# Update on B2B Operations: Destination Management Specialists (DMS)

## Key Highlights

### Destination Management Services performance: Sales grew by 26% y-o-y for Q4 FY25 and 23% y-o-y in FY25

- **India DMS:** Turnover grew by 21% y-o-y for FY25; 17% for Q4 FY25, in line with the increase in foreign tourist arrivals
- **Middle East - Desert Adventures:** During the quarter sales saw a healthy increase led by strong performance in the MICE segment. FIT business in Q4 FY25 remained subdued, primarily due to lower contributions from CIS countries. However, this was more than offset by MICE segment, led by Gulf Dunes, which secured significant bookings, including major events such as those for Amway (with topline of Rs 1,078 mn) and BMW. Additionally, the entity's luxury travel segment, Arabian Lux, and the OTA business showed encouraging growth, contributing positively to the quarter's overall performance
- **Asia Pacific - Asian Trails:** Delivered positive growth in Q4 FY25, primarily driven by contributions from Thailand, Vietnam and Australia
- **USA - Allied TPro:** While sales were subdued during the quarter, however it saw improved margin primarily driven by a mix change towards higher Groups and VIP segments.
- **Private Safaris -**
  - **East Africa:** The performance in Q4 FY25 declined sharply, primarily due to the absence of business from FTI following its insolvency. The company continues to make progress on strengthening business from existing partners and by adding new business to compensate for the loss witnessed.
  - **South Africa:** Q4 FY25 showed steady y-o-y performance, with improved contribution margins driven by upselling efforts within the Groups and MICE segments.

### Partnership Spotlight –Q4FY25

- 10 new strategic partnerships were successfully signed across high-potential markets including the UAE, Maldives, India, China, Hong Kong, Malaysia, and Indonesia.
- 15 existing partnerships were renewed, reinforcing our long-standing relationships and continued market trust
- 3 partnerships operationally launched in India, Malaysia and Indonesia

### Business Summary –Q4FY25

While performance was affected this quarter by a few headwinds, there are also notable areas of progress and expansion:

- Sales momentum in the UAE slowed, largely due to lower footfalls with Ramadan coinciding with Q1 this year - unlike last year, when it fell in April.
- On a positive note, Indonesia, Macau and Saudi Arabia have shown strong growth, driven by the onboarding of new accounts.
- EBIT was weighed down by the combined effect of softer sales and higher IT expenses linked to getting WeC software roll-out ready.
