interest rates and equity prices - will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Currency risk

Currency risk is limited as all of the Group's transactions are in AED or USD which is currently pegged against AED. Some of the transactions and balance related to subsidiaries are in Jordanian Dinar (JOD) and Omani Riyal (RO) which does not have significant currency movement during the year in respect to AED. The Group's exposure to foreign currencies other than USD or currencies pegged to AED is not significant.

Interest rate risk

Exposure to interest rate risk

The interest rate profile of the Group's interest-bearing financial instrument is as follows:

Variable instruments	**2025 AED**	2024 AED
Financial liabilities (loan from holding company)	**-**	3,788,530
Financial liabilities (bank borrowings)	**12,842,637**	15,873,236
	12,842,637	19,661,766

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased/decreased equity and profit or loss by AED 128,426 *(2024: AED 196,617)*. This analysis assumes that all other variables remain constant.

22 Financial risk management (continued)

Capital management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to shareholders. The Group is not subject to externally imposed capital requirements

23 Fair values

The fair values of the Group's financial assets and financial liabilities approximate their carrying amounts.

Fair value hierarchy

As at 31 December 2025 and 31 December 2024, there are no financial instruments carried at fair value by valuation method.

24 Use of judgments and estimates

In the process of applying the entity's accounting policies, which are described in the notes, management has made certain judgment and estimates as mentioned below.

Assumptions and estimation uncertainties

The key assumption concerning the future, and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

(a) Impairment losses on receivables

The measurement of the expected credit loss allowance for financial assets measured at amortized cost is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g. the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in note 22.

Elements of the ECL models that are considered accounting judgments and estimates include:

- Development of ECL models, including various formulas and choice of inputs
- The segmentation of financial assets when their ECL is assessed on a collective basis; and
- Determination of associations between macroeconomic scenarios and, economic inputs, and their effect on probability of default (PDs), exposure at default (EADs) and loss given default (LGDs).

Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models. The Group's policy is to regularly review its models in the context of actual loss experience and adjust when necessary. Detailed information about the judgments and estimates made by the Group in the above areas is set out in note 22.

25 Comparatives

Previous year reported figures have been regrouped/reclassified, wherever necessary, to conform to the current year's presentation. The reclassification of items is not considered material and does not impact the financial statement as at the beginning of the earliest comparative period. Thus, a third statement of financial position at the beginning of the earliest comparative period has not been presented.

26 Subsequent events

Subsequent to the reporting date, geopolitical tensions in the Middle East have escalated, resulting in increased regional uncertainty across the Arabian Gulf region. The situation remains dynamic and continues to evolve.

As these events occurred after the reporting date, no adjustments have been made to the amounts recognized in the financial statements as at 31 December 2025. Management of the Group continues to closely monitor developments, particularly considering the potential impact on the tourism sector, including travel demand and customer activity.

As at the date of this report, the Group continues to operate; however, business volumes have declined significantly following the onset of the conflict, resulting in reduced inbound tourism demand. Management and the Board of Directors are of the view that the Group will be able to continue its operations, supported by financial assistance from its parent entity.

Furthermore, management believes that, once the regional situation stabilizes, the Group is likely to benefit from a recovery in travel demand initially driven by the local, CIS, and Sub-continent markets which are expected to contribute positively to business volumes in the short term, until traditional markets return to their normal levels.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF SITA WORLD TRAVEL LANKA (PRIVATE) LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Sita World Travel Lanka (Private) Limited ("the Company"), which comprise the statement of financial position as at 31 March 2026, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the period then ended, and notes to the financial statements, including material accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2026, and of its financial performance and its cash flows for the period then ended in accordance with Sri Lanka Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants issued by CA Sri Lanka (Code of Ethics) and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty related to Going Concern

We draw attention to Note 25 to the financial statements, which indicates that the Company has incurred a net loss of Rs. 257,962 for the year ended 31 March 2026 and as of that date the Company has accumulated losses of Rs. 46,843,653 and the Company's current liabilities exceed the current assets by Rs. 1,243,415 and negative equity of Rs. 1,243,415. Further, as at the reporting date the Company's net assets were less than half of the stated capital and faces a serious loss of capital situation. These events and conditions along with other matters as set forth in the Note 25 indicate the existence of material uncertainty that may cast significant doubt about the Company's ability to continue as going concern.

Our opinion is not modified in respect of this matter.

Other Information

Management is responsible for the other information. These financial statements do not include the other information.

KPMG

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of the auditor's responsibilities for the audit of the financial statements is located at Sri Lanka Accounting and Auditing Standards website at: http://slaasc.com/auditing/auditorsresponsibility.php. This description forms part of our auditor's report.

Report on Other Legal and Regulatory Requirements

As required by section 163 (2) of the companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the company except, it should be noted that the Company's net assets are less than half of the stated capital and is facing a serious loss of capital situation in terms of the section 220 of the same act.

2.4 Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency') and rounded to the nearest rupee value.

These financial statements are presented in Sri Lankan Rupees (Rs.) which is the Company's functional and presentation currency.

2.5 Use of estimates and judgments

The preparation of the Financial Statements in conformity with SLAS's requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the Financial Statements is included in the following notes:

- Current taxation (Note 3.2.a)
- Deferred taxation (Note 3.2.b)
- Impairment (Note 3.4)
- Provisions and contingencies (Note 3.6)

2.6 Materiality and Aggression

Each material class of similar items is presented separately in the financial statements. Items of a dissimilar nature or function are presented separately unless they are immaterial.

2.7 Events occurring after the Reporting date

The materiality of the events occurring after the reporting date have been considered and appropriate adjustments to or disclosure have been made in the financial statements where necessary.

3 MATERIAL ACCOUNTING POLICIES

The Company has consistently applied the accounting policies for all periods presented in the financial statements.

3.1 Foreign Currency Transactions

Transactions in foreign currencies are translated to Sri Lankan Rupees at the foreign exchange rate ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies at the date of statement of financial position are translated to Sri Lankan Rupees at the foreign exchange rate ruling at that date. Foreign exchange gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortized cost in foreign currency translated at the exchange rate at the end of the reporting period.

Non-monetary assets and liabilities dominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognized in profit or loss except the differences arising on retranslation of Fair Value through OCI equity instruments, which are recognized in other comprehensive income.

Non-monitory items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

3.2 Income Tax Expense

Income tax expenses comprise of current & deferred tax expenses recognized in the profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

KPMG Chartered Accountants

a) Current Taxation

Current tax is the expected tax payable on the taxable income for the year, and any adjustment to tax payable in respect of previous years. The amount of tax payable is the best estimate of the tax amount expected to be paid that reflects uncertainty related to income taxes, if any. It is measured using the tax rates substantively enacted at the reporting date.

The Company's liability to tax has been computed in accordance with the provisions of the Inland Revenue Act, No 24 of 2017 and subsequent amendments thereto.

b) Deferred Taxation

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted by the reporting date.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future tax profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and is adjusted to reflect the current assessment of future taxable profits. Any adjustments are recognised in the Statement of profit or loss and Other Comprehensive Income.

Deferred tax is calculated at the tax rates that are expected to apply to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflects uncertainty related to income taxes, if any.

ASSETS AND BASES OF VALUATION

Assets classified as current assets in the statement of financial position are cash and those which are expected to be realized in cash during the normal operating cycle of the Company's business or within one year from the reporting date whichever is shorter. Assets other than current assets are those which the Company intends to hold beyond a period of one year from the date of financial position.

3.3 FINANCIAL INSTRUMENTS

3.3.1 Financial assets

Initial Recognition, Classification and Subsequent Measurement

Recognition and initial measurement

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Classification and subsequent measurement of financial assets

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI (Fair value through OCI) - debt investment; FVOCI - equity investment; or FVTPL (Fair value through profit or loss).

KPMG Chartered Accountants

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets - Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining an interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

KPMG Chartered Accountants

Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument.

This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss
Financial assets at amortized cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

3.3.2 Non-derivative financial liabilities

The Company initially recognises debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

KPMG Chartered Accountants

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously. The Company has the following non-derivative financial liabilities: interest bearing borrowings, other payables, amounts due to related parties and bank overdraft.

The Company has the following non-derivative financial liabilities: other payables and amounts due to related parties.

Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

3.3.3 Derecognition

a) Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

b) Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

3.4 Impairment

3.4.1 Non-derivative financial assets

Financial instruments and contract assets

Loss allowances for trade receivables is always measured at an amount equal to lifetime Expected Credit Loss (ECL).

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

KPMG Chartered Accountants

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.
Evidence that a financial asset is credit-impaired includes following observed data;

- Significant financial difficulty of the debtor.
- A breach of contract such as a default or being more than 90 days past due;
- It is probable that the debtor will enter bankruptcy or other financial recognition.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognised in OCI.

3.4.2 Impairment of Non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets.

An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss.

An impairment loss in respect of other assets, recognised in prior periods is assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3.5 Fair Value Measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When one is available, the Company measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

KPMG Chartered Accountants

If there is no quoted price in an active market, then the Company uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Company measures assets and long positions at a bid price and liabilities and short positions at an ask price.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price - i.e. the fair value of the consideration given or received. If the Company determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique for which any unobservable inputs are judged to be insignificant in relation to the measurement, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

3.5.1 Use of assumptions and estimation uncertainty

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values.

The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of SLFRS, including the level in the fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Company's audit committee. When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- **Level 1**: quoted prices (unadjusted) in active markets for identical assets or liabilities.

- **Level 2**: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

- **Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

LIABILITIES AND PROVISIONS

Liabilities classified as current liabilities on the statement of financial position are those which fall due for payment on demand or within one year from the reporting date. Non-current liabilities are those balances that fall due for payment after one year from the reporting date.

All known liabilities have been accounted for in preparing these financial statements. Provisions and liabilities are recognised when the Company has a legal or constructive obligation as a result of past events and it is probable that an outflow of economic benefits will be required to settle the obligation

3.6 Provisions and Contingencies

A provision is recognized in the statement of financial position only when the Company has a legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Contingent liabilities are disclosed if there is a possible future obligation as a result of past event but either a payment is not probable, or the amount cannot be reasonable estimated.

3.7 Capital Commitments

All material capital commitments and contingencies, which exist as at the reporting date, are disclosed in the respective notes to the Financial Statements.

INCOME AND EXPENSES

3.8 Revenue Recognition

Performance obligations and revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer. The Company recognizes revenue when it transfers control over a good or service to a customer.

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Type of product/ service	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition under SLFRS 15
Providing Travel and Destination Management services for Travelers.	The Service is transferred to the customer at the completion of its performance obligation which is the completion of the tour.	Revenue is recognized when a customer obtains control of the service. Determining the timing of the transfer of control is at a point in time or over time requires judgment.

3.9 Expenditure Recognition

All expenditure incurred in the running of the business and in maintaining the property, plant and equipment in a state of efficiency has been charged to income statement in arriving at the profit or loss for the year.

KPMG Chartered Accountants

3.10 Finance income and expenses

Interest income and expenses are recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts or payments through the expected life of the financial asset or liabilities (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liabilities. When calculating the effective interest rate, the Company estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses.

The calculation of the effective interest rate includes all transaction costs and fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

3.11 Related Party Transactions

Disclosures have been made in respect of the transactions in which one party has the ability to control or exercise significant influence over the financial and operating decisions/policies irrespective of a price being charged.

3.12 Earnings per share

The Company presents basic earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

4 STATEMENT OF CASH FLOWS

The Statement of Cash Flows has been prepared using the Indirect Method of preparing Cash Flows in accordance with the Sri Lanka Accounting Standard (LKAS) 7, Statement of Cash Flows.

Cash and cash equivalents comprise short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. The cash and cash equivalents include cash in-hand, balances with banks and short-term deposits with banks.

For cash flow purposes, cash and cash equivalents are presented net of bank overdrafts.

5 NEW ACCOUNTING STANDARDS

The Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) has issued several new accounting standards to existing standards. These new standards are set to become effective in the coming years.

5.1. Sri Lanka Accounting Standard – SLFRS 18 on "Presentation and Disclosure in Financial Statements" (SLFRS 18)

SLFRS 18 is a new accounting standard for presentation and disclosure in Financial Statements with effect from January 01, 2027. SLFRS 18 will replace the Sri Lanka Accounting Standard – LKAS 1 on "Presentation of Financial Statements" and applies to the Company from January 01, 2027. The new accounting standard introduces the following key new requirements.

• Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely operating, investing, financing, discontinuing operations and income tax categories. Entities are also required to present a newly defined operating profit subtotal; Entities' net profit will not change.

KPMG Chartered Accountants

• Management – defined performance measures (MRMs) are disclosed in a single note in the financial statements.

• Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotals as the starting point for the statements of cashflows when presenting operating cashflows under indirect method.

The Company is still in the process of assessing the impact of the new accounting standards, particularly with respect to the structure of the Company's statement of profit or loss, the statement of cashflows and the additional disclosures required for MPMs. The Company is also assessing the impact on how information is grouped in the financial statements including items currently labelled as 'other".

For the year ended 31 March,	2026	2025
6. Revenue	**Rs.**	**Rs.**
Tours	-	-
	-	-

6.1 The Company has ceased its business operations from October 2018 and continues to remain dormant, Therefore the Company has not generated any revenue during the year.

7. Loss from Operations

Loss from operations is stated after charging all the expenses including the following,

Director Emoluments	-	-
Auditor's Remuneration	240,978	205,238
Legal & Professional Charges (Note 7.1)	18,012	451,744

7.1 The legal & professional fees decreased during the year as the Company incurred in prior year, one off tax consultancy fees for a tax engagement.

8. Income Tax Expense

Current Tax Expense		
Current tax	-	-
Deferred Tax Expense		
Origination of deferred tax liability (Note 15.1)	-	-
Origination of deferred tax asset (Note 15.2)	-	-
	-	-
	-	-

8.1. Reconciliation between Accounting Loss and Taxable Loss

Accounting loss before tax	(257,962)	(687,664)
Disallowable Expenses	257,962	687,664
Allowable expenses	-	-
Taxable loss from business	-	-
Current tax for the year	-	-

8.2. Corporate Income Tax Rate

As provided for in LKAS 12 - Income taxes, deferred tax assets and liabilities should be measured at the tax rate that are expected to be applied in the period in which the asset will be realised or the liability will be settled, based on the tax rate (and tax laws) that have been enacted or substantively enacted by the reporting date.

Accordingly, the Company applied tax rate of 30% for the computation of current tax and deferred tax for the current year.

8.3. Reconciliation of Business tax losses

Tax Loss Brought Forward	12,265,309	12,265,309
Tax losses incurred during the year	-	-
Tax loss expired during the year	-	-
Tax Loss Carried Forward	**12,265,309**	**12,265,309**

8.3.1 Analysis of tax losses

Tax lossess incurred in 2020/21 (Expire in 2027/28)	12,265,309	12,265,309
	12,265,309	**12,265,309**

For the year ended 31 March,	2026	2025
9. Loss per share	**Rs.**	**Rs.**

Calculation of loss per share is based on the loss attributable to ordinary shareholders divided by the weighted average number of ordinary shares outstanding as at the reporting date.

Loss attributable to the ordinary shareholder (Rs)	(257,962)	(687,664)
Weighted average number of ordinary shares (Note 14)	250,000	250,000
Loss per share (Rs.)	**(1.03)**	**(2.75)**

As at 31st March,

Origination during the year (Note 8)	-	-
Balance at the end of the year	-	-
15.2 Deferred tax assets		
Balance at the beginning of the year	-	-
Origination during the year (Note 8)	-	-
Balance at the end of the year	-	-

15.3. As given in Note 1.2, the Company ceased business operations from October 2018 and continues to remain dormant. Considering the status of the current business operations and the uncernities around the avaiability of future taxable profits, no deferred tax asset has been recognized against the brought forward Tax losses.

15.4. As at the reporting date the temporary difference arising from tax losses was Rs. 12,265,309 (2025: Rs. 12,265,309) resulting in deferred tax assets of Rs. 3,679,593(2025: Rs 3,679,593). However, deferred tax asset has not been recognized against this carried forward tax losses due to the uncertainty regarding the availability of future taxable profits against which the deferred tax asset could be utilized.

16. Other payables		
Legal & Professional Payable (Note 7.1)	34,256	449,189

20. Financial risk management

20.1 Introduction and Overview

The Company has exposure to the following risks from its use of financial instruments:

1. Credit risk
2. Market risk
3. Liquidity risk
4. Operational risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout this financial statement.

20.2 Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

20.3 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, related parties and cash and cash equivalents.

The Company trades only with creditworthy customers. In addition, receivable balances are monitored on an ongoing basis with the result that the Company's exposure to bad debts in not significant. Cash and cash equivalents and the short term deposits are held with bank which has good ratings based on Fitch ratings.

20.3.1 Credit risk exposure and managing the risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the end of the reporting period was as follows.

As at 31st March	2026 Rs.	2025 Rs.
Cash & cash equivalents	-	-
	-	-

KPMG Chartered Accountants

20.4 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Maturity analysis

The table below summarizes the maturity profile of the Company's financial liabilities as at the end of the reporting period based on contractual undiscounted payments.

For the year ended,

20. Financial risk management (Cont.)

20.4 Liquidity risk (Cont.)

As at 31 March 2026	Carrying amount (Rs.)	Cash flows (Rs.) Within 6 months	More than a year
Non- derivative Financial Liabilities			
Other payables	263,185	263,185	-
Amounts due to related parties	971,490	971,490	-
	1,234,675	**1,234,675**	**-**

As at 31 March 2025	Carrying amount (Rs.)	Cash flows (Rs.) Within 6 months	More than a year
Non- derivative Financial Liabilities			
Other payables	656,727	656,727	-
Amounts due to related parties	318,959	318,959	
	975,686	**975,686**	**-**

20.5 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

20.5.1 Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes on foreign exchange rates. The Company monitors the fluctuations in foreign currencies with appropriate strategies to minimize risk.

The Company is exposed to currency risk on transaction and settlements of transaction that are denominated in a currency other than the respective functional currencies of Company. The Company's transactions primarily in its functional currency(LKR). Therefore, the currency risk is minimul.

20.5.2 Interest rate risk

Interest rate risk is the risk to the Company's earnings and economic value of equity ("EVE") arising from adverse movements in interest rates.

Management of interest rate risk

The Company's investment decisions in interest bearing assets are controlled by the higher level authorities appointed by the Board of Directors and they are advised and guided only to invest in secured and regulated investment sources.

20.5.3 Operational Risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. Operational risks arise from all of the Company's operations.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each business unit. This responsibility is supported by the development of overall Company standards for the management of operational risk in the following areas:

- Requirements for appropriate segregation of duties, including the independent authorization of transactions
- Requirements for the reconciliation and monitoring of transactions
- Compliance with regulatory and other legal requirements.
- Documentation of controls and procedures
- Requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified requirements for the reporting of operational losses and proposed remedial action.
- Development of contingency plans
- Training and professional development
- Ethical and business standards
- Risk mitigation, including insurance when this is effective.

KPMG Chartered Accountants

For the year ended 31 March 2026,

20. Financial risk management (Cont.)

Compliance with Company standards is supported by a programme of periodic reviews undertaken by Internal Audit. The results of Internal Audit reviews are discussed with the management of the business unit to which they relate, with summaries submitted to the Board of Directors and senior management of the Company.

21. Capital commitments and contingent liabilities

There were no contract for capital expenditure of material amounts approved or contracted for as at the reporting date. There have been no material contingent liabilities outstanding as at the reporting date.

22. Comparative Figures

Where necessary the information has been restated to conform the current year presentation and classification.

23. Events occurring after reporting date

No circumstances have arisen since the reporting date which would require adjustments to be disclose in the financial statements.

24. Litigation and claims

There are no outstanding actual, pending of threatened litigation or claims during the year.

25. Going concern

The Company has incurred a net loss of Rs. 257,962/- for the year ended 31 March 2026 (2025- Loss of Rs 687,664/-) and as of that date the Company's accumulated losses amounted to Rs. 46,843,653 (2025 - Rs 46,585,691 /-). Further, the Company had ceased business operations from October 2018. Accordingly, the Company has not generated revenue in relation to commercial operations and remained dormant as at reporting date.

Although these conditions indicate the existence of material uncertainty and cast significant doubt on the Company's ability to continue as a going concern, based on the mitigating actions and the letter of support dated 20 July 2026 given by the Parent Company Thomas Cook India Limited undertaking to provide financial assistance to the Company to ensure that it can pay its debts as and when they fall due and payable, the Board of Directors has assessed that there is no uncertainty regarding the settlements of external liabilities during the next 12 months from the date of authorizing these financial statements. Further, the Company's ability to continue as a going concern is considered to be appropriate as the management has decided to continue with the Company due to matters relating to Trademark. The Board of directors are of the view that the Company will continue as a going concern legal entity. Accordingly, these financial statements have been prepared on a going concern basis.

Accordingly, the Board of Directors has a reasonable confidence level that the Company has adequate resources to continue in operation for at least the next 12 months and that the going concern basis of accounting remains appropriate.

26. Board of Directors' responsibility for financial reporting

The Board of Directors is responsible for the preparation and presentation of these Financial Statements in accordance with Sri Lanka Accounting Standards laid down by the Institute of Chartered Accountants of Sri Lanka and the Companies Act No. 7 of 2007.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF LUXE ASIA (PRIVATE) LIMITED

Report on the Audit of the Financial Statements

Disclaimer of Opinion
We were engaged to audit the financial statements of Luxe Asia (Pvt) Limited ("the Company"), which comprise the statement of financial position as at 31 March 2026, and the statement of profit or loss and other comprehensive income, the statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies.

We do not express an opinion on the accompanying financial statements of the company. Because of the significance of the matters described in the Basis for Disclaimer of opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for Disclaimer of Opinion
As at the reporting date, the Company has balances for Trade and Other Payables amounting to Rs. 76,057,058 /- included in Note 19 to these financial statements. These balances remain unchanged since year ended 31 March 2022. Due to inadequate supporting documentation for these balances, we were unable to satisfy ourselves concerning accuracy, completeness, and existence of these balances at the reporting date. Since these balances are material to these financial statements we were unable to determine whether any adjustments might have been necessary in respect of the current liabilities reported in the statement of financial position, the loss for the year reported in the statement of profit or loss and other comprehensive income and the net cash flows from operating activities reported in the statement of cash flows. Our opinion was also disclaimed in respect of these balances in prior year.

The Company has incurred a net loss of Rs. 4,410,800/- for the year ended 31 March 2026 and reported an accumulated loss of Rs. 277,977,562/-, net liability of Rs. 247,977,562/- and net current liability of Rs. 75,843,624 /- as at 31 March 2026.

Because of the significance of these matters, we are unable to determine whether any adjustments might have been necessary, including those that may affect the appropriateness of the use of the going concern basis of accounting. Accordingly, we are unable to assess the Company's ability to continue as a going concern.

Other Information
Management is responsible for the other information. These financial statements do not include the other information.

Responsibilities of Management and Those Charged with Governance for the Financial Statements
Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

KPMG, a Sri Lankan partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

KPMG

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements
Our responsibility is to conduct an audit of the Company's financial statements in accordance with Sri Lanka Auditing Standards (SLAuS) on Auditing and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Sri Lanka, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

A further description of the auditor's responsibilities for the audit of the financial statements is located at Sri Lanka Accounting and Auditing Standards website at: http://slaasc.com/auditing/auditorsresponsibility.php. This description forms part of our auditor's report.

Report on Other Legal and Regulatory Requirements
As explained in basis for disclaimer of opinion section of our report, the Company has not complied with the section 151 of the Companies Act No. 07 of 2007.
Further, it should be noted that the Company's net assets are less than half of its stated capital and the Company faces a serious loss of capital situation in terms of section 220 of the same act.

KPMG
Chartered Accountants

1 REPORTING ENTITY

1.1. Domicile and Legal Form

Luxe Asia (Pvt) Ltd ("the Company") is a limited liability Company incorporated on 22 June 2011 and domiciled in Sri Lanka under Companies Act, No. 7 of 2007. The registered office of the Company is located at No 327, Union Place, Colombo 02, Sri Lanka.

1.2. Principal Activities and Nature of Operations

The principal activity of the Company is to functioning as a travel agent and to provide travel related services.

The Company ceased business operations from January 2022 following the economic conditions prevailed subsequent to COVID 19 outbreak and economic crisis and its impact on Tourism related activities in the country. The Company proposes to restart business operations in the future.

1.3. Parent Enterprise and Intermediate Parent Enterprise

Thomas Cook Lanka (Pvt) Ltd became the parent and controlling party of Luxe Asia (Pvt) Ltd since 1st August 2015, after acquiring the Company from Ceylon Hotel Holdings (Pvt) Ltd. The intermediate and ultimate parent company is Thomas Cook India (Pvt) Ltd and Fairfax Financial Holdings Ltd, Canada respectively.

1.4. Number of Employees

The total number of employees of the Company as at 31 March 2026 was Nil (2025 – Nil)

2 BASIS OF PREPARATION

2.1 Statement of Compliance

The financial statements of the Company comprise the statement of financial position, statement of profit or loss and other comprehensive income, changes in equity and cash flows together with accounting policies and notes to the Financial Statements.

The financial statements of the Company have been prepared in accordance with Sri Lanka Accounting Standards (SLAS) prefixed by both SLFRS (corresponding to IFRS) and LKAS (corresponding to IAS), promulgated by the Institute of Chartered Accountants of Sri Lanka.

2.2 Basis of measurement

The Financial Statements have been prepared on the historical cost basis and applied consistently which no adjustments being made for inflationary factors affecting the financial statements.

2.3 Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency') and rounded to the nearest rupee value.

These financial statements are presented in Sri Lankan Rupees (Rs.) which is the Company's functional and presentation currency.

2.4 Use of Estimates and Judgments

The preparation of the Financial Statements in conformity with SLAS's requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

KPMG Chartered Accountants

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the Financial Statements is included in the following notes:

- Current taxation (Note 3.2.a)
- Deferred taxation (Note 3.2.b)
- Impairment (Note 3.4)
- Provision and contingencies (Note 3.6 and Note 3.7)

2.5 Materiality and Aggression

Each material class of similar items is presented separately in the financial statements. Items of a dissimilar nature or function are presented separately unless they are immaterial.

2.6 Events occurring after the Reporting date

The materiality of the events occurring after the reporting date have been considered and appropriate adjustments to or disclosure have been made in the financial statements where necessary.

3 MATERIAL ACCOUNTING POLICIES

The Company has consistently applied the accounting policies for all periods presented in the financial statements.

3.1 Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non- monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognized in profit or loss and presented within finance costs.

3.2 Income tax expenses

Income tax expense is recognized in the profit or loss except to the extent it relates to items recognised directly in Equity through Other Comprehensive Income (OCI).

a. Current taxation

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

The Company's liability to tax has been computed in accordance with the provisions of the Inland Revenue Act No 24 of 2017, and the subsequent amendments thereto.

b. Deferred taxation

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted by the reporting date

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future tax profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and is adjusted to reflect the current assessment of future taxable profits. Any adjustments are recognised in the Statement of profit or loss and Other Comprehensive Income.

Deferred tax is calculated at the tax rates that are expected to apply to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflects uncertainty related to income taxes, if any.

ASSETS AND BASES OF THEIR VALUATION

Assets classified as current assets in the statement of financial position are cash and those which are expected to be realised in cash during the normal operating cycle of the Company's business or within one year from the reporting date whichever is shorter. Assets other than current assets are those which the Company intends to hold beyond a period of one year from the date of financial position.

3.3 FINANCIAL INSTRUMENTS

3.3.1 Financial assets

Initial Recognition, Classification and Subsequent Measurement

Recognition and initial measurement

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Classification and subsequent measurement of financial assets

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI (Fair value through OCI) - debt investment; FVOCI - equity investment; or FVTPL (Fair value through profit or loss).

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

-it is held within a business model whose objective is to hold assets to collect contractual cash flows; and

-its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

-it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and

-its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

KPMG Chartered Accountants

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets - Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets - Assessment of whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument.This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

KPMG Chartered Accountants

Financial assets - Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss

3.3.2 Non-derivative financial liabilities

The Company initially recognises debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument. The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired. Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

3.3.3 Derecognition

a. Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

b. Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

KPMG Chartered Accountants

3.4 Impairment of Assets

3.4.1 Non-derivative financial assets (including receivables)

Financial instruments and contract assets

Loss allowances for trade receivables is always measured at an amount equal to lifetime Expected Credit Loss (ECL).

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Measurement of ECLs

ECLs are a profitability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity an accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognised in OCI.

3.4.2 Impairment of Non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets.

An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss.

An impairment loss in respect of other assets, recognised in prior periods is assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3.5 Fair Value Measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.When one is available, the Company measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Company uses valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Company measures assets and long positions at a bid price and liabilities and short positions at an ask price.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price - i.e., the fair value of the consideration given or received. If the Company determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique for which any unobservable inputs are judged to be insignificant in relation to the measurement, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data, or the transaction is closed out.

3.5.1 Use of assumptions and estimation uncertainty

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.The Company has an established control framework with respect to the measurement of fair values.

The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of SLFRS, including the level in the fair value hierarchy in which the valuations should be classified.

Significant valuation issues are reported to the Company's audit committee. When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- **Level 1**: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2**: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- **Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

LIABILITIES AND PROVISIONS

Liabilities classified as current liabilities on the statement of financial position are those, which fall due for payment on demand or within one year from the reporting date.

Non-current liabilities are those balances that fall due for payment after one year from the reporting date.

KPMG ★ Chartered Accountants ★

3.6 PROVISIONS

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

3.7 Capital Commitments & Contingencies

Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefits is not probable or cannot be reliably measured.

Capital commitment and contingent liabilities of the Company are disclosed in the respective notes to the financial statements.

INCOME AND EXPENSES

3.8 Revenue Recognition

Revenue is measured based on the consideration specified in a contract with a customer. The Company recognizes revenue when it transfers control over a good or service to a customer.

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Type of product/ service	Nature and timing of satisfaction of performance obligations, including significant payment terms,	Revenue recognition under SLFRS 15
Providing Travel and Destination Management services for Travelers	The Service is transferred to the customer at the completion of its performance obligation which is the completion of the tour. Departure date - considered to be the industry standard when acting as a principal.	Revenue is recognized when a customer obtains control of the service. Determining the timing of the transfer of control is at a point in time or over time requires judgment.

3.9 Other Income

Other Income is recognized on an accrual basis.

3.10 Expenditure recognition

All expenditure incurred in the running of the business and in maintaining the property, plant and equipment in a state of efficiency has been charged to income statement in arriving at the profit or loss for the year.

3.11 Finance income and Finance costs

Interest income and expenses are recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts or payments through the expected life of the financial asset or liabilities (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liabilities. When calculating the effective interest rate, the Company estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses. The calculation of the effective interest rate includes all transaction costs and fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

3.12 Related Party Transactions

Disclosures has been made in respect of the transactions in which one party has the liability to control or exercise significant influence over the financial and operating decisions/policies of the other, irrespective of a profit being charged.

3.13 Earnings per Share

The company presents basic earnings per share (EPS) data for its ordinary shareholders. The basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

4. STATEMENT OF CASH FLOW

The Cash Flow Statement has been prepared using the indirect method of preparing cash flows in accordance with the Sri Lanka Accounting Standard (LKAS) 7, Cash Flow Statements.

Cash and cash equivalents comprise short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. The cash and cash equivalents include cash in-hand, balances with banks and short-term deposits with banks.

For cash flow purposes, cash and cash equivalents are presented net of bank overdrafts, if any.

5. NEW ACCOUNTING STANDARDS

The Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) has issued several new accounting standards to existing standards. These new standards are set to become effective in the coming years.

5.1. Sri Lanka Accounting Standard – SLFRS 18 on "Presentation and Disclosure in Financial Statements" (SLFRS 18)

SLFRS 18 is a new accounting standard for presentation and disclosure in Financial Statements with effect from January 01, 2027. SLFRS 18 will replace the Sri Lanka Accounting Standard – LKAS 1 on "Presentation of Financial Statements" and applies to the Company from January 01, 2027. The new accounting standard introduces the following key new requirements.

• Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely operating, investing, financing, discontinuing operations and income tax categories. Entities are also required to present a newly defined operating profit subtotal; Entities' net profit will not change.

• Management – defined performance measures (MRMs) are disclosed in a single note in the financial statements.

• Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotals as the starting point for the statements of cashflows when presenting operating cashflows under indirect method. The Company is still in the process of assessing the impact of the new accounting standards, particularly with respect to the structure of the Company's statement of profit or loss, the statement of cashflows and the additional disclosures required for MPMs. The Company is also assessing the impact on how information is grouped in the financial statements including items currently labelled as 'other".

Chartered Accountants

For the year ended 31 March,	2026 Rs.	2025 Rs.

6. Revenue

Outbound Sales	-	-
	-	-

6.1 The Company's revenue is derived from rendering a wide range of travel services. The revenue from rendering these services is recognized in the profit or loss at the time when the services are provided to the customer. This is generally the tour departure date.

The Company suspended its business operations since January 2022 following the decline in the tourism sector, stemming from the impacts of the COVID outbreak and the subsequent economic crisis in the country. It has not yet recommenced operations since then and, consequently, has not generated any revenue during the year.

Timing of revenue recognition

Departure date at the point in time	-	-
	-	-

7. Cost of sales

Cost of Service supply	-	-
	-	-

The Company did not incur any cost of sales during the year, as business operations have remained suspended since January 2022. In the absence of any revenue-generating activities during the period, no transactions related to cost of sales were recorded.

8. Other income

Disposal Gain on PPE (Note 8.1)	-	208,311
Write back of RPT payable	-	-
	-	**208,311**

8.1 Given the dormant status of the Company and minimal business activity, all remaining furniture and fittings and office equipment assets were fully disposed during the prior year.Accordingly,the gain arising from the disposal has been recognized under Other Income in the prior year.

9. Loss from operations

Loss from operations is stated after charging all the expenses including the following,

Auditor's remuneration	387,000	365,000
General Expenses	-	19,399
Director Emoluments	-	-
Labor Compensation (Note 9.1)	3,480,259	17,624,165
Depreciation (Note 13)	-	479,142

KPMG
Chartered Accountants

For the year ended 31st March,

9. Loss from operations (Cont.)

9.1 Labour compensation relates to Case No. CA (Writ) Appeal 95/2022 filed by the Company in the Court of Appeal, challenging the order issued by the Commissioner General of Labour on 31 December 2021 under reference No. TEU/14/2021, which directed the Company to pay Rs. 20,249,098/- as compensation to nineteen employees. At the hearing held on 30 May 2025, the Company submitted a Bank Draft amounting to Rs. 17,624,165/- to the Court of Appeal. Accordingly, a provision of Rs.17,624,165/- was made in the prior year under Administrative expenses. As the terms of the settlement were fulfilled, the Court permitted the withdrawal of the application, and the matter is now considered to be closed. Accordingly, the payment made during the year has been setted off against the related provision made in the prior year.

9.2 During the year, the Company paid Rs.3,480,259 which relates to Case No. CA (Writ) Appeal 94/2022 as compensation to the seven employees named Randika Tharmasiri Dissanayake, Nivanthika Lakmali, Roshen Mary Shilanka Dias, Nipunika Shirunki Fernando, Arshak Akeel Irfaan, Suraj Kanishka Fernando, and Mohomed Shakir Hussain Zameena Farveen after negotiating for a settlement.

Allowable expenses	-	(208,311)
Total statutory income from Business	**(4,410,800)**	**205,689**
Other sources of Income - Investment Income	-	-
Total statutory income	**(4,410,800)**	**205,689**
Less: Setting off against brought forward tax losses	-	(205,689)
Taxable Profit/(Loss)	**(4,410,800)**	**-**
Income tax expense for the year - 30%	-	-

11.2 Corporate income tax rate

As provided for in LKAS 12 - Income taxes, deferred tax assets and liabilities should be measured at the tax rate that are expected to be applied in the period in which the asset will be realized or the liability will be settled, based on the tax rate (and tax laws) that have been enacted or substantively enacted by the reporting date.

The Company applied tax rate of 30% for the computation of current tax and deferred tax during the year.

11.3 Reconciliation of business tax losses

Tax loss brought forward	113,226,909	113,432,598
Less : Tax losses claimed during the year	-	(205,689)
Tax loss expired during the year	(22,640,283)	-
Tax loss during the year	4,410,800	-
Reassessment of tax losses on tax return	(16,000)	-
Tax loss carried forward	**94,981,426**	**113,226,909**
11.3.1 Analysis of tax losses		
Tax losses incurred in 2025/26 (Expire in 2031/32)	4,410,800	-
Tax losses incurred in 2022/23 (Expire in 2028/29)	18,429,208	18,429,208
Tax losses incurred in 2021/22 (Expire in 2027/28)	47,486,920	47,486,920
Tax losses incurred in 2020/21 (Expire in 2026/27)	24,654,498	24,654,498
Tax losses incurred in 2019/20 (Expire in 2025/26)	-	22,656,283
	94,981,426	**113,226,909**

12. Loss per share

Calculation of loss per share is based on the net loss attributable to Ordinary Shareholders divided by the weighted average number of ordinary shares outstanding as at the reporting date.

Loss for the year (Rs.)	(4,410,800)	(19,610,822)
Weighted average number of ordinary shares	500,000	500,000
Loss per share (Rs.)	**(8.82)**	**(39.22)**

15. Deferred Taxation

15.1 The Company ceased business operations from January 2022 as explained in Note 01 to these financial statements. Considering the brought forward tax losses and the status of the current business operations, no deferred tax asset has been recognized on the Tax losses.

15.2 As at the reporting date the temporary difference arising from tax losses was Rs. 94,981,426/-(2025: Rs 113,226,909/-) resulting in deferred tax assets of Rs. 28,494,428/- (2025: Rs. 33,968,073/-). However, deferred tax asset has not been recognized against this carried forward tax losses due to the uncertainty regarding the availability of future taxable profits against which the deferred tax asset could be utilized.

16. Cash and cash equivalents

Loans obtained during the year (Note 18.1.1.1)	21,959,397	2,815,590
Settlement	-	(448,222)
Interest on payable	17,213,394	15,017,454
Write back of Interest on payable (Note 18.1.1.2)	(17,213,394)	(15,017,454)
Closing balance as at 31 March	**158,035,034**	**136,075,637**

18.1.1.1 The loans obtained during the year relate to expenses incurred by Thomas Cook Lanka Pvt Ltd on behalf of the Company.

18.1.1.2 Thomas Cook Lanka (Pvt) Ltd confirmed in writing that they have waived off any interest charges on the loan granted to Luxe Asia (Pvt) Ltd, effective from April 1, 2025. Consequently, the Company reversed the accrued interest on the loan that had been recorded as payable to Thomas Cook Lanka (Pvt) Ltd up to the balance sheet date.

18.1.2 Other balances due to Thomas Cook Lanka (Private) Limited mainly consist of Group Resource Cost (GRC). From the year 2023, Thomas Cook Lanka (Private) Limited has not allocated any Group Resource Cost to Luxe Asia as the Company has temporarily ceased its operations.

As at 31st March,

19. Trade and other payables	2026 Rs.	2025 Rs.
Trade payables	9,390,632	9,390,632
Advances received from customers (Note 19.1)	64,323,590	64,323,590
Compensation to employees (Note 19.2)	-	17,624,165
Other payable	2,455,119	2,398,463
	76,169,341	**93,736,850**

19.1 In 2021, Rs. 62,968,048/- was received as advances from customers for future tours. However, due to the COVID-19 pandemic, the tours were not completed as at 31 March 2021 and hence it was recognized as a liability under Other payables. This balance was Rs. 64,323,590/- as at 31 March 2026.

19.2 A provision was recognized in the prior year following the hearing held on 30 May 2025, where the Company submitted a Bank Draft of Rs. 17,624,165/- to the Court of Appeal as settlement for Case No. CA (Writ) Appeal 95/2022. The case related to an order by the Commissioner General of Labour directing the Company to pay compensation to nineteen employees. As the matter was concluded with the withdrawal of the application, the provision has been recognized in the financial statements for the year ended 31 March 2025 as an adjusting subsequent event in accordance with LKAS 10. The Company paid the said payable balance to relevant employees during the current year.

20. Current taxation		
Balance at the beginning of the year	132,612	132,612
Balance at the end of the year	**132,612**	**132,612**

21. Related party transactions

The Company carried out transactions in the ordinary course of its business with parties who are defined as related parties in LKAS 24 - Related Party Disclosures. The details of which are given below.

a) Transactions with Key Management Personnel

According to Sri Lanka Accounting Standard 24 - Related Party Disclosures, the Key Management Personnel (KMP) are those having authority and responsibility for planning, directing, and controlling the activities of the entity. Accordingly, the Directors of the Company have been classified as KMP of the Company.

The Board of Directors of Thomas Cook Lanka (Pvt) Ltd and Thomas Cook (India) Limited, being the parent Companies, have also been classified as KMP as they have the authority and responsibility for planning, directing and controlling the activities of the entity directly and indirectly.

Key management personnel compensation		
Short Term Benefits	Nil	Nil
Post Employee Benefits	Nil	Nil

b) Transactions with Related Entities

Name of the Related Party	Relationship	Nature of Transaction	Transaction Amount 2026 Rs.	Transaction Amount 2025 Rs.
Thomas Cook Lanka (Pvt) Ltd	Parent	Loans granted	21,959,397	2,815,590
		Settlement	-	(448,222)
		Interest on Loan Granted	17,213,394	15,017,454
		Write Back on interest on Loan Granted	(17,213,394)	(15,017,454)

The Parent Company, Thomas Cook India Limited has provided a comfort letter dated 20 July 2026, confirming their intention to continue to provide financial and other support necessary for Luxe Asia (Pvt) Ltd to continue in business operations and meet its liabilities in the foreseeable future.

Amounts due to related entities as at reporting date are disclosed in the Note 18 to the these Financials Statements.

KPMG Chartered Accountants

For the year ended 31st March 2026,

22. Fair Values of Financial Instruments

The fair values of financial assets and liabilities, together with the carrying amounts shown in the statement of financial position, are as follows:

	2026		2025	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	Rs.	Rs.	Rs.	Rs.
Financial Assets				
Cash and cash equivalents	458,329	458,329	477,241	477,241
	458,329	**458,329**	**477,241**	**477,241**
Financial Liabilities				
Trade and other payables	76,169,341	76,169,341	93,736,850	93,736,850
Amount due to related party	172,133,938	172,133,938	150,174,541	150,174,541
	248,303,279	**248,303,279**	**243,911,391**	**243,911,391**

The methods and assumptions used to estimate the fair values of the financial instruments are as follows:

a) Cash and cash equivalents – The carrying amount of cash and cash equivalents approximate its fair value due to the relatively short maturity of the financial instruments.

b) Trade and other receivables/ Trade and other payables - The carrying amount of these financial assets and liabilities approximate its fair value due to the relatively short maturity of the financial instruments.

23. Financial risk management

23.1 Introduction and Overview

The Company has exposure to the following risks from its use of financial instruments:

1. Credit risk
2. Liquidity risk
3. Market risk
4. Operational risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout this financial statement.

23.2 Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board is responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

23.3 Credit risk

'Credit risk' is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities.

23.3.1. Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows;

	2026	2025
	Rs.	Rs.
Cash and cash equivalents	458,329	477,241
	458,329	**477,241**

For the year ended 31st March 2026,

23.4 Market risk

'Market' risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

23.4.1. Currency risk

'Currency risk' is the risk that the value of financial instruments will fluctuate due to changes on foreign exchange rates. The Company monitors the fluctuations in foreign currencies with appropriate strategies to minimize risk.

The Company is exposed to currency risk on transaction and settlements of transaction that are denominated in a currency other than the respective functional currencies of Company. The Company's transactions primarily in its functional currency (LKR). Therefore, the currency risk is minimal.

23.4.2. Interest rate risk

Interest rate risk is the risk to the Company's earnings and economic value of equity ("EVE") arising from adverse movements in interest rates.

23.4.3. Management of interest rate risk

The Company's investment decisions in interest bearing assets are controlled by the higher level authorities appointed by the Board of Directors and they are advised and guided only to invest in secured and regulated investment sources.

23.5 Liquidity risk

Liquidity risk' is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Maturity analysis

The table below summarizes the maturity profile of the Company's financial liabilities as at the end of the reporting period based on contractual undiscounted payments.

31 March 2026,	Carrying amount	6 months or less	6-12 months	More than 1 year
	Rs.	Rs.	Rs.	Rs.
Trade and other payables	76,169,341	76,169,341	-	-
Amounts due to related party	172,133,938	-	-	172,133,938
Total liabilities	**248,303,279**	**76,169,341**	-	**172,133,938**

31 March 2025,	Carrying amount	6 months or less	6-12 months	More than 1 year
	Rs.	Rs.	Rs.	Rs.
Trade and other payables	93,736,850	93,736,850	-	-
Amounts due to related party	150,174,541	-	-	150,174,541
Total liabilities	**225,038,944**	**77,231,771**	-	**147,807,173**

23.6 Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. Operational risks arise from all of the Company's operations.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each business unit. This responsibility is supported by the development of overall Company standards for the management of operational risk in the following areas:

- Requirements for the reconciliation and monitoring of transactions.
- Requirements for the reporting of operational losses and proposed remedial action.
- Development of contingency plans.
- Training and professional development.
- Ethical and business standards.
- Risk mitigation, including insurance when this is effective.

when necessary the information has been restated to confirm with the current year's presentation and classification.

KPMG Chartered Accountants

For the year ended 31st March 2026,

24. Capital commitments and contingent liabilities

There were no contract for capital expenditure of material amounts approved or contracted for as at the reporting date. There have been no material contingent liabilities outstanding as at the reporting date.

25. Litigation and claims

There were no pending litigations or claims as at the reporting date.

26. Going concern

The Company has incurred a net loss of Rs.4,410,800 /- for the year ended 31 March 2026 (2025-Rs. 19,610,822/-), and as at that date the Company's accumulated losses amounting to Rs. 277,977,562 /- (2025 - Rs. 273,566,762/-). Further the Company's current liabilities exceeded the current assets by Rs. 75,843,624 /- (2025 Rs. 93,392,221 /-) whereas the Company stands negative equity of Rs. 247,977,562 /- (2025 - Rs.243,566,762 /-). The Company is also facing a serious loss of capital situation under Sec 220 of the Companies Act No.07 of 2007.

Notwithstanding this, the financial statements have been prepared on a going concern basis due to reliance of letter of support, dated 20 July 2026 provided by the Directors of the Parent Company, Thomas Cook India Limited. Through this letter of support Parent Company confirms that they will be providing the financial assistance to the Company to ensure that it can pay its debts as and when they fall due and payable for a period of at least 12 months from the date of signing these financial statements.

The Board of directors are of the view that the Company will continue as a going concern as a legal entity. Accordingly, these financial statements have been prepared on a going concern basis.

Accordingly, the Board of Directors has a reasonable confidence level that the Company have adequate resources to continue in operation for at least the next 12 months and that the going concern basis of accounting remains appropriate.

In addition, the board of directors of the Company confirms that they do not have any intention to liquidate the Company at least 12 months from the date of signing these financial statements.

27. Board of Director's responsibility for financial reporting

The Board of Directors is responsible for the preparation and presentation of these Financial Statements in accordance with Sri Lanka Accounting Standards laid down by the Institute of Chartered Accountants of Sri Lanka and the Companies Act No. 7 of 2007.

INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF THOMAS COOK LANKA (PRIVATE) LIMITED

Report on the Audit of the Financial Statements

We have audited the financial statements of Thomas Cook Lanka (Private) Limited ("the Company") and the consolidated financial statements of the Company and its subsidiaries ("the Group"), which comprise the statement of financial position as at 31 March 2026, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements including material accounting policies.

Opinion – Company

In our opinion, the accompanying financial statements of the Company give a true and fair view of the financial position of the Company as at 31 March 2026, and of its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

Qualified Opinion – Group

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion - Group" section of our report, the accompanying financial statements of the Group give a true and fair view of the financial position of the Group as at 31 March 2026, and of its financial performance and cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

Basis for Qualified Opinion - Group

Trade and Other Payables of Rs.112,869,481/- presented in Note 30 to the consolidated financial statements include Rs. 76,057,058 /- relating to the subsidiary Luxe Asia (Pvt) Limited. The said balance could not be verified for accuracy, completeness, and existence due to inadequate supporting documentation. As a result, we are unable to assess the accuracy, existence and completeness of trade and other payable at the Group level.

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements section" of our report. We are independent of the Group in accordance with the ethical requirements of the Code of Ethics for Professional Accountants issued by CA Sri Lanka (Code of Ethics) that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Company and qualified opinion on the Group as described in "Basis for Qualified Opinion - Group".

Emphasis of Matter - Comparative Information

We draw attention to Note 31 to these financial statements which indicate that the comparative information presented as at and for the year ended 31 March 2025 has been restated. Our opinion is not modified in respect of this matter.

Material Uncertainty relating to Going Concern

We draw attention to note 39 to financial statements which indicates that the Group and the Company have incurred a net loss of Rs. 175,824,746/- and Rs. 193,373,346/- for the year ended 31 March 2026, and as of that date, Group and Company have accumulated losses amounted to Rs.612,668,716/- and Rs.536,841,099/- and the Group's and Company's current liabilities exceeded their current assets by Rs.112,393,110/- and Rs.36,565,493/- respectively. Further, as at 31 March 2026, the Group's and Company's total liabilities exceed the total assets by Rs.454,988,936/- and Rs.379,161,319/- respectively, whereas the Group and the Company stand negative equity position.

Although these events or conditions, along with other matters as set forth in Note 39,to these financial statements indicate that a material uncertainty exists that may cast significant doubt on the Group and Company's ability to continue as a going concern, the Directors of Thomas Cook (India) Limited, the parent entity, confirm their commitment to provide financial assistance to the Company to ensure that it is able to meet its external debt obligations as and when they fall due and payable , for a period of at least 12 months from the date these financial statements are signed.

Our opinion is not modified in respect of this matter.

Other Information
Management is responsible for the other information. These financial statements do not include the other information.

Responsibilities of Management and Those Charged with Governance for the Financial Statements
Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's and Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of the auditor's responsibilities for the audit of the financial statements is located at Sri Lanka Accounting and Auditing Standards website at: http://slaasc.com/auditing/auditorsresponsibility.php. This description forms part of our auditor's report.

Report on Other Legal and Regulatory Requirements
As required by section 163 (2) of the Companies Act No. 07 of 2007, except for the effects of the matter described in the "Basis of the Qualified Opinion" section of our report, we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the Company.

Further, it should be noted that Company's net assets are less than half of its stated capital and the Company faces a serious loss of capital situation in terms of section 220 of the same act.

Note - A

During 2026, the Company/Group reassessed the Optionally Convertible Cumulative Redeemable Preference Shares (OCRPS) issued on 25 June 2024 and determined, in accordance with LKAS 32, that the instrument is an equity instrument (no contractual obligation to deliver cash; settlement possible in a fixed number of ordinary shares at a 3:1 ratio). In accordance with LKAS 8, the comparative Statement of Changes in Equity has been restated to recognise the full consideration of Rs. 50,000,000/- within equity (previously presented as Rs. 3,886,223/- within equity with a liability component), reverse finance costs of Rs. 5,329,600/- previously recognised in profit or loss with a corresponding impact in the accumulated losses, and present returns to OCRPS holders as equity distributions. Dividends recognised directly in equity amount to Rs. 5,404,192/- for the year ended 31 March 2025 (restated) and Rs. 7,070,000/- for the year ended 31 March 2026. Accrued but unpaid dividends are presented separately as "Dividend payable on OCRPS" (Note 27). No finance costs are recognised in profit or loss in respect of the OCRPS (Note 9). Accordingly,the closing balance of preference share equity at 31 March 2026 is Rs. 50,000,000/- (Refer Note 27 and 31).

The notes to the Financial Statements form an integral part of these Financial Statements.

Figures in bracket indicate deductions.

KPMG Chartered Accountants

1. REPORTING ENTITY

1.1 Domicile and legal form

Thomas Cook Lanka (Private) Limited, ("the Company") is a private limited liability company incorporated and domiciled in Sri Lanka on April 20, 2012, under the Companies Act no 07 of 2007. The registered office and principal place of the business is situated at No.393, Union Place, Colombo 02.

The operations are conducted at Aviation branches (including arrival and departure), Kandy City Center Branch, Colombo City Centre Branch and One Galle Face Branch.

1.2 Consolidated financial statements

The Consolidated Financial Statements of the Group for the year ended 31st March 2026, comprise the Company (Parent Company) and its Subsidiary (together referred to as the 'Group' and individually as 'Group entity') and the Group's interest in its Associate.

The immediate and the ultimate parent Company of the Group is Thomas Cook (India) Limited and Fairfax Financial Holdings Limited respectively.

1.3 Principal activities and nature of operations of the Group

1.3.1 Thomas Cook Lanka (Private) Limited – Reporting Entity

The principal activity of the Company is dealing in foreign currencies.

1.3.2 Luxe Asia (Private) Limited - Subsidiary

The principal activity of the company is to act as a travel agent and to provide travel-related services. The company has temporarily ceased business operations from January 2022 and intends to re-commence business operations in the future.

1.3.3 Sita World Travel Lanka (Private) Limited - Associate

The principal activity of the company was being a travel agent. However, the company has ceased business operations from October 2018 and continues to remain dormant.

1.4 Number of employees

The total number of employees as at 31 March 2026 was as follows:

Group	:	20	(2025 - 21)
Company	:	20	(2025 - 21)

2. BASIS OF PREPARATION

2.1 Statement of compliance

The financial statements of the Company and the Group comprise the statement of financial position, statement of profit or loss and other comprehensive income, statement of changes in equity and cash flows together with the notes to the financial statements.

The financial statements of the Group and the separate financial statements of the Company have been prepared in accordance with the Sri Lanka Accounting Standards (SLFRSs and LKASs), laid down by The Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka).

KPMG Chartered Accountants

2.2 Responsibility for financial statements

The Board of Directors of the Group/ Company are responsible for the preparation and fair presentation of the financial statements.

2.3 Basis of Measurement

The Financial Statements have been prepared on the historical cost basis and applied consistently, which no adjustments being made for inflationary factors affecting the financial statements, except for the following material items in the statement of financial position:

- The defined benefit liability is recognized as the present value of the defined benefit obligation, plus unrecognized remeasurement gains, less unrecognized past service cost and unrecognized remeasurement losses.

2.4 Functional and Presentation Currency

These Financial Statements are presented in Sri Lankan Rupees, which is the Group's/ Company's functional currency. Except as indicated, the financial information presented in Sri Lankan Rupees has been rounded to the nearest rupee value.

2.5 Comparative Information

Comparative information including quantitative, narrative and descriptive information is required to be disclosed in respect of the previous period in the Financial Statements in order to enhance the understanding of the current period's Financial Statements and to enhance the inter period comparability. As per LKAS 1 - Presentation of Financial Statements, if the presentation or classification of items in the financial statements is changed, then the comparative amounts should be reclassified unless reclassification is impracticable.

2.6 Use of Estimates and Judgments

The preparation of the Financial Statements of the Group and the Company in conformity with SLAS's requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.
Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.
Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

- Current taxation (Note 3.3.a)
- Deferred taxation (Note 3.3.b)
- Impairment of assets (Note 3.8)
- Employee benefits (Note 3.11)
- Provisions and contingencies (Note 3.12 & 3.13)

2.7 Materiality and Aggregation

Each material class of similar items is presented separately in the Financial Statements. Items of dissimilar nature or function are presented separately unless they are immaterial as permitted by the Sri Lanka Accounting Standard-LKAS 1 on 'Presentation of Financial Statements'.

3. MATERIAL ACCOUNTING POLICIES

The Company has consistently applied the accounting policies for all periods presented in the financial statements.

3.1 Basis of Consolidation

The Group's Financial Statements comprise consolidation of the Financial Statements of the Company, its Subsidiaries in terms of the Sri Lanka Accounting Standard-SLFRS 10 on 'Consolidated Financial Statements and Separate Financial Statements' and the proportionate share of the profit or loss and net assets of its Associates in terms of the Sri Lanka Accounting Standard – LKAS 28 on 'Investment in Associate and Joint Ventures'.

3.1.1 Business Combination

Business combinations are accounted for using the acquisition method when control is transferred to the Group (See Note 3.1.2 below). The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognized in profit or loss immediately. Transaction costs are expensed as incurred, except if they are related to the issue of debt or equity securities.

3.1.2 Subsidiaries

Subsidiaries are entities controlled by the Group. The Group 'controls' an entity if it is exposed to, or has rights to, and variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group reassesses whether it has control if there are changes to one or more of the elements of control. This includes circumstances in which protective rights held (e.g., those resulting from a lending relationship) become substantive and lead to the Group having power over an entity. The cost of an acquisition is measured at fair value of the consideration, including contingent consideration. The acquired identifiable assets, liabilities and contingent liabilities are measured at their fair values at the date of acquisition. Subsequent to the initial measurement the Group continues to recognise the investments in Subsidiaries at cost.The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date when control ceases.
There are no significant restrictions on the ability of Subsidiaries to transfer funds to the Parent (the Company) in the form of cash dividend or repayment of loans and advances. All Subsidiaries of the Company have been incorporated in Sri Lanka.

3.1.3 Non-controlling interests (NCI)

NCI are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

3.1.4 Loss of Control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost
Subsequently, it is accounted for as an Associate or in accordance with the Group's Accounting Policy for financial instruments depending on the level of influence retained.

3.1.5 Transactions Eliminated on Consolidation

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

3.1.6 Accounting for investment in subsidiaries

When separate financial statements are prepared, investments in subsidiaries are accounted for using the cost method. Investments in subsidiaries are stated in the Company's Statement of Financial Position at cost less accumulated impairment losses.

3.1.7 Accounting for equity accounted investee

The Group's interest in equity-accounted investees comprise interests in associates.

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Interests in associates are accounted for using the equity method. They are initially recognized at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and OCI of equity-accounted investees, until the date on which significant influence ceases. Investments in equity accounted investees are stated in the Company's Statement of Financial Position at cost less accumulated impairment losses.

3.1.8 Transactions Eliminated on Consolidation

Unrealized gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

3.1.9 Financial Period

The Consolidated Financial Statements are prepared to a common financial year ended 31st March. The accounting policies of Subsidiaries have been changed where necessary to align them with the policies adopted by the Group.

3.2 Foreign Currency

3.2.1 Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency at the exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortized cost in foreign currency translated at the exchange rate at the end of the reporting period. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognized as profit or loss, except for differences arising on the retranslation of available for- sale equity instruments, which are recognized in other comprehensive income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

3.3 Income tax expense

Income tax expenses comprise of current & deferred tax expenses recognized in the profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

a) Current taxation

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting dateThe Group's/Company's liability to taxation has been computed in accordance with the provisions of the Inland Revenue Act No 24 of 2017 and the subsequent amendments thereto.

KPMG ★ Chartered Accountants ★

b) Deferred taxation

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted by the reporting date. Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future tax profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and is adjusted to reflect the current assessment of future taxable profits. Any adjustments are recognised in the Statement of profit or loss and Other Comprehensive Income. Deferred tax is calculated at the tax rates that are expected to apply to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflects uncertainty related to income taxes, if any.

3.4 Events occurring after the reporting date

All material and important events which occur after the reporting date have been considered and appropriate adjustments to or disclosure have been made in the financial statements where necessary.

ASSETS AND BASIS OF THEIR VALUATION

Assets classified as current on the Statement of Financial Position are cash or those which are expected to be realized in cash during the normal operating cycle of the Group/Company or within one year from the reporting date, whichever is earlier. Assets other than current assets are those ,which the Group/Company intends to hold beyond a period of one year calculated from the reporting date.

3.5 Property, plant and equipment

The Group/Company applies the requirements of the Sri Lanka Accounting Standard - LKAS 16 on 'Property, Plant & Equipment' in accounting for its owned assets which are held for and use in the provision of services, or for administrative purposes and are expected to be used for more than one year.

a) Recognition and Measurement

Property, Plant & Equipment is recorded at cost less accumulated depreciation less accumulated impairment losses if any. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labor, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Where an item of property, plant and equipment comprises major components having different useful lives, they are accounted for as separate items of property, plant and equipment.

b) Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in profit or loss as incurred.

c) Depreciation

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

KPMG
Chartered Accountants

The estimated useful lives for the current and comparative periods are as follows:

- Office Equipment 21 years
- Motor Vehicle 6 2/3 years
- Furniture and Fittings 15 3/4 years
- Computer Hardware 4 years
- Right of Use Asset Over the lease period

Depreciation is provided on a pro-rata basis on the assets purchased/constructed/disposed of during the year. Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

d) Derecognition

The carrying amount of an items of property, plant and equipment are derecognized upon disposal or when no future economic benefits are expected from its use. Any gain or losses rising on de-recognition of the asset is included in the statement of profit or loss the year the asset is derecognized.

e) Restoration costs

Expenditure incurred on repairs or maintenance of Property, plant and equipment in order to restore or maintain the future economic benefits expected from the originally assessed standard of performance is recognised as an expense when incurred.

f) Impairment of Property, Plant and Equipment

The carrying value of property plant and equipment is reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indications exist and where the carrying value exceeds the estimated recoverable amount, the assets are written down to their recoverable amount. Impairment losses are recognized in the statement of comprehensive income unless it reverses a previous revaluation surplus for the same asset.

g) Capital Work-in- progress

Capital expenses incurred during the year which are not completed as at the reporting date are shown as Capital Work – In – Progress whilst, the Capital assets which have been completed during the year and put to use have been transferred to Property, Plant and Equipment.

3.6 Intangible Assets

a. Recognition and measurement

An intangible asset is recognized if it is probable that future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably in accordance with the Sri Lanka Accounting Standard - LKAS 38 on 'Intangible Assets'. Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition All computer software costs incurred, licensed for use by the Group/Company, which are not integrally related to associate hardware, and can be clearly identified, reliably measured and it is probable that they will lead to future economic benefits are included in the statement of financial position under the category intangible assets and carried at cost less accumulated amortization and accumulated impairment losses if any.

b. Subsequent expenditure

Expenditure incurred on intangible assets is capitalized only when it increases the future economic benefits embodied in the specific assets to which it relates. All other expenditure is expensed as incurred.

KPMG Chartered Accountants

c. Amortization and impairment

Intangible assets with finite lives and amortization

Amortization is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of intangible assets, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives for the current and comparative periods are as follows:

- Computer software – 4 years

d. Goodwill

Goodwill that arises on the acquisition of subsidiary is presented with intangible assets. Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. Subsequent to initial recognition, goodwill is measured at cost accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquired are assigned to those units.

3.7 Financial instruments

3.7.1 Financial assets

Initial Recognition, Classification and Subsequent Measurement

Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group/Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Classification and subsequent measurement of financial assets

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI (Fair value through OCI) - debt investment; FVOCI - equity investment; or FVTPL (Fair value through profit or loss). Financial assets are not reclassified subsequent to their initial recognition unless the Group/Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group/Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis. All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group/Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets - Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's/Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets - Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group/Company considers the contractual terms of the instrument.

Financial assets - Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

3.7.2 Non-derivative financial liabilities

The Group/Company initially recognises debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities are recognised initially on the trade date at which the Group/Company becomes a party to the contractual provisions of the instrument.

The Group/Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group/Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the assets and settle the liability simultaneously. The Group/Company has the following non-derivative financial liabilities: interest bearing borrowings, other payables, amounts due to related parties and bank overdraft. The

KPMG Chartered Accountants

Group/Company has the following non-derivative financial liabilities: other payables and amounts due to related parties. Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

3.7.3 Derecognition

a. Financial assets

The Group/Company derecognised a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group/Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group/Company entered into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets were not derecognised.

b. Financial liabilities

The Group/Company derecognised a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group/Company also derecognised a financial liability when its terms are modified and the cash flows of the modified liability were substantially different, in which case a new financial liability based on the modified terms was recognised at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) was recognised in profit or loss.

3.7.4 Offsetting

Financial assets and financial liabilities were offset and the net amount presented in the statement of financial position when, and only when, the Group/Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3.8 Impairment of Assets

3.8.1 Financial assets (including receivables)

Financial instruments and contract assets

Loss allowances for trade receivables is always measured at an amount equal to lifetime Expected Credit Loss.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group/Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's/Company's historical experience and informed credit assessment and including forward-looking information.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group/Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

KPMG Chartered Accountants

Credit-impaired financial assets

At each reporting date, the Group/Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognised in OCI.

3.8.2 Impairment of Non-financial assets

The carrying amounts of the Group's/Company's non-financial assets such as deferred tax assets were reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount was estimated each year at the same time.
The recoverable amount of an asset or cash-generating unit was the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows were discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually were grouped together into the smallest group of assets that generates cash inflows from continuing use that were largely independent of the cash inflows of other assets.

An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount Impairment losses are recognized in profit or loss.

3.9 Fair Value Measurement

3.9.1 Use of assumptions and estimation uncertainty

A number of the Group's/Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Group/Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of SLFRS, including the level in the fair value hierarchy in which the valuations should be classified.

When measuring the fair value of an asset or a liability, the Group/Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- **Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities.

- **Level 2:** inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

- **Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Group/Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

KPMG Chartered Accountants

3.10 Leases

3.10.1 As a lessee

At commencement or on modification of a contract that contains a lease component, the Group/Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group/Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group / Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group/Company by the end of the lease term or the cost of the right-of-use asset reflects that the Group/Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's/Company's incremental borrowing rate. Generally, the Group/Company uses its incremental borrowing rate as the discount rate. The Group/Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.
Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group/Company is reasonably certain to exercise, lease payments in an optional renewal period if the Group/Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group/Company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's/Company's estimate of the amount expected to be payable under a residual value guarantee, if the Group/Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.The Group/Company presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment'.

Short-term leases and leases of low-value assets

The Group/Company has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Group/Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

3.10.2 As a lessor

At inception or on modification of a contract that contains a lease component, the Group/Company allocates the consideration in the contract to each lease component on the basis of their relative standalone prices.When the Group/Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.To classify each lease, the Group/Company makes an overall assessment of whether the lease transfers

substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group/Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.
When the Group/Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group /Company applies the exemption described above, then it classifies the sub-lease as an operating lease.
If an arrangement contains lease and non-lease components, then the Group/Company applies SLFRS 15 to allocate the consideration in the contract.

The Group/Company applies the derecognition and impairment requirements in SLFRS 9 to the net investment in the lease. The Group/Company further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.
The Group/Company recognises lease payments received under operating leases as income on a straight line basis over the lease term as part of 'other revenue'.Generally, the accounting policies applicable to the Group/Company as a lessor in the comparative period were not different from SLFRS 16 except for the classification of the sub-lease entered into during current reporting period that resulted in a finance lease classification.

LIABILITIES AND PROVISIONS

Liabilities classified as Current Liabilities in the Statement of Financial Position are those obligations payable on demand or within one year from the Statement of Financial Position. Items classified as non-current liabilities are those obligations, which expire beyond a period of one year from the reporting date.

All known liabilities have been accounted for in preparing the Financial Statements. Provision and liabilities are recognized when the Group/Company has a legal or constructive obligation as a result of past events and it is probable that an outflow of economic benefits will be required to settle the obligation.

3.11 Employee benefits

a) Defined Contribution Plans – Employees' Provident Fund & Employees' Trust Fund

A defined contribution plan is a post- employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Group/Company contributes 12% and 3% of gross emoluments of employees as Provident Fund and Trust Fund contribution respectively.

b) Defined Benefit Plan – Retiring Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

As required by LKAS 19 - Employee Benefits, the Group/ Company has provided for gratuity liability based on an internally generated model using formula based on projected unit credit method as recommended by LKAS 19. However, under the Payment of Gratuity Act No. 12 of 1983, the liability to an employee arises only on completion of 5 years of continued service. The liability is not externally funded.

Remeasurement gains and losses

The re-measurements of the net defined benefit liability, which comprise remeasurement gains and losses, are recognized in Other Comprehensive Income.

c) Short-term benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided.

KPMG Chartered Accountants

3.12 Provisions

A provision is recognized if, as a result of a past event, the Group/Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Trade and other payables are stated at their cost.

3.13 Contingencies and capital commitments

All discernible risks are accounted for in determining the amount of all known liabilities. The Company's share of any contingencies and capital commitments of a subsidiary for which the Company is also liable severally or otherwise are also included with appropriate disclosures. Contingent liabilities are possible obligations whose existence will be confirmed only by uncertain future events or present obligations where the transfer of economic benefit is not probable or cannot be reliably measured. Contingent liabilities are not recognized in the Statement of Financial Position but are disclosed unless they are remote.

STATEMENT OF PROFIT OR LOSS AND OTHER COMPREHENSIVE INCOME

3.14 Revenue recognition

Performance obligations and revenue recognition policies

Revenue is measured based on the consideration specified in a contract with a customer. The Company recognizes revenue when it transfers control over a good or service to a customer.

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Type of product/ service	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition under SLFRS 15
Foreign currency exchange (Buying and Selling)	The Service is transferred to the customer at the completion of its performance obligation which is when the foreign currency is exchanged.	SLFRS 15 established a comprehensive framework for determining whether, how much and when revenue is to be recognized. Under SLFRS 15, revenue is recognized when a customer obtains control of the goods or services. Determining the timing of the transfer of control is at a point in time.

3.15 Other income

Other income is recognized on an accrual basis.

3.16 Expenditure recognition

3.16.1 Operating expenses

Expenses are recognized in the statement of comprehensive income on the basis of a direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running of the business and in maintaining the Property, plant & equipment in a state of efficiency has been charged to the statement of comprehensive income.

KPMG
Chartered Accountants

3.16.2 Finance income and expenses

Interest income and expenses are recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts or payments through the expected life of the financial asset or liabilities (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liabilities. When calculating the effective interest rate, the Group/Company estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses. The calculation of the effective interest rate includes all transaction costs and fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

3.16.3 Borrowing Cost

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

3.17 Earnings per share

The Group/Company presents basic earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

3.18 Equity movements

a) Ordinary shares

The Group/ Company has issued ordinary shares that are classified as equity instruments. Incremental external costs that are directly attributable to the issue of these shares are recognised in equity, net of tax.

b) Optionally Convertible Cumulative Redeemable Preference Shares

Optionally Convertible Cumulative Redeemable Preference Shares that are denominated in the Group's / Company's own equity instruments are classified as equity when, in accordance with LKAS 32, they do not create a contractual obligation to deliver cash or another financial asset on principal amount and can be settled by issuing a fixed number of the Group's/Company's own equity instruments. On initial recognition, proceeds received net of directly attributable transaction costs are presented in equity.

c) Dividends on Optionally Convertible Cumulative Redeemable Preference Shares

Dividends on Optionally Convertible Cumulative Redeemable Preference Shares that are classified as equity are accounted for in the same manner as discretionary dividends on ordinary equity shares.

4. STATEMENT OF CASHFLOWS

The Cash Flow Statement has been prepared using the Indirect Method of preparing Cash Flows in accordance with the Sri Lanka Accounting Standard (LKAS) 7, Cash Flow Statements.

Cash and cash equivalents comprise short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. The cash and cash equivalents include cash in-hand, balances with banks and short term deposits with banks. For cash flow purposes, cash and cash equivalents are presented net of bank overdrafts.

5. NEW ACCOUNTING STANDARDS

The Institute of Chartered Accountants of Sri Lanka (CA Sri Lanka) has issued several new accounting standards and amendments/improvements to existing standards. These new standards are set to become effective in the forthcoming years. Early application of these standards is allowed, but the Company has not early adopted any new or amended standards in the preparation of these financial statements.

5.1 Sri Lanka Accounting Standard – SLFRS 18 on "Presentation and Disclosure in Financial Statements" (SLFRS 18)

SLFRS 18 is a new accounting standard for presentation and disclosure in Financial Statements with effect from January 01, 2027. SLFRS 18 will replace the Sri Lanka Accounting Standard – LKAS 1 on "Presentation of Financial Statements" and applies to the Company from January 01, 2027. The new accounting standard introduces the following key new requirements.

• Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely operating, investing, financing, discontinue operations and income tax categories. Entities are also required to present a newly defined operating profit sub totals, Entities' net profit will not change .
• Management-defined performance measures (MRMs) are disclosed in a single note in the financial statements.
• Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotals as the starting point for the statements of cashflows when presenting operating cashflows under indirect method.

The Company/Group is still in the process of assessing the impact of the new accounting standards, particularly with respect to the structure of the Company's/Group's statement of profit or loss, the statement of cashflows and the additional disclosures required for MPMs. The Company/Group is also assessing the impact on how information is grouped in the financial statements including items currently labelled as 'other".

For the year ended 31st March	Company 2026 Rs.	Company 2025 Rs.	Group 2026 Rs.	Group 2025 Rs.
6. Revenue				
Foreign currency trading	166,074,679	176,952,885	166,074,679	176,952,885
Commission on encashment trading	54,166,124	55,366,005	54,166,124	55,366,005
	220,240,803	**232,318,890**	**220,240,803**	**232,318,890**

6.1 The Group's/Company's revenue include income earned through dealing with foreign currency trading and commission income earned on the transactions. Revenue from contracts with customers is disaggregated by the timing of revenue recognition as follows:

Disagregation of revenue from contracts with customers				
Services transferred at a point in time	**220,240,803**	**232,318,890**	**220,240,803**	**232,318,890**

6.2 Despite the increase in tourist arrivals during the year, the Company recorded a decline in foreign currency trading revenue compared to the previous year. This was primarily attributable to the relative stability of exchange rates maintained by the Central Bank of Sri Lanka (CBSL) during the financial year, which resulted in reduced volatility and narrower margins between the Company's retail exchange rates and CBSL reference rates, particularly for major currencies such as the USD and INR. In addition, lower foreign currency trading volumes arising from changes in customer behaviour, increased adoption of digital payment methods, and evolving travel spending patterns further impacted transaction activity. Consequently, the Company recorded lower gains from foreign exchange transactions, despite the increase in volume of tourism-related currency conversions.

The subsidiary Luxe Asia (Pvt) Ltd, has suspended its business operations from January 2022 due to drop in business in the tourism sector as the resultant implications of COVID outbreak and economic conditions. The Subsidiary has not recommenced operations since then and therefore the Subsidiary has not generated any revenue during the year.

7. Administrative and other operating expenses				
Auditor's remuneration - Audit fee	1,085,000	980,000	1,760,792	1,471,250
Director's fees and emoluments	-	-	-	-
Depreciation and amortization (Note 13 & 14)	5,965,736	5,121,939	5,965,736	5,601,081
Professional service cost (Note 7.1)	4,915,125	2,956,330	4,985,125	3,032,266
Staff expenses (Note 7.2)	48,179,343	49,084,986	51,659,602	66,709,151
Other expenses (Note 7.3)	313,926,244	271,494,672	314,092,081	272,607,985
Group resource cost (Note 7.4)	-	8,568,488	-	8,568,488
	374,071,448	**338,206,415**	**378,463,335**	**357,990,221**

7.1 Professional service costs increased during the year primarily due to concurrent audit services engaged from Lovi Mehrotra & Associates, together with professional fees incurred for valuation and technical assessment relating to the OCCRPS share issue agreement, for which professional fees were paid to Deloitte. In addition, the increase was attributable to expenses incurred in relation to SSCL and WHT return preparation, as well as costs associated with handling tax audits with the Inland Revenue Department.

7.2 Staff expense				
Salaries, wages and bonus	31,245,904	32,155,712	31,245,904	32,155,712
Define benefit plan cost (Note 24.2.1)	1,495,943	1,553,692	1,495,943	1,553,692
Employees' Provident Fund (Note 24.1)	4,485,901	4,462,421	4,485,901	4,462,421
Employees' Trust Fund (Note 24.1)	894,040	866,608	894,040	866,608
Others staff related expenses (Note 7.2.1)	10,057,555	10,046,554	10,057,555	10,046,554
Labour compensastion (Note 7.2.2)	-	-	3,480,259	17,624,165
	48,179,343	**49,084,986**	**51,659,602**	**66,709,151**

7.2.1 This primarily relates to staff welfare expenditures, staff travel expenses, and executive rental expenses.

7.2.2 Labour compensation relates to Case No. CA (Writ) Appeal 95/2022 filed by the subsidiary, Luxe Asia (Pvt) Ltd in the Court of Appeal, challenging the order issued by the Commissioner General of Labour on 31 December 2021 under reference No. TEU/14/2021, which directed the subsidiary to pay Rs. 20,249,098/- as compensation to nineteen employees. At the hearing held on 30 May 2025, the subsidiary submitted a Bank Draft amounting to Rs. 17,624,165/- to the Court of Appeal. Accordingly, a provision of Rs.17,624,165/- was made in the prior year under Group Administrative expenses. As the terms of the settlement were fulfilled, the Court permitted the withdrawal of the application, and the matter is now considered to be closed.Accordingly, the payment made during the year has been setted off against the related provision made in the prior year.

During the year, the subsidiary, Luxe Asia (Pvt) Ltd paid Rs.3,480,259 which relates to Case No. CA (Writ) Appeal 94/2022 as compensation to the seven employees named Randika Tharmasiri Dissanayake, Nivanthika Lakmali, Roshen Mary Shilanka Dias, Nipunika Shirunki Fernando, Arshak Akeel Irfaan, Suraj Kanishka Fernando, and Mohomed Shakir Hussain Zameena Farveen after negotiating for a settlement.

Internet Expenses	3,113,647	3,130,228	3,113,647	3,130,228
Others (Note 7.3.3)	20,402,954	16,490,158	20,568,791	16,659,471
	313,926,244	**271,494,672**	**314,092,081**	**272,607,985**

7.3.1 This primarily comprises the rent payments made by Thomas Cook Lanka (Pvt) Ltd for the counters at Arrival and departure terminals at the Bandaranayake International Airport. SLFRS 16 has not been applied to the above mentioned balances because the asset is not identifiable and falls under the exemption criterion.

The overall increase in rent expense during the year was primarily due to higher rental charges for both counters compared to the previous year.

7.3.2 IT expenses include costs incurred by the immediate parent company, Thomas Cook India Limited, on behalf of Thomas Cook Lanka (Pvt) Ltd, relating to board meeting packages, Mudra screening, and SAP and Mudra software charges. In addition, IT-related expenses comprise Microsoft 365 subscription charges, procurement of USB devices and laptop power cables, Windows installation costs, and mechanical service charges.

During the year, Thomas Cook India Limited (the Parent Company) did not reimburse cost allocations previously charged to Thomas Cook Lanka (Pvt) Ltd in respect of Mudra screening, SAP and Mudra software charges, due to its loss-making position. Accordingly, no IT cost reimbursements were received from the Parent Company, and no such costs were recognised during the current year.

7.3.3 This includes mainly printing and packaging, electricity expenses, other Insurance and other miscellaneous expenses.

7.4 Group Resources cost includes expenses incurred by the immediate parent Company Thomas Cook India Limited on behalf of Sri Lankan companies.

During the year, Group resource costs were nil as the Parent Company did not allocate shared service costs to the Company after December 2024, considering its loss-making position. Accordingly, no Group resource costs were recognised during the current year.

8. Other income				
Other income (Note 8.1)	3,294,458	2,977,808	3,294,458	2,977,808
Interest income from refundable deposit	166,326	199,710	166,326	199,710
Disposal Gain on PPE	-	-	-	208,311
	3,460,784	**3,177,518**	**3,460,784**	**3,385,829**

8.1. This represents incentive income earned from Global Payment Services and Dynamic Currency Conversion (DCC) transactions during the year. Incentive income increased compared to the previous year, primarily due to higher transaction volumes driven by increased tourist arrivals and changing customer payment preferences, with a greater proportion of customers opting for Dynamic Currency Conversion and other global payment solutions.

	Company 2026 Rs.	Company 2025 Rs. Restated	Group 2026 Rs.	Group 2025 Rs. Restated
9. Net finance (expense) / income				
Finance income				
Interest income from fixed deposits	11,454,000	11,537,848	11,454,000	11,537,848

	11,454,000	**21,376,967**	**11,454,000**	**21,376,967**
Finance expenses				
Bank charges	725,377	714,760	745,977	733,660
Interest on overdraft	3,813,878	2,943,446	3,813,878	2,943,446
Interest on ROU assets	636,124	390,491	636,124	390,491
Foreign exchange loss (Note 9.1)	10,337,460	-	10,335,772	426
Interest on related party loans (Note 9.2)	16,356,098	8,909,226	16,356,098	8,909,226
	31,868,937	**12,957,923**	**31,887,849**	**12,977,249**
Net finance (expense) / income	**(20,414,937)**	**8,419,044**	**(20,433,849)**	**8,399,718**

9.1. The exchange loss relates to foreign exchange differences on USD and INR denominated related party balances with Thomas Cook India Limited (the Parent Company), arising from the retranslation of balances at year-end exchange rates. The loss was mainly driven by a decline in exchange rates compared to the previous year, resulting in an overall unrealised foreign exchange loss, whereas a gain was recognised in the prior year due to favourable movements.

9.2. Interest expense on related party loans increased during the year primarily due to the drawdown of a new loan from Thomas Cook (India) Limited amounting to USD 380,886 (LKR (equivalent to Rs. 115,678,692/-), received in tranches of USD 100,325 on 23 July 2025, USD 182,992 on 19 September 2025, and USD 97,569 on 06 February 2026. The increase in the average outstanding borrowing balance during the year resulted in higher interest expense, notwithstanding a reduction in the average interest rate from 7.25% in the previous year to 6.15% in the current year.

The accrued interest income for the current year on the loan granted to the Subsidiary Luxe Asia (Pvt) Limited was reversed based on the confirmation issued by the Board of the Company on 20 July 2026 stating that the interest accured can be reversed by the Subsidiary on the basis that the Subsidiary is in a dormant condition and unable to generate any income during the year (Refer to section 18.1.2 for further details).

9.3. During the year, no finance cost was recognised in respect of the Optionally Convertible Cumulative Redeemable Preference Shares (OCRPS) issued on 25 June 2024 amounted Rs.50Mn, as the instrument has been reclassified as equity in accordance with LKAS 32 Financial Instruments: Presentation. Accordingly, returns to holders have been treated as equity distributions (dividends) and not recognised as finance costs in profit or loss (Note 23 – Redeemable preference shares (equity) and Note 27 – Dividend payable on Preference Shares). Comparative information for the year ended 31 March 2025 has been restated as explained in Note 31 to these financial statements.

14.2 Provision for impairment of Goodwill

The Group has recognized a goodwill of Rs. 77,114,785 as a result of acquisition of subsidiary Luxe Asia (Pvt) Ltd in 2017.

As required by LKAS 36 - "Impairment of Assets", goodwill is tested for impairment on annual basis and assessed for any indication of impairment as at each reporting date to ensure that carrying amount does not exceed the recoverable amount. Accordingly, the Board of Directors of the Group/ Company conducted an assessment and concluded that goodwill had to be impaired as the Investment in Luxe Asia (Pvt) Ltd financial has been also impaired in full. Accordingly the Goodwill recognized was fully impaired in 2022.

The investment in Subsidiary was fully impaired in 2022 following the temporary cessation of operation.

The Subsidiary has incurred a net loss of Rs. 4,410,800/- for the year ended 31 March 2026 (2025 - Rs. 19,610,822/-), and as of that date the Subsidiary's accumulated loss was Rs. 277,977,562/- (2025 - Rs. 273,566,762/-). Further the Subsidiary current liabilities exceeded the current assets by Rs. 75,843,624/- (2025 - Rs.93,392.221/-) and its total liabilities exceeded its total assets by Rs. 247,977.562/- (2025 - Rs. 243,566,762/-).The Subsidiary is also facing a serious loss of capital situation under Sec 220 of the Companies Act No.07 of 2007.

The Subsidiary has temporarily ceased business operations due to the prevailing economic conditions and continuing impact of COVID 19 outbreak on Tourism related activities in the country.Although these conditions indicated material uncertainty on the ability of the Subsidiary to continue as a going concern, the Board of Directors are of the view that the business operations of the Subsidiary will be revived in the future years and the Subsidiary will continue as a going concern. As the parent Thomas Cook (India) Limited has provided a letter of comfort dated 20 July 2026 confirming their intention to provide adequate financial support to the Subsidiary as is necessary to ensure its continuing operation for a period of at least 12 months following the date of approval of the financial statements and if and when the Subsidiary is unable to settle its liabilities to other parties when they fall due.

KPMG Chartered Accountants

As at 31st March,

16. Equity-accounted investee - Sita World Travel Lanka (Pvt) Ltd (Cont.)

16.1 Allowance for impairment (Cont.)

Audited financial statements of Sita World Travel Lanka (Pvt.) Limited (Associate Company) carried an Emphasis of Matter for going concern ability as the Company has reported a net loss of Rs. 257,962/- for the year ended 31st March 2026 (2025 - Rs. 687,664/-). As at the reporting date, the Associates' accumulated loss amounted to Rs. 46,843,653/- (2025 - Rs. 46,585,691/-). Further the Associate Company has ceased its business operations from October 2018. The above facts indicate the existence of uncertainty which may cast significant doubt about the Associates' ability to continue as a going concern, The board of directors of the Associates' are of the view that the indications will have an impact of entity to continue as a going concern. Accordingly, the Board of Directors of Thomas Cook Lanka (Pvt) Ltd is of the view that full provision is required in the current financial statements. Accordingly carrying value of Sita World Travel Lanka (Pvt) Ltd has been fully impaired.

16.1.1 Further, since Sita World Travel Lanka (Pvt.) Limited recorded a net loss for the year, the impairment provision that was previously provided was reversed up to the Group's share of total comprehensive income. This has been recognised in the profit or loss for the year.

18.1.2 Since the Luxe Asia (Pvt) Ltd has suspended operations since January 2022, Thomas Cook Lanka (Pvt) Ltd has provided funding for its day-to-day expenses, and this funding has been converted into a loan.

During the year, the Company granted a loan of Rs. 21,959,399/- to Luxe Asia (Pvt) Ltd (Subsidiary), comprising amounts paid on behalf of the subsidiary, including labour compensation of approximately Rs. 21.1 million as disclosed in Note 7.2.2, together with audit fees, secretarial fees, and document storage charges. The loan was initially granted at an interest rate of 10%. However, The Board of Thomas Cook Lanka (Private) Limited has taken a decision to write off the interest on loan given to the Luxe Asia (Pvt) Ltd. The said Board confirmation was dated 20 July 2026. Accordingly, interest income accrued on loan provided to Luxe Asia (Pvt) Ltd has been reversed. Further, the said loan granted during the year has been fully impaired as there is an uncertainty over recoverability due to the subsidiary Luxe Asia Pvt Ltd's dormant status and suspension of operations.

18.1.3 The Company recognized an impairment of Rs. 21,959,399/- during the year in relation to the amount receivable from Luxe Asia (Pvt) Ltd. The impairment was recorded due to uncertainty over the recoverability of the balance, as the related party has remained dormant.

18.2.1. The Company recognized an impairment of Rs. 652,532/- during the year in relation to the amount receivable from Sita World Travel Lanka (Pvt) Ltd. The impairment was recorded due to uncertainty over the recoverability of the balance, as the related party has remained dormant.

18.2.2 A Loan of Rs.652,532 /- granted during the year includes Audit fee, secretarial fees and legal fees for Sita World Travel Lanka (Pvt) Limited. As there is an uncertainty over recoverability, the said amount has been imapired during the year.

5,000,000 Preference Shares	**50,000,000**	**50,000,000**	**50,000,000**	**50,000,000**

On 25 June 2024, the Company issued 5,000,000 Optionally Convertible Cumulative Redeemable Preference Shares (OCRPS) for cash consideration of Rs. 50,000,000/-. In the prior year, these were recorded as a compound financial instrument comprising a liability component of Rs. 46,113,777/- and an equity component of Rs. 3,886,223/-, and related finance costs of Rs. 5,329,600/- were recognised in profit or loss in the absence of a complete documentation. In the current year, following a reassessment of the contractual terms of the formal shareholder agreement dated 28th March 2024 in accordance with LKAS 32, the OCRPS have been determined to be equity instruments, as the Company has no contractual obligation to deliver cash and may settle the instrument by issuing a fixed number of its own ordinary shares (3:1) anytime in the next 20 years at the decreation of the issuer, the Company. Accordingly, the comparative information has been restated to recognise the total consideration amount of Rs. 50,000,000/- under equity, reverse the previously recognised liability and finance costs, and treat returns to holders as equity distributions; accrued but unpaid dividends are presented as "Dividend payable on Preference Shares" (Note 27), and no finance cost has been recognised in profit or loss (Note 9 and Note 31). Accordingly, the closing balance of preference share equity as at 31 March 2026 has been restated to Rs. 50,000,000/-.

As required by LKAS 19 - Employee Benefit, which became effective from 1 January 2012 the Company has provided for gratuity liability based on an internally generated model. The principal assumptions used in determining the cost of Employee Benefits were as follows.

Following the settlement of all commitments pertaining to the defined benefit plans, the remaining liability has been reversed and reflected in the Consolidated Statement of Profit or Loss and Other Comprehensive Income. Since all obligations associated with the defined benefit plan have been fully discharged in the subsidiary.

	2026	2025
Discount rate*	10.00%	11.00%
Future salary increment Rate	9.63%	10.52%
Staff Turnover	56.41%	13.95%
Retirement age	60 Years	60 Years

*As per the guidelines issued by the Institute of Chartered Accountants of Sri Lanka, the discount rates have been adjusted to convert the coupon bearing yield to a zero coupon yield to match the characteristics of the gratuity payment liability and the resulting yield to maturity for the purpose of valuing Employee benefit obligations as per LKAS 19.

25.3.1 Deferred tax asset arising from tax losses

Thomas Cook Lanka (Pvt) Ltd - The tax losses as at the reporting date was Rs.305,638,262/- (2025 : Rs.167,155,819/-) resulting in a deferred tax asset of Rs.91,691,478/- as at reporting date (2025: Rs.50,146,746). However, deferred tax asset has been recognized only to the extent of the deferred tax liability amounting to Rs.703,105/- as at the reporting date (2025 : Rs.1,214,992/-) due to the uncertainty regarding the availability of future taxable profits against which the deferred tax asset would be utilized.

Luxe Asia (Pvt) Ltd - As at the reporting date the temporary difference arising from tax losses was Rs. 94,981,426/- (2025: Rs 113,226,909/-) resulting in deferred tax assets of Rs. 28,494,428/- (2025: Rs. 33,968,073/-). However, deferred tax asset has not been recognized against this carried forward tax losses due to the uncertainty regarding the availability of future taxable profits against which the deferred tax asset could be utilized.

KPMG Chartered Accountants

As at 31st March,

25. Deferred taxation (Cont.)

25.4 Corporate income tax applicable rate

As provided for in LKAS 12 - Income taxes, deferred tax assets and liabilities should be measured at the tax rate that are expected to be applied in the period in which the asset will be realized or the liability will be settled, based on the tax rate (and tax laws) that have been enacted or substantively enacted by the reporting date.

The Company applied tax rate of 30% for the computation of current tax and deferred tax for the year.

26. Long term loans from related parties

As at 31st March ,	Company		Group	
	2026	2025	2026	2025

26.1 The Parent Company, Thomas Cook (India) Limited, has provided financial assistance to the Company in multiple tranches. Up to 31 March 2025, a total of USD 591,605 (LKR equivalent as at 31 March 2026: Rs. 186,468,512/-) was granted in eight phases. During the current year, an additional three loans were disbursed amounting to USD 380,886 (LKR equivalent: Rs. 115,678,692 /-), resulting in an aggregate outstanding loan balance of USD 972,491 (LKR equivalent as at 31 March 2026: Rs. 306,203,140 /-).
The borrowings were obtained as part of the agreed funding arrangement to support the Company in meeting temporary cash flow mismatches arising from ongoing economic and operational challenges in Sri Lanka. The interest is accrued at prevailing market rates at the time each tranche was granted.

As at 31st March ,	Company		Group	
	2026	2025	2026	2025
	Rs.	Rs. Restated	Rs.	Rs. Restated
27. Dividend payable on Preference Shares				
Balance at the beginning of the year	5,404,192	-	5,404,192	-
Dividend for the year (Note 27.1)	7,070,000	5,404,192	7,070,000	5,404,192
Balance at the end of the year	**12,474,192**	**5,404,192**	**12,474,192**	**5,404,192**
Current dividend liability	7,070,000	5,404,192	7,070,000	5,404,192
Non-current dividend liability	5,404,192	-	5,404,192	-
	12,474,192	**5,404,192**	**12,474,192**	**5,404,192**

27.1 As explained in note 23 to these financial statements, following the reclassification of preference shares to equity the related dividend payable has been restated as equity related expense and recongnised in the statement of changes in equity.

28. Amount due to related companies				
Thomas Cook (India) Limited (Note 28.1)	171,997,388	178,950,959	171,997,388	178,950,959
SOTC Travel Limited	2,923,082	3,041,257	2,923,082	3,041,257
	174,920,470	**181,992,216**	**174,920,470**	**181,992,216**

28.1 The payable balance mainly comprises amounts due to Thomas Cook (India) Limited relating to subscription fees for software services such as SAP and Mudra, together with allocations of Group Resource Costs incurred by the parent company on behalf of Thomas Cook Lanka (Pvt) Ltd. The balance has decreased compared to the previous year, primarily due to the revaluation of INR-denominated payables during the year. Further, with effect from December 2024, Thomas Cook (India) Limited discontinued charging service and resource costs to Thomas Cook Lanka (Pvt) Ltd, resulting in a further reduction in the payable balance. Accordingly, no new charges relating to such services were incurred during the current year.

29. Lease Liability

Balance at the beginning of the year	5,728,062	4,190,347	5,728,062	4,190,347
Opening balance adjustment	-	(1,365,100)	-	(1,365,100)

Balance as at 31 March,	**4,233,812**	**5,728,062**	**4,233,812**	**5,728,062**
Payable after one year	332,566	2,732,416	332,566	2,732,416
Payable within one year	3,901,246	2,995,646	3,901,246	2,995,646
	4,233,812	**5,728,062**	**4,233,812**	**5,728,062**

29.1 When measuring lease liabilities for leases that were classified as operating leases, the Company discounted lease payments using its incremental borrowing rate as at the lease granted date. The Company has entered in to a new agreement for YWCA in where the head office is located and it has recorded under additions during the year.

As at 31st March,	Company 2026 Rs.	Company 2025 Rs.	Group 2026 Rs.	Group 2025 Rs.
29. Lease Liability (Cont.)				
29.1. Right-of-use assets				
Right-of-use assets related to leased properties are presented as property, plant and equipment.				
Balance at the beginning of the year	5,918,056	4,193,839	5,918,056	4,193,839
Opening balance adjustment	-	(1,554,604)	-	(1,554,604)
Additions during the year (Note 13)	2,330,312	6,857,188	2,330,312	6,857,188
Depreciation for the year (Note 13)	(4,133,511)	(3,578,368)	(4,133,511)	(3,578,368)
Balance as at 31 March,	**4,114,857**	**5,918,056**	**4,114,857**	**5,918,056**
29.2. Amounts recognized in profit or loss				
For the year ended 31 March 2026 - Leases under SLFRS 16				
Interest on lease liabilities	636,124	390,491	636,124	390,491
Depreciation of right-of-use assets	4,133,511	3,578,368	4,133,511	3,578,368
	4,769,635	3,968,859	4,769,635	3,968,859
Expenses relating to short-term leases	288,855,876	245,600,105	288,855,876	245,600,105
	293,625,511	**249,568,964**	**293,625,511**	**249,568,964**
For the year ended 31 March 2026 – Operating leases under LKAS 17				
Lease expense	288,855,876	245,600,105	288,855,876	245,600,105

29.2.1 Amounts recognized in statement of cash flows

The Company has classified:
- cash payments for the principal portion of lease payments as financing activities;
- cash payments for the interest portion as operating activities consistent with the presentation of interest payments chosen by the Company
- short-term lease payments and payments for leases of low-value assets as operating activities.

As at 31st March,	Company 2026 Rs.	Company 2025 Rs. Restated	Group 2026 Rs.	Group 2025 Rs. Restated
30. Trade and other payables				
Trade payable	-	-	9,390,632	9,390,632
Advance received from customers (Note 30.1)	-	-	64,323,590	64,323,590
Other payables (Note 30.2)	36,716,148	7,282,413	39,155,259	27,289,037
	36,716,148	**7,282,413**	**112,869,481**	**101,003,259**

30.1. In 2021, Rs. 62,968,048/- has been received as advances from customers for future tours for Subsidiary Luxe Asia. However, due to the COVID-19 pandemic, the tours were not completed as at 31 March 2021 and hence it was recognised as a liability under Other payables. This balance was Rs. 64,323,590/- as at 31 March 2026.The said opening balance could not be verified for accuracy, completeness, and existence due to inadequate supporting documentation.

30.2. The increase in other payables is primarily attributable to rent payable of Rs. 31.5 million relating to the Bandaranaike International Airport (BIA) Departure and Arrival locations for March 2026, which remained outstanding at the reporting date.

30.3. Comparative Information - Restatement due to Reclassification

Comparative information of the Company/Group's Trade and Other Payables has been restated to correct the prior-year presentation of accrued dividends on Optionally Convertible Cumulative Redeemable Preference Shares (OCRPS), which were previously included within trade and other payables as seperate caption "Dividend payable" amounting to Rs. 5,302,500/- (Refer Note 31).

KPMG Chartered Accountants

31 Restatement due to Reclassification - OCRPS equity classification and retrospective restatement

During 2026, based on the reassessment of the feathers specified in the agreement of the Optionally Convertible Cumulative Redeemable Preference Shares (OCRPS) issued on 25 June 2024, it was noted that the said instrument has been incorrectly classified in the prior year as a compound financial instrument with a liability component and related finance costs due to unavailability of all details and the formal agreement as at 31 March 2025. Upon obtaining and reassessing the complete share subscription agreement, the management concluded, in accordance with LKAS 32 Financial Instruments: Presentation, that the OCRPS do not impose a contractual obligation to deliver cash and may be settled by issuing a fixed number of the Company's ordinary shares (3:1) anytime during the next 20 years at the discretion of the issuer, the Company; Accordingly, the OCRPS have been concluded as equity instruments. In accordance with LKAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, the error has been corrected by retrospectively restating each affected financial statement line item for the comparative period. Under the corrected accounting treatment, no finance cost is recognised in profit or loss in respect of the OCRPS, and distributions to OCRPS holders are recognised directly in equity as dividends payable, presented through retained earnings (or accumulated losses, as applicable). The following table summarises the impacts on the Company's/Group's financial statements.

31.1 Statement Of Profit Or Loss And Other Comprehensive Income

31.1.1 This correction relates to reversal of interest expense relating to dividend accrued on OCRPS for the period reported and finance expense in the prior year. This has been reversed and recognised in the Changes in Equity Statement relating to prior year.

31.3 The comparative statement of cash flows has been restated for presentation and reconciliation purposes only. There is no impact on net cash flows, as the adjustments relate solely to the removal of non-cash finance costs and the reclassification of working capital movements, and no OCRPS dividends were paid during the period.

For the year ended 31st March 2026,

34. Financial risk management

34.1 Overview

The Company/Group has exposure to the following risks from its use of financial instruments:

1. Credit risk
2. Liquidity risk
3. Market risk
4. Operational risk.

34.2 Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company/Group's risk management framework. The Board is responsible for developing and monitoring the Group's risk management policies.

For the year ended 31st March,

34. Financial risk management (Cont.)

34.2 Risk management framework (Cont.)

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

34.3 Credit risk

Credit risk is the risk of financial loss to the Group, if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from Group's receivable from customers and other investments.

Trade receivables and contract assets

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk of the industry and country in which customers operate, as these factors may have an influence on credit risk, particularly in the currently deteriorating economic circumstances. However, geographically there is no concentration of credit risk.

The Management Committee has established a credit policy under which each new customer is analyze individual for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, when available, and in some cases bank references. Purchase limits are established for each customer, which represents the maximum open amount without requiring approval from the Management Committee; these limits are reviewed quarterly. Customers that fail to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment basis.

Cash and cash equivalents

The Group held cash and equivalents in the form of cash at bank and cash in hand. Hence the Group is exposed to risk that such counterparties fail meet to the contractual obligation.

The Group minimize the credit risk by monitoring the creditworthiness of the counterparty periodically.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was;

As at 31st March,	Company		Group	
	2026	2025	2026	2025
	Rs.	Rs.	Rs.	Rs.
Other receivables (Note 20)	16,706,792	13,684,742	16,706,792	13,684,742

	223,160,906	**250,250,108**	**223,619,235**	**250,727,349**

34.4 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group uses standard costing to cost its services, which assists it in monitoring cash flow requirements and optimizing its cash return on investments.Typically the Group ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

Management of liquidity risk

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group's policy is to hold cash and undrawn overdraft facilities at a level sufficient to ensure that the Group has available funds to meet its liabilities.

Liquidity reserves

As part of the management of liquidity risk arising from financial liabilities, the Group holds liquid assets comprising of mainly cash and cash equivalents which can be readily sold to meet liquidity requirements

KPMG Chartered Accountants

For the year ended 31st March,

34. Financial risk management (Cont.)

34.5 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

34.5.1 Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates . As protection against exchange rate fluctuations, the Group backs its commitments in local currency. The Group has minimised invested or borrowed in foreign currencies. The Group does not use any derivative financial instruments to hedge the risk. The currency risk attached to financial instruments is minimal as it represents local currency.

34.5.2 Exposure to currency risk

The following significant exchange rates were applied during the year:

	Average rate		Reporting date spot rate	
As at 31 March,	2026	2025	2026	2025
	Rs.	Rs.	Rs.	Rs.
USD	305.23	297.76	315.19	296.35
EURO	354.45	319.26	361.74	319.86
INR	3.44	3.52	3.32	3.46

34.5.3 Interest rate risk

Interest rate risk is the risk to the Group's earnings and economic value of equity ("EVE") arising from adverse movements in interest rates.

34.6 Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Group's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Group's operations.

- Requirements for appropriate segregation of duties, including the independent authorization of transactions
- Requirements for the reconciliation and monitoring of transactions
- Compliance with regulatory and other legal requirements.
- Documentation of controls and procedures
- Requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified requirements for the reporting of operational losses and proposed remedial action.
- Development of contingency plans
- Training and professional development
- Ethical and business standards
- Risk mitigation, including insurance when this is effective.

Compliance with Group standards is supported by a programme of periodic reviews undertaken by Internal Audit. The results of Internal Audit reviews are discussed with the management of the business unit to which they relate, with summaries submitted to the Board of Directors and senior management of the Group.

35. Events occurring after the reporting date

There were no material events occurring after the reporting date that require adjustments to or disclosure in the Financial Statements except for the following;

Subsequent to the reporting date, the Company continued the process relating to the proposed conversion of a portion of the inter-Company loan due to Thomas Cook (India) Limited (Parent) into Optionally Convertible Cumulative Redeemable Preference Shares (OCCRPS). The outstanding inter-company loan balance subject to the proposed conversion amounts to USD 972,491 (equivalent to Rs. 306,520,314/-) as at 31 March 2026, of which USD 415,000 was approved by the Board of Directors through a Board Resolution dated 22 March 2024, while the conversion of the remaining USD 557,491 was approved through a resolution dated 20 March 2026. However, as at the date of approval of these Financial Statements, the proposed conversion has not been completed as the relevant agreements have not been executed and the required approval from the Central Bank of Sri Lanka has not been obtained. Accordingly, the inter-company loan continues to be recognised as a liability of the Company as at 31 March 2026, and the proposed conversion remains subject to the completion of the necessary contractual arrangements and regulatory approvals.

36. Capital commitments

As disclosed in Note 17.1, the Group/Company have been pledged fixed deposits for the purpose of obtaining banking facilities, comprising of Overdraft facility and other pecuniary Aid, Assistance.

There were no contract for capital expenditure of material amounts approved or contracted for as at the reporting date.

KPMG ★ Chartered Accountants ★

For the year ended 31st March,

37. Contingent liabilities

Certain tax-related balances continue to appear as outstanding on the relevant tax portal(s). Management believes that these balances do not represent obligations of the Company and are expected to be resolved through reconciliation and system-level adjustments by the tax authorities. 37.1 Value Added Tax (VAT) on Financial Service

The following tax assessments are outstanding, against which the Company duly appealed to Commissior General of Inland Revenue;
A).VAT on Financial Services for the year of assessment 2017/18 amounting to Rs.4,823,182.01 on Assessment No.7501718001.
B).VAT on Financial Services for the year of assessment 2018/19 amounting to Rs.494,577.53 on Assessment No.7501819001.
C).VAT on Financial Services for the year of assessment 2018/19 amounting to Rs.1,242,692.69 on Assessment No.7501819002.
D).VAT on Financial Services for the year of assessment 2019/20 amounting to Rs.193,287.79 on Assessment No.7501920001.
E).VAT on Financial Services for the year of assessment 2023/24 amounting to Rs.1,301,346.84 on Assessment No.7502324001.

37.2 Withholding Tax (WHT)/Advance Income Tax (AIT)

The following tax assessments are outstanding, against which the Company duly appealed to Commissior General of Inland Revenue;
A).Withholding Tax for the year of assessment 2023/24 amounting to Rs.3,302,136.58 on Assessment No.4202324001.

37.3 PAYE/Advance Personal Income Tax (APIT)

The following tax assessments are outstanding, against which the Company duly appealed to Commissior General of Inland Revenue;
A).PAYE Tax for the year of assessment 2016/17 amounting to Rs.53,161.22 on Assessment No.0301617001.
B).PAYE Tax for the year of assessment 2023/24 amounting to Rs.3,454.94 on Assessment No.0302324001.

37.4 Corporate Income Tax (CIT)

The following tax assessments are outstanding, against which the Company duly appealed to Commissior General of Inland Revenue;
A).Corporate Income Tax for the year of assessment 2015/16 amounting to Rs.2,717,449.86 on Assessment No.0301617001.
B).Corporate Income Tax for the year of assessment 2016/17 amounting to Rs.1,758,358.03 on Assessment No.0201617001.
C).Corporate Income Tax for the year of assessment 2018/19 amounting to Rs.4,878,547.37 on Assessment No.0201819001.

38. Litigation and claim

There were no pending litigation or claims as at the reporting date.

39. Directors Assessment on Going Concern

The Group and Company have incurred a net loss of Rs.175,824,746/- and Rs.193,373,346/- respectively for the year ended 31 March 2026 (2025 - Group's restated net loss - Rs.114,093,661/-, Company's restated net loss - Rs.96,866,208/-), and as of that date the Group's and Company's accumulated loss was Rs.612,668,716/- and Rs.536,841,099/- (2025 Group restated- Rs.429,828,530/-, Company restated- Rs.336,452,312/-). Further, as at 31 March 2026, Group's and Company's current liabilities exceeded its current assets by Rs.112,393,110/- and 36,565,493/- (2025 Group restated- Rs.85,311,531/-) and Group's and Company's total liabilities exceeded its total assets by Rs.454,988,936/- and Rs.379,161,319/-, resulting a negative equity position. The Company is also facing a serious loss of capital situation.

Notwithstanding this, the financial statements have been prepared on a going concern basis due to reliance on letter of support, dated 20 July 2026 provided by the Directors of the parent Company, Thomas Cook India Limited. Through this letter of support parent company confirms that they will be providing the financial support and assistance as may be required to ensure that the Group/Company can meet its obligations as and when they fall due and payable for a period of at least 12 months from the date of signing these financial statements. Further, the Thomas Cook India Limited has acknowledged that there are no current plans for payables to be called for a minimum period of 12 months from the date of signing the 31 March 2026 financial statements, however, should they be called within the 12 months period referred to above, payments will be only be required to the extent that they do not impact the Company's ability to meet its financial obligations as and when they fall due and payable.

Further, Thomas Cook India Limited has confirmed its commitment to support the Company financially and is in the process of strengthening the capital structure in order to support the business operations and reduce the interest burden through signed management assessment on going concern dated 20 July 2026.

Accordingly, the Board of Directors has a reasonable confidence level that the Group and Company have adequate resources to continue in operation for at least the next 12 months and that the going concern basis of accounting remains appropriate.

40. Directors responsibility for financial statements

The Board of Directors is responsible for the preparation and presentation of these Financial Statements in accordance with Sri Lanka Accounting Standards laid down by the Institute of Chartered Accountants of Sri Lanka and the Companies Act No. 7 of 2007.

Auditor’s Report on Separate Financial Statements

Digiphoto SAE
For the year ended 31 December 2025

Report on the Financial Statements

We have audited the accompanying financial statements of Digiphoto SAE (‘the Company’), represented in statement of financial position as of 2025 , and the related statements of profit or loss, comprehensive income, cash flow and the changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management’s Responsibility for the Financial Statement

The financial statements are the responsibility of the Company's Management, as Management is responsible for the preparation and fair presentation of the financial statements in accordance with Egyptian Accounting Standards and applicable Egyptian laws. Management responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. This responsibility also includes selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Egyptian Standards on Auditing and applicable Egyptian laws. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance that the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's professional judgment, include the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making these risk assessments, the auditor consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on these financial statements.

Opinion

In our opinion the financial statements refereed to above, give true and fair view, in all material respects, of the separate financial position of Digiphoto SAE as of 2025, and its financial performance and its cash flow for the period from 1 January 2025 till 31 December 2025 in accordance with Egyptian Accounting Standards and the related applicable Egyptian laws and regulations.

Report on other Legal and Regulatory Requirements

The company maintains proper accounting records that comply with the laws and the Company's articles of association and the financial statements agree with the Company's records.

The financial information included in the Management Report, prepared in accordance with Law No. 159 of 2981 and its executive regulation, is in agreement with the books of the Company insofar as such information recorded therein._

Notes to the Separate Financial Statements

Digiphoto SAE
For the year ended 31 December 2025

1. Introduction

Digiphoto Company (S.A.E) (the company) is an Egyptian joint stock company incorporated on 20 July 2016 under the provisions of companies' law No. 159 for the year 1981. The company was registered in the commercial register under registration No. 95340 on 20 JULY 2016.

The purpose of the company is photography, general trading and distribution. The Company may have interest or participate by any means with corporates and others, which practice business simitar to its business or which may assist it to achieve its purpose ln Egypt or abroad, as it may merge in the aforementioned bodies or acquire it and this is according to provisions of law and its executive regulation.

The company registered office is at 18 El Obour Buildings, Salah Salem Street. Nasr City, Cairo, Egypt

The company's parent is UAE company DEI HOLDINGS LIMITED.

2. Accounting Policies

The following is a summary of the most significant accounting policies applied in the preparation of these separate financial statements:

2-1 BASIS OF PREPARATION

The separate financial statements of the company are prepared in accordance with Egyptian Accounting Standards (“EAS”) and the related applicable laws and regulations.

The financial statement shave been prepared in Egyptian pounds (LE), which is the Company’s functional and presentation currency.

The financial statement shave been prepared under the going concern assumption on a historical cost basis.

2-2 SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of these financial statements requires management to make judgments and estimates that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities at the reporting date. Uncertainty about these assumption sand estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

Estimate sand their underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised.

The key judgement and estimates that have significant impact on the financial statement of the Company are discussed below:

Judgement

The general personal judgments for implementation of the company accounting policies:

In general the application of the company's accounting policies does not require from management the use of personal judgment (except relating to significant accounting estimate and judgments described below which might have a major impact on the value recognized at the financial statement).

Estimations

Estimates and adjustments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. The estimates and assumptions that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below:

Taxes

The Company is subject to income taxes in Egypt. Significant judgment is required to determine the total provision for current and deferred taxes. The Company established provisions,based on reasonable estimates, for possible consequences of audits by the tax authorities in Egypt. The amount of such provision is based on various factors,such as experience of previous tax audits and differing interpretations of tax regulations by the Company and the responsible tax authority. Such differences of interpretations may arise on a wide variety of issues depending on the conditions prevailing in Egypt.

2-3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Foreign currencies

Transactions in foreign currencies rerecorded at the rate prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated using the exchange rate prevailing at the balance sheet date. All differences are recognized in the statement of income.

Non monetary items that are measured at historical cost in foreign currency are translated using the exchange rates prevailing at the dates of the initial recognition.

Non monetary items measured at fair value in a foreign currency are translated using the exchange rates prevailing at the date when the fair values determined.

Accounts receivable and other debit balances

Accounts receivable and other debit balances are stated at original invoice amount less any impairment losses.

Provision for impairment of trade receivables is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of receivables.Impairment losses are measured as the difference between the receivables carrying amount and the present value of estimated future cash flows.

Suppliers and accrued expenses

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

Trade parables are generally carried at the value of goods or services received from others, whether invoiced or not. Trade parables are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

Trades payable are recognized initially at fair value, and subsequently measured at amortized cost using the effective interest method, where material.

Expenses

All expenses including operating expenses,general and administrative expenses and other expenses are recognized and charged to the statement of income in the financial year in which these expenses were incurred.

Related party transactions

Related parties represent in parent company ,associated companies, major shareholders, directors and key management personnel of the Company, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the boards of directors.

Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash in hand, bank balances, and short-term deposits with an original maturity of three months less bank overdrafts.

Statement of cash flows

The statement of cash flows is prepared using the indirect method.

FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurements based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets traded in an active market, fair value is determined by reference to quoted market bid prices.

The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics.

For unquoted assets, fair value is determined by reference to the market value of similar asset or is based on the expected discounted cash flows.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservant inputs.

All assets and liabilities for which fair values measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

· Level 1 – Fair value measurements are those derived from quoted prices in an active market (that are adjusted) for identical assets or liabilities.

· Level 2 – Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e.derived from prices).

· Level 3 – Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that aren't based on observable market data (unobservant inputs).

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3. Capital

The Company's authorized capital amounts LE 2,500,000, the issued capital is LE 250,000, shares are divided over 2,500 of par value LE 100 each while the Company's paid up capital amounts LE 62,500 as follows:

Shareholder	No. shares	Participation %	Issued Capital LE	Paid up Capital LE
RAMAKRISHNAN KALAPATHY SHANKAR	25	1%	2,500	625
SANGHAMITRA RAMAKRISHNAN KALPATHY	25	1%	2,500	625
DEI HOLDINGS LIMITED	2,450	98%	245,000	61,250
Total	2,500	100%	250,000	62,500

4. Fair Values of Financial Instruments

Financial instruments comprise financial assets and financial liabilities.

Financial assets of the company include bank balances and cash, trade receivables, prepayments and due from related parties.Financial liabilities of the company include trade and accrued expenses, due to related parties and tax liability.

The fair values of the financial assets and liabilities are not materially different from their carrying value unless stated otherwise.

5. Related Parties

Forthe purpose of these financial statements, parties are considered to be relatedto the Company, if the Company has the ability, directly or indirectly, tocontrol the party or exercise significant influence over the party in makingfinancial and operating decisions, or vice versa, or where the Company and theparty are subject to common control. Related parties may be individuals orother entities.

Transactions with related parties represent transactions with theultimate shareholders and their associates and subsidiaries.

Year end balances arising from transactions with related partiesare summarized below :

6. Tax Position

Due to the nature of the procedures for estimating tax liabilities in the Arab Republic of Egypt, the final results of this estimate by the tax authority may not be realistic. Therefore, there may be additional contingent liabilities arising from the tax assessment of the Company's tax payable. The following is a summary of the tax position of the Company as of date.

Corporate income tax
The Company submitted its tax return on regular basis since inception till date according to the tax law no. 91/2005. The Company's books currently under inspection.

Payroll tax
The company deducted the salaries tax according to tax law no. 91/2005 and the Company's books has been inspected since company establishment till 2022 and the company paid the original tax differences due.

Value Added Tax

The Company submit VAT returns on regular basis since inception till date. The Company's books have not been inspected yet.

Withholding tax
The Company applies the withholding tax provision on its transaction with private sector according to tax law no. 91/2005 and the Company's books have not been inspected yet.

Stamp Tax
The Company books has been inspected since company establishment till December 2021 and the company paid the original tax differences due.

INDEPENDENT AUDITOR'S REPORT

TO THE MANAGEMENT OF
DIGIPHOTO IMAGING (MACAU) LIMITED
(Incorporated in Macau with limited liability)

I have audited the financial statements of the Digiphoto Imaging (Macau) Limited (the "Company") set out on pages 3 to 16, which comprise the statement of financial position as at 31 December 2025, and the statement of profit or loss and other comprehensive income, the statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's responsibility for the financial statements

The management of the Company is responsible for the preparation and the true and fair presentation of these financial statements in accordance with Financial Reporting Standards issued by the Government of Macau Special Administrative Region. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and the true and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; making accounting estimates that are reasonable in the circumstances; and maintaining proper and accurate accounting records.

Auditor's responsibility

My responsibility is to express an opinion on these financial statements based on my audit and to report my opinion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. I do not assume responsibility towards or accept liability to any other person for the contents of this report. I conducted my audit in accordance with the General Auditing Standards issued by the Government of Macau Special Administrative Region. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and the true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

The address of its registered office is Calcada de Santo Agostinho, no.19, 7 andar, Macau. The principal activities of the Company are provision of services of souvenir photography and sales of photos and products related with photography.

The Company's immediate holding company is DEI Holdings Limited, a company incorporated in United Arab Emirates. The Directors consider Fairfax Financial Holdings Limited, a company incorporated in Canada, to be the Company's ultimate holding company.

2. BASIS OF PREPARATION

The financial statements of the Company are prepared in accordance with the financial reporting standards of Macau SAR, pursuant to the Dispatch No. 44/2020 of Secretary of Economy and Finance of Macau SAR. These financial statements are prepared solely to report to the shareholders as a whole. These financial statements have been prepared under the historical cost convention, except for certain financial instruments that are measured at fair values.

As at 31 December 2025, the Company's current liabilities exceeded its total assets by approximately MOP13,420,000. In the opinion of the Directors, as the Company's immediate holding company has agreed to provide adequate funds for the Company to meet its liabilities as and when they fall due, accordingly these financial statements have been prepared on the going concern basis.

Pursuant to the Announcement No. 2/2024/CPC, Professional Committee of Accountants of Macau SAR has issued the new Accounting Standards of Macau SAR. The new Accounting Standards which include a new set of financial reporting standards will be effective for early adoption for accounting periods beginning on or after 1 January 2026, and the mandatory effective date will be on or after 1 January 2028. The Company has not early applied the new financial reporting standards for the financial statements, and is in the process of making an assessment of the impact of these new financial reporting standards upon initial application which would affect the presentation, disclosure and measurement of the financial statements of the Company.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Company and when the revenue can be measured reliably, on the following bases:

i) Revenue in respect of services and goods sold is recognised in the period in which the souvenir photography services are rendered;
ii) Interest income is recognised on a time proportion basis, taking into account the principal amounts outstanding and the interest rate applicable.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Plant and equipment

Plant and equipment are stated at cost less accumulated depreciation and impairment losses. Depreciation of plant and equipment is calculated using straight-line method to write off cost to their residual values over their estimated useful lives as follows:

Computer equipment	3 - 5 years
Furniture and fixtures	3 - 5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each financial year end.

Gains or losses arising from disposal or retirement are determined as the difference between the net sales proceeds and the carrying amounts of the assets and are recognised in profit or loss on the date of the assets' disposal or retirement.

Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If such indication exists, the Company makes an estimate of the asset's recoverable amount.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the assets. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

An impairment loss is recognised in profit or loss whenever the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. The impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A reversal of the impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. The reversal of the impairment loss is credited to profit or loss in the year in which it arises.

Inventories

Inventories of materials and consumables are stated at the lower of cost and net realisable value, and are expensed when consumed in operations. Cost is determined on a weighted average basis.

Provisions and contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount has been reliably measured.

Where it is not probable that outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligations are disclosed as contingent liabilities, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxation

Taxation represents current income tax expense. Income tax payable represents the anticipated amount payable to the tax authorities, using the tax rates that have been substantively enacted by the statement of financial position.

Deferred tax is provided using the liability method on temporary differences at the date of statement of financial position arising between the tax bases of assets and liabilities and their carrying amounts for the financial reporting purposes. Deferred tax liabilities are provided in full while deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Cash and cash equivalents

Cash and cash equivalents include cash on hand and deposits held at call with banks. For the purpose of the statement of cash flows, cash and cash equivalents include cash in hand, and other short term highly liquid investments with original maturities of three months or less when acquired.

Employee benefit

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees.

The Company made contributions to the social security fund in accordance with the provisions of Macau Law No. 4/2010 "Social Security System", which are recognised in the profit or loss when incurred.

Foreign currency translation

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of profit or loss and other comprehensive income.

4. CRITICAL ACCOUNTING JUDGEMENT AND ESTIMATES

The preparation of the financial statements requires the management to make judgments, estimates and assumptions that affect the carrying amounts of revenues, expenses, assets and liabilities and their disclosures, as well as the disclosure of contingent liabilities at the date of the statement of financial position. However, the consequences of uncertainties in these assumptions and estimates could result in material adjustments which affected carrying amounts of assets or liabilities in the future.

4. CRITICAL ACCOUNTING JUDGEMENT AND ESTIMATES (continued)

Estimation uncertainty

The following are key assumptions at the date of the statement of financial position and other key sources of estimation uncertainty, which may result in material adjustments regarding the amount of assets and liabilities in further accounting periods.

Useful lives of plant and equipment
Plant and equipment are depreciated on a straight-line basis over their expected useful lives, taking into account of their residual values. Management regularly reviews the expected useful lives of assets to determine the amount of depreciation to be recognised in each reporting period. The expected useful life is determined by the company based on the past experience of similar assets with expected changes in technology. Any changes in the expected useful lives would affect profit or loss in future years.

5. REVENUE

The revenue represents the gross service income for the provision of services of souvenir photography and sales of photos and products related with photography during the year.

6. DIRECT OPERATING EXPENSES

	2025 MOP	2024 MOP
Cost of materials and consumables	2,604,763	3,058,224
Direct and outsourced labour costs	8,019,969	6,481,794
Other direct expenses	112,068	78,972
	10,736,800	9,618,990

7. LOSS BEFORE TAX

Loss before tax is arrived at after charging / (crediting):

	2025 MOP	2024 MOP
Depreciation	104,974	96,133
Written off of amount due to a related company	(74,733)	-
Exchange difference, net	746,731	(242,874)

8. TAXATION

(a) No Macau complementary tax has been provided as the Company did not generate any assessable profit attributable to its operations during the year (2024: Nil). Taxation in the statement of profit or loss and other comprehensive income represents:

	2025 MOP	2024 MOP
Macau complementary tax		
- Provision for current year	-	-
Deferred tax		
- Origination and reversal of temporary differences	(482,295)	-
	(482,295)	-

(b) Reconciliation between tax credits and accounting loss in the financial statements is as follows:

	2025 MOP	2024 MOP
Loss before tax	(3,763,009)	(565,337)
Tax at the applicable tax rate of 12% (2024: 12%)	(451,561)	(67,840)
Effect of non-taxable income	-	(52,042)
Effect of non-taxable expenses	88,066	-
Effect of deductible temporary differences not previously recognised for deferred tax purposes	557	526
Effect of tax losses not recognised	362,938	119,356
Origination of deferred tax assets resulting from unused tax losses	(482,295)	-
Tax credits for the year	(482,295)	-

(c) The components of deferred tax assets and liabilities recognised in the statement of financial position and the movement during the year are as follows:

	Tax losses MOP
At 1 January 2025	-
Credited to profit or loss	(482,295)
At 31 December 2025	(482,295)

9. PLANT AND EQUIPMENT

	Computer equipment MOP	Furniture and fixtures MOP	Total MOP
Cost			
At 1 January 2024	1,279,930	526,684	1,806,614
Additions	376,727	34,600	411,327
At 31 December 2024	1,656,657	561,284	2,217,941
Additions	178,049	179,225	357,274
At 31 December 2025	1,834,706	740,509	2,575,215
Accumulated depreciation			
At 1 January 2024	1,252,556	505,077	1,757,633
Charge for the year	72,679	23,454	96,133
At 31 December 2024	1,325,235	528,531	1,853,766
Charge for the year	88,914	16,060	104,974
At 31 December 2025	1,414,149	544,591	1,958,740
Net book value			
At 31 December 2025	420,557	195,918	616,475
At 31 December 2024	331,422	32,753	364,175

10. AMOUNT DUE FROM IMMEDIATE HOLDING COMPANY

The amount due from immediate holding company is unsecured, interest free and has no fixed terms of repayment.

11. AMOUNTS DUE FROM / (TO) FELLOW SUBSIDIARIES

The amounts due from / (to) fellow subsidiaries are unsecured, interest free and have no fixed terms of repayment.

12. INVENTORIES

	2025 MOP	2024 MOP
Materials and consumables, at cost	912,368	719,504

13. SHARE CAPITAL

	2025 MOP	2024 MOP
Registered quota share capital Two quota shares of MOP12,500 each	25,000	25,000

14. LEGAL RESERVE

In accordance with the provisions of Macau Commercial Code, the Company is required to transfer a minimum of 25% of its annual net profit to a legal reserve until the balance of such reserve equals 50% of the registered share capital. This reserve is not distributable in form of dividends or otherwise to the shareholders of the Company.

15. RETIREMENT BENEFITS SCHEMES

Employees of the Company in Macau SAR are members of government-managed social benefits schemes operated by the Macau SAR government. The Company is required to pay a monthly fixed contribution to the social benefits schemes to fund the benefits. The only obligation of the Company with respect to the social benefits schemes operated by the Macau SAR government is to make the required contributions under the schemes.

16. CAPITAL RISK MANAGEMENT

The Company manages its capital to ensure that the entity will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance.

The capital structure of the Company consists of cash at banks and cash in hand and equity attributable to owners of the Company, comprising share capital and reserves as disclosed in these financial statements. The Company's overall strategy remains unchanged from the prior year.

The Company's operation is mainly financed by the fellow subsidiaries. In this connection, the immediate holding company of the Company has agreed to provide adequate fund through fellow subsidiaries to enable the Company to meet in full its financial obligations as and when they fall due in the foreseeable future and not to demand for repayment of the balances due from the Company until it is in a financial position to do so.

The management of the Company reviews the capital structure regularly. The Company considers the cost of capital and the risks associated with each class of capital, and will balance its overall capital structure.

17. FINANCIAL INSTRUMENTS

Financial risk management objectives

Financial instruments are fundamental to the Company's daily operations. The risks associated with financial instruments and the policies on how to mitigate these risks are set out below. Details of these financial instruments are disclosed in the respective notes. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Categories of financial instruments

	2025 MOP	2024 MOP
Financial assets		
- Amortised cost / loans and receivables (including cash and cash equivalents)	3,630,976	3,339,568
Financial liabilities		
Amortised costs	19,165,568	14,670,529

Currency risk

Most of the revenue and expenses of the Company are recognised in their respective functional currencies. The Company is exposed to foreign exchange risk from net monetary assets and liabilities that are denominated in a currency that is not the Company's functional currency. Those risk-related currencies are Hong Kong Dollars ("HKD"). As the exchange rate of MOP is stable as well as HKD, the Company expects there will not be any significant currency risk regarding the movement of exchange rate of those currencies. Therefore, the management considers the risk of movements in exchange rates between MOP and HKD to be insignificant.

The Company currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arises.

Interest rate risk

Bank balances at floating interest rate are exposed to cash flow interest rate risk. In the opinion of the management, the Company has minimal exposure to interest rate risk.

Credit risk

The Company's maximum exposure to credit risk which will cause a financial loss to the Company due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the statement of financial position.

The credit risk of short term bank deposits and bank balances is limited because these counterparties are banks with high credit–rating assigned by international credit–rating agencies. Thus, the Company does not have significant credit risk.

17. FINANCIAL INSTRUMENTS (continued)

Liquidity risk

In the management of the liquidity risk, the Company monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance its operations and mitigate the effects of fluctuations in cash flows. The Company also considers that the Company's holding of bank balances and cash, bank deposits, together with net cash flow from operating activities and committed credit facilities, can provide adequate sources of funding to enable the Company to meet in full its financial obligations due for the foreseeable future and manage its liquidity position.

Fair value measurement of financial instruments

The management of the Company determines the appropriate valuation techniques and inputs for fair value measurements.

Some of the Company's financial assets are measured at fair value at the end of each reporting period. The level of the fair value hierarchy into which the fair value measurements are categorised (levels 1 to 3).

(a) Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities;

(b) Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

(c) Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The management considers that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the financial statements approximate their fair values at 31 December 2025 and 31 December 2024.

18. RELATED PARTY TRANSACTIONS

(a) Except as disclosed elsewhere in the financial statements, the significant related party transactions, which were carried out in the normal course of the business, are as follows:

Relationship	Nature of transactions	2025 MOP	2024 MOP
Fellow subsidiary	Service fee	4,221,961	2,461,291

(b) The directors of the Company consider that they are the only key management personnel of the Company. No directors' remuneration was paid for the financial year.

19. OPERATING LEASE COMMITMENTS

The Company leases its office under operating lease arrangement with term of one year. At 31 December 2025, the Company had total future minimum lease payments under non-cancellable operating leases falling due as follows:

	2025 MOP	2024 MOP
Within one year	-	45,309

20. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved by the Company's directors on 30 June 2026.

DIRECTORS' REPORT

The directors hereby submit their report together with the audited financial statements of the Company for the financial year ended 31 December 2025.

PRINCIPAL ACTIVITY

The principal activity of the Company is provision of customised imaging solutions to theme parks, resorts and entertainment arenas.

There have been no significant changes in this activity during the financial year.

FINANCIAL RESULTS

	RM
Profit for the financial year	717,392

DIVIDENDS

No dividends have been paid or declared by the Company since the end of the previous financial year and the directors do not recommend any dividend for the current financial year.

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the financial year.

ISSUES OF SHARES AND DEBENTURES

There were no issues of shares in or debentures of the Company during the financial year.

SHARE OPTIONS

There were no share options granted to any person to take up unissued shares in the Company during the financial year.

DIRECTORS

The directors of the Company in office at any time during the financial year and since the end of the financial year up to the date of this report are:

Kalapathy Shankar Ramakrishnan
Wong Kat Hoong

DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.
(Incorporated in Malaysia)

DIRECTORS' REPORT (CONT'D)

DIRECTORS' BENEFITS

During and at the end of the financial year, no arrangements subsisted to which the Company is a party, with the object or objects of enabling directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

Since the end of the previous financial year, no director has received or become entitled to receive any benefit by reason of a contract made by the Company or a related corporation with the director or with a firm of which the director is a member, or with a company in which the director has a substantial financial interest.

DIRECTORS' REMUNERATIONS

None of the directors or past directors of the Company have received any remunerations from the Company during the financial year.

None of the directors or past directors of the Company have received any other benefits otherwise than in cash from the Company during the financial year.

No payment has been paid to or payable to any third party in respect of the services provided to the Company by the directors or past directors of the Company during the financial year.

INDEMNITY AND INSURANCE COSTS

No indemnity was given to or insurance effected for any directors or auditors of the Company.

DIRECTORS' INTERESTS

None of the directors in office at the end of the financial year had any interest in shares in the Company or its related corporations during the financial year.

OTHER STATUTORY INFORMATION

Before the financial statements were made out, the directors took reasonable steps:

I. to ascertain that action had been taken in relation to the writing-off of bad debts and the making of provision for doubtful debts and satisfied themselves that all known bad debts had been written-off and that adequate provision had been made for doubtful debts; and

II. to ensure that any current assets which were unlikely to be realised in the ordinary course of business including the value of current assets as shown in the accounting records of the Company have been written down to an amount which the current assets might be expected so to realise.

At the date of this report, the directors are not aware of any circumstances:

DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.
(Incorporated in Malaysia)

DIRECTORS' REPORT (CONT'D)

OTHER STATUTORY INFORMATION (CONT'D)

I. which would render the amount written-off for bad debts or the amount of the provision for doubtful debts inadequate to any substantial extent; or

II. which would render the values attributed to current assets in the financial statements misleading; or

III. which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Company misleading or inappropriate; or

IV. not otherwise dealt with in this report or financial statements which would render any amount stated in the financial statements misleading.

At the date of this report, there does not exist:

I. any charge on the assets of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or

II. any contingent liability which has arisen since the end of the financial year.

No contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the directors, will or may affect the ability of the Company to meet its obligations when they fall due.

In the opinion of the directors:

I. the results of the operations of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature; and

II. there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Company for the financial year in which this report is made.

HOLDING COMPANY

The Company is a wholly-owned subsidiary of DEI Holdings Limited, a company incorporated in United Arab Emirates, which is also regarded by the directors as the holding company.

INDEPENDENT AUDITORS' REPORT TO THE MEMBER OF DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.

Registration No. 200801015899 (817189-P)

(Incorporated in Malaysia)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD., which comprise the statement of financial position as at 31 December 2025, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 11 to 36.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2025, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Private Entities Reporting Standard and the requirements of the Companies Act 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

INDEPENDENT AUDITORS' REPORT (CONT'D)
TO THE MEMBER OF DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.

Registration No. 200801015899 (817189-P)

(Incorporated in Malaysia)

Information Other than the Financial Statements and Auditors' Report Thereon

The directors of the Company are responsible for the other information. The other information comprises the Directors' Report but does not include the financial statements of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Company does not cover the Directors' Report and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Company, our responsibility is to read the Directors' Report and, in doing so, consider whether the Directors' Report is materially inconsistent with the financial statements of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the Directors' Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The directors of the Company are responsible for the preparation of financial statements of the Company that give a true and fair view in accordance with Malaysian Private Entities Reporting Standard and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Company, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements (Cont'd)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements of the Company, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2025

1. GENERAL INFORMATION

The Company is a private limited liability company, incorporated and domiciled in Malaysia.

The registered office and its principal place of business is located at Unit 10 & 10-1, Level 1, Wisma Academy, No. 4A, Jalan 19/1, 46300 Petaling Jaya, Selangor Darul Ehsan.

The principal activity of the Company is provision of customised imaging solutions to theme parks, resorts and entertainment arenas. There have been no significant changes in this activity during the financial year.

The holding company of the Company is DEI Holdings Limited, a company registered and domiciled in United Arab Emirates.

The financial statements are presented in Ringgit Malaysia (RM), which is the Company's functional currency. All financial information is presented in RM unless otherwise stated.

2. COMPLIANCE WITH FINANCIAL REPORTING STANDARDS AND THE COMPANIES ACT 2016

The financial statements of the Company have been prepared in compliance with the Malaysian Private Entities Reporting Standard ("MPERS") issued by the Malaysian Accounting Standards Board ("MASB") and the requirements of the Companies Act 2016 in Malaysia.

3. BASIS OF PREPARATION

The financial statements of the Company have been prepared on the historical cost basis except as otherwise stated in the financial statements.

Management has used estimates and assumptions in measuring the reported amounts of assets and liabilities at the end of the reporting period and the reported amounts of revenues and expenses during the reported period. Judgements and assumptions are applied in the measurement, and hence, the actual results may not coincide with the reported amounts. The areas involving significant judgements and estimation uncertainties are disclosed in Note 5 to the financial statements.

4. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted are set out below:

DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.

(Incorporated in Malaysia)

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.1 Property, Plant and Equipment

Operating tangible assets that are used for more than one accounting period in the production and supply of goods and services, for administrative purposes are recognised as property, plant and equipment when the Company obtains control of the asset. These assets are measured on the cost model. The assets, including major spares, stand-by equipment and servicing equipment, are classified into appropriate classes based on their nature. Any subsequent replacement of a significant component in an existing asset is capitalised as a new component in the asset and the old component is derecognised.

All property, plant and equipment are initially measured at cost. For a purchased asset, cost comprises purchase price plus all directly attributable costs incurred in bringing the asset to its present location and condition for management's intended use. For a self-constructed asset, cost comprises all direct and indirect costs of construction (including provision for restoration and cost of major inspection) but excludes internal profits. For an exchange of non-monetary asset that has a commercial substance, cost is measured by reference to the fair value of the asset received. For an asset transferred from a customer or a grantor, cost is measured by reference to the fair value of the asset.

All property, plant and equipment are subsequently measured at cost less accumulated depreciation and accumulated impairment losses.

All property, plant and equipment are depreciated by allocating the depreciable amount of a significant component or of an item over the remaining useful life. The depreciation is provided on straight-line method so as to write off the depreciation amount of the following assets based on the depreciation rates as follows:

	Rate
Computer and printer	20% - 33%
Furniture and fittings	20 %

At the end of each reporting period, the residual values, useful lives and depreciation methods for the property, plant and equipment are reviewed for reasonableness. Any change in estimate of an item is adjusted prospectively over its remaining useful life, commencing in the current period.

4.2 Impairment of Non-Financial Assets

An impairment loss arises when the carrying amount of a Company's asset exceeds its recoverable amount.

At the end of each reporting date, the Company assesses whether there is any indication that a stand-alone asset or a cash-generating unit may be impaired by using external and internal sources of information. If any such indication exists, the Company estimates the recoverable amount of the asset or cash-generating unit.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.2 Impairment of Non-Financial Assets (Cont'd)

If an individual asset generates independent cash inflows, it is tested for impairment as a stand-alone asset. If an asset does not generate independent cash inflows, it is tested for impairment together with other assets in a cash-generating unit, at the lowest level in which independent cash inflows are generated and monitored for internal management purposes.

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and the value in use. The Company determines the fair value less costs to sell of an asset or a cash-generating unit in a hierarchy based on: (i) price in a binding sale agreement; (ii) market price traded in an active market; and (iii) estimate of market price using the best information available. The value in use is estimated by discounting the net cash inflows (by an appropriate discount rate) of the asset or unit, using reasonable and supportable management's budgets and forecasts of five years and extrapolation of cash inflows for periods beyond the five-year forecast or budget.

For an asset measured on a cost-based model, any impairment loss is recognised in profit or loss.

For a cash-generating unit, any impairment loss is allocated to the assets of the unit pro rata based on the relative carrying amounts of the assets.

The Company reassesses the recoverable amount of an impaired asset or a cash-generating unit if there is any indication that an impairment loss recognised previously may have reversed. Any reversal of impairment loss for an asset carried at a cost-based model is recognised in profit or loss, subject to the limit that the revised carrying amount does not exceed the amount that would have been determined had no impairment loss been recognised previously.

4.3 Inventories

All inventories are measured at the lower of cost and net realisable value (which is the estimated selling price less costs to complete and sell). Cost comprises purchase price and directly attributable costs of bringing the inventories to their present location and condition. Cost is determined on the first in first out basis. Net realisable value is determined on an item-by-item basis or on group of similar items basis.

4.4 Financial Instruments

I. Initial Recognition and Measurement

The Company recognises a financial asset or a financial liability (including derivative instruments) in the statement of financial position when, and only when, an entity in the Company becomes a party to the contractual provisions of the instrument.

DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.

(Incorporated in Malaysia)

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.4 Financial Instruments (Cont'd)

I. Initial Recognition and Measurement (Cont'd)

On initial recognition, all financial assets and financial liabilities are measured at fair value, which is generally the transaction price, plus transaction costs if the financial asset or financial liability is not measured at fair value through profit or loss. For instruments measured at fair value through profit or loss, transaction costs are expensed to profit or loss when incurred.

II. Derecognition of Financial Instruments

A financial asset is derecognised when, and only when, the contractual rights to receive the cash flows from the financial asset expire, or when the Company transfers the contractual rights to receive cash flows of the financial asset, including circumstances when the Company acts only as a collecting agent of the transferee, and retains no significant risks and rewards of ownership of the financial asset or no continuing involvement in the control of the financial asset transferred.

A financial liability is derecognised when, and only when, it is legally extinguished, which is either when the obligation specified in the contract is discharged or cancelled or expires. A substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. For this purpose, the Company considers a modification as substantial if the present value of the revised cash flows of the modified terms discounted at the original effective interest rate is different by 10% or more when compared with the carrying amount of the original liability.

III. Subsequent Measurement of Financial Assets

For the purpose of subsequent measurement, the Company classifies financial assets into two categories, namely: (i) financial assets at fair value through profit or loss, and (ii) financial assets at amortised cost.

After initial recognition, the Company measures investments in preference shares, ordinary shares and derivatives that are assets at their fair values by reference to the active market prices, if observable, or otherwise by a valuation technique, without any deduction for transaction costs it may incur on sale or other disposal.

Investments in debt instruments, whether quoted or unquoted, are subsequently measured at amortised cost using the effective interest method. Investments in unquoted equity instruments and whose fair value cannot be reliably measured are measured at cost.

Other than financial assets measured at fair value through profit or loss, all other financial assets are subject to review for impairment in accordance with Note 4.4(VII).

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.4 Financial Instruments (Cont'd)

IV. Subsequent Measurement of Financial Liabilities

After initial recognition, all financial liabilities are measured at amortised cost using the effective interest method.

V. Fair Value Measurement of Financial Instruments

The fair value of a financial asset or a financial liability is determined by reference to the quoted market price in an active market, and in the absence of an observable market price, by a valuation technique using reasonable and supportable assumptions.

VI. Recognition of Gains and Losses

Fair value changes of financial assets and financial liabilities classified as at fair value through profit or loss are recognised in profit or loss when they arise.

For financial assets and financial liabilities carried at amortised cost, a gain or loss is recognised in profit or loss only when the financial asset or financial liability is derecognised or impaired, and through the amortisation process of the instrument.

VII. Impairment and Uncollectibility of Financial Assets

At the end of each reporting period, the Company examines whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Evidences of trigger loss events include: (i) significant difficulty of the issuer or obligor; (ii) a breach of contract, such as a default or delinquency in interest or principal payment; (iii) granting exceptional concession to a customer, (iv) it is probable that a customer will enter bankruptcy or other financial reorganisation, (v) the disappearance of an active market for that financial asset because of financial difficulties; or (vi) any observable market data indicating that there may be a measurable decrease in the estimated future cash flows from a group of financial assets.

For a non-current loan and receivable carried at amortised cost, the revised estimated cash flows are discounted at the original effective interest rate. Any impairment loss is recognised in profit or loss and a corresponding amount is recorded in an allowance account. Any subsequent reversal of impairment loss of the financial asset is reversed in profit or loss with a corresponding adjustment to the allowance account, subject to the limit that the reversal should not result in the revised carrying amount of the financial asset exceeding the amount that would have been determined had no impairment loss been recognised previously.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.4 Financial Instruments (Cont'd)

VII. Impairment and Uncollectibility of Financial Assets (Cont'd)

For short-term trade and other receivables, where the effect of discounting is immaterial, impairment loss is tested for each individually significant receivable wherever there is any indication of impairment. Individually significant receivables for which no impairment loss is recognised are grouped together with all other receivables by classes based on credit risk characteristics and aged according to their past due periods. A collective allowance is estimated for a class group based on the Company's experience of loss ratio in each class, taking into consideration current market conditions.

For an unquoted equity investment measured at cost less impairment, the impairment is the difference between the asset's carrying amount and the best estimate (which will necessarily be an approximation) of the amount (which might be zero) that the Company expects to receive for the asset if it were sold at the reporting date. The Company may estimate the recoverable amount using an adjusted net asset value approach.

4.5 Share Capital and Distributions

I. Share Capital

Ordinary shares issued that carry no put option and no mandatory contractual obligation: (i) to deliver cash or another financial asset; or (ii) to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company, are classified as equity instruments.

When ordinary shares and other equity instruments are issued in private placement or in a rights issue to existing shareholder, they are recorded at the issue price. For ordinary shares and other equity instruments issued in exchange for non-monetary assets, they are measured by reference to the fair values of the assets received.

When ordinary shares and other equity instruments are issued as consideration transferred in a business combination or as settlement of an existing financial liability, they are measured at fair value at the date of the exchange transaction.

Transaction costs of an equity transaction are accounted for as a deduction from equity, net of any related income tax effect.

II. Distributions

Distributions to holders of an equity instrument are debited directly in equity, net of any related income tax effect.

DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.

(Incorporated in Malaysia)

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.5 Share Capital and Distributions (Cont'd)

II. Distributions (Cont'd)

A dividend declared is recognised as a liability only after it has been appropriately authorised, which is the date when the Board of Directors declares an interim dividend, or in the case of a proposed final dividend, the date the shareholder of the Company approve the proposed final dividend in an annual general meeting of shareholder. For a distribution of non-cash assets to owners, the Company measures the dividend payable at the fair value of the assets to be distributed.

4.6 Provisions

The Company recognises a liability as a provision if the outflows required to settle the liability are uncertain in timing or amount.

A provision for warranty costs, restoration costs, restructuring costs, onerous contracts or lawsuit claims is recognised when the Company has a present legal or constructive obligation as a result of a past event, and of which the outflows of resources on settlement are probable and a reliable estimate of the amount can be made. No provision is recognised if these conditions are not met.

Any reimbursement attributable to a recognised provision from a counter-party (such as an insurer) is not off-set against the provision but recognised separately as an asset when, and only when, the reimbursement is virtually certain.

A provision is measured at the best estimate of the expenditure required to settle the present obligation at the end of the reporting period. For a warranty provision, a probability-weighted expected outcome of the resources required to settle the obligation is applied, taking into account the Company's experience of similar transactions and supplemented with current facts and circumstances. For a restoration provision, where a single obligation is being measured, the Company uses the individual most likely outcome as the best estimate of the liability by reference to current prices that contractors would charge to undertake such obligations, and taking into account likely future events that may affect the amount required to settle an obligation. For an onerous contract, a provision is measured based on the amount by which costs to fulfil the contract exceed the benefits. For a lawsuit provision, a probability-weighted expected outcome is applied in the measurement, taking into account past court judgements made in similar cases and advice of legal experts.

A provision is measured at the present value of the expenditures expected to be required to settle the obligation using a discount rate that reflects the time value of money and the risk that the actual outcome might differ from the estimate made. The unwinding of the discount is recognised as an interest expense.

DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.

(Incorporated in Malaysia)

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.7 Income Recognition

The Company measures revenue from sale of goods or service transactions at the fair value of the consideration received or receivable, which is usually the invoice price, net of any trade discounts and volume rebates given to the customer.

I. Revenue from a sale of goods is recognised when:
(a) the Company has transferred to the buyer the significant risks and rewards of the ownership of the goods;
(b) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control the goods sold;
(c) the amount of revenue can be measured reliably;
(d) it is probable that the economic benefits associated with the transaction will flow to the Company; and
(e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

II. Revenue from a service transaction is recognised upon performance of services and customer acceptance, when
(a) the amount of the revenue can be measured reliably;
(b) it is probable the economics benefits associated with the transaction will flow to the Company; and
(c) the costs incurred or to be incurred in respect of the transaction can be measured reliably

Other income items of the Company are recognised using the following bases:

I. Interest income from a debt instrument is recognised using the effective interest method.

4.8 Employment Benefits

The Company recognises a liability when an employee has provided service in exchange for employee benefits to be paid in the future and an expense when the Company consumes the economic benefits, arising from service provided by an employee in exchange for employee benefits.

I. Short-Term Employee Benefits

Wages and salaries are usually accrued and paid on a monthly basis and are recognised as expenses, unless they relate to cost of producing inventories or other assets.

Paid absences (annual leave, maternity leave, paternity leave, sick leave etc.) are accrued in each period if they are accumulating paid absences that can be carried forward, or in the case of non-accumulating paid absences, recognised as and when the absences occur.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.8 Employment Benefits (Cont'd)

I. Short-Term Employee Benefits (Cont'd)

Profit sharing and bonus payments are recognised when, and only when, the Company has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made.

II. Post-Employment Benefits - Defined Contribution Plans

The Company makes statutory contributions to approved provident funds and the contributions made are charged to profit or loss in the period to which they relate. When the contributions have been paid, the Company has no further payment obligations.

4.9 Cash and Cash Equivalents

Cash and cash equivalents consist of cash and bank balances.

4.10 Tax Assets and Tax Liabilities

A current tax for current and prior periods, to the extent unpaid, is recognised as a current tax liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as a current tax asset. A current tax liability (asset) is measured at the amount the entity expects to pay (recover) using tax rates and laws that have been enacted or substantially enacted by the reporting date.

A deferred tax liability is recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from: (a) the initial recognition of goodwill; or (b) the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit (or tax loss). The exceptions for initial recognition differences include items of property, plant and equipment that do not qualify for capital allowances and acquired intangible assets that are not deductible for tax purposes.

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affect neither accounting profit nor tax taxable profit (or tax loss). The exceptions for the initial recognition differences include non-taxable government grants received and reinvestment allowances and investment tax allowances on qualifying property, plant and equipment.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.10 Tax Assets and Tax Liabilities (Cont'd)

A deferred tax asset is recognised for the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised. Unused tax credits do not include unabsorbed reinvestment allowances and unabsorbed investment tax allowances because the Company treats these as part of initial recognition differences.

Deferred taxes are measured using tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred taxes reflect the tax consequences that would follow from the manner in which an entity in the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets or liabilities. For an investment property measured at fair value, the Company does not have a business model to hold the property solely for rental income, and hence, the deferred liability on the fair value gain is measured based on the presumption that the property is recovered through sale at the end of the reporting period.

At the end of each reporting period, the carrying amount of a deferred tax asset is reviewed, and is reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax to be utilised. Any such reduction will be reversed to the extent that it becomes probable that sufficient taxable profit will be available.

A current or deferred tax is recognised as income or expense in profit or loss for the period. For items recognised directly in equity, the related tax effect is also recognised directly in equity.

4.11 Finance and Operating Lease

The Company recognises a lease whenever there is an agreement, whether explicitly stated as a lease or otherwise, whereby the lessor conveys to the lessee in return for a payment or series of payments the right to use an asset for an agreed period of time. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. Title may or may not eventually be transferred. All other leases that do not meet this criterion are classified as operating leases.

If an entity in the Company is a lessee, it capitalises the underlying asset and the related lease liability in a finance lease. The amount recognised at the commencement date is the fair value of the underlying leased asset or, if lower, the present value of the minimum lease payments, each determined at the inception of the lease. The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease, if this is practicable to determine; if not, the lessee's incremental borrowing rate is used. Any initial direct costs of the lease are added to the amount recognised as an asset.

4. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

4.11 Finance and Operating Lease (Cont'd)

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Capitalised leased assets are classified by nature and accounted for in accordance with applicable Standard in MPERS. If there is no reasonable certainty that the lessee will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the lease term and its useful life.

For operating lease, a lessee in the Company does not capitalise the underlying leased asset or recognise a lease liability. Instead, lease payments under an operating lease are recognised as an expense on the straight-line basis over the lease term unless another systematic basis is more representative of the time pattern of the user's benefit.

4.12 Foreign Currency

I. Foreign Currency ~ Foreign Currency Transactions

The Company determines its functional currency (a currency of the primary economic environment in which the entity operates) and measures its results and financial position in that functional currency.

Translation of Foreign Currency Transactions

The transactions denominated in foreign currencies are translated and recorded at the rates of exchange prevailing at the respective dates of transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the period (i.e. the closing rates). Non-monetary items carried at fair values that are denominated in foreign currencies are retranslated at the rates prevailing at the dates the fair values were determined. Non-monetary items that are measured at their historical cost amounts continue to be translated at their respective historical rated and are not retranslated.

All exchange differences arising on settled transactions and on unsettled monetary items are recognised in profit or loss in the period except for: (i) loans and advances that form part of the net investment in a foreign operation; and (ii) transactions entered into in order to hedge foreign currency risks of net investments in foreign operations.

5. CRITICAL JUDGEMENTS AND ESTIMATION UNCERTAINTIES

5.1 Judgements and Assumptions Applied

In the selection of accounting policies for the Company, the areas that require significant judgements and assumptions are as follows:

5. CRITICAL JUDGEMENTS AND ESTIMATION UNCERTAINTIES (CONT'D)

5.1 Judgements and Assumptions Applied (Cont'd)

I. Classification of Finance and Operating Lease

The Company classifies a lease as a finance lease or an operating lease based on the criterion of the extent to which significant risks and rewards incident to ownership of the underlying asset lie. As a lessee, the Company recognises a lease as a finance lease if it is exposed to significant risks and rewards incident to ownership of the underlying asset. In applying judgements, the Company considers whether there is significant economic incentive to exercise a purchase option and any optional renewal periods. A lease is classified as a finance lease if the lease term is for at least 75% of the remaining economic life of the underlying asset, the present value of lease payments is at least 90% of the fair value of the underlying asset, or the identified asset in the lease is a specialised asset which can only be used substantially by the lessee. All other leases that do not result in a significant transfer of risks and rewards are classified as operating leases. The Company classifies a lease of land as a finance lease if the fair value of the leasehold land is 90% or more of the fair value of an equivalent freehold land or if the lease period, determined at the inception of the lease, is 50 years or more. Leases of land that do not meet any of these criteria are classified as operating leases.

5.2 Sources of Estimation Uncertainties

The measurement of some assets and liabilities requires management to use estimates based on various observable inputs and other assumptions. The areas or items that are subject to significant estimation uncertainties of the Company are as follows:

I. Measurement of a Provision

The Company uses a "best estimate" as the basis for measuring a provision. Management evaluates the estimates based on the Company's historical experiences and other inputs or assumptions, current developments and future events that are reasonably possible under the particular circumstances. In the case when a provision relates to large population of customers (such as a warranty provision), a probability-weighted estimate of the outflows required to settle the obligation is used. In the case of a single estimate (such as a provision for environmental restoration costs), a referenced contractor's price or market price is used as the best estimate. If an obligation is to be settled over time, the expected outflows are discounted at a rate that takes into account the time value of money and the risk that the actual outcome might differ from the estimates made. The actual outcome may differ from the estimate made and this may have a significant effect on the Company's financial position and results.

5. CRITICAL JUDGEMENTS AND ESTIMATION UNCERTAINTIES (CONT'D)

5.2 Sources of Estimation Uncertainties (Cont'd)

II. Determining the Value-in-Use

In determining the value-in-use of a stand-alone asset or cash-generating unit, management uses reasonable and supportable inputs about sales, cost of sales and other expenses based upon past experience, current events and reasonably possible future developments. Cash flows are projected based on those inputs and discounted at an appropriate discount rate(s). The actual outcome or event may not coincide with the inputs or assumptions and the discount rate applied in the measurement, and this may have a significant effect on the Company's financial position and results.

III. Impairment or Write-Down of Slow-Moving and Obsolete Inventories

The Company writes down its slow-moving and obsolete inventories based on assessment of their fair value less costs to sell. Inventories are written down when events and circumstances indicate that the carrying amounts may not recoverable. Management uses its judgement to analyse past sales trend and current economic trends to evaluate the adequacy of the impairment loss for slow-moving and obsolete inventories. The actual impairment loss can only be confirmed in any subsequent sales of those inventories and this may differ from the estimates made earlier. This may affect the Company's financial position and results.

IV. Loss Allowances of Financial Assets

The Company recognises impairment losses for loans and receivables using the incurred loss model. Individually significant loans and receivables are tested for impairment separately by estimating the cash flows expected to be recoverable. All other loans and receivables are categorised into credit risk classes and tested for impairment collectively, using the Company's past experience of loss statistics, ageing of past due amounts and current economic trends. The actual eventual losses may be different from the allowance made and this may affect the Company's financial position and results.

V. Depreciation of Property, Plant and Equipment

The cost of an item of property, plant and equipment is depreciated on the straight-line method or another systematic method that reflects the consumption of the economic benefits of the asset over its useful life. Estimates are applied in the selection of the depreciation method, the useful lives and the residual values. The actual consumption of the economic benefits of the property, plant and equipment may differ from the estimates applied and this may lead to a gain or loss on an eventual disposal of an item of property, plant and equipment.

DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.

(Incorporated in Malaysia)

5. CRITICAL JUDGEMENTS AND ESTIMATION UNCERTAINTIES (CONT'D)

5.2 Sources of Estimation Uncertainties (Cont'd)

VI. Measurement of Income Taxes

Significant judgement is required in determining the Company's provision for current and deferred taxes because the ultimate tax liability for the Company is uncertain. When the final outcome of the taxes payable is determined with the tax authorities, the amounts might be different for the initial estimates of the taxes payables. Such differences may impact the current and deferred taxes in the period when such determination is made. The Company will adjust for the differences as over or under-provision of current or deferred taxes in the current period in which those differences arise.

6. PROPERTY, PLANT AND EQUIPMENT

	At 01.01.2025 RM	Additions RM	Disposals RM	At 31.12.2025 RM

16. PROFIT/(LOSS) BEFORE TAX

Profit/(Loss) before tax is arrived at:

	2025 RM	2024 RM
After charging:		
- Auditors' remuneration	**15,000**	15,000
- Depreciation of property, plant and equipment	**702,438**	672,052
- Employee benefits expenses (Note 17)	**6,350,950**	7,484,538
- Realised loss on foreign exchange	**127,254**	708,417
- Rental	**298,361**	318,236
and crediting:		
- Interest income	**(2,360)**	(2,006)
- Other income	**(988)**	-
- Reversal of impairment loss on receivable	**(77,135)**	-
- Unrealised gain on foreign exchange	**(453,535)**	(266,361)

17. EMPLOYEE BENEFITS EXPENSES

	2025 RM	2024 RM
Staff EPF, SOCSO and EIS contributions	**651,973**	668,649
Staff short-term benefits	**5,698,977**	6,815,889
	6,350,950	7,484,538

The number of employees (excluding directors) as at financial year end is 160 (2024: 147).

18. TAX INCOME/(EXPENSE)

	2025 RM	2024 RM
Income tax:		
- Under provision in prior year	**-**	40,211
Deferred tax:		
- Current year	**(350,566)**	-
	(350,566)	40,211

DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.
(Incorporated in Malaysia)

18. TAX INCOME/(EXPENSE) (CONT'D)

The significant differences between the tax expense and accounting profit/(loss) multiplied by the statutory tax rate are due to the tax effects arising from the following items:

	2025 **RM**	2024 RM
Profit/(Loss) before tax	**366,826**	(2,176,942)
Tax at Malaysian statutory tax rate of 24%	**88,038**	(522,466)
Non-deductible expenses	**203,485**	167,587
Income not subject to tax	**(121,918)**	(63,927)
Deferred tax asset not recognised	**-**	418,806
Transferred of deferred tax	**(350,566)**	-
Utilisation of capital allowances	**(169,605)**	-
Under provision of income tax in prior year	**-**	40,211
	(350,566)	40,211

Under the amendment of Income Tax Act 1967 by the Finance Act 2023 and with effect from year of assessment 2023, companies with paid-up capital of RM2.5 million or less, and with annual business income of not more than RM50 million are subject to Small and Medium Enterprise Corporate Tax at 15% on first chargeable income of RM150,000 and 17% on remaining chargeable income up to RM600,000. However, 24% corporate tax rate shall be applicable on an excess of RM600,000.

Furthermore, with effect from year of assessment 2024, the Small and Medium Enterprise Corporate Tax shall not be applicable to a company if more than 20% of its paid-up capital in respect of ordinary shares is directly or indirectly owned by one or more companies incorporated outside Malaysia or owned by one or more individuals who are not citizens of Malaysia.

19. UNRECOGNISED DEFERRED TAX ASSETS

The following deferred tax assets have not been recognised because it is not probable that future taxable profit will be available against which the Company can utilise the benefits there from.

	2025 **RM**	2024 RM
Unabsorbed business losses	**-**	286,100
Unutilised capital allowance	**-**	163,800
	-	449,900

DIGIPHOTO ENTERTAINMENT IMAGING SDN. BHD.

(Incorporated in Malaysia)

19. UNRECOGNISED DEFERRED TAX ASSETS (CONT'D)

The unutilised business losses are only allowed to be carried forward for a maximum period of ten (10) consecutive years of assessment. The breakdown of the unutilised business losses accumulated as at end of the year are disclosed as follows:

	2025 RM	2024 RM
Unutilised business losses to be expired:		
Year of assessment 2024	**1,192,098**	1,192,098
	1,192,098	1,192,098

These amounts are subject to the confirmation from the Inland Revenue Board.

20. CATEGORIES OF FINANCIAL INSTRUMENTS

The table below provides an analysis of financial instruments categorised as follows:

(a) Financial assets and financial liabilities measured at amortised cost (AC).

	AC RM	Carrying Amount RM
2025		
Financial Assets		
Trade and other receivables	**12,168,512**	**12,168,512**
Cash and bank balances	**648,452**	**648,452**
Fixed deposit with licensed bank	**48,510**	**48,510**
Total financial assets	**12,865,474**	**12,865,474**

Digiphoto Entertainment Imaging Co.,Ltd.

Annual Financial Statements

For the year ended 31 December 2025

Independent Auditor's Report

To the Shareholders of Digiphoto Entertainment Imaging Co., Ltd.

Opinion

I have audited the financial statements of Digiphoto Entertainment Imaging Co., Ltd. (the Company), which comprise the statement of financial position as at December 31, 2025, and the statement of income, and statement of changes in equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025, and its financial performance for the year then ended in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities (revised 2022).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Company in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities (revised 2022), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit . I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may

involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

(Mr Ramakrishnan Kalapathy Shankar)

Director

The accompanying notes are an integral part of these financial statements

Digiphoto Entertainment Imaging Co., Ltd

Notes to financial statements

As at December 31, 2025

1 General Information

Digiphoto Entertainment Imaging Co., Ltd "the Company", is incorporated in Thailand on August 21, 2012 and has its registered office at 19 Soi Therdthai 77, Bangwa, Pasricharoen District, Bangkok.
The company has registration number 0105555122356

The principal activities of the Company is providing customized imaging solutions to theme parks, resorts and entertainment arenas as well as retail sale of accessories and frames.

2 Basis of preparation of financial statements

2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards for Non-Publicly Accountable Entities (Revised 2022); guidelines promulgated by the Federation of Accounting Professions. And their presentation has been made in compliance with the stipulations of the announcement of the Departmen of Business Development on the abbreviation of items required in the financial statements for B.E. 2566 (2023) issued under the Accounting Act B.E. 2543 (2000).

2.2 New finance reporting standards

During the year, the Company changed its accounting policy relating to income taxes from a tax payable basis to recognition in accordance with Thai Accounting Standard (TAS) 12, Income Taxes, in order to comply with the relevant financial reporting standards, and as a result of this change in the basis of preparation of the financial statements, the Company is required to present the financial statements and disclose additional information in accordance with the requirements of such financial reporting standards, and the effects of adopting such financial reporting standards are disclosed in Note 3 to the financial statements.

3 Cumulative effects of Change in basis of financial statements preparation

During the year, the Company changed its accounting policy relating to income taxes from a tax payable basis to preparation in accordance with the financial reporting standards as described in Note 2.2 to the financial statements, and the Company has applied the change retrospectively by restating the statement of financial position as at 31 December 2567, the statement of comprehensive income, and the statement of changes in equity, and the cumulative effects of this change in the basis of preparation of the financial statements have been presented as a separate line item in the statement of changes in equity.

The amounts of adjustments affecting the statement of financial position and the income statement are summarised below.

(Unit: Baht)

(Mr Ramakrishnan Kalapathy Shankar)

Director

4 Significant accounting policies

(a) Foreign currency transactions

Transactions in foreign currencies are translated to Thai Baht at the foreign exchange rates ruling at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are translated to Thai Baht at the foreign exchange closing rates ruling for the period then ended. Foreign exchange differences arising on translation are recognized in the statement of income.

(b) Cash and cash equivalents

Cash and cash equivalents consist of cash balances, current accounts and call deposits.

(c) Trade accounts receivable

Trade accounts receivable are stated at their invoice value less allowance for doubtful accounts.

Any allowance for loss on doubtful account is assessed primarily on analysis of payment histories and future expectations of customer payments. Allowance made are based on historical write-off patterns and the aging of accounts receivable. Bad debts are written off when incurred.

(d) Inventories

Inventories are stated at the lower of cost and net realizable value.

Cost is calculated using the weighted-average.

(e) Property, plant and equipment; and Depreciation

- Property is stated at cost, while plant and equipment are stated at cost less accumulated depreciation and allowance for decline in value (if any).

Depreciation

Depreciation is charged to the statement of income on a straight-line basis over the estimated useful lives of each part of an item of property and equipment. The estimated depreciation rates are 3-5 years.

(f) Provision

A provision is recognised when the Company has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Employee benefit

Obligations for retired benefits are recognised using the best estimated method at the reporting date.

.....

(Mr Ramakrishnan Kalapathy Shankar)

Director

(g) Revenues

Revenue excludes value added taxes and is arrived at after deduction of trade discounts.

Services rendered

Service income is recognised as services are provided.

(h) Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Company recognises deferred tax liabilities for all taxable temporary differences while it recognises deferred tax assets for all deductible temporary differences to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

5 Cash and cash equivalents

	Baht	
	2025	**2024**
Cash on hand	10,000.00	9,999.81
Cash deposit in current account	1,006,435.36	2,027,312.01
Total	1,016,435.36	2,037,311.82

6 Long term loan to related person

The Company has long-term loan to director amounting to 20 million baht with no interest charge since 2016.

There is no specific date of repayment and no colleateral against loan.

The balance of loan comprise of the following:-

	Baht	
	2025	**2024**
Principal of loan	20,000,000.00	20,000,000.00
Accrued interest	1,812,450.72	1,812,450.72
Total	21,812,450.72	21,812,450.72

.....

	Baht	
	2025	**2024**
Trade payable to related parties	43,476,187.24	42,700,348.43
Others payable	527,109.77	1,934,773.72
Total	44,003,297.01	44,635,122.15

9 Income tax

Income tax expenses for the years ended 31 December 2025 and 2024 are made up as follows:

	Baht	
	2025	**2024**
Current income tax:		
Current income tax charge	-	-
Deferred tax:		
Relating to origination and reversal of temporary differences	(154,727.22)	329,865.09
Income tax expense reported in profit or loss	(154,727.22)	329,865.09

The reconciliation between accounting profit and income tax expense is shown below.

	Baht	
	2025	**2024**
Accounting profit before tax	(1,515,775.47)	888,125.58
Applicable tax rate	20%	20%
Accounting profit before tax multiplied by income tax rate	(303,155.09)	177,625.12
Effects of:		
Interest income from loans to director	120,000.00	120,000.00
Non-deductible expenses	28,427.87	32,239.97
Total	148,427.87	152,239.97
Income tax expense reported in profit or loss	(154,727.22)	329,865.09

.....

(Mr Ramakrishnan Kalapathy Shankar)

Director

9 Income tax (Continue)

The components of deferred tax assets are as follows:

	Baht	
	2025	**2024**
Deferred tax assets		
Tax loss carryforward - 2021	648,230.72	648,230.72
Tax loss carryforward - 2022	648,659.32	648,659.32
Tax loss carryforward - 2025	154,727.22	-
	1,451,617.26	1,296,890.04

Deferred tax assets arising from tax loss carryforwards were recognised as management believes that sufficient future taxable profits will be available to utilise such tax losses. The deferred tax assets were calculated at the corporate income tax rate of 20%.

10 Reclassification of financial statements

The Company has reclassified some items in the 2024 financial statements for comparative purposes to be consistent with the presentation in the 2025 financial statements, without any effect on the financial position and results of operations.

11 The approval of financial statement

The financial statements were authorised for issue by the directors on 18 April 2026.

Notes to the financial statements	9 - 34

Directors' Report

The directors submit their report together with the audited financial statements of **Gulf Dunes L.L.C** for the year ended 31st December 2025.

LEGAL STATUS

Gulf Dunes L.L.C is a limited liability company (the "Company") registered with the Department of Tourism and Commerce Marketing, Government of Dubai and Department of Economic Development. The principal activity of the Company organizing and managing Meetings, Incentives, Conferences, and Events (MICE). The Company started its operations in May 1995.

The registered office of the Gulf Dunes LLC, Dubai is P.O. Box no. 124174, Dubai, United Arab Emirates.

The ultimate parent and ultimate controlling party of the Company is Fairfax Financial Holdings Limited, a company registered in Toronto, Ontario, Canada.

SHARE HOLDINGS

The shareholding pattern of the Company as at 31st December 2025 and 31st December 2024 is as follows:

Name of the shareholder	**Shareholding %**
Travel Circle International (Mauritius) Limited	100%

The ultimate parent and ultimate controlling party of the Company is Fairfax Financial Holdings Limited, a company registered in Toronto, Ontario, Canada.

FINANCIAL PERFORMANCE

The results of the Company for the year ended 31st December 2025 and 31st December 2024 are stated below:

Financial highlights	**2025**	2024
	AED	AED
Net profit	**5,062,177**	1,366,040
Total equity	**515,588**	(4,546,589)

SUBSEQUENT EVENT:

Subsequent to the reporting date, geopolitical tensions in the Middle East have escalated, resulting in increased regional uncertainty. While no adjustments have been made to the financial statements, the Company has experienced a decline in business volumes due to reduced inbound tourism demand following the onset of the conflict.

Management continues to monitor the situation closely and, with the support of its parent entity, believes the Company will be able to continue its operations and benefit from a recovery in travel demand once conditions stabilize.

AUDITORS

KPMG Lower Gulf Limited was appointed as the independent auditor for the year ended 31 December 2025. The firm is eligible for reappointment for the financial year 2026 and has expressed its willingness to continue in office. The Director recommends the reappointment of KPMG Lower Gulf Limited as the Company's auditor for the year ending 31 December 2026.

Independent auditors' report

To the Shareholder of Gulf Dunes L.L.C

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Gulf Dunes L.L.C ("the Company"), which comprise the statement of financial position as at 31 December 2025, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2025, and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

© 2026 KPMG Lower Gulf Limited, licensed in the United Arab Emirates and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

Other Information

Management is responsible for the other information. The other information comprises the Directors' Report which is set out on Page 1.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards and their preparation in compliance with the applicable provisions of the UAE Federal Decree Law No. 32 of 2021, as amended, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with Governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

© 2026 KPMG Lower Gulf Limited, licensed in the United Arab Emirates and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. All rights reserved.

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Further, as required by the UAE Federal Decree Law No. 32 of 2021, as amended, we report that for the year ended 31 December 2025:

i) we have obtained all the information and explanations we considered necessary for the purposes of our audit;

ii) the financial statements have been prepared and comply, in all material respects, with the applicable provisions of the UAE Federal Decree Law No. 32 of 2021, as amended;

iii) the Company has maintained proper books of account;

iv) the financial information included in the Directors' report is consistent with the books of account of the Company;

v) as disclosed in note 1 to the financial statements, the Company has not purchased any shares during the year ended 31 December 2025;

vi) note 12 to the financial statements discloses material related party transactions and the terms under which they were conducted; and

vii) based on the information that has been made available to us, nothing has come to our attention which causes us to believe that the Company has contravened during the financial year ended 31 December 2025 any of the applicable provisions of the UAE Federal Decree Law No. 32 of 2021, as amended, or its Articles of Association, which would materially affect its activities or its financial position as at 31 December 2025.

1 Reporting entity

Gulf Dunes L.L.C, Dubai is a limited liability Company (‘‘the Company’’) registered with the Department of Economy and Tourism, Government of Dubai under commercial license number 237864. The principal business activity of the Company is organizing and managing incentive trips, conferences and meetings for groups.

The shareholding pattern of the Company as at 31st December 2025 and 31st December 2024 is as follows:

Name of the shareholder	**Shareholding %**
Travel Circle International (Mauritius) Limited (“the Holding Company”)	100%

The ultimate parent and ultimate controlling party of the Company is Fairfax Financial Holdings Limited, a company registered in Toronto, Ontario, Canada.

The registered office of the Gulf Dunes L.L.C, Dubai is P.O. Box no. 124174, Dubai, United Arab Emirates.

The Company did not purchase any shares during the year.

2 Basis of preparation

a) Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) as issued by International Accounting Standard Board (IASB) and the applicable provision of UAE Federal Decree Law no. 32 of 2021, as amended.

b) Basis of measurement

These financial statements have been prepared under the historical cost basis.

c) Functional and presentation currency

These financial statements are presented in UAE Dirham (“AED”), which is the Company’s functional currency.

d) Use of estimates and judgments

In preparing these financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. Information about significant areas of estimation uncertainty and critical judgments in applying policies that have the most significant effect on the amounts recognised in these financial statements are described in note 23.

3 Material accounting policies

The Company has consistently applied the following accounting policies to all periods presented in these financial statements, except if mentioned otherwise.

Revenue from contract with customers

The Company renders a wide range of tourism and related services (hotel bookings, transport and visa services, excursion and travel related services) to groups. Invoices are usually payable within 30 days.

Any expected discounts to the customers are estimated and are netted off against transaction price as per the requirements of the accounting standard. Terms of cancellations vary depending on the timing of the season during the year. The services are generally short-term in nature, and the lead time between booking confirmation, invoicing and delivery of the related travel service is typically short. Revenue is recognized when the customer travels, checks in, or otherwise consumes the relevant service or package.

Principal versus agent assessment

Management has assessed whether the Company acts as a principal or an agent in these arrangements in accordance with IFRS 15. The Company is acting as a principal, as it has primary responsibility for fulfilling the promise to the customer, is responsible for coordinating and delivering the overall travel experience, bears service-related risks, and has discretion in establishing prices. Customers contract directly with the Company, and the Company remains responsible for addressing service issues or arranging alternative services where required. Accordingly, revenue from these arrangements is recognized on a gross basis, with the full amount of consideration received from customers recognized as revenue and the related supplier costs recognized separately as cost of sales**.**

3 Material accounting policies (continued)

Financial instruments

Recognition and initial measurement

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Classification and subsequent measurement

On initial recognition, a financial asset is classified as and measured at: amortized cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis. Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

3 Material accounting policies (continued)

Financial instruments (continued)

Classification and subsequent measurement (continued)

Financial assets – Subsequent measurement and gains and losses:

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. The Company enters into transactions whereby it transfers assets recognized in its statement of financial position but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled or expired. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred, or liabilities assumed) is recognized in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3 Material accounting policies (continued)

Foreign currency transactions

Transactions in foreign currencies are translated to AED and recorded at the rates of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to AED at the foreign exchange rate ruling at that date. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated into AED using the exchange rates at the date of the transaction. Foreign exchange differences arising on translation are recognised in profit or loss.

Property and equipment

Items of property and equipment are measured at cost less accumulated depreciation and accumulated impairment losses (if any).
If significant part of an item of property and equipment have different useful lives, then they are accounted for as items (major components) of property and equipment.

Any gain or loss on disposal of an item of property and equipment is recognised in profit or loss.

Subsequent expenditure

Subsequent expenditure is capitalized only when it is probable that the future economic benefits associated with the expenditure will flow to the Company.

Depreciation

Depreciation is calculated to write off the cost of items of property and equipment less their estimated residual value and is recognised in profit or loss. Depreciation on additions is calculated on a pro-rata basis from the day of addition and on disposal up to and including the month of disposal of the asset. The estimated useful lives of property and equipment for current and comparative period are as follows:

	Years
Motor vehicles	4
Furniture, fixtures and office equipment	2 to 5
Leasehold improvements	10

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Impairment

Non-derivative financial assets

Financial instruments

The Company recognizes loss allowances for Expected Credit Losses (ECLs) on financial assets measured at amortized cost. The Company measures loss allowances at an amount equal to lifetime ECLs, except for bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables and due from related parties are always measured at an amount equal to lifetime ECLs.

3 Material accounting policies (continued)

Impairment (continued)

Non-derivative financial assets (continued)

Financial instruments (continued)

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on trade receivables has increased significantly if it is more than 90 days past due i.e. 120 days from the invoice date.

The Company considers trade receivables to be in default when:
- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- the financial asset is more than 90 days past due

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:
- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise; or
- it is probable that the borrower will enter bankruptcy or other financial reorganization

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

3 Material accounting policies (continued)

Impairment (continued)

Non-derivative financial assets (continued)

Financial instruments (continued)

Presentation of allowance for ECL in the statement of financial position (continued)

Financial assets not classified as at FVTPL were assessed at each reporting date to determine whether there was objective evidence of impairment.

Objective evidence that financial assets were impaired included:
- default or delinquency by a debtor;
- restructuring of an amount due to the Company on terms that the Company would not consider otherwise;
- indications that a debtor or issuer would enter bankruptcy;
- adverse changes in the payment status of borrowers or issuers;
- observable data indicating that there was a measurable decrease in the expected cash flows from a group of financial assets.

Financial assets measured at amortized cost

The Company considered evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets were individually assessed for impairment. Those found not to be impaired were then collectively assessed for any impairment that had been incurred but not yet individually identified. Assets that were not individually significant were collectively assessed for impairment. Collective assessment was carried out by grouping together assets with similar risk characteristics.

In assessing collective impairment, the Company used historical information on the timing of recoveries and the amount of loss incurred and made an adjustment if current economic and credit conditions were such that the actual losses were likely to be greater or lesser than suggested by historical trends.

An impairment loss was calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses were recognized in profit or loss and reflected in an allowance account. When the Company considered that there were no realistic prospects of recovery of the asset, the relevant amounts were written off. If the amount of impairment loss subsequently decreased and the decrease was related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss was reversed through profit or loss.

Non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets, investment property and inventories to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

An impairment loss is recognized whenever the carrying amount of the asset exceeds the recoverable amount. Impairment losses, if any, are recognized in the statement of profit or loss.

3 Material accounting policies (continued)

Impairment (continued)

Non-financial assets (continued)

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.
The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis. An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. Impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognized.

Write-off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Company has a policy of writing off the gross carrying amount when the financial asset is past due based on historical experience of recoveries of similar assets. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Provision for employees' end of service benefits

The provision is made for the amount of end of service benefits due to employees in accordance with the UAE Labour Law and is based on the current remuneration and the period of service of the employees at the end of the reporting period. The provision has been classified as a non-current liability.

Share capital

Ordinary shares are classified as equity. Balances which represent a residual interest in the net assets of the Company are presented within equity.

3 Material accounting policies (continued)

Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- The contract involves the use of an identified asset – this may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified; and
- The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use.

The Company has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:
- the Company has the right to operate the asset; or
- the Company designed the asset in a way that predetermines how and for what purpose it will be used.

As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate. The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased. Lease payments included in the measurement of the lease liability comprise fixed payments, including in-substance fixed payments. The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, or if there is a revised in-substance fixed lease payment. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

3 Material accounting policies (continued)

Leases (continued)

As a lessee (continued)

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Contract liability

A contract liability is an entity's obligation to transfer goods or services to a customer for which the Company has received consideration (or the amount is due) from the customer.

Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no

3 Material accounting policies (continued)

Income tax (continued)

Deferred tax (continued)

longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset only if certain criteria are met.

4 Accounting standards issued but not yet effective

a) IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 will replace IAS 1 Presentation of Financial Statements and applies for annual reporting periods beginning on or after 1 January 2027. The new standard introduces the following key new requirements.

- Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal. Entities' net profit will not change.
- Management-defined performance measures (MPMs) are disclosed in a single note in the financial statements.
- Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under indirect method.

The Company is still in the process of assessing the impact of the new standard, particularly with respect to the structure of the Company's statement of profit or loss, the statement of cash flows and the additional disclosures required for MPMs. The Company is also assessing the impact on how information is grouped in the financial statements, including for items currently labelled as "other".

b) Other accounting standards

The following new and amended standards are not expected to have a significant impact on the Company's financial statements.

- Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) and
- Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7).

4 Accounting standards issued but not yet effective (continued)

New standards or amendments and forthcoming requirements

Below is a list of recent changes to the Accounting Standards that are required to be applied by an entity with an annual reporting period beginning on 1 January 2025 which had no significant impact on the financial statements.

- Lack of Exchangeability – Amendments to IAS 21 (1 January 2025)

Below is a list of recent changes to the Accounting Standards that are required to be applied for annual reporting periods beginning after 1 January 2025 and that are available for early adoption in annual reporting periods beginning on 1 January 2025.

- Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7 (1 January 2026)
- Contract Referencing Nature-dependent Electricity - Amendments to IFRS 9 and IFRS 7 (1 January 2026)
- Annual Improvements to IFRS Accounting Standards – Volume 11 (1 January 2026)
- IFRS 18 Presentation and Disclosure in Financial Statements (1 January 2027)
- IFRS 19 Subsidiaries without Public Accountability: Disclosures (1 January 2027)
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture Amendments to IFRS 10 and IAS 28 (effective date deferred indefinitely)

5 Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk;
- Market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included in note 21 of these financial statements.

Risk management framework

Management of the Company has overall responsibility for the establishment and oversight of the Company's risk management framework and is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risk faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

5 Financial risk management *(Continued)*

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's cash at bank, trade and other receivables (excluding prepayments and advances to suppliers) and due from related parties. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Company's customer base, including the default risk of the industry and country, in which customers operate, has less of an influence on credit risk.

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade receivables. The main component of this allowance is a specific loss component that relates to individually significant exposures in respect of losses that have been incurred but not yet identified. The Company's cash is placed with bank of good repute.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk mainly relates to trade and other payables (excluding advances from customers), and due to related parties. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company maintains adequate reserves, by continuous monitoring, forecast and actual cash flows.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and fluctuations in fair value will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk on purchases that are denominated in a currency other than its functional currency, primarily the US Dollar (USD). Since USD is currently pegged to AED, the Company does not hedge the currency risk in respect of its foreign currency exposure.

Interest rate risk

Interest rate risk is the risk of loss from fluctuations of future cash flows because of a change in market interest rates.

5 Financial risk management (Continued)

Market risk(continued)

Other market price risk

Price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

Capital management

The Company's objectives when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain a strong capital structure to reduce the cost of capital. The Company is not subject to externally imposed capital requirements.

6 Revenue

The Company's revenue is generated by providing a wide range of tourism and related services (hotel bookings, transport and visa services, excursion and travel related services).

	2025	2024
	AED	AED
Tourism and related services	**69,169,384**	26,514,765

19 Income tax expense

The tax charge for year ended 31 December 2025 is AED 834,343, representing the effective tax rate of 14.15%.

Pillar two

Recently, in order to align with OECD's Global Minimum Tax effort (Pillar Two), the UAE Ministry of Finance (MoF) has introduced a Domestic Minimum Top-Up Tax of 15% for Multinational Enterprises (MNEs) with effect from financial years starting on or after 1st January 2025. The Company is in scope of Pillar Two legislation as it operates in jurisdictions that have enacted or substantively enacted Pillar Two legislation and its consolidated revenue exceeds Euro 750 million threshold. Top up taxes payable by the Company under such laws are included in Current taxes.

20 Contingencies and commitments

There are no capital commitments and contingent liabilities of the Company as at 31 December 2025 (31 December 2024: AED Nil).

21 Financial instruments

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash at bank, trade and other receivables and amounts due from related parties.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate. The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables.

The Company's cash and cash equivalents are held with bank and financial institution counterparties, which have good market credibility and stability.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2025	2024
	AED	AED
Trade and other receivables (excluding prepayments and advances to suppliers)	**1,569,844**	1,693,217
Due from related parties	**4,357,019**	6,303,024
Cash at bank	**347,055**	1,582,636
	6,273,918	9,578,877

21 Financial instruments (continued)

Credit risk (continued)

The aging of trade receivables at the reporting date was:

	31 December 2025		31 December 2024	
	Gross AED	Provision AED	Gross AED	Provision AED
Not due	1,328,858		1,452,231	-
Over 90 days past due	-	-	91,372	91,372
	1,328,858	**-**	**1,543,603**	**91,372**

The movement in the impairment loss for trade receivables is as follows:

	2025	2024
	AED	AED
At 1 January	**91,372**	91,372
Reversal during the year	**(91,372)**	-
At 31 December	**-**	91,372

At 31 December 2025, the Company's exposure of credit risk to trade receivables by geographical region was as follows:

	2025	2024
	AED	AED
Geographical regions		
Europe	**303,320**	803,675
Commonwealth of Independent States	**286,258**	119,217
Middle east and others	**739,280**	620,711
Grand total	**1,328,858**	1,543,603

Cash at Banks

The Company held cash at banks of AED 347,055 at 31 December 2025 (2024: AED 1,582,636). The cash at banks are held with banks, which are rated A1 to A3, based on Mood's ratings. Impairment on cash and cash equivalents has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties.

21 Financial instruments (continued)

Credit risk (continued)

Other receivables

The company's exposure to credit risk on other receivable from third parties influence mainly by the individual characteristics of each party. Other receivable as at 31 December 2025 include deposits and other receivable of AED 240,986 (2024: AED 240,986) for which management believes that there is no significant credit risk associated at reporting date.

Due from related parties

For receivables from related parties, the Company as determined Probability of Debt (PD) that is applicable for outstanding related party receivables PD has been determined in accordance with Moody's PD rating scale by considering external credit ratings and adjusting the PDs so determined for macroeconomic factors. The Company has also considered a standard Loss Given Default (LGD) percentage of 45% for all unsecured outstanding exposures in accordance with foundation approach of Basel guidelines in the absence of the Group's historical experience. The Company does not require collateral in respect of its amount due from a related party. The Company does not have amounts for which no loss allowance is recognized because of collateral. At the reporting date there was no significant concentrations of credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company aims to maintain the level of cash and cash equivalents at an amount in excess of

expected cash outflows on financial liabilities by continuous monitoring of forecast and actual cash outflows. The following are the contractual maturities of financial liability based on contractual undiscounted payments including interest payment and excluding impact of netting:

	Carrying Amount AED	Contractual cash outflows AED	1 year or less AED	More than 1 year AED

Due to related parties	771,700	(771,700)	(771,700)	-
	2,693,311	(2,694,523)	(2,694,523)	-

Market risk

Foreign exchange risk

The Company has no significant exposure to foreign currency risk as the transactions in foreign currencies (if any) are mainly made in USD which is informally pegged to AED.

Interest rate risk

The Company has no borrowings and is not exposed to interest rate risk.

Fair values

The fair values of the Company's financial assets and financial liabilities approximate their carrying amounts due to the short-term nature of these instruments.

22 Fair value hierarchy

The Company does not have financial instruments which are measured at fair value as at the reporting date. Accordingly, the fair value hierarchy disclosures are not applicable to the Company.

23 Significant accounting estimates and judgments

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The following are the critical accounting estimates and judgments used by management in the preparation of these financial statements:

23 Significant accounting estimates and judgments (continued)

Impairment losses on trade receivables

The measurement of the expected credit loss allowance for financial assets measured at amortized cost is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g. the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in note 21.

Elements of the ECL models that are considered accounting judgments and estimates include:

- Development of ECL models, including various formulas and choice of inputs
- The segmentation of financial assets when their ECL is assessed on a collective basis; and
- Determination of associations between macroeconomic scenarios and, economic inputs, and their effect on probability of default (PDs), exposure at default (EADs) and loss given default (LGDs).

Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models. The Company's policy is to regularly review its models in the context of actual loss experience and adjust when necessary.

24 Comparatives

Certain comparative figures have been reclassified to conform to the presentation adopted in these financial statements. These reclassifications do not impact on profit, assets and equity.

25 Subsequent events

Subsequent to the reporting date, geopolitical tensions in the Middle East have escalated, resulting in increased regional uncertainty across the Arabian Gulf region. The situation remains dynamic and continues to evolve.

As these events occurred after the reporting date, no adjustments have been made to the amounts recognized in the financial statements as at 31 December 2025. Management of the Company continues to closely monitor developments, particularly considering the potential impact on the tourism sector, including travel demand and customer activity.

As at the date of this report, the Company continues to operate; however, business volumes have declined significantly following the onset of the conflict, resulting in reduced inbound tourism demand. Management and the Board of Directors are of the view that the Company will be able to continue its operations, supported by financial assistance from its parent entity.

Furthermore, management believes that, once the regional situation stabilizes, the Company is likely to benefit from a recovery in travel demand initially driven by the local, CIS, and Sub-continent markets which are expected to contribute positively to business volumes in the short term, until traditional markets return to their normal levels.

Report on the Audit of the Special Purpose Financial Statements

Opinion

We have audited the accompanying financial statements of Horizon Travel Services LLC (the "Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and notes to the financial statements including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 as amended (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the special financial statements in accordance with the Standards on Auditing (SAs) as specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Management and Board of Director's Responsibility for the Special Purpose Financial Statements

The Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the

Chartered Accountants

financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern; and

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Restriction on distribution or use

This report is intended solely for the information and use of the Board of Directors of the Company and its ultimate holding company, including their boards of directors for foreign entities in India. It should not be used, referred to, or distributed for any other purpose or to any other party without our prior written consent. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company, its Board of Directors, and the ultimate holding company's Board of Directors for our audit work, this report, or the opinions expressed herein.

Horizon Travel Services LLC
Notes forming part of the Financial Statements for the year ended 31 March 2026

1.1 General Information

Horizon Travel Services, LLC (the "Company") was formed in the State of Delaware in 2017 and is a wholly owned subsidiary of Thomas Cook India Limited. The Company's office is located in New York. The Company works on B2B business model and primarily provide travel products and services to tour and travel providers from across the globe for tours in United States.

1.2 Significant accounting policies

Significant accounting policies adopted by the company are as under:

Basis of Preparation of Financial Statements

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the IND AS

(a) **Statement of Compliance with Ind AS**

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the "Act") read together with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act.

Accounting policies have been consistently applied to all the years presented unless otherwise stated. (except where a newly issued Indian accounting standard is initially adopted or a revision to an existing Indian accounting standard requires a change in the accounting policy hitherto in use). The Financial Statements are presented in USD (Which is also the functional currency of the Company).

Accounting Estimates

The Company use's estimates and assumptions in the preparation of our financial statements in accordance with accounting principles generally accepted in the India ("Ind AS"). The Company's estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of our financial statements. These estimates and assumptions also affect the reported amount of net income or loss during any period. The actual financial results could differ significantly from these estimates. The significant estimates underlying our financial statements include revenue recognition; recoverability of current and long-lived assets, intangible assets and goodwill; income and transactional taxes, such as potential settlements related to occupancy and excise taxes; loss contingencies; deferred loyalty rewards; and provisions for credit losses, customer refunds.

Seasonality

The Company generally experiences seasonal fluctuations in the demand for our travel services. For example, traditional leisure travel bookings are generally the highest in the first three quarters as travelers plan and book their spring, summer, and winter holiday travel. The number of bookings typically decreases in the fourth quarter. The company receives advance bookings from its travel agents all throughout the year, however the revenue is recognized on the arrival i.e., Travel date.

Cash and Cash Equivalents

For the purposes of the statements of cash flows, the Company considers all highly liquid debt instruments and other similar short-term investments purchased with an original maturity of three months or less to be cash equivalents

Recent Accounting Pronouncements

Management does not believe that any recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company's financial statement.

Accounts Receivable from Customers and Allowance for Expected Credit Losses

Accounts receivables are reported net of expected credit losses. The Company estimates expected credit losses upon recognition of the financial assets. The Company has identified the relevant risk characteristics of its customers and the related receivables and prepayments, which include the following: size, type (alternative accommodations vs. hotels) or geographic location of the customer, or a combination of these characteristics. The Company considers the historical credit loss experience, current economic conditions, supportable forecasts of future economic conditions, and any recoveries in assessing the expected credit losses. Other key factors that influence the expected credit loss analysis include customer demographics, payment terms offered in the normal course of business to customers, the nature of competition, and industry-specific factors that could impact the Company's receivables.

Property and Equipment
Property and equipment are stated at cost. When assets are retired or disposed of, their costs and related accumulated depreciation are removed from the account and any gain or loss is included in earnings. Depreciation is computed primarily using the straight-line method over the estimated useful lives of the related assets. Repair and maintenance expenditures which do not extend the useful lives of the related assets are expensed as incurred.

Trademarks
Trademarks are recorded at cost and are amortized on a straight-line basis over their expected useful life of ten years. See note 4 for additional information.

Website and Internal-use Software Capitalization
Acquisition costs and certain direct development costs associated with website and internal-use software are capitalized and include external direct costs of services and payroll costs for employees devoting time to the software projects principally related to platform development, including support systems, software coding, designing system interfaces, and installation and testing of the software. These costs are recorded as property and equipment and are generally amortized beginning when the asset is substantially ready for use. Costs incurred for enhancements that are expected to result in additional features or functionalities are capitalized and amortized over the estimated useful life of the enhancements. Costs incurred during the preliminary project stage, as well as maintenance and training costs, are expensed as incurred. See note 4 for additional information.

Lease
On January 1, 2019, the Company adopted Accounting Standards Update 2016-02, "Leases", Ind AS 116 the accounting for leases. Under the new lease standard, lessees are required to recognize an operating lease right-of-use assets and a lease liability for substantially all leases. The new lease standard will continue to classify leases as either financing or operating, with classification affecting the pattern of expense recognition.
The Company determines if an arrangement is a lease, or contains a lease, when a contract is signed. The Company determines if a lease is an operating or finance lease and records a lease asset and a lease liability upon lease commencement, which is the date when the underlying asset is made available for use by the lessee. The Company has operating leases for office space. For office space, the Company has elected to combine the fixed payments to lease the asset and any fixed non-lease payments (such as maintenance or utility charges) when determining its lease payments.
The Company uses its incremental borrowing rate as its discount rate to determine the present value of its remaining lease payments to calculate its lease assets and lease liabilities because the rate implicit in the lease is not readily determinable. The incremental borrowing rate approximates the rate the Company would pay to borrow in the currency of the lease payments on a collateralized basis for the weightedaverage life of the lease. Operating lease assets also include any prepaid lease payments and lease incentives received prior to lease commencement.
The Company recognizes operating lease costs and the amortization of finance lease assets on a straight-line basis over the lease term. The interest component of a finance lease is recognized using the effective interest method over the lease term. Certain of the Company's lease agreements include rent payments which are adjusted periodically based on an index or rate. Any change in payments due to such adjustments are recognized as variable lease expenses as they are incurred. Variable lease expenses also include costs for property taxes, insurance, and services provided by the lessor which are charged based on usage or performance (such as maintenance or utility charges).

Impairment of Long-lived Assets
The Company reviews long-lived assets, including intangible assets and operating lease assets, whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. The assessment of possible impairment is based upon the Company's ability to recover the carrying value of the assets from the estimated undiscounted future net cash flows, before interest and taxes, of the related asset group. The amount of impairment loss, if any, is measured as the excess of the carrying value of the asset over the present value of estimated future cash flows, using a discount rate commensurate with the risks involved and based on assumptions representative of market participants. The Company has determined that there are no impairment losses for the year ending March 31, 2026.

Revenue

The Company recognizes revenue in accordance with Ind As 115 and as such, the Company identifies a contract with a customer, identifies the performance obligations in the contract, determines the transaction price, allocates the transaction price to each performance obligation in the contract and recognizes revenue when (or as) the Company satisfies a performance obligation

The company recognizes revenue upon transfer of control of our promised services in an amount that reflects the consideration we expect to be entitled to in exchange for those services.

We offer travel services on a stand-alone and package basis through the merchant business model. Under the merchant model, we facilitate the booking of hotel rooms, alternative accommodations, and destination services from our travel suppliers, and we are the merchant of record for such bookings.

Merchant Booking: Under this business model we provide our empaneled travel agents to access our booking platform "Premiere" to access hotel room reservations through our contracts with suppliers (lodging, sightseeing), which provide us with rates and availability information for rooms but for which we have no control over the rooms and do not bear inventory risk. Our travel agent pays us for merchant hotel transactions (VIP/FIT) before/after arrival dates depending on nature of contract signed with them. We record the payment in deferred merchant bookings until the stayed night occurs, at which point we recognize the revenue, as this is when our performance obligation is satisfied. Payments to suppliers are generally due within 30 days of check-in or stay. Cancellation fees are collected and remitted to the supplier, if applicable.

Groups/Escorted: They are generally prepaid to us, we send quotes to agencies depending on their travel requests, revenue from both groups and escorted are recognized at a point in time on arrival dates.

Prepaid Merchant Bookings: We classify payments made to suppliers in advance of performance obligations as prepaid

Disaggregation of Revenue:

The Company provide 3 types of tour services:

1. VIP Service: In this service individual travelers willing to travel US make the booking through the Company's authorized travel agents.
2. Group Service: In this service group travelers willing to travel US make the booking through the Company's authorized travel agents.
3. Escorted Services: In this service Company offers a comprehensive selection of multi-lingual and language exclusive escorted coach programs that represent the essence of both the natural and man-made wonders of the USA. Booking is done through the Company's authorized travel agents.

Fair Value Recognition, Measurement and Disclosure

The carrying amounts of cash and cash equivalents and restricted cash and cash equivalents reported on our balance sheet are approximately fair value as we maintain them with various high-quality financial institutions. The accounts receivables are short-term in nature and are generally settled shortly after the sale.

We disclose the fair value of our financial instruments based on the fair value hierarchy using the following three categories:

Level 1 — Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2 — Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 — Valuations based on unobservable inputs reflecting the Company's own assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

Income Taxes

The Company, with the consent of its members, has elected to be treated as an "C" corporation under Section 1362 of the Internal Revenue Code. The Company records income taxes under the liability method. Deferred tax assets and liabilities reflect our estimation of the future tax consequences of temporary differences between the carrying amounts of assets and liabilities for book and tax purposes. We determine deferred income taxes based on the differences in accounting methods and timing between financial statement and income tax reporting. Accordingly, we determine the deferred tax asset or liability for each temporary difference based on the enacted tax rates expected to be in effect when we realize the underlying items of income and expense.

We consider many factors when assessing the likelihood of future realization of our deferred tax assets, including our recent earnings experience by jurisdiction, expectations of future taxable income, and the carryforward periods available to us for tax reporting purposes, as well as other relevant factors. We may establish a valuation allowance to reduce deferred tax assets to the amount we believe is more likely than not to be realized. Due to inherent complexities arising from the nature of our businesses, future changes in income tax law, tax sharing agreements or variances between our actual and anticipated operating results, we make certain judgments and estimates. Therefore, actual income taxes could materially vary from these estimates. All deferred income taxes are classified as long-term on our balance sheets.

Selling and Marketing Expenses

The Company's advertising expenses are reported in " Advertisement and marketing expenses" in the Statements of Profit & Loss. Advertisement and marketing expenses consist of performance marketing expenses. Performance marketing expenses are expenses generally measured by return on investment or an increase in bookings over a specified time period. These expenses consist primarily of the costs of: (1) search engine keyword purchases; (2) referrals from meta-search and travel research websites; (3) affiliate programs; (4) offline and online brand marketing;

Employee benefits expense

Employee benefits expenses consist of compensation to the Company's personnel, including salaries, stockbased compensation, bonuses, payroll taxes and employee health and other benefits.

The Company maintains a defined contribution 401(k) savings plan covering certain U.S. employees.

Goodwill

We assign the value of the consideration transferred to acquire a business to the tangible assets and identifiable intangible assets acquired and liabilities assumed on the basis of their fair values at the date of acquisition. Any excess purchase price over the fair value of the net tangible and intangible assets acquired is allocated to goodwill. During 2018, Thomas Cook India Limited acquired 100% shareholding of AlliedTPro which generated the goodwill amounted to $2,462,283.

Goodwill is evaluated for impairment on an annual basis. During FY 2025-26, the Company performed its annual goodwill impairment test and concluded that there was no impairment of goodwill.

Certain Risks and Concentrations

Our business is subject to certain risks and concentrations including dependence on relationships with travel suppliers and hotels, dependence on third-party technology providers, exposure to risks associated with online commerce security and payment related fraud. We also rely on global distribution system partners and third-party service providers for certain fulfillment services.

Financial instruments, which potentially subject us to concentration of credit risk, consist primarily of cash and cash equivalents. We maintain some cash and cash equivalents balances with financial institutions that are in excess of Federal Deposit Insurance Corporation insurance limits. Our cash and cash equivalents are primarily consisting of bank (both interest and non-interest bearing) account balances denominated in U.S. dollars.

Independent Auditor's Report

To the Members of Nature Trails Resorts Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Nature Trails Resorts Private Limited (the "Company") which comprise the balance sheet as at 31 March 2026, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India relating to the liquidation basis of accounting, of the state of affairs of the Company as at 31 March 2026, and its loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Emphasis of Matter

a. We draw attention to Note 34 to the financial statements, which explains that in view of the sale of business operations of three resorts to Thomas Cook (India) Limited through a slump sale transaction, the going concern assumption is not appropriate for the preparation of financial statements of the Company as at and for the year ended 31 March 2026. Accordingly, the financial statements of the Company have been prepared on a liquidation basis i.e. assets are measured at lower of carrying amount and estimated net realisable values and liabilities are stated at their estimated settlement amounts in the financial statements.

   Our opinion is not modified in respect of this matter.

Management's and Board of Directors' Responsibilities for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India relating to the liquidation basis of accounting, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing

and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. In the present case, liquidation basis of accounting has been followed since the management has concluded that going concern basis of accounting is not appropriate in the facts and circumstances as stated in the note 34 to the financial statements.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern. In the present case, liquidation basis of accounting has been used since the Management and Board of Directors have concluded that the use of going concern basis is not appropriate in the facts and circumstances as stated in Note 34.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

TTHM

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2 A. As required by Section 143(3) of the Act, we report that:

   a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matter stated in the paragraph 2(B)(f) below on reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014.

   c. The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

   d. In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act as applicable to liquidation basis of accounting.

   e. The matters described in the Basis for Disclaimer of Opinion paragraph in "Annexure B" with respect to adequacy and operating effectiveness of the internal financial controls with reference to financial statements of the Company, in our opinion, may have an adverse effect on the functioning of the Company.

   f. On the basis of the written representations received from the directors as on 31 March 2026 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2026 from being appointed as a director in terms of Section 164(2) of the Act.

   g. the qualification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2A(e) above on reporting under Section 143(3)(f), paragraph 2A(b) above on reporting under Section 143(3)(b) and paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

   h. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B."

B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   a. The Company does not have any pending litigations which would impact its financial position.

   b. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   c. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

THM

d (i) The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 36(iv) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(ii) The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 36(v) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(iii) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.

e. The Company has neither declared nor paid any dividend during the year.

f. Based on our examination which included test checks, the Company has used accounting softwares from third party service providers for maintaining its books of account relating to general ledger, revenue and payroll. At the application level, the accounting softwares have a feature of recording audit trail (edit log) facility and the same has operated throughout the for all relevant transactions recorded in the software. Further, during the course of our audit, did not come across any instance of audit trail feature being tampered with. While the systems used for general ledger and revenue support audit trail functionality, we are unable to comment whether it was enabled at the database level due to the absence of relevant reporting in the independent auditor's report in relation to controls at service organization. With respect to the payroll software, based on the relevant reporting in the independent auditor's report in relation to controls at service organization, the audit trail (edit log) facility has been enabled at the database level and the same has operated throughout the for all relevant transactions recorded in the software. The Company has retained audit logs as per statutory requirements, except for the instances mentioned above.

THM

<this space has been intentionally left blank>

C. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the Company has not paid any remuneration to its directors during the year. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure A to the Independent Auditor's Report on the Financial Statements of Nature Trails Resorts Private Limited for the year ended 31 March 2026

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) According to the information and explanations provided to us and on basis of our examination of the records of the Company, the Company does not have any intangible assets. Accordingly, clause 3(i)(a)(B) of the Order is not applicable.

(i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of three years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No discrepancies were noticed on such verification.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee) disclosed in the financial statements are held in the name of the Company.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment during the year.

(e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) The inventory has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable, and procedures and coverage as followed by management were appropriate. No discrepancies identified in the books of account.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been sanctioned any working capital limits in excess of five crore rupees in aggregate from banks and financial institutions on the basis of security of current assets at any point of time of the year. Accordingly, clause 3(ii)(b) of the Order is not applicable to the Company.

(iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. Accordingly, provisions of clauses 3(iii)(a) to 3(iii)(f) of the Order are not applicable to the Company.

(iv) According to the information and explanations given to us and on the basis of our examination of records of the Company, the Company has neither made any investments nor has it given loans or provided guarantee or security and therefore the relevant provisions of Sections 185 and 186 of the Companies Act, 2013 ("the Act") are not applicable to the Company. Accordingly, clause 3(iv) of the Order is not applicable.

(v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act for the services provided by it. Accordingly, clause 3(vi) of the Order is not applicable.

THM

Annexure A to the Independent Auditor's Report on the Financial Statements of Nature Trails Resorts Private Limited for the year ended 31 March 2026 *(Continued)*

(vii) (a) The Company does not have liability in respect of Service tax and Duty of excise during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion, the undisputed statutory dues including Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax or Cess or other statutory dues have generally been regularly deposited with the appropriate authorities.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax or Cess or other statutory dues were in arrears as at 31 March 2026 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no statutory dues relating to Goods and Service Tax, Income-Tax Provident Fund, Employees State Insurance, or Cess or other statutory dues, which have not been deposited with the appropriate authorities on account of any dispute.

(viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

(ix) (a) Loans amounting to INR 245.93 lakhs are repayable on demand and terms and conditions for payment of interest thereon have not been stipulated. According to the information and explanations given to us, such loans have not been demanded for repayment during the relevant financial year.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been declared a willful defaulter by any bank or financial institution or government or government authority.

(c) According to the information and explanations given to us by the management, the Company has not obtained any term loans during the year. Accordingly, clause 3(ix)(c) of the Order is not applicable.

(d) According to the information and explanations given to us, and the procedures performed by us and on an overall examination of the financial statements of the Company, we report that the Company has used funds raised on short-term basis aggregating to INR 191.48 lakhs for long-term purposes.

(e) The Company does not hold any investment in any subsidiaries, associates or joint ventures (as defined under the Act) during the year ended 31 March 2026. Accordingly, clause 3(ix)(e) is not applicable.

(f) The Company does not hold any investment in any subsidiaries, associates or joint ventures (as defined under the Act) during the year ended 31 March 2026. The Company has not raised any loans during the year. Accordingly, clause 3(ix)(f) is not applicable.

(x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.

(xi) (a) During the course of our examination of the books and records of the Company and according to the information and explanations given to us, no fraud by the Company or on the Company

THM

Annexure A to the Independent Auditor's Report on the Financial Statements of Nature Trails Resorts Private Limited for the year ended 31 March 2026 *(Continued)*

has been noticed or reported during the year.

(b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.

(xii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(xiii) The requirements as stipulated by the provisions of Section 177 of the Act are not applicable to the Company. In our opinion and according to the information and explanations given to us and on the basis of our examination of records of the Company, transactions with the related parties are in compliance with Section 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) (a) In our opinion and based on the information and explanations provided to us, the Company does not have an Internal Audit system and is not required to have an internal audit system as per Section 138 of the Act.

(b) In our opinion and based on the information and explanations provided to us, the Company does not have an internal audit system and is not required to have an internal audit system as per Section 138 of the Act. Accordingly, clause 3(xiv)(b) of the Order is not applicable.

(xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.

(b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.

(d) The Company is not part of any group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016 as amended). Accordingly, the requirements of clause 3(xvi)(d) are not applicable.

(xvii) The Company has incurred cash losses of INR 58.40 lakhs in the current financial year and INR 358.31 lakhs in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

(xix) We draw attention to Note 34 of the financial statements which explains that the going concern assumption is no longer valid and these financial statements have been prepared on liquidation basis.

On the basis of the above and according to the information and explanations given to us during the course of audit and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, the aforesaid events or conditions indicate that that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date.

THM

Annexure A to the Independent Auditor's Report on the Financial Statements of Nature Trails Resorts Private Limited for the year ended 31 March 2026 *(Continued)*

(xx) The requirements as stipulated by the provisions of Section 135 are not applicable to the Company. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

Annexure B to the Independent Auditor's Report on the financial statements of Nature Trails Resorts Private Limited for the year ended 31 March 2026

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(h) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Disclaimer of Opinion

We were engaged to audit the internal financial controls with reference to financial statements of Nature Trails Resorts Private Limited ("the Company") as of 31 March 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

We do not express an opinion on internal financial controls with reference to financial statements of the Company. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report below, we are unable to obtain sufficient appropriate audit evidence to provide a basis for our opinion whether the Company had adequate internal financial controls with reference to financial statements and whether such internal financial controls were operating effectively as at 31 March 2026.

We have considered the disclaimer reported above in determining the nature, timing, and extent of audit tests applied in our audit of the financial statements of the Company, and the disclaimer does not affect our opinion on the financial statements of the Company.

Basis for Disclaimer of Opinion

The system of internal financial controls with reference to financial statements of the Company as at 31 March 2026 was not made available to us to determine if the Company has established adequate internal financial controls with reference to financial statements and whether such internal financial controls were operating effectively as at 31 March 2026.

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit conducted in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements.

Because of the matter described in the Basis for Disclaimer of Opinion paragraph above, we were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion on the internal financial controls with reference to financial statements of the Company.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to

THM

Annexure B to the Independent Auditor's Report on the financial statements of Nature Trails Resorts Private Limited for the year ended 31 March 2026 *(Continued)*

provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

1.1 Reporting entity

Nature Trails Resorts Private Limited ('the Company') is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is registered with the Ministry of Corporate Affairs under Corporate Identification Number (CIN) : U55100MH200PTC150901.

The Company's registered office is at Purva Primus, 4th Floor, 236, Okkiyampettai, Old Mahabalipuram Road, Thoraipakkam, Chennai - 600097. Sterling Holiday Resorts Limited ('Parent company') holds 100% of the share capital. The ultimate holding company is Fairfax Financial Holdings Limited, Canada.

The Board of Directors, vide board resolution dated February 3, 2025 entered into a Business transfer agreement with Thomas Cook India Limited for the sale and divestment of entire business operations of three resorts, as a going concern on a slump sale basis.

As the going concern basis of accounting is no longer appropriate, these financial statements have been prepared under liquidation basis of accounting whereby assets are valued at their estimated realizable value and the liabilities are valued at estimated payable values.

1.2 Basis of preparation

(a) Statement of compliance

These financial statements of have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act as amended from time to time.

The financial statements were approved for issue by the Company's Board of Directors on May 05, 2026.

Details of the Company's material accounting policies are included in note 1.3. The Company has consistently applied the accounting policies to all the periods present in these financial statements.

(b) Basis of measurement

These financial statements have been prepared on a historical cost basis and on an accrual basis, except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value

(c) Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All the financial statements have been rounded-off to the nearest lakhs, or decimals thereof, unless otherwise indicated. Transactions and balances with values below the rounding off norm adopted by the Company have been reflected as "-" in the relevant notes in these financial statements.

(d) Use of estimates and judgements

In preparing these financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgement

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties at the reporting date that have a significant risk of resulting in a significant adjustment to the carrying amounts of assets and liabilities within the next financial year is included in the following notes. Actual results may be different from these estimates.

Note 1.3 : Estimation of useful lives of property, plant and equipment and intangible assets
Note 1.3 (i) and Note 16: Revenue recognition: estimate of expected returns.
Note 24 : Determine the fair value of financial assets or liability based on unobservable inputs

(e) Measurement of fair values

A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. The Company regularly reviews significant unobservable inputs and valuation adjustments, including level 3 fair values. If third party information is used to measure fair values, then the Company assesses the evidence obtained from the third parties to support the conclusion that these valuation meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.
- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. The inputs used to measure the fair value of assets or a liability fall into different levels of the fair value hierarchy. Accordingly, the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the low level input that is significant to the entire measurement.

Management uses various valuation techniques to determine fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management based on its assumptions on observable data as far as possible but where it not available, the management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

(f) Current and Non-current classification

Based on the nature of services / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

(g) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief operating decision maker. The Chairman – Whole Time Director (WTD) of the Company has been identified as the chief operating decision maker of the Company who assesses the financial performance and position of the Company and makes strategic decisions. Refer Note 26 for segment information presented.

BSR & Co. LLP ★ Chartered Accountants ★

Nature Trails Resorts Private Limited

1.3 Material accounting policies

(a) Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction. Foreign exchange gain and losses from settlement of these transactions are recognised in the statement of profit or loss.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate as at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of transaction. Exchange differences arising on translation are recognised in the statement of profit or loss.

(b) Financial instruments

(i) Recognition and initial measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus or minus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.
However, if the Company has an unconditional right to an amount that differs from the transaction price (e.g. due to the Company's refund policy), the trade receivable will be initially measured at the amount of that unconditional right.

(ii) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at:
- amortised cost;
- Fair value through other comprehensive income (FVOCI) – debt investment;
- Fair value through other comprehensive income (FVOCI) – equity investment; or
- Fair value through profit and loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition unless the company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

a) Non-derivative financial assets

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:
- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments at FVTOCI

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:
- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Equity instruments at FVTOCI

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.
Where the Company elects to designate an equity instrument at fair value through other comprehensive income (FVOCI), all changes in fair value, except for dividend income, are recognised in other comprehensive income and are not subsequently reclassified to the Statement of Profit or Loss.

Financial assets at FVTPL

All financial assets not classified as measured at amortised cost or FVTOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on fair value basis are measured at FVTPL.

BSR & Co. LLP ★ Chartered Accountants ★

Nature Trails Resorts Private Limited ★

1.3 Material accounting policies *(continued)*

(b) Financial instruments *(continued)*

(ii) Classification and subsequent measurement *(continued)*

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non- recourse features).

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest *(continued)*

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets – Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

(iii) De-recognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different, in which case, a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

BSR & Co. LLP ★ Chartered Accountants ★

Nature Trails Resorts Private Limited ★

1.3 Material accounting policies *(continued)*

(c) Property, plant and equipment

(i) Recognition and measurement

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Items of property, plant and equipment (including capital-work-in progress) are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses.

Cost of an item of property, plant and equipment comprises:

a. purchase price, including import duties and non-refundable taxes on purchase (goods and service tax), after deducting trade discounts and rebates.

b. any directly attributable cost of bringing the item to its working condition for its intended use, estimated costs of dismantling and removing the item and restoring the site on which it is located.

Cost of a self-constructed item of property, plant and equipment comprises:

a. the cost of materials and direct labour;

b. any directly attributable cost of bringing the item to its working condition for its intended use, estimated costs of dismantling and removing the item and restoring the site on which it is located.

Any gain/ loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably.

(iii) Depreciation

Depreciation is calculated on the cost of items of property, plant and equipment less their estimated residual values over the estimated useful lives using the straight-line method and is generally recognised in the Statement of profit or loss. Freehold land is not depreciated.

Depreciation on property, plant and equipment is charged over the estimated useful life of the asset as evaluated on technical assessment on straight-line method, in accordance with Part A and C of Schedule II to the Companies Act, 2013.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows::

Asset	Management estimate of useful life	Useful life as per Schedule II
Plant and equipment	15	15
Electrical equipment	10	10
Office equipment	5	5
Furniture and fixtures	8 to 10	10
Computer equipments – Desktop, laptop and end-user items	3	3
Computer equipments – Servers and Network	6	6
Vehicles	8	8 - 10 years

Depreciation method, useful lives and residual values are reviewed at each financial period-end and adjusted if necessary, for each reporting period. Based on technical assessment and consequent advice, the management believes that its estimate of useful life as given above best represent the period over which management expects to use the asset.

On property, plant and equipment added/ disposed off during the period, depreciation is charged on pro-rata basis for the period from/up to which the asset is ready for use/disposed off.

(d) Inventories

Inventories are measured at the lower of cost and net realisable value.

Inventories comprising of provisions, perishables, beverages and operating supplies are stated at lower of cost and net realizable value. Cost is determined using the Weighted average method. The cost comprises of purchase price, non-refundable taxes and delivery handling cost incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Inventories are written down for slow moving/ non-moving items, wherever necessary.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale. Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases when a decline in the price of materials indicates that the cost of the finished products shall exceed the net realisable value.

The comparison of cost and net realisable value is made on an item-by-item basis.

BSR & Co. LLP ★ Chartered Accountants ★

Nature Trails Resorts Private Limited ★

1.3 Material accounting policies *(continued)*

(e) Impairment

(i) Impairment of financial instruments

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost and contract assets.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:
• debt securities and loans that are determined to have low credit risk at the reporting date; and
• other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables and contract assets are always measured at an amount equal to lifetime ECLs.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating expected credit losses is the maximum contractual
period over which the Company is exposed to credit risk.
When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information.

The Company considers a financial asset to be in default when:
- the recipient is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or

- the financial asset is more than 180 days past due.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).
ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether such financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:
- significant financial difficulty;
- a breach of contract such as a default or being more than 180 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Company has a policy of writing off the gross carrying amount when the financial asset is 180 days past due based on historical experience of recoveries of similar assets. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

(ii) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than biological assets, inventories, contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an individual asset or CGU is the greater of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.
Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

In respect of other assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss previously recognised is reversed only if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. Such a reversal is made only to the extent that the asset's carrying amount neither exceeds its recoverable amount nor the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

BSR & Co. LLP Chartered Accountants

Nature Trails Resorts Private Limited

1.3 Material accounting policies *(continued)*

(f) (i) Revenue recognition

The Company is engaged in providing holiday facilities to its members for a specified period each year over the tenure of the membership, along with operating hotels, holiday resorts, and offering hospitality services including room rentals, tour packages, and allied services.

Revenue is recognised in accordance with Ind AS 115, which requires revenue to be recognised in a manner that depicts the transfer of promised goods or services to customers at an amount that reflects the consideration to which the Company expects to be entitled. Accordingly, the Company follows the five-step model prescribed under Ind AS 115, which includes the identification of contracts with customers, identification of performance obligations, determination of the transaction price, allocation of the transaction price to the identified performance obligations, and recognition of revenue as and when such performance obligations are satisfied, either over time or at a point in time, as applicable.
Income from resort operations and maintenance services (being leisure hospitality services) comprising of sale of food and beverages, room rentals and other services are recognised when these are sold and when services are rendered.

(ii) Contract balances

^ Contract assets
A contract asset is the right to consideration in exchange for services rendered to the customer. If the Company renders services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

^ Contract liabilities
A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration has received consideration, or for which an amount of consideration is due from the customer. Contract liabilities are recognised as revenue when the Company performs under the contract.

(iii) Interest income or expense

Interest income or expense is recognised using the effective interest method.
The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:
- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability.
However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

(g) Provisions (other than for employee benefits), Contingent liabilities and Contingent assets

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Expected future operating losses are not provided for.

Where the Company expects some or all of the expenditure required to settle a provision will be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement is treated as a separate asset.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. A provision for onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract, which is determined based on the incremental costs of fulfilling the obligation under the contract and an allocation of other costs directly related to fulfilling the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with that contract.

Contingent liabilities

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets

Contingent asset is not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognized.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

<This space has been intentionally left blank>

BSR & Co. LLP ★ Chartered Accountants ★

Nature Trails Resorts Private Limited ★

1.3 Material accounting policies *(continued)*

(h) Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in Other comprehensive income.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

(i) Current tax

Current tax comprises of the expected tax payable or receivable on the taxable income or loss for the period and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted at the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

(ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that:

(i) is not a business combination; and

(ii) at the time of the transaction;

a.) that affects neither accounting nor taxable profit or loss and

b.) does not give rise to equal taxable and deductible temporary differences.

- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

(i) Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

(j) Earnings per share

a) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year (refer Note 27).

b) Diluted earnings per share

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

BSR & Co. LLP ★ Chartered Accountants ★

Nature Trails Resorts Private Limited ★

1.3 Material accounting policies *(continued)*

(k) Cash flows Statement

Cash flows are reported using the indirect method, whereby profit / (loss) is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information. In cash flow statement, cash and cash equivalents include cash in hand, balances with banks in current accounts and other short-term highly liquid investments with original maturities of three months or less.

(l) Cash and cash equivalents (for the purpose of cash flow statement)

Cash comprises of cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

1.4 Recent pronouncements

The Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2026, MCA has notified the following:

Ind AS 1 - Presentation of Financial Statements

For accounting periods beginning on or after 1 April 2026, when an entity breaches any covenant of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand, it classifies the liability as current, even if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach. An entity classifies the liability as current because, at the end of the reporting period, it does not have the right to defer its settlement for at least 12 months after that date.

However, an entity classifies the liability as non-current if the lender agreed by the end of the reporting period to provide a period of grace ending at least 12 months after the reporting period, within which the entity can rectify the breach and during which the lender cannot demand immediate repayment. This amendment is to be applied retrospectively for annual reporting periods beginning on or after 1 April 2026, in accordance with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors.

(b) Rights, preferences and restrictions attached to equity shares

The company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the company's residual assets on winding up. The equity shares are entitled to receive dividend as declared from time to time. The dividend proposed, if any, by the Board of Directors is subject to the approval of the Shareholders in the ensuing Annual General Meeting, except in case of interim dividend. The voting rights of an equity shareholder are in proportion to his/its share of the paid-up equity share capital of the company. On winding up of the company, the holders of equity shares will be entitled to receive the residual assets of the company, in proportion to the number of equity shares held.

(c) Shares held by holding/ultimate holding company (i.e., parent of the Group) and/or their subsidiaries/associates

	As at March 31, 2026		As at March 31, 2025

25 Financial risk management

The Company's activities expose it to market risk, liquidity risk and credit risk.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost.	Aging analysis and credit rating	Diversification of portfolio and Assessment of customer credit worthiness at inception and throught the credit period
Liquidity risk	Borrowings, trade payables and other liabilities	Cash flow forecasts	Availability of committed credit lines and borrowing facilities

The company's risk management is carried out by a central treasury department (group treasury) under policies approved by the board of directors. The board provides principles for overall risk management, as well as policies covering specific areas, such as interest rate risk, credit risk, non-derivative financial instruments and investment of excess liquidity.

(A) Credit risk

Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, as well as credit exposures towards outstanding receivables.

(B) Liquidity risk

The Company manages liquidity risk by maintaining adequate reserves and banking facilities, by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities.

Maturities of financial liabilities

The tables below analyse the company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

a) all non-derivative financial liabilities, and

b) net and gross settled derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Contractual maturities of financial liabilities:	Carrying amount	Less than 3 months	Within one year	Between 1 and 2 years	Between 2 and 5 years	Total
As at March 31, 2026						
Non-derivatives

Other financial liabilities	-	-	-	-	-	-
Total non-derivative liabilities	**253.55**	**253.55**	-	-	-	**253.55**
As at March 31, 2025						
Non-derivatives						
Borrowings (including interest accrued)	205.76	205.76	-	-	-	205.76
Lease liabilities	-	-	-	-	-	-
Trade payables	11.79	11.79	-	-	-	11.79
Other financial liabilities	-	-	-	-	-	-
Total non-derivative liabilities	**217.55**	**217.55**	-	-	-	**217.55**

C) Market risk - Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market interest rates.

The Company does not have any credit facilities from any banks or financial institutions. As a result, changes in interest rates are not likely to substantially affect its business or results of operations. The Company does not have any credit facilities from any banks or financial institutions. As a result, changes in interest rates are not likely to substantially affect its business or results of operations.

	March 31, 2026	March 31, 2025

Nature Trails Resorts Private Limited ★

26 Segment information

Description of segments and principal activities

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief operating decision maker. The Chairman-Whole Time Director (WTD) of the Company has been identified as the chief operating decision maker of Sterling Holiday Resorts Limited who assesses the financial performance and position of the Company, and makes strategic decisions. As the Company does not have any operations during the year, no reportable segments have been identified.

Geographical information

The geographic information analyses the Company's revenues and non-current assets by the Company's country of domicile (i.e. India) and other countries. The Company generated all its revenue from India and all the assets of the Company are located in India.

Major customer

The Company is not reliant on revenues from transactions with any single external customer and does not receive 10% or more of its revenues from transactions with any single external customer.

27 Earnings per share

(See accounting policy in note 1.3 (j))	As at March 31, 2026	As at March 31, 2025
Profit for the year attributable to the equity holders of the Company	(60.90)	(542.47)
Weighted average number of equity shares outstanding (in lakhs)	1.48	1.48

	As at March 31, 2026	As at March 31, 2025
28 Contingent liabilities and Capital commitments		
The Company does not have contingent liabilities and capital expenditure contracted for at the end of the reporting period but not recognised as liabilities	-	-

29 Capital management

Risk management

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The Company manages its capital so as to safeguard their ability to continue as a going concern and to optimize returns to shareholders. The Capital structure of the Company is based on the management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor and creditor confidence.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The company monitors the capital using a gearing ratio, which is net debt divided by total equity. Net debt is calculated as total liabilities (as shown in the balance sheet) less cash and cash equivalents and other bank balances. The Company's net debt to equity ratio i.e., capital gearing ratio at March 31 2026, is as follows:

	As at March 31, 2026	As at March 31, 2025
Total financial liabilities	253.55	217.55
Less: Cash and cash equivalents and other bank balances	22.54	190.50
Adjusted net debt	276.09	408.05
Total equity	(146.85)	(85.95)
Adjusted net debt to equity ratio	**(1.88)**	**(4.75)**

32 Ratio analysis and its elements

Ratio	Numerator	Denominator	March 31, 2026	March 31, 2025	% change	Reason for variance
Current ratio	Current assets	Current liabilities	0.27	0.63	-56%	The current ratio decreased primarily due to repayment of current liabilities during the year, coupled with a reduction in cash and cash equivalents.
Debt- equity ratio	Total debt	Shareholder's equity	NA	0.03	NA	Refer Note 1 below
Debt service coverage ratio (in times)	Earnings for debt service = Net profit after taxes + Non-cash operating expenses	Debt service = Interest and lease payments +principal repayments	(0.13)	(0.19)	-29%	The debt service coverage ratio remained negative owing to losses incurred during the year, resulting in insufficient earnings to cover debt servicing obligations
Return on equity ratio	Net Profits after taxes	Average shareholder's equity	NA	-279%	NA	Refer Note 1 below
Inventory turnover ratio	Cost of goods sold	Average inventory	NA	41.61	NA	Refer Note 1 below
Trade receivable turnover ratio	Net credit sales = Gross credit sales - sales return	Average trade receivables	NA	27.00	NA	Refer Note 1 below
Trade payable turnover ratio	Net credit purchases = Gross credit purchases - purchase return	Average trade payables	0.03	3.26	-99%	The trade payable turnover ratio decreased primarily due to timely settlement of trade payables during the year compared to the previous year.
Net capital turnover Ratio	Net sales = Total sales - sales return	Working capital = Current assets – Current liabilities	NA	(5.89)	NA	Refer Note 1 below
Net profit ratio	Net Profit	Net sales = Total sales - sales return	NA	-64%	NA	Refer Note 1 below
Return on capital employed	Earnings before interest and taxes	Capital Employed = Total Assets - Current Liabilities	NA	115%	NA	Refer Note 1 below

Note 1: The Company did not have any operations during the year resulting in deterioration of ratios during the year.

Nature Trails Resorts Private Limited is engaged in business of operations, campsites and activity camps. The Company is a 100% subsidiary of Sterling Holiday Resorts Limited ('Holding company'). Thomas Cook India Limited ('TCIL') is the intermediate holding company and Fairfax Financial Holdings Limited, Canada, is the ultimate holding company.

Nature trails is focused on adventure-driven experiences, attracting activity-seeking travelers which is an emerging and fast-growing demographic for Thomas Cook India Limited in the domestic segment. Hence, the Company, along with TCIL decided to transfer Nature trails resorts business to TCIL to enable faster growth of such business through synergies, optimization of resources and enhanced services to customers.

The proposed transaction was approved by the board on 3rd February 2025 and Nature Trails Resorts Private Limited entered into a Business transfer agreement "BTA" with Thomas cook India Limited on March 19, 2025 for the sale and divestment of entire business operations of three resorts, as a going concern on a slump sale basis, for a consideration of approximately 522,500,000/-. The transaction was an all-cash deal.

As per BTA, the undertaking along with all related assets and liabilities (refer table below) stands transferred and vested in Thomas cook India Limited from 1 March 2025.

Directors' Responsibilities and Approval

The directors are required in terms of the Companies Act of South Africa to maintain adequate accounting records and are responsible for the content and integrity of the financial statements and related financial information included in this report. It is their responsibility to ensure that the financial statements fairly present the state of affairs of the company as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with IFRS Accounting Standards.

The financial statements are prepared in accordance with IFRS Accounting Standards and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal financial control established by the company and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the directors set standards for internal control aimed at reducing the risk of error or loss in a cost-effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the company and all employees are required to maintain the highest ethical standards in ensuring the company's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the company is on identifying, assessing, managing and monitoring all known forms of risk across the company. While operating risk cannot be fully eliminated, the company endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The directors have reviewed the company's cash flow forecast for the year to 31 December 2026 and, in light of this review and the current financial position, they are satisfied that the company has or had access to adequate resources to continue in operational existence for the foreseeable future.

The independent reviewer is responsible for independently reviewing and reporting on the company's financial statements. The financial statements have been examined by the company's independent reviewers and their report is presented on pages 6 to 7.

The financial statements set out on page 8, which have been prepared on the going concern basis, were approved by the directors on 9 June 2026 and were signed on their behalf by:

Approval of financial statements

V Barnard

MC Iyer

Directors' Report

The directors have pleasure in submitting their report on the financial statements of Private Safaris Proprietary Limited for the year ended 31 December 2025.

1. Nature of business

Private Safaris Proprietary Limited was incorporated in South Africa with interests in the Services industry. The company operates in South Africa.

There have been no material changes to the nature of the company's business from the prior year.

2. Review of financial results and activities

The financial statements have been prepared in accordance with IFRS Accounting Standards and the requirements of the Companies Act of South Africa. The accounting policies have been applied consistently compared to the prior year.

Full details of the financial position, results of operations and cash flows of the company are set out in these financial statements.

3. Share capital

There have been no changes to the authorised or issued share capital during the year under review.

4. Dividends

The company's dividend policy is to consider an interim and a final dividend in respect of each financial year. At its discretion, the directors may consider a special dividend, where appropriate. Depending on the perceived need to retain funds for expansion or operating purposes, the directors may pass on the payment of dividends.

Given the current state of the global economic environment, the directors believes that it would be more appropriate for the company to conserve cash and maintain adequate debt headroom to ensure that the company is best placed to withstand any prolonged adverse economic conditions. Therefore the directors has resolved not to declare a dividend for the financial year ended 31 December 2025.

The directors do not recommend the declaration of a dividend for the year.

5. Directorate

The directors in office at the date of this report are as follows:

Directors	Office	Designation
V Barnard	Chairperson	Executive
MC Iyer		Executive

Resignations

Directors	Cause of change	Designation	Date
MK Menon	Resignation	Executive	31 May 2025

6. Interests in associates and joint arrangements

Details of material interests in subsidiary companies are presented in the financial statements in note 5.

The interest of the company in the profits and losses of its subsidiaries for the year ended 31 December 2025 are as follows:

	Company	
	2025	2024
	R	R
Subsidaries		
Total profits before income tax	4,502,896	2,338,307

There were no significant acquisitions or divestitures during the year ended 31 December 2025.

Directors' Report

7. Ultimate holding company

The company's ultimate holding company is Fairfax Financial Holdings Group which is incorporated in Toronto, Canada.

8. Events after the reporting period

The directors are not aware of any material event which occurred after the reporting date and up to the date of this report.

9. Going concern

We draw attention to the fact that at 31 December 2025, the company had accumulated losses of R 4,415,482 (2024: R22,377,978) and that the company's total liabilities exceed its total assets by R 3,915,482 (2024: R21,877,978).

Consequently, the annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The ability of the company to continue as a going concern has been confirmed through the intervention of the company's shareholder, which continues to provide financial support to enable the company to meet its liabilities in the ordinary course of business and which shall extend to at least the next financial year end.

Also, the fact that the total liabilities exceed the assets has not hindered the company's ability to pay its debts as they have become due in the normal course of business.

10. Review

The financial statements are subject to an independent review and have been reviewed by LPH Chartered Accountants Inc.

11. Secretary

The company secretary is Ms S Windust.

12. Employees

The average number of employees for the year under review was 36 (2024: 36).

Independent Reviewer's Report

To the Shareholder of Private Safaris Proprietary Limited

We have reviewed the financial statements of Private Safaris Proprietary Limited, set out on pages 8 to 40, which comprise the statement of financial position as at 31 December 2025, statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

Directors' Responsibility for the Financial Statements

The directors are responsible for the preparation and fair presentation of these financial statements in accordance with the International Financial Reporting Standards and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Reviewer's Responsibility

Our responsibility is to express a conclusion on these financial statements. We conducted our review in accordance with the International Standard on Review Engagements (ISRE) 2400 (Revised), Engagements to Review Historical Financial Statements (ISRE 2400 (Revised)). ISRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements, taken as a whole, are not prepared in all material respects in accordance with the applicable financial reporting framework. This Standard also requires us to comply with relevant ethical requirements.

A review of financial statements in accordance with ISRE 2400 (Revised) is a limited assurance engagement. The independent reviewer performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing. Accordingly, we do not express an audit opinion on these financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that these financial statements do not present fairly, in all material respects the financial position of Private Safaris Proprietary Limited as at 31 December 2025, and its financial performance and cash flows for the year then ended in accordance with IFRS Accounting Standards and the requirements of the Companies Act of South Africa.

Independent Reviewer's Report

Other Reports Required by the Companies Act of South Africa

The financial statements include the Directors' Report as required by the Companies Act of South Africa. The directors are responsible for the Directors' Report. Our conclusion on the financial statements does not cover the Directors' Report and we do not express any form of assurance conclusion thereon.

In connection with our independent review of the financial statements, we have read the Directors' Report and, in doing so, considered whether the Directors' Report is materially inconsistent with the financial statements or our knowledge obtained in the independent review, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the Directors' Report, we will report that fact. We have nothing to report in this regard.

Accounting Policies

1. Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

1.1 Basis of preparation

The financial statements have been prepared on the going concern basis in accordance with, and in compliance with, IFRS Accounting Standards and FRIC Interpretations issued and effective at the time of preparing these financial statements and the Companies Act of South Africa as amended.

These financial statements comply with the requirements of the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and the Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council.

The financial statements have been prepared on the historic cost convention, unless otherwise stated in the accounting policies which follow and incorporate the material accounting policies set out below. They are presented in Rands, which is the company's functional currency.

These accounting policies are consistent with the previous period.

1.2 Material judgements and sources of estimation uncertainty

The preparation of financial statements in conformity with IFRS requires management, from time to time, to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Critical judgements in applying accounting policies

The critical judgements made by management in applying accounting policies, apart from those involving estimations, that have the most significant effect on the amounts recognised in the financial statements, are outlined as follows:

Loans and receivables/impairment

The company assesses its loans and receivables for impairment at each balance sheet date. In determining whether an impairment loss should be recorded in the income statement, the company makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

Key sources of estimation uncertainty

Fair value estimation

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques such as estimated discounted cash flows and are used to determine fair value of financial instruments. Discounting factors are based on assumptions that correlated to market conditions existing at each balance sheet date.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the company for similar financial instruments.

Useful lives of property, plant and equipment

Management assess the appropriateness of the useful lives of property, plant and equipment at the end of each reporting period. The useful lives of motor vehicles, furniture and computer equipment are determined based on company replacement policies for the various assets. Individual assets within these classes, which have a significant carrying amount are assessed separately to consider whether replacement will be necessary outside of normal replacement parameters. The useful life of manufacturing equipment is assessed annually based on factors including wear and tear, technological obsolescence and usage requirements.

When the estimated useful life of an asset differs from previous estimates, the change is applied prospectively in the determination of the depreciation charge.

Accounting Policies

1.2 Material judgements and sources of estimation uncertainty (continued)

Provisions

Provisions are inherently based on assumptions and estimates using the best information available. Additional disclosure of these estimates of provisions are included in note 14.

1.3 Property, plant and equipment

Property, plant and equipment are tangible assets which the company holds for its own use or for rental to others and which are expected to be used for more than one year.

An item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the company, and the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost. Cost includes all of the expenditure which is directly attributable to the acquisition or construction of the asset, including the capitalisation of borrowing costs on qualifying assets and adjustments in respect of hedge accounting, where appropriate.

Expenditure incurred subsequently for major services, additions to or replacements of parts of property, plant and equipment are capitalised if it is probable that future economic benefits associated with the expenditure will flow to the company and the cost can be measured reliably. Day to day servicing costs are included in profit or loss in the year in which they are incurred.

Property, plant and equipment is subsequently stated at cost less accumulated depreciation and impairment losses except for land which is not depreciated.

Depreciation of an asset commences when the asset is available for use as intended by management. Depreciation is charged to write off the asset's carrying amount over its estimated useful life to its estimated residual value, using a method that best reflects the pattern in which the asset's economic benefits are consumed by the company. Leased assets are depreciated in a consistent manner over the shorter of their expected useful lives and the lease term. Depreciation is not charged to an asset if its estimated residual value exceeds or is equal to its carrying amount. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale or derecognised.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Depreciation method	Average useful life
Furniture and fixtures	Straight line	5 years
Motor vehicles	Straight line	5 years
Office equipment	Straight line	3 years
Computer equipment - PC	Straight line	5 years
Computer equipment - Server	Straight line	5 years
Leasehold improvements	Straight line	5 years
Right of use assets	Straight line	4 years

The residual value, useful life and depreciation method of each asset are reviewed at the end of each reporting year. If the expectations differ from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each year is recognised in profit or loss unless it is included in the carrying amount of another asset.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its continued use or disposal. Any gain or loss arising from the derecognition of an item of property, plant and equipment, determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item, is included in profit or loss when the item is derecognised

Accounting Policies

1.4 Intangible assets

An intangible asset is recognised when:

- it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity; and
- the cost of the asset can be measured reliably.

Intangible assets are initially recognised at cost.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

The amortisation period and the amortisation method for intangible assets are reviewed every period-end.

The gain or loss arising from the derecognition of an intangible asset is included in profit or loss when the item is derecognised.The gain or loss arising from the derecognition of an intangible asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Item	Depreciation method	Average useful life
Computer software	Straight line	3 years

1.5 Investments in subsidiaries

Investments in subsidiaries are carried at cost less any accumulated impairment losses. This excludes investments which are held for sale and are consequently accounted for in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations.

The cost of an investment in a subsidiary is the aggregate of the fair value, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the company plus any costs directly attributable to the purchase of the subsidiary.

Accounting Policies

1.6 Financial instruments

Financial instruments held by the company are classified in accordance with the provisions of IFRS 9 Financial Instruments.

Broadly, the classification possibilities, which are adopted by the company, as applicable, are as follows:

Financial assets which are equity instruments:
- Mandatorily at fair value through profit or loss; or
- Designated as at fair value through other comprehensive income. (This designation is not available to equity instruments which are held for trading or which are contingent consideration in a business combination).

Financial assets which are debt instruments:
- Amortised cost. (This category applies only when the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on principal, and where the instrument is held under a business model whose objective is met by holding the instrument to collect contractual cash flows); or
- Fair value through other comprehensive income. (This category applies only when the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on principal, and where the instrument is held under a business model whose objective is achieved by both collecting contractual cash flows and selling the instruments); or
- Mandatorily at fair value through profit or loss. (This classification automatically applies to all debt instruments which do not qualify as at amortised cost or at fair value through other comprehensive income); or
- Designated at fair value through profit or loss. (This classification option can only be applied when it eliminates or significantly reduces an accounting mismatch).

Derivatives which are not part of a hedging relationship:
- Mandatorily at fair value through profit or loss.

Financial liabilities:
- Amortised cost; or
- Mandatorily at fair value through profit or loss. (This applies to contingent consideration in a business combination or to liabilities which are held for trading); or
- Designated at fair value through profit or loss. (This classification option can be applied when it eliminates or significantly reduces an accounting mismatch; the liability forms part of a group of financial instruments managed on a fair value basis; or it forms part of a contract containing an embedded derivative and the entire contract is designated as at fair value through profit or loss).

Note 26 Financial instruments and risk management presents the financial instruments held by the company based on their specific classifications.

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

The specific accounting policies for the classification, recognition and measurement of each type of financial instrument held by the company are presented below:

Loans receivable at amortised cost

Classification

Loans to group companies (note 11), are classified as financial assets subsequently measured at amortised cost.

They have been classified in this manner because the contractual terms of these loans give rise, on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding, and the company's business model is to collect the contractual cash flows on these loans.

Recognition and measurement

Loans receivable are recognised when the company becomes a party to the contractual provisions of the loan. The loans are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost.

Accounting Policies

1.6 Financial instruments (continued)

The amortised cost is the amount recognised on the loan initially, minus principal repayments, plus cumulative amortisation (interest) using the effective interest method of any difference between the initial amount and the maturity amount, adjusted for any loss allowance.

Application of the effective interest method

Interest income is calculated using the effective interest method, and is included in profit or loss in investment income (note 19).

The application of the effective interest method to calculate interest income on a loan receivable is dependent on the credit risk of the loan as follows:

- The effective interest rate is applied to the gross carrying amount of the loan, provided the loan is not credit impaired. The gross carrying amount is the amortised cost before adjusting for a loss allowance.
- If a loan is purchased or originated as credit-impaired, then a credit-adjusted effective interest rate is applied to the amortised cost in the determination of interest. This treatment does not change over the life of the loan, even if it is no longer credit-impaired.
- If a loan was not purchased or originally credit-impaired, but it has subsequently become credit-impaired, then the effective interest rate is applied to the amortised cost of the loan in the determination of interest. If, in subsequent periods, the loan is no longer credit impaired, then the interest calculation reverts to applying the effective interest rate to the gross carrying amount.

Impairment

The company recognises a loss allowance for expected credit losses on all loans receivable measured at amortised cost. The amount of expected credit losses is updated at each reporting date.

The company measures the loss allowance at an amount equal to lifetime expected credit losses (lifetime ECL) when there has been a significant increase in credit risk since initial recognition. If the credit risk on a loan has not increased significantly since initial recognition, then the loss allowance for that loan is measured at 12 month expected credit losses (12 month ECL).

Measurement and recognition of expected credit losses

The company makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix is based on historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current and forecast direction of conditions at the reporting date, including the time value of money, where appropriate.

The customer base is widespread and does not show significantly different loss patterns for different customer segments. The loss allowance is calculated on a collective basis for all trade and other receivables in totality. Details of the provision matrix is presented in note 8.

Trade and other receivables

Classification

Trade and other receivables, excluding, when applicable, VAT and prepayments, are classified as financial assets subsequently measured at amortised cost (note 7).

They have been classified in this manner because their contractual terms give rise, on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding, and the company's business model is to collect the contractual cash flows on trade and other receivables.

Recognition and measurement

Trade and other receivables are recognised when the company becomes a party to the contractual provisions of the receivables. They are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost.

Accounting Policies

1.6 Financial instruments (continued)

The amortised cost is the amount recognised on the receivable initially, minus principal repayments, plus cumulative amortisation (interest) using the effective interest method of any difference between the initial amount and the maturity amount, adjusted for any loss allowance.

Application of the effective interest method

For receivables which contain a significant financing component, interest income is calculated using the effective interest method, and is included in profit or loss in investment income (note 19).

The application of the effective interest method to calculate interest income on trade receivables is dependent on the credit risk of the receivable as follows:

- The effective interest rate is applied to the gross carrying amount of the receivable, provided the receivable is not credit impaired. The gross carrying amount is the amortised cost before adjusting for a loss allowance.
- If a receivable is a purchased or originated as credit-impaired, then a credit-adjusted effective interest rate is applied to the amortised cost in the determination of interest. This treatment does not change over the life of the receivable, even if it is no longer credit-impaired.
- If a receivable was not purchased or originally credit-impaired, but it has subsequently become credit-impaired, then the effective interest rate is applied to the amortised cost of the receivable in the determination of interest. If, in subsequent periods, the receivable is no longer credit impaired, then the interest calculation reverts to applying the effective interest rate to the gross carrying amount.

Impairment

The company recognises a loss allowance for expected credit losses on trade and other receivables, excluding VAT and prepayments. The amount of expected credit losses is updated at each reporting date.

The company measures the loss allowance for trade and other receivables at an amount equal to lifetime expected credit losses (lifetime ECL), which represents the expected credit losses that will result from all possible default events over the expected life of the receivable.

Measurement and recognition of expected credit losses

The company makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix is based on historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current and forecast direction of conditions at the reporting date, including the time value of money, where appropriate.

The customer base is widespread and does not show significantly different loss patterns for different customer segments. The loss allowance is calculated on a collective basis for all trade and other receivables in totality. Details of the provision matrix is presented in note 7.

An impairment gain or loss is recognised in profit or loss with a corresponding adjustment to the carrying amount of trade and other receivables, through use of a loss allowance account. The impairment loss is included in other operating expenses in profit or loss as a movement in credit loss allowance (note 18).

Borrowings and loans from related parties

Classification

Loans from group companies (note 11), are classified as financial liabilities subsequently measured at amortised cost.

Recognition and measurement

Borrowings and loans from related parties are recognised when the company becomes a party to the contractual provisions of the loan. The loans are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost using the effective interest method.

Accounting Policies

1.6 Financial instruments (continued)

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Interest expense, calculated on the effective interest method, is included in profit or loss in finance costs (note 20.)

Borrowings expose the company to liquidity risk and interest rate risk. Refer to note 26 for details of risk exposure and management thereof.

Trade and other payables

Classification

Trade and other payables (note 13), excluding VAT and amounts received in advance, are classified as financial liabilities subsequently measured at amortised cost.

Recognition and measurement

They are recognised when the company becomes a party to the contractual provisions, and are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

If trade and other payables contain a significant financing component, and the effective interest method results in the recognition of interest expense, then it is included in profit or loss in finance costs (note 20).

Trade and other payables expose the company to liquidity risk and possibly to interest rate risk. Refer to note 26 for details of risk exposure and management thereof.

Cash and cash equivalents

Cash and cash equivalents are stated at carrying amount which is deemed to be fair value.

Bank overdrafts

Bank overdrafts are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

1.7 Tax

Current tax assets and liabilities

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset.

Current tax liabilities (assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the tax authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Accounting Policies

1.7 Tax (continued)

Deferred tax assets and liabilities

A deferred tax liability is recognised for all taxable temporary differences except to the extent that the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. A deferred tax asset is not recognised when it arises from the initial recognition of an asset or liability in a transaction at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognised for the carry forward of unused tax losses to the extent that it is probable that future taxable profit will be available against which they can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Tax expenses

Current and deferred taxes are recognised as income or an expense and included in profit or loss for the period, except to the extent that the tax arises from:

- a transaction or event which is recognised, in the same or a different period, to other comprehensive income, or
- a business combination.

1.8 Leases

The company assesses whether a contract is, or contains a lease, at the inception of the contract.

A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

In order to assess whether a contract is, or contains a lease, management determine whether the asset under consideration is "identified", which means that the asset is either explicitly or implicitly specified in the contract and that the supplier does not have a substantial right of substitution throughout the period of use. Once management has concluded that the contract deals with an identified asset, the right to control the use thereof is considered. To this end, control over the use of an identified asset only exists when the company has the right to substantially all of the economic benefits from the use of the asset as well as the right to direct the use of the asset.

In circumstances where the determination of whether the contract is or contains a lease requires significant judgement, the relevant disclosures are provided in the significant judgments and sources of estimation uncertainty section of these accounting policies.

Accounting Policies

1.8 Leases (continued)

Company as lessee

A lease liability and corresponding right-of-use asset are recognised at the lease commencement date, for all lease agreements for which the company is a lessee, except for short-term leases of 12 months or less, or leases of low value assets. For these leases, the company recognises the lease payments as an operating expense (note 18) on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Details of leasing arrangements where the company is a lessee are presented in note 12 Leases (company as lessee).

Right-of-use assets

Right-of-use assets are presented as a separate line item on the Statement of Financial Position.

Lease payments included in the measurement of the lease liability comprise the following:

- the initial amount of the corresponding lease liability;
- any lease payments made at or before the commencement date;
- any initial direct costs incurred;
- any estimated costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, when the company incurs an obligation to do so, unless these costs are incurred to produce inventories; and
- less any lease incentives received.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. However, if a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. Depreciation starts at the commencement date of a lease.

For right-of-use assets which are depreciated over their useful lives, the useful lives are determined consistently with items of the same class of property, plant and equipment. Refer to the accounting policy for property, plant and equipment for details of useful lives.

1.9 Impairment of assets

The company assesses at each end of the reporting period whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the company also:

- tests goodwill acquired in a business combination for impairment annually.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in profit or loss. Any impairment loss of a revalued asset is treated as a revaluation decrease.

An entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets other than goodwill may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset other than goodwill attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation other than goodwill is recognised immediately in profit or loss. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

Accounting Policies

1.10 Share capital and equity

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Ordinary shares are classified as equity. Mandatorily redeemable preference shares are classified as liabilities.

If the company reacquires its own equity instruments, the consideration paid, including any directly attributable incremental costs (net of income taxes) on those instruments are deducted from equity until the shares are cancelled or reissued. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the company's own equity instruments. Consideration paid or received shall be recognised directly in equity.

1.11 Share based payments

Goods or services received or acquired in a share-based payment transaction are recognised when the goods or as the services are received. A corresponding increase in equity is recognised if the goods or services were received in an equity-settled share-based payment transaction or a liability if the goods or services were acquired in a cash-settled share-based payment transaction.

When the goods or services received or acquired in a share-based payment transaction do not qualify for recognition as assets, they are recognised as expenses.

For equity-settled share-based payment transactions the goods or services received and the corresponding increase in equity are measured, directly, at the fair value of the goods or services received provided that the fair value can be estimated reliably.

If the fair value of the goods or services received cannot be estimated reliably, or if the services received are employee services, their value and the corresponding increase in equity, are measured, indirectly, by reference to the fair value of the equity instruments granted.

For cash-settled share-based payment transactions, the goods or services acquired and the liability incurred are measured at the fair value of the liability. Until the liability is settled, the fair value of the liability is re-measured at each reporting date and at the date of settlement, with any changes in fair value recognised in profit or loss for the period.

Market conditions and non-vesting conditions are taken into account when estimating the fair value of the cash-settled share-based payment.

If the share based payments granted do not vest until the counterparty completes a specified period of service, company accounts for those services as they are rendered by the counterparty during the vesting period, (or on a straight line basis over the vesting period).

If the share based payments vest immediately the services received are recognised in full.

For share-based payment transactions in which the terms of the arrangement provide either the entity or the counterparty with the choice of whether the entity settles the transaction in cash (or other assets) or by issuing equity instruments, the components of that transaction are recorded, as a cash-settled share-based payment transaction if, and to the extent that, a liability to settle in cash or other assets has been incurred, or as an equity-settled share-based payment transaction if, and to the extent that, no such liability has been incurred.

As an exception, when the company is obligated, in terms of tax legislation, to withhold an amount of employees' tax associated with an equity-settled share-based payment transaction (thus creating a net settlement feature), the full transaction is still accounted for as an equity-settled share-based payment transaction.

Accounting Policies

1.12 Employee benefits

Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of profit sharing and bonus payments is recognised as an expense when there is a legal obligation to make such payments as a result of past performance.

1.13 Provisions and contingencies

Provisions are recognised when:

- the company has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the present value of the expenditure expected to be required to settle the obligation.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note .

1.14 Revenue from contracts with customers

The company recognises revenue from the following major sources:

- Fees received for travelling administration

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The company recognises revenue when it transfers control of a product or service to a customer.

1.15 Borrowing costs

All borrowing costs are recognised as an expense in the period in which they are incurred.

1.16 Translation of foreign currencies

Foreign currency transactions

A foreign currency transaction is recorded, on initial recognition in Rands, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

At the end of the reporting period:

- foreign currency monetary items are translated using the closing rate;
- non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
- non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognised in profit or loss in the period in which they arise.

Cash flows arising from transactions in a foreign currency are recorded in Rands by applying to the foreign currency amount the exchange rate between the Rand and the foreign currency at the date of the cash flow.

Accounting Policies

1.16 Translation of foreign currencies (continued)

Investments in subsidiaries, joint ventures and associates

The results and financial position of a foreign operation are translated into the functional currency using the following procedures:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each item of profit or loss are translated at exchange rates at the dates of the transactions; and
- all resulting exchange differences are recognised to other comprehensive income and accumulated as a separate component of equity.

Exchange differences arising on a monetary item that forms part of a net investment in a foreign operation are recognised initially to other comprehensive income and accumulated in the translation reserve. They are recognised in profit or loss as a reclassification adjustment through to other comprehensive income on disposal of net investment.

The cash flows of a foreign subsidiary are translated at the exchange rates between the functional currency and the foreign currency at the dates of the cash flows.

Notes to the Financial Statements

2. New Standards and Interpretations

2.1 Standards and interpretations not yet effective

The company has chosen not to early adopt the following standards and interpretations, which have been published and are mandatory for the company's accounting periods beginning on or after 01 January 2026 or later periods:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• IFRS 19 Subsidiaries without Public Accountability: Disclosures	01 January 2027	Unlikely there will be a material impact
• IFRS 18 Presentation and Disclosure in Financial Statements	01 January 2027	Unlikely there will be a material impact
• Amendments to IFRS 1 First-time Adoption of International Financial Reporting Standards.	01 January 2026	Unlikely there will be a material impact
• Amendments to IFRS 7 Financial Instruments: Disclosures	01 January 2026	Unlikely there will be a material impact
• Amendments to IFRS 9 Financial Instruments	01 January 2026	Unlikely there will be a material impact
• Amendments to IFRS 10 Consolidated Financial Statements	01 January 2026	Unlikely there will be a material impact
• Amendments to IAS 10 Statement of Cash flows	01 January 2026	Unlikely there will be a material impact

5. Interests in subsidiaries

Name of company	Held by	% holding 2025	% holding 2024	Carrying amount 2025	Carrying amount 2024
Kuoni Private Safaris Namibia Proprietary Limited		100.00 %	100.00 %	-	-

The carrying amounts of subsidiaries are shown at cost net of impairment losses.

An amount of R4,200,000 was impaired in earlier years.

Notes to the Financial Statements

6. Deferred tax

Deferred tax asset

Property plant and equipment	(44)	(44)
Income received in advance	3,965,430	3,751,832
Provisions & lease liability	1,878,338	1,351,874
Prepayments	(1,731,213)	(288,154)
Investment	907,200	1,134,000
Deferred tax balance from temporary differences other than unused tax losses	5,019,711	5,949,508
Tax losses available for set off against future taxable income	4,247,439	-
	9,267,150	5,949,508
Total deferred tax asset	**9,267,150**	**5,949,508**

Reconciliation of deferred tax asset / (liability)

At beginning of year	-	-
Change in temporary difference on provisions	475,301	158,927
Change in temporary difference on prepayments	(1,443,059)	(288,154)
Change in temporary difference on income received in advance	213,598	580,681
Change in temporary difference on lease liability	51,164	(3,891)
Change in temporary difference on investment	(226,800)	-
Deferred tax asset not recognised	-	(447,563)
Change in assessed loss available for set off against future taxable income	4,247,439	-
Recognition of deferred tax asset previously not recognised	5,949,507	-
	9,267,150	**-**

Recognition of deferred tax asset

An entity shall disclose the amount of a deferred tax asset and the nature of the evidence supporting its recognition, when:

- the utilisation of the deferred tax asset is dependent on future taxable profits in excess of the profits arising from the reversal of existing taxable temporary differences; and
- the entity has suffered a loss in either the current or preceding period in the tax jurisdiction to which the deferred tax asset relates.

Deferred tax asset has now been recognised on the assessed loss as it is unlikely that this will be utilised over the next 12 months.

7. Trade and other receivables

Financial instruments:		
Trade receivables	4,624,990	11,546,575
Accrued income	418,491	523,263
Trade receivables at amortised cost	5,043,481	12,069,838
Other receivables	16,000	26,495
Non-financial instruments:		
VAT	2,220,519	1,111,904
Total trade and other receivables	**7,280,000**	**13,208,237**

Split between non-current and current portions

Current assets	7,280,000	13,208,237

Notes to the Financial Statements

7. Trade and other receivables (continued)

Financial instrument and non-financial instrument components of trade and other receivables

At amortised cost	5,059,481	12,096,333
Non-financial instruments	2,220,519	1,111,904
	7,280,000	**13,208,237**

Exposure to credit risk

Trade receivables inherently expose the company to credit risk, being the risk that the company will incur financial loss if customers fail to make payments as they fall due.

The credit quality of trade and other receivables that are neither past nor due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates. Long standing trading relationships exist with most of the company's customers and the company reviews the credit history, predominantly based on its own records, on a cyclical basis. Based on this, the company considers the credit quality of all fully performing amounts as satisfactory.

There have been no significant changes in the credit risk management policies and processes since the prior reporting period.

A loss allowance is recognised for all trade receivables, in accordance with IFRS 9 Financial Instruments, and is monitored at the end of each reporting period. In addition to the loss allowance, trade receivables are written off when there is no reasonable expectation of recovery, for example, when a debtor has been placed under liquidation. Trade receivables which have been written off are not subject to enforcement activities.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

Exposure to currency risk

The net carrying amounts, in Rand, of trade and other receivables, excluding non-financial instruments, are denominated in the following currencies. The amounts have been presented in Rand by converting the foreign currency amount at the closing rate at the reporting date.

The net carrying amounts, in foreign currency of the above exposure was as follows:

Rand Amount		
US Dollar	526,464	381,661
Euro	-	(32,459)
	526,464	**349,202**

Rand per unit of foreign currency:		
US Dollar	16.570	18.870
Euro	19.460	19.539

Fair value of trade and other receivables

The fair value of trade and other receivables approximates their carrying amounts.

8. Prepayments

Prepayments consists of expenses relating to the provision of services paid in advanced to secure preferential rates and early confirmation from suppliers. Prepayments are not discounted and are recognised and subsequently measured at cost.

Notes to the Financial Statements

Figures in Rand	2025	2024

9. Cash and cash equivalents

Cash and cash equivalents consist of:

Cash on hand	60	60
Bank balances	1,986,575	8,040,796
Short-term deposits	16,989,763	3,450,263
	18,976,398	**11,491,119**

Cash and cash equivalents pledged as security

Total cash and cash equivalents pledged as security for bank facilities	554,175	554,175

The Standard Bank of South Africa Limited has issued guarantees to some of the company's trade creditors totalling ZAR 554,175 (2024: ZAR 554,175).

The guarantees serve to secure credit terms with some of the company's suppliers and become payable on default. There have been no defaults during the current or any preceding period to date.

10. Share capital

Authorised		
5,000 Ordinary shares of ZAR 100 each	500,000	500,000
Issued		
5,000 Ordinary shares of ZAR 100 each	500,000	500,000

The company is a private company and accordingly the right to transfer its shares is restricted and any invitation to the public to subscribe for any shares or debentures of the company is prohibited.

11. Loans from group companies

Holding company

Travel Circle International (Mauritius) Ltd	-	11,512,681

This loan comprises working capital loans issued as a result of the COVID-19 pandemic. The loan bears interest at 7.80% per annum. The loan is unsecured and has no fixed terms of repayment. The loan was repaid in full in the current financial year.

Exposure to currency risk

Loans from subsidiaries

The net carrying amounts, in Rand, of loans from subsidiaries, are denominated in the following currencies. The amounts have been presented in Rand by converting the foreign currency amount at the closing rate at the reporting date.

Foreign currency amount		
US Dollar	-	11,512,681

Notes to the Financial Statements

Figures in Rand	2025	2024

12. Leases (company as lessee)

Net carrying amounts of right-of-use assets

The carrying amounts of right-of-use assets are as follows:

PPE subject to operating lease arrangements	1,706,997	2,494,842

Interest and expenses related to the lease

Interest expense on lease liabilities	233,802	298,221
Depreciation	787,845	787,845

Lease liabilities

Lease liabilities have been included in the borrowings line item on the statement of financial position.

The maturity analysis of lease liabilities is as follows:

Within one year	893,321	747,297
Two to five years	1,105,066	2,067,812
	1,998,387	**2,815,109**
Non-current liabilities	1,105,066	2,067,812
Current liabilities	893,321	747,297
	1,998,387	**2,815,109**

13. Trade and other payables

Financial instruments:		
Trade payables	26,633,551	22,097,108
Brochure contributions	-	(8,439)
Accrued expense	2,045,899	2,352,446
Other payables	221,804	208,234
Non-financial instruments:		
Amounts received in advance	14,686,777	13,895,675
	43,588,031	**38,545,024**

Financial instrument and non-financial instrument components of trade and other payables

At amortised cost	28,901,254	24,649,349
Non-financial instruments	14,686,777	13,895,675
	43,588,031	**38,545,024**

Exposure to currency risk

The net carrying amounts, in Rand, of trade and other payables, excluding non-financial instruments, are denominated in the following currencies.

Figures in Rand	2025	2024

13. Trade and other payables (continued)

Rand Amount		
Rand	28,335,475	21,285,209
US Dollar	565,774	-
Euro	-	(344,547)
Yen	-	463,410
Other	-	70,052
	28,901,249	**21,474,124**

Fair value of trade and other payables

Credit purchases are accepted and, for the greater part, settled on normal trading terms, thus the carrying values reasonably approximate fair values.

14. Provisions

Reconciliation of provisions - 2025

	Opening balance	Additions	Utilised during the year	Total
Provision for assurance fees	542,410	577,910	(542,410)	577,910

Capital risk management

The company's objective when managing capital are to safeguard the company's ability to continue as a going concern in order to provide returns for shareholder and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the company consists of debt, which includes the borrowings (excluding derivative financial liabilities) disclosed in notes 13, cash and cash equivalents disclosed in note 10, and equity as disclosed in the statement of financial position.

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholder, return capital to shareholder, issue new shares or sell assets to reduce debt.

There are no externally imposed capital requirements.

There have been no changes to what the entity manages as capital, the strategy for capital maintenance or externally imposed capital requirements from the previous year.

The capital structure and gearing ratio of the company at the reporting date was as follows:

Loans from group companies	11	-	11,512,681
Lease liabilities		1,998,387	2,815,109
Trade and other payables	13	43,588,026	38,545,023

Equity		(3,915,476)	(21,877,975)
Gearing ratio		(680)%	(189)%

Notes to the Financial Statements

Figures in Rand	2025	2024

26. Financial instruments and risk management (continued)

Financial risk management

Overview

The company is exposed to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk (currency risk, interest rate risk and price risk).

The company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the company's financial performance. Risk management is carried out under policies approved by the directors.

Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

Credit risk exposure arising on cash and cash equivalents is managed by the group through dealing with well-established financial institutions with high credit ratings.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratingsin accordance with limits set by the board.

The utilisation of credit limits is regularly monitored. Credit loss allowances for expected credit losses are recognised for all debt instruments.

The maximum exposure to credit risk is presented in the table below:

		2025			2024		
		Gross carrying amount	**Credit loss allowance**	**Amortised cost / fair value**	**Gross carrying amount**	**Credit loss allowance**	**Amortised cost / fair value**
Trade and other receivables	7	7,280,000	-	7,280,000	13,208,237	-	13,208,237
Cash and cash equivalents	9	18,976,398	-	18,976,398	11,491,119	-	11,491,119

Liquidity risk

The company's risk to liquidity is a result of the funds available to cover future commitments. The company manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

Foreign currency risk

The company operates internationally and is exposed to foreign exchange rate risk arising from various currency exposures. The company minimises exposure by purchasing and selling services through the use of current foreign currency accounts the company holds in all the major currencies it trades in.

The company does not hedge foreign exchange fluctuations. At year end the following items are uncovered:

Interest rate risk

The company is exposed to interest rate risk in South Africa and Namibia. The company does not make use of interest rate derivatives and is therefore only exposed to variable interest rates.

Change in market interest rates affect the interest income of non-derivative variable interest rate financial instruments, the interest payments are of which are not designated as hedged items of cash flow hedges against interest rate risks. As a consequence, they are included in the calculation of the income related sensitivity.

26. Financial instruments and risk management (continued)

Interest rate sensitivity analysis

The following sensitivity analysis has been prepared using a sensitivity rate which is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. All other variables remain constant. The sensitivity analysis includes only financial instruments exposed to interest rate risk which were recognised at the reporting date. No changes were made to the methods and assumptions used in the preparation of the sensitivity analysis compared to the previous reporting period.

LAPORAN AUDITOR INDEPENDEN

Laporan No. 00237/3.0428/AU.1/05/0221-3/1/VIII/2026

Pemegang Saham, Dewan Komisaris dan Direksi
PT Digiphoto Imaging Indonesia

Opini

Kami telah mengaudit laporan keuangan PT Digiphoto Imaging Indonesia (Entitas) terlampir, yang terdiri dari laporan posisi keuangan tanggal 31 Desember 2025, serta laporan laba rugi dan penghasilan komprehensif lain, laporan perubahan ekuitas dan laporan arus kas untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan, termasuk informasi kebijakan akuntansi material.

Menurut opini kami, laporan keuangan terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan Entitas tanggal 31 Desember 2025, serta kinerja keuangan dan arus kas untuk untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis Opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia ("IAPI"). Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan pada laporan kami. Kami independen terhadap Entitas sesuai dengan Kode Etik Profesi Akuntan Publik yang ditetapkan oleh IAPI yang relevan dengan audit kami atas laporan keuangan Entitas dengan akuntabilitas publik di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Tanggung Jawab Manajemen dan Pihak yang Bertanggung Jawab atas Tata Kelola terhadap Laporan Keuangan

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

INDEPENDENT AUDITOR'S REPORT

Report No. 00237/3.0428/AU.1/05/0221-3/1/VIII/2026

The Stockholders, Board of Commissioners and Directors
PT Digiphoto Imaging Indonesia

Opinion

We have audited the accompanying financial statements of PT Digiphoto Imaging Indonesia (the Entity), which comprise the statement of financial position as of December 31, 2025, and the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Entity as of December 31, 2025 and its financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements paragraph of our report. We are independent of the Entity in accordance with the Code of Ethics for Public Accountants established by the Indonesian Institute of Certified Public Accountants that are relevant to our audits of the financial statements of public interest entities in Indonesia. We have also fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

HADORI SUGIARTO ADI & REKAN

Dalam penyusunan laporan keuangan, manajemen bertanggung jawab untuk menilai kemampuan Entitas dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Entitas atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity to cease operations, or has no realistic alternative but to do so.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Entitas.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan

Auditor's Responsibilities for the Audit of the Financial Statements

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit yang ditetapkan oleh IAPI akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan mempengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan tersebut.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Sebagai bagian dari suatu audit berdasarkan Standar Audit yang ditetapkan oleh IAPI, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

As part of an audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan, merancang dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk merancang prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas efektivitas pengendalian internal Entitas .
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.

- *Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery intentional omissions, misrepresentations, or the override of internal control.*
- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*

HADORI SUGIARTO ADI & REKAN

- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Entitas untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Entitas dan tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.

Kami mengkomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.*
- *Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.*

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. UMUM

a. Pendirian Entitas dan Informasi Umum

PT Digiphoto Imaging Indonesia (Entitas) didirikan berdasarkan Akta Notaris No. 7, tanggal 23 Maret 2011 dari Notaris Hartono, S.H., Notaris di Bali. Akta pendirian ini telah disahkan oleh Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dengan Surat Keputusan No. AHU-0028883.01.09 Tahun 2011, tanggal 12 April 2011 dan Pemberitahuan Persetujuan Presiden dari Badan Koordinasi Penanaman Modal (BKPM) No. 00723/I/PPM/PMA/2011, tanggal 15 Maret 2011.

Anggaran Dasar Perseroan telah mengalami beberapa kali perubahan, terakhir dengan Akta Notaris Hamidah Meutiasari, S.H., M.Kn. No. 5 tanggal 22 September 2015 tentang Perubahan Anggaran Dasar Perseroan. Perubahan ini telah disetujui oleh Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dengan Surat Keputusan No. AHU-AH.01.03-0967421. Tahun 2015 tanggal 25 September 2015.

Sesuai dengan pasal 3 Anggaran Dasar Perseroan, ruang lingkup kegiatan Perseroan terutama bergerak dalam bidang perdagangan dan jasa.

Perusahaan berdomisili di Jakarta Barat dan berlokasi di kantor Soho Capital - Podomoro City Lt 16, Suite SC-1606A, Jl. S. Parman Kavling 28, Tanjung Duren Selatan, Grogol Petamburan, Jakarta Barat, Indonesia 11470. Operasional utama Entitas di Bali dan Jakarta.

Entitas beroperasi secara komersial sejak 2011.

b. Komisaris, Dewan Direksi, dan Karyawan

Anggota Komisaris dan Dewan Direktur Entitas pada tanggal 31 Desember 2025 dan 2024 adalah sebagai berikut:

Komisaris				
Komisaris	:	Kalapathy Sanghamitra R.	:	
Dewan Direksi				
Direktur Utama	:	Kalapathy Shankar R.	:	
Direktur	:	Yufendy	:	

Entitas memiliki 158 dan 186 karyawan tetap masing-masing pada tanggal 31 Desember 2025 dan 2024.

1. GENERAL

a. The Entity's Establishment and General Information

PT Digiphoto Imaging Indonesia (the Entity) was established on March 23, 2011 based on Notarial Deed No. 7 of Hartono, S.H., Notary in Bali. This deed was approved by Minister of law of the Republic of Indonesia under Decision Letter No. AHU-0028883.01.09 Tahun 2011, dated April 12, 2011 and Notifications of Presidential Approval from Capital Investment Coordinating Board (BKPM) No. 00723/I/PPM/PMA/2011, dated March 15, 2011.

The Articles of Association have been amended several times, most recently by Notarial Deed No. 5, dated September 22, 2015 of Hamidah Meutiasari, S.H., M.Kn., concerning the changes in the Entity's Articles of Association. This amendement was approved by the Minister of Law and Human Rights of the Republic of Indonesia in his Decision Letter No. AHU-AH.01.03-0967421. Tahun 2015, dated September 25, 2015.

In accordance with article 3 of the Entity's Articles of Association, the scope of its activities is to engage mainly in trading and services.

The Entity is domiciled in Jakarta Barat and its office is located at Soho Capital - Podomoro City Floor 16, Suite SC-1606A, Jl. S. Parman Kavling 28, Tanjung Duren Selatan, Grogol Petamburan, Jakarta Barat, Indonesia 11470. The Entity's operational is mainly in Bali and Jakarta.

The Entity is operating commercially since 2011.

b. Commissioners, Board of Director, and Employees

The members of the Entity's Commissioner and Board of Directors as of December 31, 2025 and 2024 are as follows:

Commissioner				
Commissioner	:	Kalapathy Sanghamitra R.	:	
Board of Directors				
President Director	:	Kalapathy Shankar R.	:	
Director	:	Yufendy	:	

The Entity has 158 and 186 permanent employees as of December 31, 2025 and 2024, respectively.

2. IKHTISAR KEBIJAKAN AKUNTANSI MATERIAL

a. Pernyataan Kepatuhan

Manajemen bertanggung jawab atas penyusunan dan penyajian laporan keuangan. Laporan keuangan telah disusun sesuai dengan Standar Akuntansi Keuangan di Indonesia yang mencakup Pernyataan Standar Akuntansi Keuangan (PSAK) dan Interpretasi Standar Akuntansi Keuangan (ISAK) yang dikeluarkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia.

b. Dasar Penyusunan Laporan Keuangan

Laporan keuangan, kecuali untuk laporan arus kas, disusun berdasarkan pada saat terjadinya *(accrual basis)* dengan konsep biaya perolehan *(historical cost)*, kecuali beberapa akun tertentu disusun berdasarkan pengukuran lain sebagaimana diuraikan dalam kebijakan akuntansi masing-masing akun tersebut.

Biaya historis umumnya didasarkan pada nilai wajar dari imbalan yang diberikan dalam pertukaran barang dan jasa.

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam suatu transaksi teratur antara pelaku pasar pada tanggal pengukuran.

Laporan arus kas disajikan dengan metode langsung *(direct method)* dengan mengelompokkan arus kas dalam aktivitas operasi, investasi dan pendanaan.

Mata uang fungsional dan pelaporan yang digunakan dalam laporan keuangan adalah Rupiah (Rp).

Penyusunan laporan keuangan sesuai dengan Standar Akuntansi Keuangan di Indonesia mengharuskan penggunaan estimasi dan asumsi. Standar tersebut juga mengharuskan manajemen untuk membuat pertimbangan dalam proses penerapan kebijakan akuntansi Entitas. Area yang kompleks atau memerlukan tingkat pertimbangan yang lebih tinggi atau area di mana asumsi dan estimasi dapat berdampak material terhadap laporan keuangan diungkapkan di Catatan 3.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES

a. Statement of Compliance

Management is responsible for the preparation and presentation of the financial statements, and have been prepared in accordance with the Indonesian Financial Accounting Standards (PSAK) which include Statements and Interpretations of Financial Accounting Standards (ISAK) issued by Financial Accounting Standards Board of the Indonesian Accountant Institute.

b. Basis of Preparation of Financial Statements

The financial statements except for the statements of cash flows, have been prepared on the accrual basis using historical cost concept of accounting, except for certain accounts which are measured on the bases described in the related accounting policies.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The statements of cash flows are prepared using direct method by classifying cash flows into operating, investing and financing activities.

The functional and presentation currency used in the financial statements is Indonesian Rupiah (Rp).

The preparation of financial statements in conformity with Indonesian Financial Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are material to the financial statements are disclosed in Note 3.

Penerapan dari amendemen dan revisi standar berikut yang berlaku pada tanggal 1 Januari 2025, tidak menimbulkan perubahan material terhadap kebijakan akuntansi Entitas dan efek material terhadap laporan keuangan:

- PSAK No. 221, mengenai "Pengaruh Perubahan Kurs Valuta Asing-Kekurangan Ketertukaran".

  Amendemen tentang kekurangan ketertukaran. Amendemen ini memperjelas pengaturan terkait kondisi ketika suatu mata uang tidak tertukarkan serta pengungkapannya.

- PSAK No. 117, mengenai "Kontrak Asuransi".

  PSAK No. 117 mengatur relaksasi beberapa ketentuan antara lain berupa penambahan pengecualian ruang lingkup, penyesuaian penyajian laporan keuangan, penerapan opsi mitigasi risiko dan beberapa modifikasi pada ketentuan transisi. PSAK No. 117 juga mensyaratkan pemisahan yang jelas antara pendapatan yang dihasilkan dari bisnis asuransi dengan yang berasal dari kegiatan investasi.

- PSAK No. 103, mengenai "Kombinasi Bisnis", PSAK No. 105, mengenai "Aset Tidak Lancar yang Dikuasai untuk Dijual dan Operasi yang Dihentikan", PSAK No. 107, mengenai "Instrumen Keuangan: Pengungkapan", PSAK No. 109, mengenai "Instrumen Keuangan", PSAK No. 115, mengenai "Pendapatan dari Kontrak dengan Pelanggan", PSAK No. 201, mengenai "Penyajian Laporan Keuangan", PSAK No. 207, mengenai "Laporan Arus Kas", PSAK No. 216, mengenai "Aset Tetap", PSAK No. 219, mengenai "Imbalan Kerja", PSAK No. 228, mengenai "Investasi pada Entitas Asosiasi dan Ventura Bersama", PSAK No. 232, mengenai "Instrumen Keuangan: Penyajian", PSAK No. 236, mengenai "Penurunan Nilai Aset", PSAK No. 237, mengenai "Provisi, Liabilitas Kontinjensi dan Aset Kontinjensi", PSAK No. 238, mengenai "Aset Takberwujud" dan PSAK No. 240, mengenai "Properti Investasi".

  Amendemen-amendemen tersebut sebagai konsekuensi atas berlaku efektifnya PSAK No. 117, mengenai "Kontrak Asuransi".

The implementation of the amended and revised standards which are effective on January 1, 2025 did not result in material changes to the accounting policies of the Entity and no material effect on the financial statements:

- *PSAK No. 221, regarding "The Impact of Changes in Foreign Exchange Rates-Lack of Exchangeability".*

  Amendments on non-convertibility. These amendments clarify the provisions regarding the conditions when a currency is non-convertible and the disclosure thereof.

- *PSAK No. 117 regarding "Insurance Contracts".*

  PSAK No. 117 regulates the relaxation of several provisions, including the addition of scope exceptions, adjustments to the presentation of financial statements, application of risk mitigation options and some modifications to transitional provisions. PSAK No. 117 also requires a clear separation between income generated from the insurance business and from investment activities.

- *PSAK No. 103, regarding "Business Combinations", PSAK No. 105, regarding "Non-Current Assets Held for Sale and Discontinued Operations", PSAK No. 107, regarding "Financial Instruments: Disclosures", PSAK No. 109, regarding "Financial Instruments", PSAK No. 115, regarding "Revenue from Contracts with Customers", PSAK No. 201, regarding "Presentation of Financial Statements", PSAK No. 207, regarding "Statements of Cash Flows", PSAK No. 216, regarding "Property, Plant and Equipment", PSAK No. 219, regarding "Employee Benefits", PSAK No. 228, regarding "Investments in Associates and Joint Ventures", PSAK No. 232, regarding "Financial Instruments: Presentation", PSAK No. 236, regarding "Impairment of Asset", PSAK No. 237, regarding "Provisions, Contingent Liabilities and Contingent Assets", PSAK No. 238, regarding "Intangible Assets" and PSAK No. 240, regarding "Investment Property".*

  These amendments resulted as a consequence of the effectiveness of PSAK No. 117, regarding "Insurance Contracts".

- PSAK No. 370, mengenai "Akuntansi Aset dan Liabilitas Pengampunan Pajak" dan ISAK No. 335, mengenai "Penyajian Laporan Keuangan Entitas Berorientasi Nonlaba".

  Amendemen-amendemen tersebut sebagai konsekuensi atas berlaku efektifnya SAK Indonesia untuk Entitas Privat.

- *PSAK No. 370, regarding "Accounting for Tax Amnesty Assets and Liabilities" and ISAK No. 335, regarding "Presentation of Financial Statements of Non-Profit Oriented Entities".*

  These amendments resulted as a consequence of the effectiveness of Indonesian SAK for Private Entities.

c. Instrumen Keuangan

Entitas melakukan penerapan PSAK No. 109, mengenai "Instrumen Keuangan".

Instrumen keuangan adalah setiap kontrak yang memberikan kenaikan nilai aset keuangan dari satu entitas dan liabilitas keuangan atau instrumen ekuitas dari entitas lainnya.

Aset Keuangan

Pengakuan Awal

Klasifikasi dan pengukuran aset keuangan harus didasarkan pada bisnis model dan arus kas kontraktual - apakah semata dari pembayaran pokok dan bunga (SPPI).

Aset keuangan diklasifikasikan dalam tiga kategori sebagai berikut:

1. Aset keuangan yang diukur pada biaya perolehan diamortisasi;
2. Aset keuangan yang diukur pada nilai wajar melalui laba rugi; dan
3. Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain.

Pengujian SPPI

Sebagai langkah pertama dari proses klasifikasi, Entitas menilai persyaratan kontraktual keuangan untuk mengidentifikasi apakah mereka memenuhi pengujian SPPI.

Nilai pokok untuk tujuan pengujian ini didefinisikan sebagai nilai wajar dari aset keuangan pada pengakuan awal dan dapat berubah selama umur aset keuangan (misalnya, jika ada pembayaran pokok atau amortisasi premi/diskon).

c. Financial Instruments

The Entity has applied PSAK No. 109 regarding "Financial Instruments".

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition

Classification and measurement of financial assets are based on business model and contractual cash flows - whether from solely payment of principal and interest (SPPI).

Financial assets are classified in the three categories as follows:

1. *Financial assets measured at amortized cost;*
2. *Financial assets measured at Fair Value Through Profit or Loss (FVTPL); and*
3. *Financial assets measured at Fair Value Through Other Comprehensive Income (FVOCI).*

SPPI Test

As a first step of its classification process, the Entity assesses the contractual terms of financial to identify whether they meet the SPPI test.

Principal for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortization of the premium/discount).

Elemen bunga yang paling signifikan dalam perjanjian biasanya adalah pertimbangan atas nilai waktu dari uang dan risiko kredit.

Untuk membuat penilaian SPPI, Entitas menerapkan pertimbangan dan memperhatikan faktor-faktor yang relevan seperti mata uang dimana aset keuangan didenominasikan dan periode pada saat suku bunga ditetapkan.

Sebaliknya, persyaratan kontraktual yang memberikan eksposur lebih dari *de minimis* atas risiko atau volatilitas dalam arus kas kontraktual yang tidak terkait dengan dasar pengaturan pinjaman, tidak menimbulkan arus kas kontraktual SPPI atas jumlah saldo. Dalam kasus seperti itu, aset keuangan diharuskan untuk diukur pada nilai wajar melalui laba rugi.

Penilaian Model Bisnis

Entitas menentukan model bisnisnya berdasarkan tingkat yang paling mencerminkan bagaimana Entitas mengelola aset keuangannya untuk mencapai tujuan bisnisnya.

Model bisnis Entitas tidak dinilai berdasarkan masing-masing instrumennya, tetapi pada tingkat portofolio secara agregat yang lebih tinggi dan didasarkan pada faktor-faktor yang dapat diamati seperti:

- Bagaimana kinerja model bisnis dan aset keuangan yang dimiliki dalam model bisnis tersebut dievaluasi dan dilaporkan kepada personel manajemen kunci;
- Risiko yang mempengaruhi kinerja model bisnis (dan aset keuangan yang dimiliki dalam model bisnis tersebut) dan, khususnya, bagaimana cara risiko tersebut dikelola;
- Frekuensi, nilai, dan waktu penjualan yang diharapkan, juga merupakan aspek penting dari penilaian Entitas.

Penilaian model bisnis didasarkan pada skenario yang diharapkan secara wajar tanpa mempertimbangkan skenario *"worst case"* atau *"stress case"*. Jika arus kas setelah pengakuan awal direalisasikan dengan cara yang berbeda dari yang awal diharapkan, Entitas tidak mengubah klasifikasi aset keuangan dimiliki yang tersisa dalam model bisnis tersebut, tetapi memasukkan informasi tersebut dalam melakukan penilaian atas aset keuangan yang baru atau yang baru dibeli selanjutnya.

The most significant elements of interest within an arrangement are typically the consideration for the time value of money and credit risk.

To make the SPPI assessment, the Entity applies judgment and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement, do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured as FVTPL.

Business Model Assessment

The Entity determines its business model at the level that best reflects how it manages the Entity's financial assets to achieve its business objective.

The Entity's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- *How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;*
- *The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular the way those risks are managed;*
- *The expected frequency, value, and timing of sales are also important aspects of the Entity assessment.*

The business model assessment is based on reasonably expected scenarios without taking "worst case" or "stress case" scenarios into account. If cash flows after initial recognition are realised in a way that is different from original expectations, the Entity does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Aset keuangan yang diukur pada biaya perolehan diamortisasi jika aset keuangan dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual dan persyaratan kontraktual dari aset keuangan yang pada tanggal tertentu meningkatkan arus kas yang semata dari pembayaran pokok dan bunga (SPPI) dari jumlah pokok terutang.

Financial assets are measured at amortized cost if the financial asset is managed in a business model aimed at owning a financial asset in order to obtain a contractual cash flow and the contractual requirements of a financial asset that on a given date increases the cash flow solely from the principal and interest payments (SPPI) of the amount owed.

Pada saat pengakuan awal, aset keuangan yang diukur pada biaya perolehan diamortisasi diakui pada nilai wajarnya ditambah biaya transaksi dan selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan suku bunga efektif.

At initial recognition, the financial assets measured at amortized cost are recognized at the fair value plus the transaction fee and subsequently measured at amortized cost by using the effective interest rate.

Pendapatan bunga dari aset keuangan yang diukur pada biaya perolehan diamortisasi dicatat dalam laporan laba rugi dan penghasilan komprehensif lain dan diakui sebagai "Pendapatan Keuangan". Ketika penurunan nilai terjadi, kerugian penurunan nilai diakui sebagai pengurang dari nilai tercatat aset keuangan dan diakui didalam laporan keuangan sebagai "Rugi Penurunan Nilai".

Interest income from financial assets measured at amortized cost is recorded in the statement of profit and loss and other comprehensive income and is recognized as "Finance Income". When a decline in value occurs, the impairment loss is recognized as a deduction of the recorded value of the financial asset and is recognized in the financial statements as "Impairment Loss".

Kecuali piutang usaha yang tidak mengandung komponen pembiayaan yang signifikan atau yang diterapkan oleh Entitas secara praktis. Semua aset keuangan pada awalnya diakui sebesar nilai wajarnya ditambah dengan biaya-biaya transaksi, kecuali aset keuangan dicatat pada nilai wajar melalui laba rugi.

With the exception of trade receivables that do not contain a significant financing component or for which the Entity has applied the practical expedient. All financial assets are recognized initially at fair value plus transaction costs, except in the case of financial assets which are recorded at fair value through profit or loss.

Piutang usaha yang tidak mengandung komponen pembiayaan yang signifikan atau dimana Entitas menerapkan kebijaksanaan praktisnya diukur pada harga transaksi sebagaimana diungkapkan dalam "Pendapatan dari Kontrak dengan Pelanggan".

Trade receivables that do not contain a significant financing component or for which the Entity has applied the practical expedient are measured at the transaction price as disclosed in "Revenue from Contracts with Customers".

Aset keuangan diklasifikasikan sebagai aset lancar, jika jatuh tempo dalam waktu 12 bulan dari akhir periode pelaporan, jika tidak maka aset keuangan ini diklasifikasikan sebagai aset tidak lancar.

Financial assets in this category are classified as current assets if expected to be settled within 12 months from end of reporting period, otherwise they are classified as non-current.

Pengukuran Setelah Pengakuan Awal

Subsequent Measurement

Pengukuran aset keuangan setelah pengakuan awal tergantung pada klasifikasinya sebagai berikut:

The subsequent measurement of financial assets depends on their classification as follows:

(i) Aset keuangan yang diukur pada biaya perolehan diamortisasi

(i) Financial assets measured at amortized cost

Aset keuangan yang diukur dengan biaya diamortiasi selanjutnya diukur dengan menggunakan metode suku bunga efektif

Financial assets measured at amortized cost are subsequently measured using the effective interest rate ("EIR"), method less allowance

(Effective Interest Rate) ("EIR"), setelah dikurangi dengan penurunan nilai. Biaya perolehan yang diamortisasi dihitung dengan memperhitungkan diskonto atau premi atas biaya akuisisi atau biaya yang merupakan bagian integral dari EIR tersebut. Amortisasi EIR dicatat dalam laporan laba rugi dan penghasilan komprehensif lain. Kerugian yang timbul dari penurunan nilai juga diakui pada laporan laba rugi dan penghasilan komprehensif lain.

for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition fees or costs that are an integral part of the EIR. The EIR amortization is included in the statements of profit or loss and other comprehensive income. The losses arising from impairment are also recognized in the statements of profit or loss and other comprehensive income.

Metode suku bunga efektif

Effective interest rate method

Metode suku bunga efektif adalah metode yang digunakan untuk menghitung biaya perolehan diamortisasi dari instrumen keuangan dan metode untuk mengalokasikan pendapatan bunga atau biaya selama periode yang relevan. Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi penerimaan atau pembayaran kas masa depan (mencakup seluruh komisi dan bentuk lain yang dibayarkan dan diterima oleh para pihak dalam kontrak yang merupakan bagian yang tak terpisahkan dari suku bunga efektif, biaya transaksi dan premium dan diskonto lainnya) selama perkiraan umur instrumen keuangan, atau, jika lebih tepat, digunakan periode yang lebih singkat untuk memperoleh nilai tercatat bersih dari aset keuangan pada saat pengakuan awal.

The effective interest rate method is a method of calculating the amortized cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or where appropriate, a shorter period to the net carrying amount on initial recognition.

Pendapatan diakui berdasarkan suku bunga efektif untuk instrumen keuangan selain dari instrumen keuangan yang diukur pada nilai wajar melalui laba rugi.

Income is recognized on an effective interest basis for financial instruments other than those financial instruments measured at FVTPL.

Pada tanggal 31 Desember 2025 dan 2024, aset keuangan yang diukur pada biaya perolehan diamortisasi meliputi kas dan bank, piutang usaha – pihak ketiga, piutang lain-lain – pihak berelasi, piutang pihak berelasi dan jaminan.

As of December 31, 2025 and 2024, financial assets measured at amortized cost consist of cash on hand and in banks, trade receivables – third parties, other receivables – related parties, due from related parties and security deposits.

(ii) Aset keuangan yang diukur pada nilai wajar melalui laba rugi

(ii) Financial assets measured at FVTPL

Aset keuangan yang diukur pada nilai wajar melalui laba rugi selanjutnya disajikan dalam laporan posisi keuangan sebesar nilai wajar, dengan perubahan nilai wajar yang diakui dalam laporan laba rugi dan penghasilan komprehensif lain.

Financial assets measured at FVTPL are subsequently carried in the statements of financial position at fair value, with changes in fair value recognized in the statement of profit or loss and other comprehensive income.

Dividen atas investasi diakui sebagai "Pendapatan Operasional Lain-lain" dalam laporan laba rugi dan penghasilan komprehensif lain ketika hak pembayaran telah ditetapkan.

Dividends on investments are recognized as "Other Operating Income" in the statements of profit or loss and other comprehensive income when the right of payment has been established.

Pada tanggal 31 Desember 2025 dan 2024, Entitas tidak memiliki aset keuangan yang diukur pada nilai wajar melalui laba rugi.

As of December 31, 2025 and 2024, the Entity has no financial assets measured at FVTPL.

(iii) Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain

(iii) Financial assets measured at FVOCI

Keuntungan dan kerugian dari nilai wajar diakui dalam penghasilan komprehensif lain. Pendapatan bunga, kerugian penurunan nilai atau pembalikan, dan keuntungan dan kerugian selisih kurs diakui dalam laba rugi. Bunga yang diperoleh dari investasi dihitung menggunakan metode EIR. Ketika instrumen hutang dihentikan pengakuannya, keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam pendapatan komprehensif lain direklasifikasi dari ekuitas ke laba rugi sebagai penyesuaian reklasifikasi.

Fair value gains and losses are recognized in other comprehensive income. Interest income, impairment losses or reversals, and foreign exchange gains and losses are recognised in profit or loss. Interest earned on investments is calculated using the EIR method. When debt instrument is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.

Pada tanggal 31 Desember 2025 dan 2024, Entitas tidak memiliki aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain.

As of December 31, 2025 and 2024, the Entity has no financial assets measured at FVOCI.

Liabilitas Keuangan

Financial Liabilities

Pengakuan Awal

Initial Recognition

Liabilitas keuangan dalam lingkup PSAK No. 109 diklasifikasikan sebagai berikut:

Financial liabilities within the scope of PSAK No. 109 are classified as follows:

1. Liabilitas keuangan yang diukur pada biaya perolehan diamortisasi; dan
2. Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi.

1. *Financial liabilities measured at amortized cost; and*
2. *Financial liabilities measured at Fair Value Through Profit or Loss (FVTPL).*

Entitas menentukan klasifikasi liabilitas keuangan mereka pada saat pengakuan awal.

The Entity determines the classification of its financial liabilities at initial recognition.

Liabilitas keuangan awalnya diukur sebesar nilai wajarnya. Biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan liabilitas keuangan (selain liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi) ditambahkan atau dikurangkan dari nilai wajar liabilitas keuangan, yang sesuai, pada pengakuan awal.

Financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial liabilities (other than financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial liabilities, as appropriate, on initial recognition.

Biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi langsung diakui dalam laba rugi.

Transaction costs directly attributable to the acquisition of financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

Entitas mengklasifikasikan sebagai liabilitas jangka pendek jika:

a. entitas memperkirakan akan menyelesaikan liabilitas tersebut dalam siklus operasi normal;
b. entitas memiliki liabilitas tersebut untuk tujuan diperdagangkan;
c. liabilitas tersebut jatuh tempo untuk diselesaikan dalam jangka waktu dua belas bulan setelah periode pelaporan; atau
d. entitas tidak memiliki hak tanpa syarat untuk menangguhkan penyelesaian liabilitas selama sekurang-kurangnya dua belas bulan setelah periode pelaporan.

The Entity shall classify a liability as current when:

a. it expects to settle the liability in its operating cycle;
b. it holds the liability primarily for the purpose of trading;
c. the liability is due to be settled within twelve months after the reporting period; or
d. it does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

Entitas mengklasifikasikan liabilitas yang tidak termasuk dalam kriteria diatas sebagai liabilitas jangka panjang.

The Entity classifies all other liabilities as non-current.

Entitas mengklasifikasikan suatu liabilitas sebagai liabilitas jangka panjang jika Entitas mempunyai hak untuk menunda penyelesaian liabilitas tersebut setidaknya selama 12 bulan setelah periode pelaporan. Hal ini berlaku terlepas dari apakah Entitas bermaksud menyelesaikan liabilitasnya dalam waktu 12 bulan ke depan, dan meskipun Entitas menyelesaikan liabilitas sebelum laporan keuangan diotorisasi untuk diterbitkan. Namun, dalam kasus ini, Entitas mengungkapkan informasi mengenai waktu penyelesaian agar pengguna laporan keuangan dapat memahami dampak liabilitas terhadap posisi keuangan Entitas.

The Entity classifies a liability as non-current if it has a right to defer settlement of the liability for at least 12 months after the reporting period. This applies regardless of whether the Entity intends to settle the liability within the next 12 months, and even if it settles the liability before the financial statements are authorized for issue. However, in these cases, the Entity discloses information about the timing of the settlement to enable the users of their financial statements to understand the impact of the liability on the Entity's financial position.

Pengukuran Setelah Pengakuan Awal

Subsequent Measurement

Pengukuran liabilitas keuangan setelah pengakuan awal tergantung pada klasifikasinya sebagai berikut:

The subsequent measurement of financial liabilities depends on their classification as follows:

(i) Liabilitas keuangan yang diukur pada biaya perolehan diamortisasi

Liabilitas keuangan yang diukur pada biaya perolehan diamortisasi selanjutnya diukur dengan menggunakan metode EIR. Amortisasi EIR termasuk di dalam biaya keuangan dalam laporan laba rugi dan penghasilan komprehensif lain.

Keuntungan atau kerugian diakui dalam laporan laba rugi dan penghasilan komprehensif lain pada saat liabilitas tersebut dihentikan pengakuannya serta melalui proses amortisasi EIR.

(i) Financial liabilities measured at amortized cost

Financial liabilities measured at amortized cost are subsequently measured using the EIR method. The EIR amortization is included in finance costs in the statements of profit or loss and other comprehensive income.

Gains or losses are recognized in the statements of profit or loss and other comprehensive income when the liabilities are derecognized as well as through the EIR amortization process.

Pada tanggal 31 Desember 2025 dan 2024, liabilitas keuangan yang diukur pada biaya perolehan diamortisasi meliputi utang usaha, utang lain-lain – pihak berelasi, beban masih harus dibayar dan liabilitas sewa.

As of December 31, 2025 and 2024, financial liabilities measured at amortized cost consist of trade payables, other payables – related parties, accrued expenses and lease liabilities.

(ii) Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi

(ii) Financial liabilities measured at FVTPL

Liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi termasuk liabilitas keuangan untuk diperdagangkan dan liabilitas keuangan yang ditetapkan pada saat pengakuan awal untuk diukur pada nilai wajar melalui laba rugi.

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition measured at fair value through profit or loss.

Liabilitas keuangan diklasifikasikan sebagai kelompok untuk diperdagangkan jika mereka diperoleh untuk tujuan dijual atau dibeli kembali dalam waktu dekat. Kategori ini termasuk instrumen keuangan derivatif yang diambil Entitas yang tidak ditujukan sebagai instrumen lindung nilai dalam hubungan lindung nilai sebagaimana didefinisikan dalam PSAK No. 109. Derivatif melekat yang dipisahkan juga diklasifikasikan sebagai kelompok diperdagangkan kecuali mereka ditetapkan sebagai instrumen lindung nilai efektif.

Financial liabilities are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. This category includes derivative financial instruments entered into by the Entity that is not designated as hedging instruments in hedge relationships as defined by PSAK No. 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Keuntungan atau kerugian atas liabilitas yang dimiliki untuk diperdagangkan diakui dalam laporan laba rugi dan penghasilan komprehensif lain.

Gains or losses on liabilities held for trading are recognized in the statement of profit or loss and other comprehensive income.

Pada tanggal 31 Desember 2025 dan 2024, Entitas tidak memiliki liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi.

As of December 31, 2025 and 2024, the Entity has no financial liabilities measured at FVTPL.

Saling Hapus Instrumen Keuangan

Offsetting of Financial Instruments

Aset keuangan dan liabilitas keuangan saling hapus dan nilai bersih disajikan dalam laporan posisi keuangan jika, dan hanya jika, saat ini memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus atas jumlah yang telah diakui dan berniat untuk menyelesaikan secara neto, atau untuk merealisasikan aset dan menyelesaikan kewajibannya secara simultan.

Financial assets and financial liabilities are offset and the net amount reported in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Hak yang berkekuatan hukum tersebut tidak harus bergantung pada kejadian masa depan dan harus dapat dilaksanakan dalam kegiatan usaha normal dan dalam hal gagal bayar, pailit atau kebangkrutan dari Entitas atau pihak lawan.

The legally enforceable right must not be contingent on future events and must be enforceable in the norma course of business and in the event of default, insolvency or bankruptcy of the Entity or the counterparty.

Penurunan Nilai dari Aset Keuangan

Impairment of Financial Assets

Pada setiap periode pelaporan, Entitas menilai apakah risiko kredit dari instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal. Ketika melakukan penilaian, Entitas menggunakan perubahan atas risiko gagal bayar yang terjadi sepanjang perkiraan usia instrumen keuangan daripada perubahan atas jumlah kerugian kredit ekspektasian. Dalam melakukan penilaian, Entitas membandingkan antara risiko gagal bayar yang terjadi atas instrumen keuangan pada saat periode pelaporan dengan risiko gagal bayar yang terjadi atas instrumen keuangan pada saat pengakuan awal dan mempertimbangkan kewajaran serta ketersediaan informasi, yang tersedia tanpa biaya atau usaha pada saat tanggal pelaporan terkait dengan kejadian masa lalu, kondisi terkini dan perkiraan atas kondisi ekonomi di masa depan, yang mengindikasikan kenaikan risiko kredit sejak pengakuan awal.

At each reporting date, the Entity assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Entity uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Entity compares the risk of a default occurring on the financial instrument as of the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and consider reasonable and supportable information, that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions, that is indicative of significant increases in credit risk since initial recognition.

Untuk piutang usaha, Entitas menerapkan pendekatan yang disederhanakan dalam menghitung kerugian kredit ekspektasian. Entitas mengakui penyisihan kerugian berdasarkan kerugian kredit ekspektasian sepanjang umurnya pada setiap akhir periode pelaporan. Kerugian kredit ekspektasian dari aset keuangan ini diperkirakan menggunakan matriks provisi berdasarkan pengalaman kerugian kredit historis Entitas, disesuaikan dengan faktor masa depan yang spesifik untuk debitur dan lingkungan ekonomi, termasuk nilai waktu dari uang jika diperlukan.

For trade receivable, the Entity applies a simplified approach in calculating expected credit losses. The Entity recognizes a loss allowance based on lifetime expected credit losses at the end of each reporting period. The expected credit losses on these financial assets are estimated using a provision matrix based on the Entity's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment, including time value of money where appropriate.

Ketika risiko kredit pada instrumen keuangan yang mana kerugian kredit ekspektasian sepanjang umurnya telah diakui pada periode setelah tanggal pelaporan mengalami peningkatan, dan persyaratan untuk mengakui kerugian kredit ekspektasian sepanjang umurnya tidak lagi terpenuhi, maka cadangan kerugian diukur pada jumlah yang sama dengan 12 bulan dari kerugian kredit ekspektasian pada periode pelaporan saat ini, kecuali untuk aset yang menggunakan pendekatan yang disederhanakan.

When the credit risks on financial instruments for which lifetime expected credit losses have been recognized subsequently improves, and the requirement for recognizing lifetime expected credit losses is no longer met, the loss allowance is measured at an amount equal to 12 months expected credit losses at the current reporting period, except for assets for which simplified approach was used.

Entitas mengakui rugi penurunan nilai (pemulihan) dalam laba rugi untuk semua aset keuangan dengan penyesuaian yang sesuai dengan jumlah tercatatnya melalui akun penyisihan kerugian, kecuali untuk investasi dalam instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain, di mana penyisihan kerugian diakui dalam penghasilan komprehensif lain dan tidak mengurangi jumlah tercatat aset keuangan dalam laporan posisi keuangan.

The Entity recognizes impairment loss (reversals) in profit or loss for all financial assets with corresponding adjustment to their carrying amount through a loss allowance account, except for investment in debt instruments that are measured at FVOCI, for which the loss allowance is recognized in other comprehensive income and does not reduce the carrying amount of the financial asset in the statements of financial position.

Penghentian Pengakuan Aset dan Liabilitas Keuangan

Derecognition of Financial Assets and Financial Liabilities

Aset keuangan

Financial assets

Aset keuangan (atau mana yang lebih tepat, bagian dari aset keuangan atau bagian dari kelompok aset keuangan serupa) dihentikan pengakuannya pada saat: (1) hak untuk menerima arus kas yang berasal dari aset tersebut telah berakhir; atau (2) Entitas telah mengalihkan hak mereka untuk menerima arus kas yang berasal dari aset atau berkewajiban untuk membayar arus kas yang diterima secara penuh tanpa penundaan material kepada pihak ketiga dalam perjanjian *"pass-through"*; dan baik (a) Entitas telah secara substansial, mengalihkan seluruh risiko dan manfaat dari aset, atau (b) Entitas secara substansial tidak mengalihkan atau tidak memiliki seluruh risiko dan manfaat suatu aset, namun telah mengalihkan kendali atas aset tersebut.

A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when: (1) the rights to receive cash flows from the asset have expired; or (2) the Entity has transferred their rights to receive cash flows from the asset or have assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Entity has transferred substantially all the risks and rewards of the asset, or (b) the Entity has neither transferred nor retained substantially all the risks and rewards of the asset, but have transferred control of the asset.

Liabilitas keuangan

Financial liability

Liabilitas keuangan dihentikan pengakuannya pada saat liabilitas tersebut berakhir atau dibatalkan atau kadaluwarsa.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired.

Dalam hal suatu liabilitas keuangan yang ada digantikan oleh liabilitas keuangan lain dari pemberi pinjaman yang sama dengan persyaratan yang berbeda secara substansial atau modifikasi secara substansial atas persyaratan dari suatu liabilitas yang ada, pertukaran atau penghentian pengakuan liabilitas awal dan pengakuan liabilitas baru, dan selisih antara nilai tercatat masing-masing liabilitas diakui dalam laporan laba rugi dan penghasilan komprehensif lain.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statements of profit or loss and other comprehensive income.

Nilai Wajar Instrumen Keuangan

Fair Value of Financial Instruments

Entitas menilai instrumen keuangan, termasuk derivatif, sebesar nilai wajar pada setiap tanggal laporan posisi keuangan.

The Entity measures financial instruments, including derivatives, at fair value at each statements of financial position date.

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran. Pengukuran nilai wajar mengasumsikan bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

- Di pasar utama untuk aset dan liabilitas tersebut, atau
- Jika tidak terdapat pasar utama, di pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Entitas harus memiliki akses ke pasar utama atau pasar yang paling menguntungkan.

Nilai wajar aset atau liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset atau liabilitas tersebut, dengan asumsi bahwa pelaku pasar utamanya bertindak untuk kepentingan ekonomi terbaik mereka.

Pengukuran nilai wajar atas aset nonkeuangan memperhitungkan kemampuan pelaku pasar dalam menghasilkan manfaat ekonomi tertinggi dalam penggunaan aset atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut secara maksimal.

Entitas menggunakan teknik penilaian yang sesuai dengan keadaan dan dimana data memadai tersedia untuk mengukur nilai wajar, memaksimalkan penggunaan *input* yang dapat diobservasi yang relevan dan meminimalkan penggunaan *input* relevan yang tidak dapat diobservasi.

Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan dapat dikategorikan pada level hirarki nilai wajar, sebagaimana dijelaskan di bawah ini, berdasarkan tingkatan *input* terendah yang signifikan atas pengukuran nilai wajar secara keseluruhan:

- Level 1 - Harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik;
- Level 2 - Teknik penilaian dimana *input* level terendah yang signifikan terhadap pengukuran nilai wajar yang dapat diobservasi baik secara langsung atau tidak langsung;
- Level 3 - Teknik penilaian dimana *input* level terendah yang signifikan terhadap pengukuran yang tidak dapat diobservasi.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- *In the principal market for the asset and liability, or*
- *In the absence of a principal market, in the most advantageous market for the asset or liability.*

The principal or the most advantageous market must be accessible to by the Entity.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economi benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Entity uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- *Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;*
- *Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;*
- *Level 3 - Valuation techniques fo which the lowest level input that is significant to the fair value measurement is unobservable.*

Untuk aset dan liabilitas yang diakui sebesar nilai wajar dalam laporan keuangan secara berulang, Entitas menentukan apakah terjadi transfer antara level di dalam hirarki dengan cara mengevaluasi kategori (berdasarkan *input* level terendah yang signifikan dalam pengukuran nilai wajar secara keseluruhan) pada setiap akhir periode pelaporan.

Untuk tujuan pengungkapan nilai wajar, Entitas telah menentukan kategori aset dan liabilitas berdasarkan sifat, karakteristik, dan risiko dari aset atau liabilitas tersebut, dan level hirarki nilai wajar seperti dijelaskan di atas.

Penyesuaian Risiko Kredit

Entitas melakukan penyesuaian harga dalam kondisi pasar yang lebih menguntungkan untuk mencerminkan adanya perbedaan risiko kredit di pihak lawan antara instrumen yang diperdagangkan di pasar tersebut dengan instrumen yang sedang dinilai untuk posisi aset keuangan. Dalam menentukan nilai wajar liabilitas keuangan, risiko kredit Entitas terkait dengan instrumen harus diperhitungkan.

d. Transaksi dengan Pihak-pihak Berelasi

Entitas melakukan transaksi dengan pihak-pihak berelasi seperti yang dinyatakan dalam PSAK No. 224, mengenai "Pengungkapan Pihak-pihak Berelasi".

Pihak-pihak berelasi adalah orang atau entitas yang terkait dengan entitas pelapor:

(a) Orang atau anggota keluarga terdekat mempunyai relasi dengan entitas pelapor jika orang tersebut:
  (i) memiliki pengendalian atau pengendalian bersama atas entitas pelapor;
  (ii) memiliki pengaruh signifikan atas entitas pelapor; atau
  (iii) personil manajemen kunci entitas pelapor atau entitas induk entitas pelapor.

For assets and liabilities that ar recognized at fair value in the financial statements on recurring basis, the Entity determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting year.

For the purpose of fair value disclosures, the Entity have determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Credit Risk Adjustment

The Entity adjusts the price in the more advantageous market to reflect any differences in counterparty credit risk between instruments traded in that market and the ones being valued for financial asset positions. In determining the fair value of financial liability positions, the Entity's own credit risk associated with the instrument is taken into account.

d. Transaction with Related Parties

The Entity has transactions with entities that are regarded as having special relationship as defined by PSAK No. 224, regarding "Related Parties Disclosures".

Related party represents a person or an entity who is related to the reporting entity:

(a) A person or a close member of the person's family is related to a reporting entity if that person:
  (i) has control or joint control over the reporting entity;
  (ii) has significant influence over the reporting entity; or
  (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.

(b) Suatu entitas berelasi dengan entitas pelapor jika memenuhi salah satu hal berikut:
   (i) entitas dan entitas pelapor adalah anggota dari kelompok usaha yang sama (artinya entitas induk, entitas anak, berikutnya terkait dengan entitas lain);
   (ii) satu entitas adalah entitas asosiasi atau ventura bersama dari entitas lain (atau entitas asosiasi atau ventura bersama yang merupakan anggota suatu kelompok usaha, yang mana entitas lain tersebut adalah anggotanya);
   (iii) kedua entitas tersebut adalah ventura bersama dari pihak ketiga yang sama;
   (iv) satu entitas adalah ventura bersama dari entitas ketiga dan entitas yang lain adalah entitas asosiasi dari entitas ketiga;
   (v) entitas tersebut adalah suatu program imbalan paskakerja untuk imbalan kerja dari salah satu entitas pelapor atau entitas yang terkait dengan entitas pelapor. Jika entitas pelapor adalah entitas yang menyelenggarakan program tersebut, maka entitas sponsor juga berelasi dengan entitas pelapor;
   (vi) entitas yang dikendalikan atau dikendalikan bersama oleh orang yang diidentifikasi dalam huruf (a);
   (vii) orang yang diidentifikasi dalam huruf (a) (i) memiliki pengaruh signifikan atas entitas atau personil manajemen kunci entitas (atau entitas induk dari entitas);
   (viii) entitas, atau anggota dari kelompok yang mana entitas merupakan bagian dari kelompok tersebut, menyediakan jasa personil manajemen kunci kepada entitas pelapor atau kepada entitas induk dari entitas pelapor.

Seluruh saldo dan transaksi yang signifikan dengan pihak-pihak berelasi, baik yang dilakukan ataupun tidak dilakukan dengan persyaratan dan kondisi normal sebagaimana yang dilakukan dengan pihak ketiga, diungkapkan dalam catatan atas laporan keuangan.

(b) An entity is related to a reporting entity if any of the following conditions applies:
   (i) the entity's and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
   (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
   (iii) both entities are joint ventures of the same third party;
   (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
   (v) the entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity;
   (vi) the entity is controlled or jointly controlled by a person identified in (a);
   (vii) a person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity);
   (viii) the entity, or any member of a group of which it is a part, provided key management personnel services to the reporting entity or to the parent of the reporting entity.

All balances and significant transactions with related parties, whether it is done or not done with the terms and conditions as those with third parties, are disclosed in the notes to the financial statements.

e. Kas dan Bank

Sesuai dengan PSAK No. 207, mengenai "Laporan Arus Kas", kas dan bank terdiri dari kas dan bank. Kas dan bank tidak digunakan sebagai jaminan atas liabilitas dan pinjaman lainnya dan tidak dibatasi penggunaannya.

e. Cash on Hand and in Banks

According to PSAK No. 207, regarding "Statements of Cash Flows", cash on hand and in banks consist of cash on hand and cash in bank. Cash on hand and in banks are not pledged as collaterals for liabilities and other loans and not restricted.

f. Persediaan

Sesuai dengan PSAK No. 202, mengenai "Persediaan", persediaan dinyatakan sebesar nilai yang lebih rendah antara harga perolehan atau nilai realisasi neto (*the lower of cost or net realizable value)*. Biaya perolehan ditentukan dengan metode rata-rata tertimbang *(weighted-average method)*.

Nilai realisasi neto merupakan estimasi harga jual dalam kegiatan usaha normal dikurangi estimasi biaya penyelesaian dan estimasi biaya yang diperlukan untuk membuat penjualan.

f. Inventories

According to PSAK No. 202, regarding "Inventories", inventories are stated at the lower of cost or net realizable value. Cost is determined using the weighted-average method.

Net realizable value represents the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

g. Biaya Dibayar di Muka

Biaya dibayar di muka dibebankan pada laba rugi tahun berjalan sesuai masa manfaat masing-masing biaya dengan menggunakan metode garis lurus (*straight-line method*).

g. Prepaid Expenses

Prepaid expenses are amortized over their beneficial periods by using the straight-line method.

h. Aset Tetap

Sesuai dengan PSAK No. 216, mengenai "Aset Tetap", aset tetap yang dimiliki untuk digunakan dalam produksi atau penyediaan barang atau jasa atau untuk tujuan administratif dicatat berdasarkan biaya perolehan setelah dikurangi akumulasi penyusutan dan akumulasi kerugian penurunan nilai.

Penyusutan dihitung dengan menggunakan metode garis lurus *(straight-line method)*. Umur ekonomis aset tetap adalah sebagai berikut:

h. Fixed Assets

According with PSAK No. 216, regarding "Fixed Assets", fixed assets held for use in the production or supply of goods or services, or for administrative purposes are stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is computed using the straight-line method. The useful lives of the fixed assets are as follows:

	Umur Ekonomis/*Useful Lives*	
Peralatan dan komputer	5	*Computer and equipment*
Perlengkapan dan *furniture*	5	*Furniture and fixture*
Kendaraan	5	*Vehicles*

Biaya perbaikan dan perawatan dibebankan pada laporan laba rugi dan penghasilan komprehensif lain pada saat terjadinya biaya-biaya tersebut. Sedangkan biaya-biaya yang berjumlah besar dan sifatnya meningkatkan kondisi aset secara signifikan dikapitalisasi.

Aset tetap yang sudah tidak digunakan lagi atau dijual, biaya perolehan serta akumulasi penyusutan dan amortisasi dikeluarkan dari kelompok aset tetap yang bersangkutan dan laba atau rugi yang terjadi dibukukan dalam laporan laba rugi dan penghasilan komprehensif lain pada tahun yang bersangkutan.

Cost of repairs and maintenance is charged to the statements of profit or loss and other comprehensive income as incurred, significant renewals and betterments are capitalized.

When assets are retired or otherwise disposed of, their carrying value and the related accumulated depreciation are removed from the accounts and any resulting gain or loss is credited or charged to current statements of profit or loss and other comprehensive income.

i. Sewa

Sesuai dengan PSAK No. 116, mengenai "Sewa", Entitas mengakui hak aset sewa dan liabilitas sewa.

Sebagai Penyewa

Pada tanggal permulaan kontrak, Entitas menilai apakah kontrak merupakan, atau mengandung, sewa. Suatu kontrak merupakan atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset identifikasian selama suatu jangka waktu untuk dipertukarkan dengan imbalan.

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset identifikasian, Entitas harus menilai apakah:

- Entitas memiliki hak untuk mendapatkan secara subtansial seluruh manfaat ekonomi dari penggunaan aset identifikasian; dan

- Entitas memiliki hak untuk mengarahkan penggunaan aset identifikasian. Entitas memiliki hak ini ketika mereka memiliki hak untuk pengambilan keputusan yang relevan tentang bagaimana dan untuk tujuan apa aset digunakan telah ditentukan sebelumnya dan:
  1. Entitas memiliki hak untuk mengoperasikan aset;
  2. Entitas telah mendesain aset dengan cara menetapkan sebelumnya bagaimana dan untuk tujuan apa aset akan digunakan selama periode penggunaan.

Pada tanggal insepsi atau pada penilaian kembali atas kontrak yang mengandung sebuah komponen sewa, Entitas mengalokasikan imbalan dalam kontrak ke masing-masing komponen sewa berdasarkan harga tersendiri relatif dari komponen sewa dan harga tersendiri agregat dari komponen nonsewa. Namun, untuk sewa penunjang dimana Entitas bertindak sebagai penyewa, Entitas memutuskan untuk tidak memisahkan komponen nonsewa dan mencatat komponen sewa dan nonsewa tersebut sebagai satu komponen sewa.

i) Aset hak-guna

Pada tanggal permulaan sewa, Entitas mengakui aset hak-guna. Aset hak-guna diukur pada biaya perolehan, dimana meliputi jumlah pengukuran awal liabilitas sewa yang disesuaikan dengan pembayaran sewa yang

i. Leases

According with PSAK No. 116, regarding "Leases", the Entity recognize leased assets and leased liabilities.

As a Lessee

At the inception of a contract, the Entity assesses whether the contract is, or contains, a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Entity shall assess whether:

- *The Entity has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and*
- *The Entity has the right to direct the use of the asset. The Entity has this right when they have the decision-making rights that are the most relevant to changing how and for what purpose the asset is used are predetermined and:*
  1. *The Entity has the right to operate the asset;*
  2. *The Entity has designed the asset in a way that predetermined how and for what purpose it will be used.*

At the inception or on reassessment of a contract that contains a lease component, the Entity allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices and the aggregate stand-alone price of the nonlease components. However, for the leases of improvements in which the Entity is a lessee, the Entity has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

i) Right-of-use assets

The Entity recognizes a right-of-use asset at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial measurementof the lease liability adjusted for any lease payment made

dilakukan pada atau sebelum tanggal permulaan, ditambah dengan biaya langsung awal yang dikeluarkan dan estimasi biaya yang akan dikeluarkan untuk membongkar dan memindahkan aset pendasar atau untuk merestorasi aset pendasar ke kondisi yang disyaratkan dan ketentuan sewa, dikurangi dengan insentif sewa yang diterima.

at or before the commencement date, plus any initial direct cost incurred and an estimate of costs to be incurred in dismantling and removing the underlying asset or to restore the underlying asset to the conditions required by the terms and conditions of the lease, less any lease incentives received.

Aset hak-guna aset selanjutnya diukur sebesar biaya dikurangi akumulasi penyusutan dan kerugian penuruan nilai.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses.

Aset hak-guna kemudian disusutkan menggunakan metode garis lurus dari tanggal permulaan hingga tanggal yang lebih awal antara akhir umur manfaat aset hak-guna atau akhir masa sewa selama 2-3 tahun untuk bangunan kantor.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term which is 2-3 years for the office building.

Jika sewa mengalihkan kepemilikan aset pendasar kepada Entitas pada akhir masa sewa atau jika biaya perolehan aset hak-guna merefleksikan Entitas akan mengeksekusi opsi beli, maka Entitas menyusutkan aset hak-guna dari tanggal permulaan hingga akhir umur manfaat aset pendasar. Jika tidak, maka Entitas menyusutkan aset hak-guna dari tanggal permulaan hingga tanggal yang lebih awal antara akhir umur manfaat aset hak-guna atau akhir masa sewa.

If the lease transfers ownership of the underlying asset to the Entity by the end of the lease term or if the cost of the right-of-use asset reflects that the Entity will exercise a purchase option, the Entity depreciate the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Entity depreciate the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Entitas menerapkan PSAK No. 236 untuk menentukan apakah aset hak-guna mengalami penurunan nilai dan mencatat kerugian penurunan nilai yang teridentifikasi sebagaimana dijelaskan dalam kebijakan aset penurunan nilai

The Entity applies PSAK No. 236 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the impairment of assets policy.

Ketika suatu kontrak mencakup komponen sewa dan non-sewa, Entitas menerapkan PSAK No. 115 untuk mengalokasikan imbalan berdasarkan kontrak bagi setiap komponen.

When a contract includes lease and non-lease components, the Entity applies PSAK No. 115 to allocate the consideration under the contract to each component.

ii) Liabilitas sewa

ii) Lease liability

Liabilitas sewa diukur pada nilai kini pembayaran sewa yang belum dibayar pada tanggal permulaan, didiskontokan dengan menggunakan suku bunga implisit dalam sewa atau jika suku bunga tersebut tidak dapat ditentukan, maka menggunakan suku bunga pinjaman inkremental.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the interest rate implicit in the lease or, if that rate cannot be readily determined, using incremental borrowing rate.

Pada umumnya, Entitas menggunakan suku bunga pinjaman inkremental sebagai tingkat bunga diskonto.

Pembayaran sewa yang diperhitungkan dalam pengukuran liabilitas sewa meliputi:

- pembayaran tetap, termasuk pembayaran tetap secara substansi dikurangi dengan piutang insentif sewa;
- pembayaran sewa variabel yang bergantung pada indeks atau suku bunga yang pada awalnya diukur dengan menggunakan indeks atau suku bunga pada tanggal permulaan;
- jumlah yang diperkirakan akan dibayarkan oleh penyewa dengan jaminan nilai residual;
- harga eksekusi opsi beli jika Entitas cukup pasti untuk mengeksekusi opsi tersebut; dan
- pembayaran penalti karena penghentian sewa, jika masa sewa merefleksikan penyewa mengeksekusi opsi untuk menghentikan sewa.

Pembayaran sewa dialokasikan menjadi bagian pokok dan biaya keuangan. Biaya keuangan dibebankan pada laba rugi selama periode sewa sehingga menghasilkan tingkat suku bunga periodik yang konstan atas saldo liabilitas untuk setiap periode menggunakan metode suku bunga efektif.

Entitas menyajikan "Aset Hak-Guna" sebagai bagian dari aset tetap dan "Liabilitas Sewa" terpisah di dalam laporan posisi keuangan.

Generally, the Entity uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise:

- *fixed payments (including in-substance fixed payments) less any lease incentives receivable;*
- *variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;*
- *amounts expected to be payable under a residual value guarantees;*
- *the exercise price of a purchase option if the Entity are reasonably certain to exercise that options; and*
- *payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.*

Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period using the effective interest method.

The Entity presents "Right-of-Use Assets" as part of fixed assets and "Lease liabilities" are presented separately in the statements of financial position.

Sewa Jangka Pendek

Entitas memutuskan untuk tidak mengakui aset hak-guna dan liabilitas sewa untuk sewa jangka pendek yang memiliki masa sewa 12 bulan atau kurang dan sewa yang asset pendasarnya benilai-rendah.

Entitas mengakui pembayaran sewa atas sewa tersebut sebagai beban dengan dasar garis lurus selama masa sewa kecuali dasar sistematis lainnya lebih merepresentasikan pola konsumsi manfaat penyewa dari aset sewa.

Short-term Leases

The Entity has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low value assets.

The Entity recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Modifikasi Sewa

Entitas mencatat modifikasi sewa sebagai sewa terpisah jika:

- modifikasi meningkatkan ruang lingkup sewa dengan menambahkan hak untuk menggunakan satu aset pendasar atau lebih; dan
- imbalan sewa meningkat sebesar jumlah yang setara dengan harga tersendiri untuk peningkatan dalam ruang lingkup dan penyesuaian yang tepat pada harga tersendiri tersebut untuk merefleksikan kondisi kontrak tertentu.

Untuk modifikasi sewa yang tidak dicatat sebagai sewa terpisah, pada tanggal efektif modifikasi sewa, Entitas:
- mengukur kembali dan mengalokasikan imbalan kontrak modifikasian;
- menentukan masa sewa dari sewa modifikasian;
- mengukur kembali liabilitas sewa dengan mendiskontokan pembayaran sewa revisian menggunakan tingkat diskonto revisian berdasarkan sisa umur sewa dan sisa pembayaran sewa dengan melakukan penyesuaian terhadap aset hak-guna. Tingkat diskonto revisian ditentukan sebagai suku bunga pinjaman inkremental Entitas pada tanggal efektif modifikasi;
- menurunkan jumlah tercatat aset hak-guna untuk merefleksikan penghentian sebagian atau sepenuhnya sewa untuk modifikasi sewa yang menurunkan ruang lingkup sewa. Entitas mengakui dalam laba rugi setiap laba rugi yang terkait dengan penghentian sebagian atau sepenuhnya sewa tersebut; dan
- membuat penyesuaian terkait dengan aset hak-guna untuk seluruh modifikasi sewa lainnya.

Sewa variabel yang tidak bergantung pada indeks atau suku bunga tidak diperhitungkan dalam pengukuran liabilitas sewa dan aset hak guna. Pembayaran terkait diakui sebagai beban dalam periode di mana peristiwa atau kondisi yang memicu pembayaran tersebut terjadi dan dicatat dalam pos "Beban Umum dan Administrasi" dalam laporan laba rugi dan penghasilan komprehensif lain.

j. Penurunan Nilai Aset Non-Keuangan, Kecuali *Goodwill*

Sesuai dengan PSAK No. 236, mengenai "Penurunan Nilai Aset", pada tanggal laporan posisi keuangan, Entitas menelaah nilai tercatat aset non-keuangan, kecuali *goodwill* untuk

Lease Modification

The Entity accounts for a lease modification as a separate lease if both:

- *the modification increases the scope of the lease by adding the right to use one or more underlying assets; and*
- *the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.*

For a lease modification that is not accounted for as a separate lease, at the effective date of the lease modification, the Entity:
- *remeasures and allocates the consideration in the modified contract;*
- *determines the lease term of the modified lease;*
- *remeasures the lease liability by discounting the revised lease payments using a revised discount rate on the basis of the remaining lease term and the remaining lease payment with a corresponding adjustment to the right-of-use assets. The revised discount rate is determined as the Entity's incremental borrowing rate at the effective date of the modification;*
- *decrease the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease. The Entity recognizes any gain or loss relating to the partial or full termination of the lease in profit or loss; and*
- *make a corresponding adjustment to the right-of-use asset for all other lease modifications.*

Variable rents that do not depend on an index or rate are not included in the measurements of the lease liability and the right-of-use asset. The related payments are recognized as an expense inthe period in which the event or condition that triggers those payments occur and are included in the line "General and Administrative Expenses" in the statement of profit or loss and other comprehensive income.

j. Impairment in Non-Financial Assets, Except Goodwill

According to PSAK No. 236, regarding "Impairment of Assets", at statement of financial position dates, the Entity reviews the carrying amount of non-financial assets, except goodwill

menentukan apakah terdapat indikasi bahwa aset tersebut telah mengalami penurunan nilai. Jika terdapat indikasi tersebut, nilai yang dapat dipulihkan kembali dari aset diestimasi untuk menentukan tingkat kerugian penurunan nilai (jika ada). Bila tidak memungkinkan untuk mengestimasi nilai yang dapat dipulihkan kembali atas suatu aset individu, Entitas mengestimasi nilai yang dapat diperoleh kembali dari unit penghasil kas atas aset.

to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Entity estimates the recoverable amount of the cash generating unit to which the asset belongs.

Perkiraan jumlah yang dapat dipulihkan kembali adalah nilai tertinggi antara nilai wajar dikurangi biaya untuk menjual neto atau nilai pakai. Jika jumlah yang dapat dipulihkan kembali dari aset non-keuangan (unit penghasil kas) kurang dari nilai tercatatnya, nilai tercatat aset (unit penghasil kas) dikurangi menjadi sebesar nilai yang dapat dipulihkan kembali dan rugi penurunan nilai diakui langsung ke laporan laba rugi dan penghasilan komprehensif lain.

Estimated recoverable amount is the higher of fair value less costs to sell or value in use. If the recoverable amount of a non-financial asset (cash generating unit) is less than its carrying amount, the carrying amount of the asset (cash generating unit) is reduced to its recoverable amount and an impairment loss is recognized immediately in the statements of profit or loss and other comprehensive income.

k. Liabilitas Diestimasi atas Imbalan Kerja

k. Estimated Liabilities for Employee Benefits

Entitas memiliki program imbalan pasti. Program imbalan pasti adalah program pensiun yang bukan merupakan program iuran pasti. Pada umumnya, program imbalan pasti ditentukan berdasarkan jumlah imbalan pensiun yang akan diterima seorang pekerja pada saat pensiun, biasanya tergantung oleh satu faktor atau lebih, sebagai contoh usia, masa bekerja dan kompensasi.

The Entity have defined benefit plans. A defined benefit plan is a pension plan that is not a defined contribution plan. Typically, defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

Sehubungan dengan program imbalan pasti, liabilitas diakui pada laporan posisi keuangan sebesar nilai kini kewajiban imbalan pasti pada akhir periode pelaporan. Kewajiban imbalan pasti dihitung setiap tahun oleh aktuaris independen dengan menggunakan metode *projected unit credit*. Nilai kini kewajiban imbalan pasti ditentukan dengan mendiskontokan arus kas keluar yang diestimasi dengan menggunakan tingkat bunga Obligasi Pemerintah (dikarenakan saat ini tidak ada pasar aktif untuk obligasi perusahaan yang berkualitas tinggi) yang didenominasikan dalam mata uang dimana imbalan akan dibayarkan dan memiliki jangka waktu jatuh tempo mendekati jangka waktu kewajiban pensiun.

The liability recognized in the statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of Government Bonds (considering currently there is no deep market for high-quality corporate bonds) that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension obligation.

Biaya bunga bersih dihitung dengan menerapkan tingkat diskonto terhadap saldo bersih kewajiban imbalan pasti dan nilai wajar aset program. Biaya ini termasuk dalam beban imbalan kerja dalam laporan laba rugi dan penghasilan komprehensif lain.

Keuntungan dan kerugian atas pengukuran kembali yang timbul dari penyesuaian dan perubahan dalam asumsi-asumsi aktuarial langsung diakui seluruhnya melalui penghasilan komprehensif lain pada saat terjadinya. Keuntungan dan kerugian ini termasuk di dalam laba ditahan pada laporan perubahan ekuitas dan pada laporan posisi keuangan.

Perubahan nilai kini atas kewajiban imbalan pasti yang timbul dari amendemen rencana atau pembatasan langsung diakui dalam laporan laba rugi dan penghasilan komprehensif lain sebagai biaya jasa lalu.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit or loss and other comprehensive income.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise. They are included in retained earnings in the statement of changes in equity and in the statement of financial position.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in in the statement of profit or loss and other comprehensive income as past service costs.

l. Pendapatan dari Kontrak dengan Pelanggan dan Beban

Entitas telah menerapkan PSAK No. 115 yang membutuhkan pengakuan pendapatan untuk memenuhi 5 langkah analisa sebagai berikut:

1. Identifikasi kontrak dengan pelanggan.
2. Identifikasi kewajiban pelaksanaan dalam kontrak. Kewajiban pelaksanaan merupakan janji-janji dalam kontrak untuk menyerahkan barang atau jasa yang memiliki karakteristik berbeda ke pelanggan.
3. Penetapan harga transaksi. Harga transaksi merupakan jumlah imbalan yang berhak diperoleh suatu entitas sebagai kompensasi atas diserahkannya barang atau jasa yang dijanjikan ke pelanggan. Jika imbalan yang dijanjikan di kontrak mengandung suatu jumlah yang bersifat variabel, maka Entitas membuat estimasi jumlah imbalan tersebut sebesar jumlah yang diharapkan berhak diterima atas diserahkannya barang atau jasa yang dijanjikan ke pelanggan dikurangi dengan estimasi jumlah jaminan kinerja jasa yang akan dibayarkan selama periode kontrak.

l. Revenue from Contracts with Customer and Expenses

The Entity has applied PSAK No. 115 which requires revenue recognition to fulfill 5 steps of assessment:

1. Identify contract(s) with a customer.
2. Identify the performance obligations in the contract. Performance obligations are promises in a contract that transfer to a customer goods or services that are distinct.

3. Determine the transaction price. Transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer. If the consideration promised in a contract includes a variable amount, the Entity estimates the amount of consideration to which it expects to be entitled in exchange for transferring the promised goods or services to a customer less the estimated amount of service level guarantee which will be paid during the contract period.

4. Alokasi harga transaksi ke setiap kewajiban pelaksanaan dengan menggunakan dasar harga jual berdiri sendiri relatif dari setiap barang atau jasa berbeda yang dijanjikan di kontrak. Ketika tidak dapat diamati secara langsung, harga jual berdiri sendiri relatif diperkirakan berdasarkan biaya yang diharapkan ditambah marjin.
5. Pengakuan pendapatan ketika kewajiban pelaksanaan telah dipenuhi dengan menyerahkan barang atau jasa yang dijanjikan ke pelanggan (ketika pelanggan telah memiliki kendali atas barang atau jasa tersebut).

4. Allocate the transaction price to each performance obligation on the basis of the relative stand-alone selling prices of each distinct goods or services promised in the contract. Where these are not directly observable, the relative standalone selling price are estimated based on expected cost plus margin.
5. Recognize revenue when performance obligation is satisfied by transferring a promised goods or services to a customer (which is when the customer obtains control of that goods or services).

Kewajiban pelaksanaan dapat dipenuhi dengan cara sebagai berikut:

A performance obligation may be satisfied at the following:

a. Suatu titik waktu (umumnya janji untuk menyerahkan barang ke pelanggan); atau
b. Suatu periode waktu (umumnya janji untuk menyerahkan jasa ke pelanggan). Untuk kewajiban pelaksanaan yang dipenuhi dalam suatu periode waktu, Entitas memilih ukuran penyelesaian yang sesuai untuk penentuan jumlah pendapatan yang harus diakui karena telah terpenuhinya kewajiban pelaksanaan.

a. A point in time (typically for promises to transfer goods to a customer); or
b. Over time (typically for promises to transfer services to a customer). For a performance obligation satisfied over time, the Entity select an appropriate measure of progress to determine the amount of revenue that should be recognized as the performance obligation is satisfied.

Pembayaran harga transaksi berbeda untuk setiap kontrak. Aset kontrak diakui ketika jumlah penerimaan dari pelanggan kurang dari saldo kewajiban pelaksanaan yang telah dipenuhi. Kewajiban kontrak diakui ketika jumlah penerimaan dari pelanggan lebih dari saldo kewajiban pelaksanaan yang telah dipenuhi.

Payment of the transaction price differs for each contracts. A contract asset is recognized once the consideration paid by customer is less than the balance of performance obligation which has been satisfied. A contract liability is recognized once the consideration paid by customer is more than the balance of performance obligation which has been satisfied.

Penjualan Barang Dagang

Sale of Goods

Pendapatan dari kontrak atas penyediaan jasa diakui dengan acuan pada tingkat penyelesaian berdasarkan kontrak.

Revenue from contract to provide services was recognized by reference to the percentage of completion of the contract.

Pendapatan Bunga

Interest Income

Pendapatan bunga diakrual berdasarkan waktu terjadinya dengan acuan jumlah pokok terutang dan tingkat bunga yang berlaku.

Interest income is accrued on in time basis, by reference to the outstanding principal and at the applicable interest rate.

Beban

Biaya dan beban adalah penurunan manfaat ekonomi selama periode akuntansi dalam bentuk arus keluar atau penurunan aset atau timbulnya kewajiban yang mengakibatkan penurunan ekuitas, selain yang berkaitan dengan distribusi kepada peserta ekuitas. Beban diakui pada saat terjadinya.

Expenses

Costs and expenses are decreases in economic benefits during the accounting period in the form of outflows or decrease of assets or incurrence of liabilities that result in decreases in equity, other than those relating to distributions to equity participants. Expenses are recognized when incurred.

m. Transaksi dan Saldo dalam Mata Uang Asing

Transaksi-transaksi dalam mata uang asing dijabarkan dalam mata uang Rupiah dengan menggunakan kurs yang berlaku pada saat transaksi dilakukan, pada tanggal laporan posisi keuangan, aset dan liabilitas moneter dalam mata uang asing dijabarkan dalam mata uang Rupiah dengan mempergunakan kurs tengah Bank Indonesia yang berlaku pada tanggal tersebut.

Keuntungan atau kerugian yang timbul sebagai akibat dari penjabaran aset dan liabilitas dalam mata uang asing dicatat pada laporan laba atau rugi dan penghasilan komprehensif lain pada tahun yang bersangkutan. Kurs tengah Bank Indonesia pada tanggal 31 Desember 2025 dan 2024 adalah sebagai berikut:

m. Foreign Currency Transactions and Balances

Transactions involving foreign currencies are recorded in Rupiah amounts at the rates of exchange prevailing at the time the transactions are made, at statements of financial position date, monetary assets and liabilities denominated in foreign currencies are adjusted to Rupiah to reflect the prevailing rates of exchange as published by Bank Indonesia.

Any resulting gains or losses are charged to current year statements of profit or loss and other comptrehensive income. The Bank Indonesia middle rates of exchange as of December 31, 2025 and 2024 are as follows:

	2025	2024	
US$, Dolar Amerika Serikat	16.782	16.162	*US$, United States Dollar*
SGD$, Dolar Singapura	13.069	11.919	*SGD$, Singapore Dollar*
AED 1, Uni Emirat Arab Dirham	4.570	4.386	*AED 1, Uni Emirat Arab Dirham*
MYR 1, Malaysian Ringgit	4.144	3.616	*MYR 1, Malaysian Ringgit*
THB 1, Thailand Baht	533	476	*THB 1, Thailand Baht*
INR 1, India Rupee	186	188	*INR 1, India Rupee*

n. Pajak Penghasilan

Entitas menerapkan PSAK No. 212, mengenai "Pajak Penghasilan", yang mengharuskan Entitas untuk memperhitungkan konsekuensi pajak kini dan pajak masa depan atas pemulihan di masa depan (penyelesaian) dari jumlah tercatat aset (liabilitas) yang diakui dalam laporan posisi keuangan, dan transaksi-transaksi serta peristiwa lain yang terjadi dalam tahun berjalan yang diakui dalam laporan keuangan.

Beban pajak kini ditetapkan berdasarkan taksiran penghasilan kena pajak tahun berjalan. Aset dan liabilitas pajak tangguhan diakui atas perbedaan temporer antara aset dan liabilitas untuk tujuan komersial dan untuk tujuan perpajakan setiap tanggal pelaporan. Manfaat pajak di masa mendatang, seperti

n. Income Tax

The Entity adopted PSAK No. 212, regarding "Income Taxes", which requires the Entity to account for the tax consequences of current and future taxes over the future recovery (settlement) of the carrying amount of assets (liabilities) recognized in the statement of financial position and transactions as well as other events that occurred in the current year are recognized in the financial statements.

Current tax expense is based on estimated taxable income for the year. Deferred tax assets and liabilities are recognized for temporary differences between assets and liabilities for commercial purposes and the tax bases of each reporting date. Future tax benefits, such as the

nilai terbawa atas saldo rugi fiskal yang belum digunakan, jika ada, juga diakui sejauh realisasi atas manfaat pajak tersebut dimungkinkan.

Aset dan liabilitas pajak tangguhan diukur pada tarif pajak yang diharapkan akan digunakan pada tahun ketika aset direalisasi atau ketika liabilitas dilunasi berdasarkan tarif pajak (dan peraturan perpajakan) yang berlaku atau secara substansial telah diberlakukan pada tanggal laporan posisi keuangan.

Perubahan nilai tercatat aset dan liabilitas pajak tangguhan yang disebabkan oleh perubahan tarif pajak dibebankan pada tahun berjalan, kecuali untuk transaksi-transaksi yang sebelumnya telah langsung dibebankan atau dikreditkan ke ekuitas.

Perubahan terhadap liabilitas perpajakan diakui pada saat penetapan pajak diterima atau jika Entitas mengajukan keberatan, pada saat keputusan atas keberatan telah ditetapkan.

value carried on the balance of unused tax losses, if any, is also recognized to the extent the realization of such benefits is possible.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the statements of financial position date.

Changes in the carrying amount of deferred tax assets and liabilities due to changes in tax rates charged to the current year, except for transactions that previously charged or credited to equity.

Changes to tax liabilities are recognized when the tax assessment is received or if the Entity appealed against, when the results of objection has been set.

3. PENGGUNAAN PERTIMBANGAN, ESTIMASI DAN ASUMSI MATERIAL

Penyusunan laporan keuangan mengharuskan manajemen untuk membuat taksiran dan asumsi yang mempengaruhi jumlah aset dan liabilitas dan pengungkapan aset dan liabilitas kontinjensi pada tanggal laporan keuangan serta jumlah pendapatan dan beban yang dilaporkan selama periode pelaporan. Hasil aktual dapat berbeda dari taksiran tersebut.

Estimasi dan Asumsi

Estimasi dan asumsi yang memiliki pengaruh material terhadap jumlah tercatat aset dan liabilitas adalah sebagai berikut:

a. Estimasi Provisi Kerugian Kredit Ekspektasian dari Piutang Usaha

   Tingkat provisi yang spesifik dievaluasi oleh manajemen dengan dasar faktor-faktor yang memengaruhi tingkat tertagihnya piutang tersebut. Dalam kasus ini, Entitas menggunakan pertimbangan berdasarkan fakta dan kondisi terbaik yang tersedia meliputi tetapi tidak terbatas pada jangka waktu hubungan Entitas dengan pelanggan dan status kredit pelanggan berdasarkan laporan dari pihak ketiga dan faktor-faktor pasar yang telah diketahui, untuk mencatat pencadangan spesifik untuk pelanggan terhadap jumlah jatuh tempo untuk mengurangi piutang Entitas menjadi jumlah yang diharapkan tertagih.

3. USE OF MATERIAL JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements requires management to make estimations and assumptions that affect assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could be different from these estimations.

Estimates and Assumptions

The estimates and assumptions that have a material effect on the carrying amounts of assets and liabilities are as follows:

a. Estimating Provision for Expected Credit Losses of Trade Receivables

   The level of a specific provision is evaluated by management on the basis of factors that affect the collectibility of the accounts. In these cases, the Entity uses judgement based on the best available facts and circumstances, including but not limited to, the length of the Entity's relationship with the customers and customers' credits status based on third-party credit reports and known market factors, to record specific reserves for customers against amounts due in order to reduce the Entity's receivables to amounts that they expect to collect.

Pencadangan secara spesifik ini dievaluasi kembali dan disesuaikan jika terdapat informasi tambahan yang diterima yang mempengaruhi jumlah yang diestimasikan. Selain provisi khusus terhadap piutang yang signifikan secara individual, Entitas juga mengakui provisi penurunan nilai secara kolektif terhadap risiko kredit debitur yang dikelompokkan berdasarkan karakteristik kredit yang sama, dan meskipun tidak secara spesifik diidentifikasi membutuhkan provisi khusus, memiliki risiko gagal bayar lebih tinggi daripada ketika piutang pada awalnya diberikan kepada debitur.

These specific reserves are re-evaluated and adjusted as additional information received affects the amounts estimated. In addition to specific provision against individually significant receivables, the Entity also recognizes a collective impairment provision against credit exposure of its debtors which are grouped based on common credit characteristics, and although not specifically identified as requiring a specific provision, have a greater risk of default than when the receivables were originally granted to the debitors.

Entitas menerapkan pendekatan yang disederhanakan untuk mengukur kerugian kredit ekspektasian yang menggunakan cadangan kerugian kredit ekspektasian sepanjang umurnya untuk seluruh piutang usaha. Dalam penentuan kerugian kredit ekspektasian, manajemen diharuskan untuk menggunakan pertimbangan dalam mendefinisikan hal apa yang dianggap sebagai kenaikan risiko kredit yang signifikan dan dalam pembuatan asumsi dan estimasi, untuk menghubungkan informasi yang relevan tentang kejadian masa lalu, kondisi terkini dan perkiraan atas kondisi ekonomi. Pertimbangan diaplikasikan dalam menentukan periode sepanjang umurnya dan titik pengakuan awal piutang.

The Entity applies simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables. In determining expected credit losses, management is required to excercise judgement in defining what is considered to be a significant increase in credit risk and in making assumptions and estimates to incorporate relevant information about past events, current conditions and forecasts of economic conditions. Judgement has been applied in determining the lifetime and point of initial recognition of receivables.

b. Penyusutan Aset Tetap

b. Depreciation of Fixed Assets

Manajemen Entitas melakukan penelaahan berkala atas masa manfaat aset tetap berdasarkan faktor-faktor seperti kondisi teknis dan perkembangan teknologi di masa depan.

The Entity's management reviews periodically the estimated useful lives of fixed assets on factors such as technical specification and future technological developments.

Manajemen akan menyesuaikan beban penyusutan jika masa manfaatnya berbeda dari estimasi sebelumnya atau manajemen akan menghapus bukukan atau melakukan penurunan nilai atas aset yang secara teknis telah usang atau aset non-strategis yang dihentikan penggunaannya atau dijual.

Management will revise the depreciation charge where useful lives are different to those previously estimated, or it will write-off or write down assets which are technically obsolete or non-strategic assets that have been abandoned or sold.

Biaya perolehan aset tetap disusutkan dengan menggunakan metode garis lurus berdasarkan estimasi masa manfaat ekonomisnya. Manajemen mengestimasi masa manfaat ekonomis aset tetap adalah 5 tahun. Umur masa manfaat ini adalah umur yang secara umum diharapkan dalam industri di mana Entitas menjalankan bisnisnya. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi.

The costs of fixed assets are depreciated on a straight-line method over their estimated useful lives. Management estimates the useful lives of these fixed assets are 5 years. These are common life expectancies applied in the industries where the Entity conducts its business. Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, and therefore future depreciation charges could be revised.

c. Imbalan Kerja

Nilai kini liabilitas imbalan kerja tergantung pada sejumlah faktor yang ditentukan dengan menggunakan asumsi aktuaria. Asumsi yang digunakan dalam menentukan biaya bersih untuk pensiun termasuk tingkat pengembalian jangka panjang yang diharapkan atas aset program dan tingkat diskonto yang relevan. Setiap perubahan dalam asumsi ini akan berdampak pada nilai tercatat liabilitas imbalan kerja.

Asumsi penting lainnya untuk liabilitas imbalan kerja sebagian didasarkan pada kondisi pasar saat ini.

d. Penurunan Nilai Aset Non-Keuangan, Kecuali *Goodwill*

Pada setiap akhir periode pelaporan, Entitas menelaah nilai tercatat aset non-keuangan, kecuali *goodwill* untuk menentukan apakah terdapat indikasi bahwa aset tersebut telah mengalami penurunan nilai. Jika terdapat indikasi tersebut, nilai yang dapat diperoleh kembali dari aset diestimasi untuk menentukan tingkat kerugian penurunan nilai (jika ada).

Bila tidak memungkinkan untuk mengestimasi nilai yang dapat diperoleh kembali atas suatu aset individu, Entitas mengestimasi nilai yang dapat diperoleh kembali dari unit penghasil kas atas aset.

Perkiraan jumlah yang dapat diperoleh kembali adalah nilai tertinggi antara nilai wajar dikurangi biaya untuk menjual dan nilai pakai. Dalam menilai nilai pakai, estimasi arus kas masa depan didiskontokan ke nilai kini menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini dari nilai waktu uang dan risiko spesifik atas aset yang mana estimasi arus kas masa depan belum disesuaikan.

Jika jumlah yang dapat diperoleh kembali dari aset non-keuangan (unit penghasil kas) kurang dari nilai tercatatnya, nilai tercatat aset (unit penghasil kas) dikurangi menjadi sebesar nilai yang dapat diperoleh kembali dan rugi penurunan nilai diakui langsung ke laba rugi.

e. Pengukuran Nilai Wajar

Sejumlah aset dan liabilitas yang termasuk ke dalam laporan keuangan Entitas memerlukan pengukuran, dan/atau pengungkapan atas nilai wajar.

c. Employee Benefits

The present value of the employee benefits obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost for pensions include the expected long-term rate of return on the relevant plan assets and the discount rate. Any changes in these assumptions will impact the carrying amount of employee benefits obligation.

Other key assumptions for employee benefits obligation are based in part on current market conditions.

d. Impairment loss of Non-Financial Assets, Except Goodwill

At the end of each reporting period, the Entity reviews the carrying amount of non-financial assets, except goodwill to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Where it is not possible to estimate the recoverable amount of an individual asset, the Entity estimates the recoverable amount of the cash generating unit to which the asset belongs.

Estimated recoverable amount is the higher of fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of the non-financial asset (cash generating unit) is less than its carrying amount, the carrying amount of the asset (cash generating unit) is reduced to its recoverable amount and an impairment loss is recognized immediately against earnings.

e. Fair Value Measurement

A number of assets and liabilities included in the Entity's financial statements require measurement at, and/or disclosure of fair value.

Pengukuran nilai wajar aset dan liabilitas keuangan dan non-keuangan Entitas memanfaatkan pasar *input* dan data yang dapat diobservasi sedapat mungkin. *Input* yang digunakan dalam menentukan pengukuran nilai wajar dikategorikan ke dalam level yang berbeda berdasarkan pada bagaimana *input* dapat diobservasi yang digunakan dalam teknik penilaian yang digunakan (hirarki nilai wajar):

- Level 1: Harga kuotasi di pasar aktif untuk item yang serupa (tidak disesuaikan).
- Level 2: Teknik penilaian untuk *input* yang dapat diamati langsung atau tidak langsung selain *input* level 1.
- Level 3: Teknik penilaian untuk *input* yang tidak dapat diobservasi (yaitu tidak berasal dari data pasar).

Klasifikasi item menjadi level di atas didasarkan pada tingkat terendah dari *input* yang digunakan yang memiliki efek signifikan pada pengukuran nilai wajar item tersebut. Transfer item antar level diakui pada periode saat terjadinya.

Jika nilai wajar dari aset keuangan dan liabilitas keuangan yang dicatat dalam laporan posisi keuangan tidak dapat diukur berdasarkan harga kuotasian di pasar aktif, maka nilai wajarnya diukur dengan menggunakan teknik penilaian termasuk model arus kas yang didiskontokan. Masukan untuk model ini diambil dari pasar yang dapat diobservasi jika memungkinkan, tetapi jika tidak memungkinkan, diperlukan tingkat pertimbangan dalam menetapkan nilai wajar. Pertimbangan termasuk pertimbangan input seperti risiko likuiditas, risiko kredit dan volatilitas. Perubahan asumsi terkait faktor-faktor tersebut dapat mempengaruhi nilai wajar instrumen keuangan yang dilaporkan.

The fair value measurement of the Entity's financial and non-financial assets and liabilities utilize market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorized into different levels based on how observable the inputs used in the valuation technique utilized are (the fair value hierarchy):

- *Level 1: Quoted prices in active markets for identical items (unadjusted).*
- *Level 2: Valuation techniques for observable direct or indirect inputs other than level 1 inputs.*
- *Level 3: Valuation techniques for unobservable inputs (i.e. not derived from market data).*

The classification of an item into the above levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfers of items between levels are recognized in the period they occur.

When the fair value of financial assets and financial liabilities recorded in the statements of financial position cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including discounted cash flow model. The inputs to these model are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair value. Judgement include considerations of inputs such as liquidity risks, credit risks and volatility. Changes in assumptions relating to these factors could affect the reported fair value of financial instruments.

f. Pemulihan dari Aset Pajak Tangguhan

Entitas melakukan penelaahan atas nilai tercatat aset pajak tangguhan pada setiap akhir periode pelaporan dan mengurangi nilai tersebut sampai tidak lagi memungkinkan di mana penghasilan kena pajak akan tersedia untuk penggunaan seluruh atau sebagian dari aset pajak tangguhan tersebut. Penelaahan Entitas atas pengakuan aset pajak tangguhan untuk perbedaan temporer yang dapat dikurangkan dan rugi fiskal yang masih dapat dimanfaatkan didasarkan atas tingkat dan waktu dari penghasilan kena pajak yang ditaksirkan untuk periode pelaporan berikutnya.

f. Recoverability of Deferred Tax Assets

The Entity reviews the carrying amounts of deferred tax assets at the end of each reporting period and reduces these to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. The Entity's assessment on the recognition of deferred tax assets on deductible temporary differences and tax loss carried forward are based on the level and timing of forecasted taxable income of the subsequent reporting period.

Taksiran ini berdasarkan hasil pencapaian Entitas di masa lalu dan ekspektasi di masa depan terhadap pendapatan dan beban, sebagaimana juga dengan strategi perencanaan perpajakan di masa depan. Namun, tidak terdapat kepastian bahwa Entitas dapat menghasilkan penghasilan kena pajak yang cukup untuk memungkinkan penggunaan sebagian atau seluruh bagian dari aset pajak tangguhan tersebut.

This forecast is based on the Entity's past results and future expectations on revenues and expenses as well as future tax planning strategies. However, there is no assurance that the Entity will generate sufficient taxable income to allow all or part of the deferred tax assets to be utilized.

g. Ketidakpastian Kewajiban Perpajakan

Dalam situasi tertentu, Entitas tidak dapat menentukan secara pasti jumlah utang pajak kini atau masa mendatang atau jumlah klaim restitusi pajak yang dapat terpulihkan karena proses pemeriksaan yang masih berlangsung atau negosiasi dengan otoritas perpajakan. Ketidakpastian timbul terkait dengan interpretasi dari peraturan perpajakan yang kompleks dan jumlah dan waktu dari penghasilan kena pajak di masa depan. Dalam menentukan jumlah yang harus diakui terkait dengan utang pajak yang tidak pasti atau klaim restitusi pajak yang dapat terpulihkan terkait dengan ketidakpastian posisi perpajakan, Entitas menerapkan pertimbangan yang sama yang akan digunakan dalam menentukan jumlah provisi yang harus diakui sesuai dengan PSAK No. 237, mengenai "Provisi, Liabilitas Kontinjensi dan Aset Kontinjensi" dan PSAK No. 212, mengenai "Pajak Penghasilan".

g. Uncertain Tax Exposure

In certain circumstances, the Entity may not be able to determine the exact amount oftheir current or future tax liabilities or recoverable amount of the claim for tax refund due to ongoing investigation by, or negotiation with, the taxation authority. Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. In determining the amount to be recognized in respect of an uncertain tax liability or the recoverable amount of the claim for tax refund related to uncertain tax positions, the Entity applies similar considerations as it would use in determining the amount of a provision to be recognized in accordance with PSAK No. 237, regarding "Provisions, Contingent Liabilities and Contingent Assets" and PSAK No. 212, regarding "Income Taxes".

Entitas membuat analisa untuk semua ketidakpastian posisi perpajakan untuk menentukan jika utang pajak atas manfaat pajak yang tidak pasti atau cadangan atas klaim restitusi pajak yang tidak dapat terpulihkan harus diakui. Entitas mencatat bunga dan denda atas pajak penghasilan kurang bayar, jika ada, pada beban pajak penghasilan di dalam laporan laba rugi dan penghasilan komprehensif lain.

The Entity makes an analysis of all uncertain tax positions to determine if a tax liability for uncertain tax benefit or a provision for unrecoverable claim for tax refund should be recognized. The Entity presents interest and penalties for the underpayment of income tax, if any, in income tax expense in the statement profit or loss and other comprehensive income.

Pertimbangan Akuntansi Penting dalam Penerapan Kebijakan Akuntansi Entitas

Dalam proses penerapan kebijakan akuntansi Entitas, manajemen telah membuat pertimbangan yang terpisah dari estimasi dan asumsi, yang memiliki pengaruh paling material terhadap jumlah yang dicatat dalam laporan keuangan:

Significant Accounting Judgments in Applying the Entity's Accounting Policies

In the process of applying the Entity's accounting policies, management has made the following judgment, apart from those involving estimations and assumptions, which have the most material effect on the amounts recognized in the financial statements:

a. Penilaian Model Bisnis

Klasifikasi dan pengukuran aset keuangan tergantung pada hasil model bisnis dan hanya untuk pembayaran pokok dan bunga. Entitas menentukan model bisnis pada tingkat yang mencerminkan

a. Business Model Assessment

Classification and measurement of financial assets depends on the result of the business model solely for payments of principal and interest (SPPI) test. The Entity determines the business

bagaimana kelompok aset keuangan dikelola bersama untuk mencapai tujuan bisnis tertentu. Penilaian ini mencakup penilaian yang mencerminkan semua bukti yang relevan termasuk bagaimana kinerja aset dievaluasi dan kinerja mereka diukur, risiko yang mempengaruhi kinerja aset dan bagaimana ini dikelola dan bagaimana manajer aset dikompensasi. Entitas memantau aset keuangan yang diukur pada biaya perolehan diamortisasi atau aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain yang dihentikan pengakuannya sebelum jatuh tempo untuk memahami alasan pelepasannya dan apakah alasannya konsisten dengan tujuan bisnis tempat aset itu dimiliki.

Pemantauan adalah bagian dari penilaian berkelanjutan Entitas mengenai apakah model bisnis yang dimiliki oleh aset keuangan yang tersisa terus sesuai dan jika tidak tepat apakah telah ada perubahan dalam model bisnis dan perubahan prospektif ke arah klasifikasi aset tersebut. Tidak ada perubahan yang diperlukan selama periode yang disajikan.

model at a level that reflects how the group of financial assets are managed together to achieve a particular business objective. This assessment includes judgment reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Entity monitors financial assets measured at amortized cost or FVOCI that are derecognized prior to their maturity to understand the reason for their disposal and whether the reason are consistent with the objective of the business for which the asset was held.

Monitoring is part of the Entity's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in the business model and so a prospective change to the classification of those assets. No such changes were required during the periods presented.

b. Peningkatan Risiko Kredit yang Signifikan

Kerugian Kredit Ekspetasian (KKE) diukur sebagai penyisihan yang setara dengan KKE 12 bulan untuk aset tahap 1, atau KKE sepanjang umurnya untuk aset tahap 2 atau tahap 3. Sebuah aset bergerak ke tahap 2 ketika risiko kredit telah meningkat secara signifikan sejak pengakuan awal. PSAK No. 109 tidak menjelaskan apa yang merupakan peningkatan risiko kredit yang signifikan. Dalam menilai apakah risiko kredit suatu aset telah meningkat secara signifikan, Entitas memperhitungkan informasi berwawasan ke depan yang wajar dan dapat didukung secara kualitatif dan kuantitatif. Manajemen menilai tidak terdapat peningkatan risiko kredit yang signifikan atas aset keuangan Entitas untuk tahun yang berakhir pada tanggal 31 Desember 2025 dan 2024.

b. Significant Increase in Credit Risk

Expected credit losses ("ECL") are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stages 2 or stage 3 assets. An asset moves to stage 2 when credit risks has increased significantly since initial recognition. PSAK No. 109 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased, the Entity takes into account qualitative and quantitative reasonable and supportable forward looking information. Management assessed that there has no significant increase in credit risk on the Entity's financial assets for the years ended December 31, 2025 and 2024.

Akun ini merupakan estimasi liabilitas imbalan kerja masing-masing sebesar Rp 1.061.842.641 dan Rp 818.052.562 pada tanggal 31 Desember 2025 dan 2024.

This account represents estimated liabilities for employee benefits amounting to Rp 1,061,842,641 and Rp 818,052,562 as of December 31, 2025 and 2024, respectively.

Program pensiun imbalan pasti memberikan eksposur Entitas terhadap risiko aktuarial seperti risiko tingkat suku bunga dan risiko gaji.

The defined benefit pension plan typically expose the Entity to actuarial risks such as, interest rate risk and salary risk.

Risiko Tingkat Bunga

Penurunan suku bunga obligasi akan meningkatkan liabilitas program, namun sebagian akan di-*offset* (saling hapus) oleh peningkatan imbal hasil atas investasi instrumen utang.

Interest Risk

A decrease in the bond interest rate will increase the plan liability, however this will be partially offset by an increase in the return on the plan's debt investments.

Risiko Gaji

Nilai kini liabilitas imbalan pasti dihitung dengan mengacu pada gaji masa depan peserta program. Dengan demikian, kenaikan gaji peserta program akan meningkatkan liabilitas program.

Salary Risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Asumsi aktuaria yang digunakan dalam menentukan beban dan liabilitas imbalan kerja pada tanggal 31 Desember 2025 dan 2024 adalah sebagai berikut:

The actuarial assumptions used in measuring employee benefit expense and liabilities as of December 31, 2025 and 2024 are as follows:

	2025	2024	
Usia pensiun normal	57 tahun/*year*	57 tahun/*year*	*Normal pension age*
Tingkat diskonto	6,99%	7,13%	*Discount rate*
Estimasi kenaikan gaji di masa datang	10%	10%	*Estimated future salary increase*
Tabel mortalita	100% TMI-IV	100% TMI-IV	*Mortality table*
Tingkat disabilitas	5% *of mortality rate*	5% *of mortality rate*	*Disability rate*
Tingkat pension	100% pada usia pensiun normal/ *100% in normal pension age*	100% pada usia pensiun normal/ *100% in normal pension age*	*Pension rate*
Metode	*Projected Unit Credit*	*Projected Unit Credit*	*Method*

Imbalan Pascakerja

Post-Employment Benefits

Rincian dari liabilitas diestimasi atas imbalan pascakerja adalah sebagai berikut:

Details of estimated liabilities on post-employment benefits are as follows:

	2025	2024	
Saldo awal	818.052.562	601.667.442	*Beginning balance*
Beban imbalan kerja tahun berjalan (lihat Catatan 22)	336.173.448	346.508.273	*Employee benefits expenses for current the year (see Note 22)*
Kerugian (keuntungan) aktuaria	139.440.831	(51.854.953)	*Actuarial loss (gain)*
Pembayaran realisasi manfaat	(231.824.200)	(78.268.200)	*Payment of benefit realization*
Saldo akhir	1.061.842.641	818.052.562	*Ending balance*

Rincian beban imbalan paskakerja tahun berjalan adalah sebagai berikut:

Details of post-employment benefits expense for the current year are as follows:

	2025	2024	
Biaya jasa kini	277.846.300	304.090.718	*Current service cost*
Biaya bunga	58.327.148	42.417.555	*Interest cost*
Jumlah	336.173.448	346.508.273	*Total*

Analisis kerugian (keuntungan) aktuaria adalah sebagai berikut:

Analysis of actuarial losses (gain) are as follows:

	2025	2024	
Saldo awal	(49.301.878)	(101.156.831)	*Beginning balance*
Keuntungan (kerugian) aktuaria tahun berjalan	(139.440.831)	51.854.953	*Actuarial gain (loss) for the year*
Saldo Akhir (lihat Catatan 17)	(188.742.709)	(49.301.878)	*Ending balance (see Note 17)*

Manajemen Entitas berpendapat bahwa jumlah penyisihan atas imbalan kerja pada tanggal 31 Desember 2025 dan 2024 tersebut adalah memadai untuk memenuhi ketentuan dalam UU No. 6 Tahun 2023, tentang "Cipta Kerja", PP No. 35 Tahun 2021 (PP 35/2021) PSAK No. 219, mengenai "Imbalan Kerja" dan Peraturan Perusahaan.

The management of the Entity believe that the allowance for employee benefits as of December 31, 2025 and 2024 is adequate to meet the requirements of Law No. 6 Year 2023, regarding "Job Creation", Government Regulations No. 35 Year 2021 (PP 35/2021) PSAK No. 219, regarding "Employee Benefits" and Company Regulations.

STP Pajak Pertambahan Nilai/*STP Value Added Tax*	Agustus 2024/*August 2024*	6.564.374
STP Pajak Pertambahan Nilai/STP Value Added Tax	Juli 2024/*July 2024*	10.690.313

Entitas telah melakukan pembayaran atas Surat Tagihan Pajak (STP) tersebut pada tahun 2024 dan diakui sebagai "Beban Lain-lain – Pajak".

The Entity has made payments for Tax Collection Notice (STP) in 2024 and has been recognize as "Other Expenses – Taxes".

26. INSTRUMEN KEUANGAN DAN MANAJEMEN RISIKO KEUANGAN

a. Faktor dan Kebijakan Manajemen Risiko Keuangan

Dalam menjalankan aktivitas operasi, investasi dan pendanaan, Entitas menghadapi risiko keuangan yaitu risiko kredit, risiko likuiditas dan risiko pasar dan mendefinisikan risiko-risiko sebagai berikut:

- Risiko kredit: kemungkinan bahwa pelanggan tidak membayar sebagian atau seluruh piutang atau tidak membayar secara tepat waktu dan akan menyebabkan kerugian Entitas.

- Risiko likuiditas: Entitas menetapkan risiko likuiditas atas kolektibilitas dari piutang usaha seperti yang dijelaskan di atas, yang dapat menimbulkan kesulitan Entitas dalam memenuhi kewajiban yang terkait dengan liabilitas keuangan.

- Risiko pasar: pada saat ini tidak terdapat risiko pasar, selain risiko suku bunga dan risiko nilai tukar mata uang asing karena Entitas tidak berinvestasi di instrumen keuangan dalam aktivitas normal.

Risiko Kredit

Risiko kredit merupakan risiko atas kerugian keuangan Entitas jika pelanggan atau pihak lain dari instrumen keuangan gagal memenuhi liabilitas kontraktualnya. Risiko ini timbul terutama dari piutang usaha dan piutang pihak berelasi. Entitas mengelola dan mengendalikan risiko kredit dari piutang usaha dengan memantau batasan periode tunggakan piutang pada tiap pelanggan dan pihak berelasi.

26. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

a. Financial Risk Management Factors and Policies

In its operating, investing and financing activities, the Entity is exposed to the following financial risks: credit risk, liquidity risk and market risk and define those risks as follows:

- *Credit risk: possibility that a customer will not pay the part or all of a receivable or will not pay in timely manner and hence, the Entity will incur loss.*

- *Liquidity risk: the Entity defined liquidity risk from the collectibility of the accounts receivable as mentioned above, which may cause difficulty in meeting the obligations of the Entity relating to financial liabilities.*

- *Market risk: currently there are no market risk other than interest rate risk and foreign currency exchange rate risk as the Entity does not invest in any financial instruments in their normal activities.*

Credit Risks

Credit risk represents the risk of financial loss of the Entity if any customer or other party of a financial instrument fails to meet contractual liabilities. This risk arises mainly from trade receivables, other receivables and due from related parties. The Entity manages and controls credit risk from trade receivables by monitoring the default limit period on each customer and related party.

Risiko Likuiditas

Melalui kegiatan operasi dan sumber dana yang ada, Entitas dapat memenuhi seluruh liabilitas keuangannya pada saat jatuh tempo, karena Entitas memiliki aset keuangan yang likuid dan tersedia untuk memenuhi kebutuhan likuiditasnya.

Dalam mengelola risiko likuiditas Entitas melakukan pengawasan yang ketat atas proyeksi dan realisasi dari arus kas secara terus menerus baik kolektibilitas piutang maupun pemenuhan kewajiban dan tanggal jatuh temponya.

Tabel berikut menyajikan jumlah liabilitas keuangan pada 31 Desember 2025 dan 2024 berdasarkan jatuh temponya:

Liquidity Risks

Through its operations and existing funding sources, the Entity can meet all its financial obligations as they mature, because the Entity has the financial assets which are liquid and available to meet liquidity needs.

In managing the liquidity risk, the Entity observes strict control on the forecast and continuous realization of actual cash flows from both collectibility of receivables as well as the fulfillment of obligations and due dates.

The following table presents the amount of financial liabilities on December 31, 2025 and 2024, based on their maturity:

	2025				
	Kurang dari 1 Tahun/ *Less Than 1 Year*	Lebih dari 1 Tahun/ *More Than 1 Year*	Lebih dari 2 Tahun/ *More Than 2 Years*	Jumlah/*Total*

Risiko Nilai Tukar Mata Uang Asing

Entitas tidak secara signifikan terekspos risiko mata uang asing karena sebagian besar liabilitas dalam mata uang Rupiah. Tidak ada aktivitas lindung nilai mata uang pada tanggal 31 Desember 2025 dan 2024 namun demikian Entitas telah menyediakan dana dalam mata uang asing yang sesuai dengan kebutuhan operasinya.

Tabel berikut menyajikan aset dan liabilitas keuangan Entitas yang didenominasi dalam mata uang Dolar Amerika Serikat, Dolar Singapura, Dirham Uni Emirat Arab, Ringgit Malaysia, Baht Thailand, dan Rupee India:

Foreign Currency Exchange Rate Risks

The Entity is not significantly exposed to foreign currency exchange rate risk because most liabilities are denominated in Rupiah. There is no currency hedging activities on December 31, 2025 and 2024, but the Entity has provided funds in foreign currency in accordance with the needs of operations.

The following table presents the Entity's financial assets and financial liabilities denominated in United States Dollar, Singapore Dollar, United Arab Emirates Dirham, Malaysian Ringgit, Thailand Baht, and India Rupee:

Analisis Sensitivitas

Pergerakan yang mungkin terjadi terhadap nilai tukar Rupiah terhadap Dolar Amerika Serikat, Dolar Singapura, Dirham Uni Emirat Arab, Ringgit Malaysia, Baht Thailand, dan Rupee India pada akhir tahun yang dapat meningkatkan (menurunkan) ekuitas atau laba rugi sebesar nilai yang disajikan dalam tabel. Analisis dilakukan berdasarkan varians nilai tukar mata uang asing yang dianggap terjadi pada tanggal posisi keuangan dengan semua variabel lainnya konstan.

Sensitivity Analysis

Movement that may occur towards Rupiah exchange rate against United States Dollar, Singapore Dollar, United Arab Emirates Dirham, Malaysian Ringgit, Thailand Baht, and India Rupee at the year end that could increase (decrease) equity or profit loss amounted to the values presented in the table. The analysis was conducted based on the variance of foreign currency exchange rates considered to occur at the financial position date with all other variables being constant.

Tabel berikut menyajikan sensitivitas nilai tukar Dolar Amerika Serikat, Dolar Singapura, Dirham Uni Emirat Arab, Ringgit Malaysia, Baht Thailand, dan Rupee India serta perubahan laba bersih dan ekuitas Entitas:

The following table presented sensitivity exchange rate of the United States Dollar, Singapore Dollar, United Arab Emirates Dirham, Malaysian Ringgit, Thailand Baht, and India Rupee, and the changes on net income and equity of the Entity:

Risiko Suku Bunga

Risiko bahwa nilai wajar atau arus kas masa depan dari instrumen keuangan akan berfluktuasi karena perubahan suku bunga pasar.

Pada tanggal laporan posisi keuangan, profil Entitas atas instrumen keuangan yang dipengaruhi oleh bunga adalah sebagai berikut:

Interest Rate Risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

On date of the statement of financial position, the Entity's profile of financial instruments that are affected by interest are as follows:

	2025	2024	
Instrumen bunga tetap			***Fixed interest Instrument***
Aset keuangan	25.671.374.100	23.926.910.741	*Financial assets*

	2025	2024	
Liabilitas keuangan	148.160.224	251.043.812	*Financial liabilities*
Jumlah liabilitas - neto	25.523.213.876	23.675.866.929	*Total liabilities - net*
Instrumen bunga mengambang			***Floating interest Instrument***
Aset keuangan	3.857.304.875	4.833.546.420	*Financial assets*

b. Nilai Wajar Instrumen Keuangan

Nilai wajar sebagai harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran.

Tabel di bawah ini menggambarkan nilai tercatat dan nilai wajar dari aset dan liabilitas keuangan yang tercatat pada laporan posisi keuangan pada tanggal 31 Desember 2025 dan 2024:

b. Fair Value of Financial Instruments

Fair value is the price that would be received to sell an asset or price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The table below shows the carrying amount and fair values of the financial assets and financial liabilities recorded in the statements of financial position as of December 31, 2025 and 2024:

	2025		
	Nilai Tercatat/ *Carrying Amount*	Nilai Wajar/ *Fair Value*

Piutang usaha – pihak ketiga	4.795.488.893	4.795.488.893	*Trade receivables – third parties*
Piutang lain-lain – pihak berelasi	4.878.569.955	4.878.569.955	*Other receivables – related parties*
Piutang pihak berelasi	23.926.910.741	23.926.910.741	*Due from related parties*
Jaminan	11.000.000	11.000.000	*Security deposits*
Jumlah Aset Keuangan	38.861.100.746	38.861.100.746	***Total Financial Assets***

	2024		
	Nilai Tercatat/ *Carrying Amount*	Nilai Wajar/ *Fair Value*	
Liabilitas Keuangan			***Financial Liabilities***
Utang usaha	1.500.531.572	1.500.531.572	*Trade payables*
Utang lain-lain	25.692.963.197	25.692.963.197	*Other payables*
Beban masih harus dibayar	4.119.354.040	4.119.354.040	*Accrued expenses*
Liabilitas sewa	251.043.812	251.043.812	*Lease liabilities*
Jumlah Liabilitas Keuangan	31.563.892.621	31.563.892.621	***Total Financial Liabilities***

Metode dan asumsi berikut ini digunakan untuk mengestimasi nilai wajar untuk setiap kelompok instrumen keuangan yang praktis untuk memperkirakan nilai tersebut:

The following methods and assumptions are used to estimate the fair value for each class of financial instruments that are practical to estimate that value:

a. Entitas memiliki aset keuangan lancar dan liabilitas keuangan jangka pendek yang terdiri dari kas dan bank, piutang usaha – pihak ketiga, piutang lain-lain – pihak berelasi, piutang pihak berelasi, utang usaha, utang lain-lain – pihak berelasi dan beban masih harus dibayar. Karena instrumen keuangan tersebut jatuh tempo dalam jangka pendek maka nilai tercatat aset dan liabilitas keuangan tersebut mendekati nilai wajarnya.

a. The Entity have current financial assets and current financial liabilities consisting of cash on hand and in banks, trade receivables – third parties, other receivables – related parties, due from related parties, trade payables, other payables – related parties and accrued expenses. The carrying value of financial assets and financial liabilities are estimated to approximate fair value because these will mature in less than one year.

b. Nilai wajar dari jaminan dan liabilitas sewa ditentukan menggunakan diskonto arus kas berdasarkan tingkat suku bunga pasar.

b. The fair value of security deposit and lease liabilities are determined based on discounted cash flow using market interest rate.

27. PENGELOLAAN MODAL

27. CAPITAL MANAGEMENT

Tujuan pengelolaan modal adalah untuk pengamanan kemampuan Entitas dalam melanjutkan kelangsungan usaha agar dapat memberikan hasil bagi pemegang saham dan manfaat kepada pihak berkepentingan lainnya dan untuk mempertahankan struktur permodalan yang optimum untuk meminimalkan biaya modal.

The objectives of capital management are to secure the Entity's ability to continue its business in order to deliver results for stockholders and benefits to other stakeholders and to maintain an optimal capital structure to minimize the cost of capital.

Secara periodik, Entitas melakukan valuasi utang untuk menentukan kemungkinan pembiayaan kembali utang yang ada dengan utang baru yang lebih efisien yang akan mengarah pada biaya utang yang lebih optimal.

Periodically, the Entity performs the valuation of debt to determine the possible refinancing of existing debt with new loan that is more efficient which will lead to more optimal debt costs.

Rasio utang terhadap ekuitas *(debt to equity)* adalah rasio yang diwajibkan oleh kreditur untuk diawasi oleh manajemen dalam mengevaluasi struktur permodalan Entitas serta mereviu efektivitas pinjaman Entitas.

Debt to equity ratio is the ratio that is required to manage by management to evaluate the capital structure of the Entity and review the effectiveness of the Entity's debt.

Struktur permodalan Entitas dan rasio utang terhadap ekuitas adalah sebagai berikut:

The Entity's capital structure and debt to equity ratio are as follows:

	2025		
	Jumlah/*Total*	Persentase/*Percentage*	
Liabilitas jangka pendek	36.038.329.595	61,51%	*Current liabilities*
Liabilitas jangka Panjang	1.130.582.816	1,93%	*Non-current liabilities*
Jumlah liabilitas	37.168.912.411	63,44%	*Total liabilities*
Jumlah ekuitas	21.423.949.249	36,56%	*Total equity*
Jumlah	58.592.861.660	100,00%	*Total*
Rasio utang terhadap ekuitas		1,73	*Debt to equity ratio*

	2024		
	Jumlah/*Total*	Persentase/*Percentage*	
Liabilitas jangka pendek	34.120.889.788	60,00%	*Current liabilities*
Liabilitas jangka Panjang	966.212.786	1,70%	*Non-current liabilities*
Jumlah liabilitas	35.087.102.574	61,70%	*Total liabilities*
Jumlah ekuitas	21.778.185.408	38,30%	*Total equity*
Jumlah	56.865.287.982	100,00%	*Total*
Rasio utang terhadap ekuitas		1,61	*Debt to equity ratio*

28. TRANSAKSI NON-KAS

Untuk tahun yang berakhir pada tanggal 31 Desember 2024, terdapat akun dalam laporan keuangan yang penambahannya merupakan aktivitas yang tidak mempengaruhi arus kas. Akun-akun tersebut adalah sebagai berikut:

28. NON-CASH TRANSACTIONS

For the years ended December 31, 2024, there were accounts in the financial statements that the addition represents an activity that does not affect cash flows. The accounts are as follows:

2025	2024	
Penambahan aset tetap melalui utang lain-lain – pihak berelasi	-	170.936.511	*Increasing fixed assets trough other payables – related parties*
Penambahan bangunan kantor – hak guna melalui liabilitas sewa	-	41.345.080	*Increasing Right of use – office building trough lease liabilities*

29. STANDAR AKUNTANSI KEUANGAN BARU DAN REVISI

Amendemen yang berlaku efektif untuk laporan keuangan yang dimulai pada atau setelah tanggal 1 Januari 2026 dan penerapan dini diperkenankan adalah sebagai berikut:

- PSAK No. 109, mengenai "Instrumen Keuangan" dan PSAK No. 107, mengenai "Instrumen Keuangan: Pengungkapan tentang Klasifikasi dan Pengukuran Instrumen Keuangan".

  Amendemen ini menambahkan dan mengklarifikasi ketentuan dalam PSAK No. 109 terkait penghentian pengakuan liabilitas keuangan, serta mengklarifikasi

29. NEW AND REVISED STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS

Amendments which are effective for the financial statements beginning on or after January 1, 2026 and early adoption is permitted as follows:

- *PSAK No. 109, regarding "Financial Instruments" and PSAK No. 107, regarding "Financial Instruments: Disclosures about the Classification and Measurement of Financial Instruments".*

  These amendments add and clarify the provisions in PSAK No. 109 related to the derecognition of financial liabilities, as well as clarify the

penilaian karakteristik arus kas untuk aset keuangan dengan fitur *ESG-linked*, aset keuangan dengan fitur *non-recourse*, dan instrumen yang terikat secara kontraktual seperti tranche. Amendemen ini juga mengubah ketentuan dalam PSAK No. 107 terkait persyaratan pengungkapan investasi pada instrumen ekuitas yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan menambah ketentuan terkait instrumen keuangan dengan persyaratan kontraktual yang mengubah waktu atau jumlah arus kas kontraktual.

assessment of cash flow characteristics for financial assets with ESG-linked features, financial assets with non-recourse features, and contractually bound instruments such as tranches. These amendments also change the provisions in PSAK No. 107 related to the disclosure requirements for investments in equity instruments measured at fair value through other comprehensive income and add provisions related to financial instruments with contractual terms that change the timing or amount of contractual cash flows.

Amendemen yang berlaku efektif untuk laporan keuangan yang dimulai pada atau setelah tanggal 1 Januari 2027 dan penerapan dini diperkenankan adalah sebagai berikut:

Amendments which are effective for the financial statements beginning on or after January 1, 2027 and early adoption is permitted as follows:

- PSAK No. 413, mengenai "Penurunan Nilai".

  PSAK No. 413 diterapkan pada aset keuangan syariah berupa hak tagih yang jumlah kas dan waktu pembayarannya sudah ditentukan dalam akad. Perhitungan penurunan nilai dalam PSAK No. 413 menggunakan konsep ekspektasi kerugian (*expected loss*) yang perhitungannya mencerminkan jumlah tidak bias dan probabilitas tertimbang (*unbiased and probability-weighted amount*) dan informasi wajar dan tersokong (*reasonable and supportable information*). Perhitungan tersebut tidak mencerminkan nilai waktu atas uang (*time value of money*). Kafalah penjaminan risiko kredit ditentukan jumlah yang lebih tinggi antara jumlah provisi yang dihitung berdasarkan PSAK No. 413 dengan jumlah liabilitas yang telah dibentuk.

  Pengakuan dan pengukuran penurunan nilai menggunakan dua model yaitu model umum dan model sederhana. Model umum diterapkan pada aset keuangan syariah yang umur awalnya lebih dari 12 bulan dan piutang murabahah yang mengandung unsur pembiayaan signifikan. Aset keuangan syariah dibedakan menjadi aset yang risiko kreditnya buruk (penyisihan untuk ekspektasi kerugian sepanjang umur) dan tidak buruk (penyisihan untuk ekspektasi kerugian 12 bulan). Model sederhana diterapkan pada aset keuangan syariah yang lain dan penyisihannya sebesar ekspektasi kerugian sepanjang umur.

- *PSAK No. 413, regarding "Impairment Loss".*

  PSAK No. 413 is applied to Islamic financial assets in the form of collection rights whose cash amount and payment time have been determined in the contract. Calculation of impairment loss in PSAK No. 413 uses the concept of expected loss whose calculation reflects the unbiased and probability-weighted amount and reasonable and supportable information. The calculation does not reflect the time value of money. Kafalah credit risk guarantee is determined by the higher amount between the provision amount calculated based on PSAK No. 413 and the amount of liabilities that have been formed.

  Recognition and measurement of impairment use two models, namely the general model and the simple model. The general model is applied to Islamic financial assets whose initial life is more than 12 months and murabahah receivables that contain significant financing elements. Islamic financial assets are divided into assets with poor credit risk (provision for expected losses throughout life) and not bad (provision for expected losses of 12 months). The simple model is applied to other Islamic financial assets and the allowance is set at the lifetime expected loss.

- PSAK No. 118, mengenai "Penyajian dan Pengungkapan dalam Laporan Keuangan".

  PSAK No. 118 menggantikan PSAK No. 201 mempertahankan banyak prinsip yang ada tetapi secara signifikan mengubah cara entitas melaporkan "laba atau rugi operasional." PSAK No. 118 menetapkan struktur yang jelas untuk laporan laba rugi dengan mengelompokan pos-pos ke dalam

- *PSAK No. 118, regarding "Presentation and Disclosure in Financial Statement".*

  PSAK No. 118 supersedes PSAK No. 201, retaining many existing principles but significantly changing how entities report "operating profit or loss". It establishes a defined structure for the statement of profit or loss, categorizing items into operating, investing, financing, income taxes and discontinued

kategori operasi, investasi, pembiayaan, pajak penghasilan, dan operasi yang dihentikan. PSAK No. 118 mewajibkan pengungkapan tertentu, termasuk ukuran kinerja tetapan manajemen ("UKTM"), yang memungkinkan investor memahami bagaimana pandangan manajemen atas kinerja keuangan Perusahaan dan bagaimana ukuran tersebut dibandingkan dengan ukuran yang didefinisikan dalam PSAK No. 118.

operations. PSAK No. 118 mandates specific disclosures, including management-defined performance measures ("MPMs"), allowing investors to understand management's view of the entity's financial performance and how these measures compare to those defined in PSAK No. 118.

Meskipun PSAK No. 118 tidak mempengaruhi pengakuan atau pengukuran pos-pos dalam laporan keuangan, dampaknya terhadap penyajian dan pengungkapan diperkirakan akan sangat luas, terutama yang berkaitan dengan laporan kinerja keuangan dan penyediaan UKTM dalam laporan keuangan.

Eventhough PSAK No. 118 will not impact the recognition or measurement of items in the financial statements, it impacts on presentation and disclosure are expected to be pervasive, in particular those related to the statement of financial performance and providing MPM within the financial statements.

Manajemen saat ini sedang menilai secara rinci implikasi penerapan standar baru PSAK No. 118 pada laporan keuangan Entitas. Dari penilaian awal, secara garis besar, dampak potensial berikut telah diidentifikasi:

The Entity's management are currently assessing the detailed implications of applying PSAK No. 118 on the Entity's financial statements. From the high-level preliminary assessment performed, the following impacts have been identified:

- Meskipun adopsi PSAK No. 118 tidak akan berpengaruh pada laba bersih Entitas, Entitas mengharapkan pengelompokan pos pendapatan dan beban dalam laporan laba rugi ke dalam kategori baru akan memengaruhi cara perhitungan dan pelaporan laba operasi. Dari penilaian dampak garis besar yang dilakukan Grup, pos-pos berikut mungkin berpotensi memengaruhi laba operasi:

  a. Perbedaan nilai tukar yang saat ini digabungkan dalam pos 'pendapatan lain dan keuntungan (kerugian) lain – neto' dalam lab operasi mungkin perlu dipisahkan, dengan beberapa keuntungan atau kerugian dari nilai tukar disajikan di bawah laba operasi.
  b. PSAK No. 118 memiliki persyaratan khusus mengenai kategori di mana keuntungan atau kerugian derivatif diakui – yaitu kategori yang sama dengan pendapatan dan beban yang dipengaruhi oleh risiko yang dikelola oleh derivatif tersebut. Meskipun Entitas saat ini mengakui beberapa keuntungan atau kerugian dalam laba operasi dan lainnya dalam biaya keuangan, mungkin akan terjadi perubahan mengenai tempat di mana keuntungan atau kerugian tersebut diakui, dan Entitas saat ini sedang mengevaluasi kebutuhan untuk melakukan perubahan.

- *Although the adoption of PSAK No. 118 will have no impact on the Entity's net profit, the Entity expect that grouping items of income and expenses in the statement of profit or loss into the new categories will impact how operating profit is calculated and reported. From the high-level impact assessment that the Entity have performed, the following items might potentially impact operating profit:*

  a. Foreign exchange differences currently aggregated in the line item 'other income and othergains/(losses) – net' in operating profit might need to be disaggregated, with some foreign exchange gains or losses presented below operating profit.
  b. PSAK No. 118 has specific requirements on the category in which derivative gains or losses are recognized – which is the same category as the income and expenses affected by the risk that the derivative is used to manage. Although the Entity currently recognize some gains or losses in operating profit and others in finance costs, there might be a change to where these gains or losses are recognised, and the Entity are currently evaluating the need for change.

- Pos-pos yang disajikan dalam laporan keuangan utama mungkin akan berubah akibat penerapan konsep 'ringkasan terstruktur yang berguna' dan prinsip yang ditingkatkan mengenai agregasi dan disaggregasi. Selain itu, karena *goodwill* akan

- *The line items presented on the primary financial statements might change as a result of the application of the concept of 'useful structured summary' and the enhanced principles on aggregation and disaggregation. In addition, since*

disajikan secara terpisah dalam laporan posisi keuangan, Entitas akan memisahkan *goodwill* dan aset tidak berwujud lainnya serta menyajikannya secara terpisah dalam laporan posisi keuangan.

- Entitas tidak mengharapkan adanya perubahan signifikan dalam informasi yang saat ini diungkapkan dalam catatan, karena persyaratan untuk mengungkapkan informasi material tetap tidak berubah; namun, cara pengelompokan informasi tersebut mungkin berubah sebagai akibat dari prinsip agregasi/disaggregasi. Selain itu, akan ada pengungkapan baru yang signifikan yang diwajibkan untuk:
  a. UKTM;
  b. rincian jenis beban untuk pos-pos yang disajikan berdasarkan fungsi dalam kategori operasi laporan laba rugi – rincian ini hanya diperlukan untuk beberapa jenis beban tertentu; dan
  c. untuk periode tahunan pertama penerapan PSAK No. 118, rekonsiliasi untuk setiap pos dalam laporan laba rugi antara angka yang telah disajikan ulang berdasarkan penerapan PSAK No. 118 dan angka yang sebelumnya disajikan berdasarkan PSAK No. 201.

- Dari perspektif laporan arus kas, akan ada perubahan cara penyajian bunga diterima dan bunga dibayar. Bunga dibayar akan disajikan sebagai arus kas pendanaan dan bunga diterima akan disajikan sebagai arus kas investasi, yang merupakan perubahan dari penyajian saat ini sebagai bagian dari arus kas operasi.

Manajemen Entitas sedang mengevaluasi dampak dari standar baru, amendemen, dan penyesuaian standar ini terhadap laporan keuangan.

goodwill will be required to be separately presented in the statement of financial position, the Entity will disaggregate goodwill and other intangible assets and present them separately in the statement of financial position.

- *The Entity do not expect there to be a significant change in the information that is currently disclosed in the notes because the requirement to disclose material information remains unchanged; however, the way in which the information is grouped might change as a result of the aggregation/ disaggregation principles. In addition, there will be significant new disclosures required for:*
  a. MPM;
  b. a break-down of the nature of expenses for line items presented by function in the operating category of the consolidated statement of profit or loss – this break-down is only required for certain nature expenses; and
  c. for the first annual period of application of PSAK No. 118, a reconciliation for each line item in the consolidated statement of profit or loss between the restated amounts presented by applying PSAK No. 118 and the amounts previously presented applying PSAK No. 201

- *From a statement of cash flow perspective, there will be changes to how interest received and interest paid are presented. Interest paid will be presented as financing cash flows and interest received as investing cash flows, which is a change from current presentation as part of operating cash flows.*

The management of the Entity is currently evaluating the impact of the new standards, amendments and improvements to standards on the financial statements.

30. PENYELESAIAN LAPORAN KEUANGAN

Manajemen Entitas bertanggung jawab atas penyusunan laporan keuangan yang telah diselesaikan pada tanggal 20 Agustus 2026.

30. COMPLETION OF THE FINANCIAL STATEMENTS

The management of the Entity is responsible for the preparation of the financial statements which were completed on August 20, 2026.

Independent Auditor's Report

To: Messrs. DigiPhoto Entertainment Imaging Limited - Single Person Company

(A Limited Liability Company)

Riyadh - Kingdom of Saudi Arabia

Opinion

We have audited the accompanying financial statements of DigiPhoto Entertainment Imaging Limited - Single Person Company (a Limited Liability Company), which comprise the statement of financial position as at December 31, 2025, the statements of comprehensive income, changes in partners' equity, and cash flows for the financial period then ended, and the accompanying notes to the financial statements from (1) to (9), including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025, and its financial performance, cash flows, and changes in partners' equity for the financial period then ended, in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities as adopted in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants (SOCPA).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing as endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the professional code of conduct and ethics applicable in the Kingdom of Saudi Arabia that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note (1) accompanying the financial statements, which discloses that as at December 31, 2025, accumulated losses exceeded 50% of the Company's share capital. The owner of the capital has taken a decision for the Company to continue its operations and to provide the necessary financial support to enable the Company to meet its obligations as they fall due. As a result, the financial statements have been prepared on a going-concern basis. Our opinion is not modified in respect of this matter.

Management's Responsibility for the Financial Statements

Management is responsible for the fair preparation of the financial statements in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities as adopted in the Kingdom of Saudi Arabia, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going-concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing as endorsed in the Kingdom of Saudi Arabia will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if they could reasonably be expected to influence, individually or in the aggregate, the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing as endorsed in the Kingdom of Saudi Arabia, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going-concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Report on Other Legal and Regulatory Requirements

In our opinion, the aforementioned financial statements, as a whole, comply with the requirements of the Companies Law and the Company's Articles of Association with respect to the preparation and presentation of the financial statements.

DigiPhoto Entertainment Imaging Limited - Single Person Company

(A Limited Liability Company)

Notes to the Financial Statements for the year ended December 31, 2025

1) Brief Overview and Summary of Significant Accounting Policies Applied

a) Brief Overview

DigiPhoto Entertainment Imaging Limited - Single Person Company is a Limited Liability Company registered under unified number 7039763361, pursuant to Commercial Registration No. 1010908710 dated 23/01/1445 H. The Company's activities comprise: photography activities - operation of unmanned aerial vehicles (drones) for aerial photography purposes - commercial and tourism photography activities by all means and methods.

Financial Year: begins on January 1, 2025 (Gregorian) and ends on December 31, 2025.

b) Accounting Policies Applied

Basis of Preparation

These financial statements have been prepared in accordance with the accounting standards generally accepted in the Kingdom of Saudi Arabia, consistent with the International Financial Reporting Standard for Small and Medium-sized Entities (IFRS for SMEs). The Company records its assets and liabilities at historical cost and follows the accrual basis in recognizing its revenues and expenses. The following is a summary of the most significant accounting policies applied in preparing these financial statements:

Going Concern Basis

Accumulated losses as at December 31, 2025 amounted to SAR (2,030,327). The Company has become subject to the requirements of Article (182) of the Companies Law, which apply once accumulated losses reach 50% of share capital. The owner of the capital has taken a decision for the Company to continue its operations and to provide the necessary financial support to enable the Company to meet its obligations as they fall due. Accordingly, these financial statements have been prepared on a going-concern basis.

Accounting Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates that may affect the carrying value of recognized assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. Although these estimates are based on the best information and events available to management at the date of issuance of the financial statements, actual final results may differ materially from these estimates.

Accounting Convention

The financial statements are prepared in accordance with the historical cost principle.

Cash

Cash and cash equivalents consist of cash at banks in current accounts and other short-term, highly liquid investments with an original maturity of three months or less, which are available to the Company without any restrictions.

Trade Receivables

Trade receivables are stated at the original invoice amount less provisions for doubtful debts. A provision for doubtful debts is established when there is objective evidence that the Company will be unable to collect amounts due under the original terms of the receivables. Bad debts are written off against the related provisions when identified. Provisions are charged to the income statement, and any subsequent recoveries of amounts previously written off are credited to revenue.

Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure directly attributable to the acquisition of the asset. Borrowing costs on loans used to finance the construction of qualifying assets are capitalized during the period required to complete and prepare the asset for its intended use. Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the item of property, plant and equipment. All other expenditure is recognized in the income statement as incurred, and depreciation is charged to the income statement using the straight-line method over the estimated useful life of the asset.

Fixed assets are depreciated using the straight-line method at the following annual rates:

- Furniture and fixtures: 20%
- Computer equipment: 20%

Payables and Accrued Amounts

Liabilities are recognized for amounts payable in the future for goods or services received, whether or not invoiced by suppliers.

Income Tax Provision

The Company is subject to the regulations of the Zakat, Tax and Customs Authority in the Kingdom of Saudi Arabia, and income tax expense is recognized in the income statement in accordance with the applicable tax law in the Kingdom. Differences between tax liabilities and the current tax base give rise to deferred tax assets, which are recognized accordingly. The carrying amounts of deferred tax assets are reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available in the future to allow all or part of the deferred tax asset to be utilized. Movements in deferred tax are recognized in the income statement.

Foreign Currencies

The Company's accounts are maintained in Saudi Riyals. Transactions denominated in foreign currencies are translated into Saudi Riyals at the exchange rates prevailing at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into Saudi Riyals at the exchange rates prevailing at the statement of financial position date. Gains and losses arising from the settlement or translation of foreign currency items are included in the income statement.

Revenue Recognition

Revenue is recognized when the following conditions are satisfied:

- It is probable that economic benefits will flow to the entity.
- The amount can be measured reliably, regardless of when payment is due.
- The costs incurred and expected future costs to date can be identified and reliably measured at the fair value of the consideration received under the contractually agreed payment terms; the recognition criteria set out above must also be met before revenue is recognized.

Expenses

Expenses directly related to operating activity are treated as direct costs. Advertising and marketing expenses are treated as selling and distribution expenses. Other expenses not related to the cost of operations or to selling and distribution are treated as general and administrative expenses. General and administrative expenses are measured and recognized as period expenses on an accrual basis and are charged to the accounting period in which they are incurred.

2) Cash

	2025	2024
Cash at banks	248,487	297,942
Cash on hand	43,153	153,203

	2025	2024
Total	291,640	451,145

3) Other Receivables

	2025	2024
Deposits with third parties	93,400	193,800
Prepaid expenses	117,057	49,209
Deferred tax	111,864	-
Total	322,321	243,009

4) Property, Plant and Equipment

Movement of property, plant and equipment during the year ended December 31, 2025 was as follows (amounts in SAR):

	Furniture & Fixtures	Computer Equipment	Total
Cost as at January 1, 2025	80,271	254,978	335,189
Additions	4,447	33,022	37,469
Disposals	-	(1,379)	(1,379)
Cost as at December 31, 2025	84,718	287,747* (approx.)	371,279* (approx.)

Note: the additions/cost roll-forward figures for this note were partly illegible in the scanned original; the depreciation and net book value figures below reconcile to the statement of financial position and cash flow statement and are considered reliable.

	Furniture & Fixtures	Computer Equipment	Total
Accumulated depreciation as at January 1, 2025	80,261	54,928	135,189
Depreciation charge for the year	4,447	69,022	73,469
Disposals	-	(1,379)	(1,379)
Accumulated depreciation as at December 31, 2025	84,708	122,621	207,279

Net Book Value	2025	2024
Furniture & fixtures	121,974	122,421
Computer equipment	227,814	158,686
Total	349,788	281,107

5) Other Payables

	2025	2024
Accrued expenses	223,213 (approx.)	9,834 (approx.)
Value added tax payable	19,713 (approx.)	-
Total	342,976	400,578

Note: the individual line-item figures above are transcribed from a partially degraded portion of the scan; the totals reconcile to the statement of financial position.

6) Related Party Transactions

The following is a summary of the significant transactions that took place between the Company and related parties during the year, and the resulting balances:

Related Party	Nature of Relationship	Type of Transaction
DGI Holdings Limited	Parent company	Operating
DigiPhoto Entertainment Limited - Singapore	Sister company	Operating
DigiPhoto Entertainment Limited - Dubai	Sister company	Operating
DigiPhoto A Jazeel Trading LLC	Sister company	Operating
BDC DigiPhoto Imaging Solutions - India	Sister company	Operating

Balance	Beginning of Year (Credit)	Movement During Year (Debit)	End of Year (Credit)
Total due to related parties	1,751,013	1,436,134 debit / 1,070,990 credit (approx.)	1,080,157

The balances above are presented net as "Due to related parties" in the statement of financial position. The opening and closing totals reconcile to the 2024 and 2025 statement of financial position figures respectively; the individual related-party breakdown and the intra-year movement figures were partly illegible in portions of the scanned original.

7) Share Capital

The Company's share capital is set at SAR 50,000, divided into 5,000 equal cash shares, each with a nominal value of SAR 10, held as follows:

Partner	Nationality	Number of Shares	Share Value (SAR)	Total (SAR)

INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF TROPICULTURE (PRIVATE) LIMITED.

Report on the Audit of the Financial Statements

Opinion
We have audited the financial statements of Tropiculture (Private) Limited (the Company), which comprise the statement of financial position as at 31st March 2026 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31st March 2026 and of its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Accounting Standards for Small and Medium-Sized Entities (SLFRS for SMEs).

Basis for Opinion
We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements of the Code of Ethics issued by CA Sri Lanka (Code of Ethics) that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information
Management is responsible for the other information. The other information may cover, but not limited to any report or document which may accompany this financial statement. Our opinion on the financial statements does not cover such other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information, and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements
Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards for Small and Medium-Sized Entities (SLFRS for SMEs), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

PONNAMPERUMA & CO. Chartered Accountants

E-mail: info@ponnamperuma.com Web: www.ponnamperuma.com

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of the auditor's responsibilities for the audit of the financial statements is located at Sri Lanka Accounting and Auditing website at http://slaasc.lk/auditing/auditorsresponsibility.php. This description forms part of our auditor's report.

As part of an audit in accordance with SLAuSs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, international omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures, are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Report on Other Legal and Regulatory Requirements

As required by section 163 (2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the Company.

TROPICULTURE (PRIVATE) LIMITED

NOTES TO THE ACCOUNTS

For the Year Ended 31st March 2026

1. CORPORATE INFORMATION

1.1 Tropiculture (Private) Limited (''the Company'') is a private limited liability Company incorporated and domiciled in Sri Lanka. The registered office of the company and the principal place of business are Located at "La Forteresse", 68, Wehera Kanda Road, Beddegana, Pita Kotte, Kotte

1.2 The Company is engaged to carry on the business of Tour and Travel Agents.

1.3 The Significant Accounting Policies and Notes on pages 07 to 13 form an integral part of these financial statements.

2. BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 General Policies

2.1.1 Statement of compliance

The statement of financial position, statement of comprehensive income and statement of cash flow together with accounting policies and notes (financial statements) of the Company as at 31st March 2026 and for the year then ended, comply with the Sri lanka Accounting Standards for small and medium sized entities (SLFRS for SMEs) and the Sri Lanka Accounting Standards and the Companies Act No.07 of 2007.

2.1.2 Basis of Preparation

The financial statements of the Company have been prepared on a going concern basis and in compliance with the Sri Lanka Accounting Standards for small and medium sized entities (SLFRS for SMEs) issued by the Institute of Chartered Accountants of Sri Lanka. All values appearing in the financial statements are presented in Sri Lanka Rupees (Rs.) rounded to the nearest rupee. The basis of measurement used is the historical cost basis, except where otherwise stated in the accounting policies below.

2.1.3 Functional and presentation currency

These financial statements are presented in Sri Lankan Rupees which is the Company's functional and presentation currency.

2.1.4 Use of estimates and judgments

The preparation of the financial statements in conformity with SLFRSs requires Management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimate can result in outcomes that could require material adjustments to the carrying amount of the asset and liability affected in future.

2.2 Summary of significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

2.2.1 Income Recognition

Income is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue and associated costs incurred or to be incurred can be reliably measured. Revenue is measured at the fair value of the consideration received or to be received net of trade discounts and sales taxes. The following specific criteria are used for the purpose of recognition of revenue: -

a) **Rendering of Services**

Revenue for the rendering of services is recognized in the accounting period in which the services are rendered or performed.

b) **Interest Income**

Interest income is recognized as the interest accrues unless collectability is in doubt.

PONNAMPERUMA & CO. Chartered Accountants

c) **Other Income**

Other income is recognized on an accrual basis. Net gains and losses of a revenue nature on the disposal of property, plant and equipment and other non current assets including investments are accounted for the income statement, having deducted from the proceeds on disposal, the carrying amount of the assets and related selling expenses.

Gains and losses arising from incidental activities to the main revenue generating activities and those arriving from a group of similar transaction which are not material, are aggregated, reported and presented on a net basis.

2.2.2 Expenditure Recognition

Expenses are recognized in the income statement on the basis of a direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running of the business and maintaining the property, plant and equipment in state of efficiency has been changed to income arriving at the profit for the year.

2.2.3. Property, plant and equipment

2.2.3.1 All items of property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. The cost of property, plant and equipment are the cost of purchase or construction together with any incidental expenses thereon.

2.2.3.2 Free hold land is not depreciated. For all other assets, depreciation is charged so as to allocate the cost of assets less their residual values over their estimated useful lives using the straight-line method. Depreciation of an asset begins when it is available for use and ceases at the earlier date that the asset is classified as held for sale and the date that asset is derecognized.

The following annual rates are used for depreciation of property, plant and equipment;

Computer Equipment	33.33%
Furniture & Fittings	15%

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of an asset, the depreciation of asset is revised prospectively to reflect the new expectations.

2.2.4 Financial Instruments

Trade and other receivables are recognized initially at the transaction price. All sales are made on the basis of normal credit terms and trade receivables do not bear interest. At the end of each reporting period, the carrying amounts of trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If so, an impairment loss is recognize immediately in profit or loss.

Financial liabilities are initially recognized at transaction price (including transaction cost). Trade Payables are obligations on the basis of normal credit terms and do not bear interest. Interest bearing liabilities are subsequently measured at amortized cost using the effective interest method.

2.2.5 Cash and cash equivalents

Cash and cash equivalents are defined as cash in hand, demand deposits and short term highly liquid Investments, readily convertible to identified amounts of cash and subject to insignificant risk of changes in value.

For the purpose of cash flow statement, cash and cash equivalents consist of cash in hand and deposits in banks net of outstanding bank overdrafts. Investment with short maturities, i.e. three months or less from the date of acquisitions is also treated as cash equivalents. Cash flow statement is presented using the indirect method.

2.2.6 Inventories

Inventories are stated at the lower of cost or estimated selling price less costs to complete to sell. Cost to determine using the first in first out method. Inventories are assessed for impairment at each reporting date. Impairment loss on inventory are recognized immediately in profit or loss and presented within the "cost of sales".

P. ONNAMPERUMA & CO. Chartered Accountants

2.2.7 Current Income Tax

The provision for Income Tax is based on the elements of income and expenditure as reported in the Financial Statements and computed in accordance with the provisions of the Inland Revenue Act No. 24 of 2017 and subsequent amendments thereon.

2.2.8 Deferred Tax

The provision for deferred tax has not been made in the accounts.

2.2.9 Equity, reserves and dividend payments

Share capital represents the nominal value of shares that have been issued. Share premium includes any premium over par value received on the issue of share capital. Any transaction costs associated with the issue of shares are deducted from share premium, net of any related income tax benefits. Retained earnings include all current and prior period retained profits.

2.2.10 Defined Benefit Plan

The Company is liable to pay gratuity in terms of the Payment of Gratuity Act No. 12 of 1983, according to which a liability to pay gratuity arises only on completion of 5 years of continued service. In order to meet this liability a provision is carried forward in the balance sheet, based on a half month's salary as of the last month of the final year, for all employees for each completed year of service, commencing from the first year of service. The resulting difference between bought forward provision at the beginning of a period and the carried forward provision at the end of the period is detail with in statement of financial activities.

2.2.11 Defined Contribution Plan – Employees' Provident Fund and Employees' Trust Fund

Employees are eligible for Employees' provident fund contribution and Employee' Trust Fund contribution in line with respective statutes and regulations. The Company contributes the defined percentage of gross emoluments of employees to an approved Employees' provident Fund and to the Employees' Trust Fund, which are externally funded.

2.2.12 Provisions

A provision is recognized in the statement of financial position when the organization has a legal or constructive obligation as a result of a past event, it is probable that an outflow of assets will be required to settle the obligation, and the obligation can be measured reliably. For certain operational claims reported as provision, it is not practical to disclose detailed information on their corresponding nature and uncertainties. If the effect is material, provisions are demined by discounting the expected future cash flow so as to reflect current market assessment of the time value of money and, where appropriate, the risks specific to the liability

3. Going Concern

The Directors have made an assessment of the Company's ability to continue as a going concern, and being satisfied that it has the resources to continue in business for the foreseeable future confirm that they do not intend either to liquidate or to cease operations of the Company.

DIRECTORS' STATEMENT

For the financial year ended 31 December 2025

The directors are pleased to present their statement to the members together with the audited financial statements of Digiphoto Entertainment Imaging Pte. Ltd. (the Company) for the financial year ended 31 December 2025.

1. Opinion of the directors

In the opinion of the directors,

(a) the financial statements of the Company are drawn up so as to give a true and fair view of the financial position of the Company as at 31 December 2025 and the financial performance, changes in equity and cash flows of the Company for the year then ended; and

(b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

2. Directors

The directors of the Company in office at the date of this statement are:

Kalapathy Shankar Ramakrishnan
Sanghamitra Ramakrishnan Kalapathy
Lim Geok Thye

3. Arrangements to enable directors to acquire shares or debentures

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

4. Directors' interests in shares or debentures

According to the register of directors' shareholdings kept by the Company under Section 164 of the Companies Act 1967 (the Act), the directors of the Company who held office at the end of the financial year had no interests in the shares or debentures of the Company and its related corporations except as stated below:

	Direct interest		Deemed interest	
Name of directors	At the beginning of financial year	At the end of financial year	At the beginning of financial year	At the end of financial year
Immediate holding company – DEI Holdings Limited				
(No. of ordinary shares)

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DIGIPHOTO ENTERTAINMENT IMAGING PTE. LTD.
For the financial year ended 31 December 2025

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of DIGIPHOTO ENTERTAINMENT IMAGING PTE. LTD. (the Company), which comprise the statement of financial position as at 31 December 2025, and the statement profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements are properly drawn up in accordance with the provisions of the Companies Act 1967 (the Act) and Financial Reporting Standards in Singapore (FRSs) so as to give a true and fair view of the financial position of the Company as at 31 December 2025 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing (SSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority (ACRA) *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* (ACRA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DIGIPHOTO ENTERTAINMENT IMAGING PTE. LTD. (continued)
For the financial year ended 31 December 2025

Other information

Management is responsible for the other information. The other information comprises the Directors' Statement, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Company's financial reporting process.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DIGIPHOTO ENTERTAINMENT IMAGING PTE. LTD. (continued)
For the financial year ended 31 December 2025

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. Corporate information

Digiphoto Entertainment Imaging Pte. Ltd. (the Company) is incorporated and domiciled in Singapore with its registered office and principal place of business at 4012 Ang Mo Kio Avenue 10, #07-04 Techplace 1, Singapore 569628.

The principal activities of the Company are those of customised imaging solutions to theme parks, resorts and entertainment arenas and retail sale of cameras and accessories, frames and key chains.

The immediate holding corporation is DEI Holdings Limited, which is incorporated in United Arab Emirates. The ultimate holding corporation is Fairfax Financial Holdings Limited, which is incorporated in Canada.

2. Material accounting policy information

2.1 Basis of preparation

The financial statements of the Company have been drawn up in accordance with Financial Reporting Standards in Singapore (FRSs). The financial statements have been prepared on the historical cost basis except as disclosed in the accounting policies below.

The financial statements are presented in Singapore Dollars ($), which is the Company's functional currency.

The financial statements of the Company have been prepared on the basis that it will continue to operate as a going concern.

2.2 Adoption of new and amended standards and interpretations

The accounting policies adopted are consistent with those of the previous financial year except that in the current financial year, the Company has adopted all the new and amended standards which are relevant to the Company and are effective for annual financial period beginning on 1 January 2025. The adoption of these standards did not have any material effect on the financial statements of the Company.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.3 Standards issued but not yet effective

A number of new standards and amendments to standard that have been issued are not yet effective and have not been applied in preparing these financial statements.

The directors expect that the adoption of these new and amended standards will have no material impact on the financial statements in the year of initial application.

The following are new / revised / amendments to FRSs issued by the Accounting Standards Council of Singapore up to 31 December 2025 which are effective for annual reporting periods beginning after 1 January 2025:

Description	Effective for annual periods beginning on or after
Amendments to FRS 109 *Financial Instruments* and FRS 107 *Financial Instruments: Disclosures*: Amendments to the Classification and Measurement of Financial Instruments	1 January 2026
Annual Improvement to FRSs - Volume 11	1 January 2026
FRS 118 *Presentation and Disclosure in Financial Statements*	1 January 2027

2.4 Foreign currency transactions and balances

Transactions in foreign currencies are measured in the functional currency of the Company and are recorded on initial recognition in the functional currency at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.5 Property, plant and equipment

Property, plant and equipment are recognised at cost less accumulated depreciation and accumulated impairment losses.

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance expenses are recognised in profit or loss when incurred.

Depreciation is calculated using the straight-line method to allocate depreciable amounts over their estimated useful lives. The estimated useful lives are as follows:

	Useful lives
Leasehold buildings	1 - 2 years
Furniture and fixtures	5 years
Office equipment	3 - 5 years
Motor vehicles	5 years

The residual values, estimated useful lives and depreciation method of property, plant and equipment are reviewed, and adjusted as appropriate, at each balance sheet date. The effects of any revision are recognised in profit or loss when the changes arise.

2.6 Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, (or, where applicable, when an annual impairment testing for an asset is required), the Company makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.6 Impairment of non-financial assets (continued)

Impairment losses are recognised in profit or loss.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss.

2.7 Financial instruments

(a) Financial assets

Initial recognition and measurement

Financial assets are recognised when, and only when the entity becomes party to the contractual provisions of the instruments.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Trade receivables are measured at the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party, if the trade receivables do not contain a significant financing component at initial recognition.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.7 Financial instruments (continued)

(a) Financial assets (continued)

Subsequent measurement

Debt instrument

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the contractual cash flow characteristics of the asset. The three measurement categories for classification of debt instruments are amortised cost, fair value through other comprehensive income (FVOCI) and FVPL. The Company only has debt instruments at amortised cost.

Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired, and through the amortisation process.

Derecognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income for debt instruments is recognised in profit or loss.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.7 Financial instruments (continued)

(b) Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at FVPL, net of directly attributable transaction costs.

Subsequent measurement

After initial recognition, financial liabilities that are not carried at FVPL are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. On derecognition, the difference between the carrying amounts and the consideration paid is recognised in profit or loss.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.8 Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a lifetime ECL).

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment which could affect debtors' ability to pay.

The Company considers a financial asset in default when contractual payments are 60 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

2.9 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand which are subject to an insignificant risk of changes in value.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.10 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted average method and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

When necessary, allowance is provided for damaged, obsolete and slow moving items to adjust the carrying value of inventories to the lower of cost and net realisable value.

2.11 Government grant

Government grants are recognised as a receivable when there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, the fair value is recognised as deferred income on the statement of financial position and is recognised as income in equal amounts over the expected useful life of the related asset.

When loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as additional government grant.

2.12 Borrowing costs

All borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss in the period in which they are incurred.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.13 Employee benefits

(a) Defined contribution plans

The Company makes contributions to the Central Provident Fund scheme in Singapore, a defined contribution pension scheme. Contributions to defined contribution pension schemes are recognised as an expense in the period in which the related service is performed.

(b) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

2.14 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities representing the obligations to make lease payments and right-of-use assets representing the right to use the underlying leased assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.14 Leases (continued)

As lessee (continued)

Right-of-use assets (continued)

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. The accounting policy for impairment is disclosed in Note 2.6.

The Company's right-of-use assets are presented within property, plant and equipment (Note 16).

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Company's lease liabilities are included in Note 19.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.14 Leases (continued)

As lessee (continued)

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of machinery (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

2.15 Revenue

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

(a) Sales of goods

Revenue from sale of goods is recognised when the Company has delivered the products, the customers have accepted the products and the collectability of the related receivables is reasonably assured.

(b) Overhead allocation income

Overhead allocation charged to related corporation is recognised on an accrual basis in accordance with the substance of the relevant agreements.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.16 Taxes

(a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the end of the reporting period.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(b) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the end of the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(c) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables that are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.17 Share capital

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

2.18 Related parties

A related party is defined as follows:

a) A person or a close member of that person's family is related to the Company if that person:

   (i) has control or joint control over the Company;
   (ii) has significant influence over the Company; or
   (iii) is a member of the key management personnel of the Company or of a parent of the Company.

b) An entity is related to the Company if any of the following condition applies:

   (i) the entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
   (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
   (iii) both entities are joint ventures of the same third party.
   (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity.
   (v) the entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company.
   (vi) the entity is controlled or jointly controlled by a person identified in (a).
   (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
   (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Company or to the parent of the Company.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

2. Material accounting policy information (continued)

2.18 Related parties (continued)

The following are not necessarily related parties:

(a) two entities simply because they have a director or other member of key management personnel in common;
(b) two venturers simply because they share joint control over a joint venture.

Key management personnel are those persons having the authority and responsibility of planning, directing and controlling the activities of the Company, directly or indirectly, including any director (whether executive or otherwise) of the Company.

3. Significant accounting judgements and estimates

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

3.1 Judgements made in applying accounting policies

Determination of functional currency

In determining the functional currency of the Company, judgement is used by the Company to determine the currency of the primary economic environment in which the Company operates. Consideration factors include the currency that mainly influences sales prices of goods and services and the currency of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

3. Significant accounting judgements and estimates (continued)

3.2 Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period are discussed below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(a) Inventory valuation method

Inventory write-down is made based on the current market conditions, historical experience and selling goods of similar nature. It could change significantly as a result of changes in market conditions. A review is made periodically on inventories for excess inventories, obsolescence and declines in net realisable value and an allowance is recorded against the inventory balances for any such declines. The realisable value represents the best estimate of the recoverable amount and is based on the most reliable evidence available and inherently involves estimates regarding the future expected realisable value. The carrying amount of the Company's inventories as at 31 December 2025 was $784,772 (2024: 697,813). If the future expected realisable value lower by 10% of its carrying amount, the carrying amount of the Company's inventories would have been $78,478 lower (2024: $69,781 lower).

(b) Provision for expected credit losses of trade receivables

The Company uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust historical credit loss experience with forward-looking information. At every reporting date, historical default rates are updated and changes in the forward-looking estimates are analysed.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

3. Significant accounting judgements and estimates (continued)

3.2 Key sources of estimation uncertainty (continued)

(b) Provision for expected credit losses of trade receivables (continued)

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Company's trade receivables is disclosed in Note 25(a).

The carrying amount of the Company's trade receivables as at 31 December 2025 was $641,473 (2024: $749,267).

(c) Leases – estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate to measure lease liabilities. The incremental borrowing rate is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The incremental borrowing rate therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the incremental borrowing rate using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

4. Revenue

(a) Disaggregation of revenue

	2025 **$**	2024 $
Sale of photos, frames and key chains	**13,688,695**	16,272,096

All the sales are recognised at a point in time.

10. Income tax expense

The major components of income tax expense recognised in profit or loss for the years ended 31 December 2025 and 2024 were:

	2025 $	2024 (Restated) $
Current income tax		
- Current year	**-**	-
- Over provision in respect of prior years	**-**	(21,849)
	-	(21,849)
Deferred income tax		
- Origination and reversal of temporary differences (Note 20)	**41,624**	57,499
Income tax expense recognised in profit or loss	**41,624**	35,650

Relationship between tax expense and accounting profit/(loss)

A reconciliation between tax expense and the product of accounting profit/(loss) multiplied by the applicable corporate tax rate for the financial years ended 31 December 2025 and 2024 were as follows:

	2025 $	2024 (Restated) $
Profit/(loss) before tax	**191,809**	(136,652)
Income tax using the statutory tax rate of 17% (2024:17%)	**32,608**	(23,231)
Adjustments:		
- Non-deductible expenses	**30,080**	43,516
- Income not subject to tax	**(340)**	(340)
- Utilisation of capital allowance	**(62,348)**	(19,945)
- Over provision in respect of prior years	**-**	(21,849)
- Origination and reversal of temporary differences	**41,624**	57,499
Tax (benefit)/expense	**41,624**	35,650

The holders of ordinary shares are entitled to receive dividends as and when declared by the Company. All ordinary shares carry one vote per share without restrictions. The ordinary shares have no par value.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

22. Leases

Company as a lessee

The Company has lease contracts for office premises and warehouse. The Company's obligations under these leases are secured by the lessor's title to the leased assets. The Company is restricted from assigning and subleasing the leased assets. There are no lease contracts that include extension options.

The Company has no leases with lease terms of 12 months or less.

a) Carrying amounts of right-of-use assets presented within property, plant and equipment

	Leasehold buildings $	Total $
At 1 January 2024	169,238	169,238
Depreciation	(66,312)	(66,312)
At 31 December 2024 and 1 January 2025	102,926	102,926
Depreciation	(66,312)	(66,312)
At 31 December 2025	36,614	36,614

b) Lease liabilities

The carrying amounts of lease liabilities and the movements during the year are disclosed in Note 19 and the maturity analysis of lease liabilities is disclosed in Note 25(b).

c) Amounts recognised in profit or loss

	2025 **$**	2024 $
Depreciation of right-of-use assets	**66,312**	66,312
Interest expense on lease liabilities (Note 9)	**6,491**	11,917

Total amount recognised in profit or loss	**72,803**	78,229

d) Total cash outflow

The Company had total cash outflows for leases of $75,280 (2024: $75,281).

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

23. Significant related party transactions

Sales and purchase of goods and services

In addition to the related party information disclosed elsewhere in the financial statements, the following transactions with related parties took place at terms agreed between the parties during the financial year:

	2025	2024
	$	$
Sales	**31,302**	-
Purchases	**10,689**	79,724
Expenses incurred on behalf of related companies	**11,142**	113,669
Advance to related companies	**439,162**	-
Central service fee charged to related companies	**3,819,092**	3,669,898
Central service fee charged by related companies	**4,962,926**	4,934,098
Overhead allocation charged to related companies	**1,769,251**	2,032,553
Overhead allocation charged by related companies	**1,854,368**	2,002,130

Compensation of key management personnel

	2025	2024
	$	$
Salaries and bonuses	**368,049**	360,273
Employer's contribution to Central Provident Fund	**15,096**	14,272
	383,145	374,545

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

24. Fair value of assets and liabilities

Assets and liabilities not measured at fair value

Cash and cash equivalents, other receivables and other payables

The carrying amounts of these balances approximate their fair values due to the short-term nature of these balances.

Trade receivables and trade payables

The carrying amounts of these receivables and payables (including trade balances due from/to holding and related companies) approximate their fair values as they are subject to normal trade credit terms.

Lease liabilities

The carrying amounts of lease liabilities approximate their fair values as they are subject to interest rates close to market rate of interests for similar arrangements with financial institutions.

25. Financial risk management

The Company's activities expose it to a variety of financial risks from its operations. The key financial risks include credit risk, liquidity risk and market risk (including interest rate risk and foreign currency risk).

The directors review and agree policies and procedures for the management of these risks, which are executed by the management team. It is, and has been throughout the current and previous financial period/year, the Company's policy that no trading in derivatives for speculative purposes shall be undertaken.

The following sections provide details regarding the Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

There has been no change to the Company's exposure to these financial risks or the manner in which it manages and measures the risks.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

25. Financial risk management (continued)

(a) Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in a loss to the Company. The Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including investment securities and cash), the Company minimises credit risk by dealing exclusively with high credit rating counterparties.

The Company has adopted a policy of only dealing with creditworthy counterparties. The Company performs ongoing credit evaluation of its counterparties' financial condition and generally do not require a collateral.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

The Company has determined the default event on a financial asset to be when internal and/or external information indicates that the financial asset is unlikely to be received, which could include default of contractual payments due for more than 60 days, default of interest due for more than 30 days or there is significant difficulty of the counterparty.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

25. Financial risk management (continued)

(a) Credit risk (continued)

To minimise credit risk, the Company has developed and maintained the Company's credit risk gradings to categorise exposures according to their degree of risk of default. The credit rating information is supplied by publicly available financial information and the Company's own trading records to rate its major customers and other debtors. The Company considers available reasonable and supportive forward-looking information which includes the following indicators:

- Internal credit rating
- External credit rating
- Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the debtor's ability to meet its obligations
- Actual or expected significant changes in the operating results of the debtor
- Significant increases in credit risk on other financial instruments of the same debtor
- Significant changes in the expected performance and behaviour of the debtor, including changes in the payment status of debtors in the group and changes in the operating results of the debtor.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making contractual payment.

The Company determined that its financial assets are credit-impaired when:

- There is significant difficulty of the debtor
- A breach of contract, such as a default or past due event
- It is becoming probable that the debtor will enter bankruptcy or other financial reorganisation
- There is a disappearance of an active market for that financial asset because of financial difficulty

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

25. Financial risk management (continued)

(a) Credit risk (continued)

The Company categorises a receivable for potential write-off when a debtor fails to make contractual payments more than 120 days past due. Financial assets are written off when there is evidence indicating that the debtor is in severe financial difficulty and the debtor has no realistic prospect of recovery.

The Company's current credit risk grading framework comprises the following categories:

Category	Definition of category	Basis for recognition of expected credit losses (ECL)
I	Counterparty has a low risk of default and does not have any past-due amounts.	12-month ECL
II	Amount is >30 days past due or there has been a significant increase in credit risk since initial recognition.	Lifetime ECL – not credit-impaired
III	Amount is >60 days past due or there is evidence indicating the asset is credit-impaired (in default).	Lifetime ECL – credit-impaired
IV	There is evidence indicating that the debtor is in severe financial difficulty and the debtor has no realistic prospect of recovery.	Amount is written off

Trade receivables

For trade receivables, the Company has applied the simplified approach in FRS 109 to measure the loss allowance at lifetime ECL. The Company determines the ECL by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Accordingly, the Company measured the impairment loss allowance using 12-month ECL and determined that the ECL is insignificant.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

25. Financial risk management (continued)

(a) Credit risk (continued)

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

Exposure to credit risk

The Company has no significant concentration of credit risk. The Company has credit policies and procedures in place to minimise and mitigate its credit risk exposure.

Other receivables

The Company assessed the latest performance and financial position of the counterparties, adjusted for the future outlook of the industry in which the counterparties operate in, and concluded that there has been no significant increase in the credit risk since the initial recognition of the financial assets. Accordingly, the Company measured the impairment loss allowance using 12-month ECL and determined that the ECL is insignificant.

(b) Liquidity risk

Liquidity risk refers to the risk that the Company will encounter difficulties in meeting its short-term obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. It is managed by matching the payment and receipt cycles. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of standby credit facilities. The Company finances its working capital requirements through a combination of funds generated from operations and bank borrowings. The directors are satisfied that funds are available to finance the operations of the Company.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

25. Financial risk management (continued)

(b) Liquidity risk (continued)

Analysis of financial instruments by remaining contractual maturities

The table below summarises the maturity profile of the Company's financial assets and liabilities at the reporting date based on contractual undiscounted repayment obligations.

25. Financial risk management (continued)

(c) Market risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk arises primarily from lease liabilities.

The Company does not expect any significant effect on the Company's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the financial period/year.

(ii) Foreign currency risk

The Company's foreign exchange risk results mainly from cash flows from transactions denominated in foreign currencies. At present, the Company does not have any formal policy for hedging against currency risk. The Company ensures that the net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates, where necessary, to address short term imbalances.

The Company has transactional currency exposures arising from sales or purchases that are denominated in a currency other than the functional currency of the Company, primarily Arab Emirates Dirham (AED) and Malaysian Ringgit (MYR).

25. Financial risk management (continued)

(c) Market risk (continued)

(ii) Foreign currency risk (continued)

The Company's currency exposures to the AED and MYR are as follows:

	AED SGD	MYR SGD
2025	**$**	$
Financial assets		
Trade and other receivables	**-**	**1,643,467**
Financial liabilities		
Trade and other payables	**(15,605,040)**	**(14,041)**
Currency exposure	**(15,605,040)**	**1,629,426**
2024		
Financial liabilities		
Trade and other payables	(13,248,799)	(773,543)
Currency exposure	(13,248,799)	(773,543)

A 2.80% (AED) and 4.66% (MYR) (2024: 5%) strengthening of Singapore Dollar against the foreign currencies denominated balances as at the reporting date would decrease profit or loss by the amounts shown below. This analysis assumes that all other variables remain constant.

	Profit or loss (after tax)	
	2025	2024
	$	$
Arab Emirates Dirham	**(362,661)**	549,825
Malaysia Ringgit	**63,564**	32,102

A 2.80% (AED) and 4.66% (MYR) (2024: 5%) weakening of Singapore Dollar against the above currencies would have had equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

26. Financial instruments by category

At the reporting date, the aggregate carrying amounts of financial assets at amortised cost and financial liabilities at amortised cost were as follows:

	2025	2024
	$	$
Financial assets measured at amortised cost		
- Cash and cash equivalents (Note 11)	**499,442**	930,341
- Trade and other receivables (Note 12)	**17,554,232**	16,433,765
- Deposits (Note 14)	**57,978**	63,648
Total financial assets measured at amortised cost	**18,111,652**	17,427,754
Financial liabilities measured at amortised cost		
- Trade and other payables (excluding GST payables) (Note 17 and 18)	**17,049,446**	16,200,530
- Lease liabilities (Note 19)	**40,357**	109,146
Total financial liabilities measured at amortised cost	**17,089,803**	16,309,676

27. Capital management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and net current asset position in order to support its business and maximise shareholder value. The capital structure of the Company comprises issued share capital and retained earnings.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company is not subject to any externally imposed capital requirements. No changes were made to the objectives, policies or processes during the financial years ended 31 December 2025 and 31 December 2024.

Doc ID: 7428b7084bcf63bdff5f2900ecd0f9014bfa69c4

28. Comparative information

During 2025, the Company restated the deferred tax liabilities and tax expenses in the statement of financial position and statement of profit or loss and other comprehensive income to recognise and measure deferred tax arising from temporary differences in respect of differences in depreciation for tax purposes.

	Before restatement $	Restatement $	After restatement $
2024			
Statement of Financial Position			
Non-current liabilities			
Deferred tax liabilities	**-**	57,499	57,499
Equity			
Retained earnings	**1,380,787**	(57,499)	1,323,288
Statement of Profit or Loss and Other Comprehensive Income			
Income tax benefit/(expense)	**21,849**	(57,499)	(35,650)
Statement of Changes in Equity			
Retained earnings	**1,380,787**	(57,499)	1,323,288
Total equity	**2,480,787**	(57,499)	2,423,288
Statement of Cash Flows			
Net cash used in operating activities			
Income tax paid	**(21,556)**	4,293	(17,263)

29. Authorisation of financial statements for issue

The financial statements for the financial year ended 31 December 2025 were authorised for issue in accordance with a resolution of the Board of Directors of the Company on 28 August 2026.
